To Whom It May Concern:

Rock Ventures is committed to participating in the cross-agency public/private information sharing partnership that the Detroit Police Department has proposed in the attached grant application. We are willing to voluntarily share intelligence information and closed-circuit broadcasts of activity on public and private property that could be used to identify threats, property crimes, violent crime and/or other disturbances. Although we are a non-government agency, we have an interest in sharing information that will enable the Detroit Police Department and its law enforcement partners to coordinate efforts and respond.

Our goal is to enhance the safety and security through a cooperative, coordinated public/private partnership of security and law enforcement entities serving the downtown and Midtown areas of Detroit.

Please don't hesitate to contact me if you need additional information.

Sincerely,
