ACKNOWLEDGEMENT OF ASSISTANCE

All manuscripts utilizing data made available through the Consortium should acknowledge that fact as well as identify the original collector of the data. The ICPSR Council urges all users of the ICPSR data facilities to follow some adaptation of this statement with the parentheses indicating items to be filled in appropriately or deleted by the individual user.

The data (and tabulations) utilized in this (publication) were made available (in part) by the Inter-university Consortium for Political and Social Research. The data for the OFFENDER BASED TRANSACTION STATISTICS (OBTS), 1982: CALIFORNIA, OHIO, PENNSYLVANIA, UTAH, MINNESOTA, NEW YORK, VIRGINIA, AND VIRGIN ISLANDS were originally collected by the Bureau of Justice Statistics. Neither the collector of the original data nor the Consortium bear any responsibility for the analyses nor interpretations presented here.

In order to provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, each user of the ICPSR data facilities is expected to send two copies of each completed manuscript or thesis abstract to the Consortium. Please indicate in the cover letter which data were used.

INTRODUCTION

HISTORICAL DEVELOPMENT

In 1973, the National Criminal Justice Information and Statistics Services (the predecessor of BJS) established the Comprehensive Data Systems (CDS) program. The primary goal of this program was to assist states in developing operational statistical information systems in an effort to improve the criminal justice process. A component of the CDS program was the Computerized Criminal Histories/Offender Based Transaction Statistics (CCH/OBTS). It focused on arrested alleged offenders, and was designed to supply information regarding the individual's prior criminal activities as well as the formal criminal justice system response. In addition, OBTS provided information on the criminal justice process and the time necessary to complete various stages within the process.

DATA COLLECTION DESCRIPTION

The Offender Based Transaction Statistics consist of data which allow examination of offender characteristics and patterns of arrest actions, prosecution activities, court action, and case disposition. Collected by individual states from existing data, the dataset includes reported felony cases which reached disposition during the calendar year 1982. This means that regardless of the date which an individual entered the criminal justice system, if he/she was given final disposition of their case during 1982, they became a candidate for this dataset.

It is important to note that this dataset does not contain all dispositions occurring in a given year; only those reported to the state repository, and for which the repository had a previous arrest reported. In some states the disposition reporting rate may be lower than the arrest reporting rate. Also, arrests are based generally on fingerprint submissions. If the fingerprint is not readable, the arrest report is not accepted. Thus, this dataset should not be construed to be a census of disposition reporting within a state.

In essence, this dataset provides a description of the administration of adult criminal justice in terms of the flow of offenders through the system and the time intervals between various events. There are selected facts about arrested offenders, and the actions taken by police, prosecutors, and courts.

Using the individual adult offender as the unit of analysis, selected information is provided about the offender and his or her arrest, prosecution, and court disposition. Examples of variables included are: arrest and level of arrest charge, date of arrest, charge filed by the prosecution, prosecutor or grand jury disposition, type of counsel, type of trial, court disposition, sentence type, and minimum and maximum sentence length. Dates of disposition of each stage of the process allow for tracking of time spent at each stage. In cases where the offender is charged with multiple offenses, the most serious charge and most serious outcome at each stage of the process (from the offender's point of view) are provided.

All fields within the OBTS record permit coding for "unknown." However, every effort has been made to obtain the data for specific fields, to wit: age of arrest, date of arrest, arrest charge, court disposed charge, court disposition, date of court disposition, sentence, sentence minimum, and sentence maximum. Thus, these fields should have a high degree (90+%) of data for all states, while the other fields' data will depend solely on the reporting activities of a particular state.

The Bureau of Justice Statistics (BJS) compiles and disseminates statistical information concerning the operation of the criminal justice system at the Federal, state, and local levels. The OBTS dataset is one such collection of information. The data are in one file which has 54 variables for 457,703 cases.

METHODOLOGY

The data for OBTS was collected on a state-by-state basis. Individual states conducted their own data compilation from existing data. Data tapes were then transported to the Regional Justice Information Service

(REJIS) for condensing and editing. As stated above, the unit of analysis is the individual offender. For this study an offender is defined as any person who is processed by the police, prosecutor, or courts regardless of whether or not there is a final determination of guilt. Adult status is specified by individual state laws. Any juvenile processed as an adult is considered an adult. The data was checked for errors first by the individual states. Then after the data was sent to REJIS, a second check was made. Specific data elements were validated as individuals or as a component of conditional checks. Validation checks insure that each data element is in the proper format and range, while conditional checks are for correctness of relationships between data elements.

Definitions used in this study are taken from the Dictionary of Criminal Justice Data Terminology (Second edition, 1981), published by BJS. These definitions appear in the glossary. Due to differences among state statutes regarding criminal offense codes, the National Crime Information Center (NCIC) codes are used here. The codes appear in Appendix A. Also, arresting agency codes referred to in ICPSR variable 13 appear in Appendix B.

The OBTS record reflects an arrest-to-disposition event. It does not reflect all charges, dispositions, or most serious sentences for an event. It is a composite of the most serious charge, disposition, and most serious sentence. For example, an individual may have been arrested for Burglary, Auto Theft, and Destruction of Property, prosecuted for only Auto Theft and Destruction of Property, and convicted of only Destruction of Property. Therefore, the OBTS record would show Arrested for Burglary, Prosecuted for Auto Theft, Convicted of Destruction of Property, and sentenced to some period of time. See Appendix B for information on the hierarchy of seriousness of offenses, dispositions, and sentences.

FILE STRUCTURE

The Offender Based Transaction Statistics (OBTS), 1982: California, Pennsylvania, Ohio, Utah, Minnesota, New York, Virginia, and Virgin Islands is available from the ICPSR in

two formats: card image and OSIRIS. The card image file contains two decks per case in a format based on 80 column punched cards. The data are sorted by case with all decks for a case together in ascending order.

The OSIRIS dictionary gives the format and other information for each variable in the OSIRIS data file. The dictionary or dictionary-codebook file is used in conjunction with the OSIRIS software package. The OSIRIS data file is constructed with a single logical record for each case. As mentioned in the Data Collection Description, there are 54 variables on 457,703 cases.

The OSIRIS data file can be accessed directly through software packages or programs which do not use the OSIRIS dictionary by specifying the tape locations of the desired variables. These tape locations are given in the OSIRIS dictionary-codebook.

For certain variables, the data have been masked by the ICPSR due to issues relating to maintaining the confidentiality of respondents participating in social science research. The original, unmasked data are available from ICPSR. Requests for such data must be submitted in writing, including specific reasons for the request. All decisions regarding public release of data collections having confidential data are made by the Criminal Justice Archive and Information Network Advisory Committee.

CODEBOOK INFORMATION

The example below is a reproduction of information appearing in the machine-readable codebook for a typical variable. The numbers in brackets do not appear but are references to the descriptions which follow this example.

.....

[1] VAR 0048	[2] SENTENCE MINIMUM	[3] MD=99999999
REF 0048	[4] LOC 118 WIDTH 8	[5] DK 2 COL 54-61
		[6] IMP DEC=d

[7] Sentence Minimum

[8] SEE NOTE(S) X

[9] YYYY/MM/DDD

[10] Actual number is coded.

[11]	[12]
55555555.	Death
66666666.	Life
77777777.	Indeterminate
88888888.	Not sentenced to incarceration
99999999.	Missing or unknown data

.....

[1] Indicates the variable and reference numbers. A variable number and a reference number are assigned to each variable in the data collection. In the present codebook which documents the archived data collection, these numbers are identical. Should the data be subsetted or rearranged by an OSIRIS program (e.g., MMP to intersperse data from another source, or TCOT to produce an analysis deck), the variable numbers would change to reflect the order of the new data collection, while the reference number would remain unchanged to reflect the variable number in the codebook describing the archived data collection.

[2] Indicates the abbreviated variable name (maximum of 24 characters) used in the OSIRIS system to identify the variable for the user. An expanded version of the variable name can be found in the variable description list.

[3] Indicates the code values of missing data. In this example, code values equal to 99999999 are missing data. Alternative statements for other variables are "MD=0," "MD=8 GE 9," or "NO MISSING DATA CODES." Some analysis software packages (including the OSIRIS software package) require that certain types of data which the user desires to be excluded from analysis be designated as "MISSING DATA," e.g., inappropriate unascertained, unascertainable, or ambiguous data categories. Although these codes are defined as missing data categories, this does not mean that the user should not or cannot use them in a substantive role if so desired.

[4] Indicates the starting location and width of this variable when the data are stored on a magnetic tape in the OSIRIS format. If the variable is of a multiple-response type, the width referenced is that of a single response. In this example the variable named "SENTENCE MINIMUM" is 8 columns wide and begins at the 118th column within the record.

[5] Indicates the location by deck and column(s) of this variable when the data are stored on cards or in card-image format (80-column format).

[6] A variable containing data with implied decimals is denoted by the message "IMP DEC=d," where d is the number of decimal places implied in the variable.

[7] This is the full text (question), supplied by the investigator to describe the variable. The question text and the numbers and letters that may appear at the beginning reflect the original wording of the questionnaire item.

[8] A variable which has a footnote associated with it is denoted by the message, "SEE NOTES(S) X" where "X" is the number of the footnote referenced.

[9] Indicates an additional comment or explanation appended to the variable description.

[10] "Actual number is coded" would appear in the codebook to indicate that the variable has been declared continuous.

[11] Indicates the code values occurring in the data for this variable.

[12] Indicates the textual definitions of the codes. -
Abbreviations commonly used in the code definitions "DK" (Do Not Know), "NA" (Not Ascertained), and "INAP" (Inappropriate).

ICPSR PROCESSING INFORMATION

The data collection was processed according to the standard ICPSR processing procedures. The data were checked for illegal or inconsistent code values which, when found, were recoded to OSIRIS missing data values. No consistency checks were performed. Statements bracketed in "[" and "]" signs in the body of the codebook were added by the processors for explanatory purposes.

VARIABLE DESCRIPTION LIST

ICPSR PROCESSING VARIABLE

- 1 ICPSR Study Number-8408
- 2 ICPSR Edition Number-1
- 3 ICPSR Part Number-1
- 4 ICPSR Sequential Case Identification Number

OFFENDER CHARACTERISTICS

- 5 Age at Arrest
- 6 Filler
- 7 Filler
- 8 Sex
- 9 Race
- 10 Ethnic Origin
- 11 Incident Number-Always 9999999999
- 12 Encrypted Identification Number

ENTRY INTO CRIMINAL JUSTICE SYSTEM

- 13 Arresting Agency (NCIC Code):State/County
- 14 Date of Arrest or Other Entry: Year
- 15 Date of Arrest or Other Entry: Month
- 16 Date of Arrest or Other Entry: Day
- 17 Number of Arrest Charges
- 18 Sequence Number of this Charge
- 19 Arrest Charge Offense Code
- 20 Level of Arrest Charge
- 21 Police Disposition
- 22 Date of Police Disposition: Year
- 23 Date of Police Disposition: Month
- 24 Date of Police Disposition: Elapsed Time

PROSECUTOR OR GRAND JURY

- 25 Charged/Filed Offense Code
- 26 Level of Charged/Filed Offense
- 27 Number of Charged/Filed Offenses
- 28 Prosecutor/Grand Jury Disposition
- 29 Date of Prosecutor/Grand Jury Disposition: Year
- 30 Date of Prosecutor/Grand Jury Disposition: Month
- 31 Date of Prosecutor/Grand Jury Disposition: Elapsed Time

COURT DISPOSITION

32 Court Disposed Offense Code
33 Level of Court Disposed Offense
34 Number of Court Disposed Offenses
35 Court Disposition
36 Number of Convicted Offenses
37 Date of Final Court Disposition: Year
38 Date of Final Court Disposition: Month
39 Date of Final Court Disposition: Elapsed Time
40 Type of Court (Final Disposition)
41 Type of Trial
42 Type of Counsel (at disposition)
43 Final Pleading

SENTENCING

44 Sentencing Date: Year
45 Sentencing Date: Month
46 Sentencing Date: Elapsed Time
47 Sentence
48 Sentence Minimum: Years
49 Sentence Minimum: Months
50 Sentence Minimum: Days
51 Sentence Maximum: Years
52 Sentence Maximum: Months
53 Sentence Maximum: Days
54 Multiple Incarceration Sentence

Glossary

Acquitted - the judgement of a court, based on the verdict of a jury or a judicial officer, that the defendant is not guilty of the offense for which he or she has been tried.

Arrest - taking an adult or juvenile in physical custody by authority of law, for the purpose of charging the person with a criminal offense or a delinquent act or status offense, terminating with the recording of a specific offense.

Assigned Counsel - a defense attorney assigned by the court on a case by case basis to represent indigent defendants and offenders, sometimes compensated from public funds but sometimes not compensated at all.

Conviction - the judgement of a court, based on the verdict of a jury or judicial officer, or on the guilty plea or nolo contendere plea of the defendant, that the defendant is guilty of the offense with which he or she has been charged.

Death sentence - a sentence to the custody of a prison facility system while awaiting execution.

Dismissal - the disposal of an action, suit, motion or the like without trial of the issues; the termination of the adjudication of a case before the case reaches judgement.

Felony - an offense that is punishable by imprisonment for more than one year (or by death), regardless of the classification used in the state's statutes. A felony is more serious than a non-felony.

Final plea - the last plea to a given charge entered in court record by and for the defendant.

Grand jury - a body of persons who have been selected according to law and sworn to hear evidence against accused persons and determine whether there is sufficient evidence to bring those persons to trial; to investigate criminal activity generally, and to investigate the conduct of public agencies and officials.

(CONTINUED)

Guilty plea - a defendant's formal answer in court to the charge(s) contained in a complaint, information, or indictment, stating that he or she did in fact commit the offense(s) listed.

Indeterminate sentence - a type of sentence to imprisonment where the commitment, instead of being for a specified single time quantity, such as three years, is for a range of time, such as two to five years, or five years maximum and zero minimum.

Jury trial - in criminal proceedings, a trial in which a jury is empaneled to determine the issues of fact in a case and to render a verdict of guilty or not guilty.

Life term - a sentence to imprisonment for life specified by the court at the time of sentencing.

Lower courts - court of limited jurisdiction - a trial court having original jurisdiction over only that subject matter specifically assigned to it by law.

Misdemeanor - a misdemeanor is less serious than a felony, but more serious than any other category of offense. A misdemeanor is defined by state law, provided that it does not meet the OBTS definition of a felony.

Nolle prosequi - a formal entry upon the record of the court, indicating that the prosecutor declares that he or she will proceed no further in the action.

Non-jury trial - in criminal proceedings, a trial in which there is no jury, and in which a judicial officer determines all issues of fact and law in a case.

Not guilty by reason of insanity - verdict is not based on what the defendant is believed to have done, but rather on the evidence as to whether he or she possessed the mental capacity to be responsible for the criminal act.

Not guilty plea - a defendant's formal answer in court to the charge(s) contained in a complaint, information, or indictment, claiming that he or she did not commit the offense(s) listed.

(CONTINUED)

No true bill - the decision by a grand jury that it will not return an indictment against the person(s) accused of a crime based on the allegations and evidence presented by the prosecutor.

Plea - in criminal proceedings, a defendant's formal answer in court to the charge contained in a complaint, that he or she is guilty or not guilty of the offense charged, or does not contest the charge.

Private or retained counsel - a defense attorney selected and compensated by the defendant or offender, or by other private person(s).

Probation - the conditional freedom granted by a judicial officer to an adjudged adult or juvenile offender, as long as the person meets certain conditions of behavior.

Prosecutor - an attorney who is the elected or appointed chief of a prosecution agency, and whose official duty is to conduct criminal proceedings on behalf of the people against persons accused of committing criminal offenses.

Public defender - a defense attorney who is regularly employed and compensated from public funds to represent in court indigent defendants or offenders.

Restitution - a court requirement that an alleged convicted offender pay money or provide services to the victim of a crime or provide services to the community.

Sentence - the penalty imposed by a court upon a person convicted of a crime.

Trial or transcript - a non-jury trial in which the judicial officer makes a decision on the basis of the record of pretrial proceedings in a lower court.

Upper court - court of general jurisdiction - a trial court having original jurisdiction over all subject matter not specifically assigned to a court of limited jurisdiction. Courts of general trial jurisdiction frequently also are given jurisdiction over certain kinds of appeal matters.
