ACKNOWLEDGEMENT OF ASSISTANCE

All manuscripts utilizing data made available through the Consortium should acknowledge that fact as well as identify the original collector of the data. The ICPSR Council urges all users of the ICPSR data facilities to follow some adaptation of this statement with the parentheses indicating items to be filled in appropriately or deleted by the individual user.

The data (and tabulations) utilized in this (publication) were made available (in part) by the Inter-university Consortium for Political and Social Research. The data for the NATIONAL INDIGENT DEFENSE SURVEY, 1982 [UNITED STATES] were originally collected by ABT Associates Inc. Neither the collector of the original data nor the Consortium bear any responsibility for the analyses or interpretations presented here.

In order to provide funding agencies with essential information about the use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, each user of the ICPSR data facilities is expected to send two copies of each completed manuscript or thesis abstract to the Consortium. Please indicate in the cover letter which data were used.

INTRODUCTION

DATA COLLECTION DESCRIPTION

The National Indigent Criminal Defense Survey, 1982: [United States] was conducted to provide national level data on such basic information as system types, funding sources, costs, and caseloads of indigent defense programs for defense practitioners, policymakers, and planners in the criminal justice system. This study surveyed national indigent defense systems that operated in the calendar year 1982.

## DATA COLLECTION PROCEDURES

The data for this study was organized into three groups. The first group consists of 46 variables on 491 cases of County level data. The second group consists of 180 variables on 750 cases of Preliminary Program level data. The third group consists of 180 variables on 148 cases of Conflict/Unavailability Program level data.

Each of these groups represents different levels of indigent defense programs in the United States. For each level, a different approach was taken in the collection of data.

Data for group one was gathered using a mail survey that was sent to a sample of county officials. The data gathered for groups two and three essentially used the same questionnaire with a few alterations. The survey used for group two was a mail survey of 180 questions. The same survey was administered to group three, although some questions were not asked of this group and the survey was conducted by telephone.

## SAMPLING INFORMATION

The data for this study was gathered using a stratified sample based on county population size, as reported in the 1980 census. Stratification was used in order to ensure that the sample size in each state was large enough to provide reliable statewide estimates. Approximately the same number of counties (16-18) was selected in each state to develop estimates at comparable levels of precision. The number of counties varied from state to state in order to account for the finite population correction because sampling was done without replacement. All counties within the state were sampled in 11 states (Alaska, Arizona, Connecticut, Delaware, Hawaii, Maine, Massachusetts, Nevada, New Hampshire, Rhode Island, Vermont) and the District of Columbia, because each has fewer than 20 counties. Because much of the indigent defense activity around the country takes place in counties of relatively large population size, inclusion of these counties in the sample was not left to chance. Rather, these large counties were included in the sample with certainty. The remaining "non-self-representing counties" were sampled with probability proportional to size to obtain the desired number of sample counties.

## FILE STRUCTURE

The NATIONAL INDIGENT CRIMINAL DEFENSE SURVEY, 1982 is available from the ICPSR in two formats: card image and OSIRIS. The card image file contains several decks per case in a format based on 80 column punched cards. The data are sorted by case with all decks for a case together in ascending order.

The OSIRIS dictionary gives the format and other information for each variable in the OSIRIS data file. The dictionary or dictionary-codebook file is used in conjunction with the OSIRIS software package. The OSIRIS data file is constructed with a single logical record for each case. There are 46 variables on 491 cases for County level data, 180 variables and 750 cases for the Preliminary Program level data, and 180 variables and 148 cases for Conflict/Unavailability Program level data.

The OSIRIS data file can be accessed directly through software packages or programs which do not use the OSIRIS dictionary by specifying the tape locations of the desired variables. These tape locations are given in the OSIRIS dictionary-codebook.

CODEBOOK INFORMATION

The example below is a reproduction of information appearing in the machine-readable codebook for a typical variable. The numbers in brackets do not appear but are references to the descriptions which follow this example.

.....  
[1] VAR 05    [2] TYPE CRIME DEF PROGRAM [3] MD=9  
REF 05        [4] LOC 11    WIDTH 1

[5] What type of indigent criminal defense program is this?  
-----

[6] [7]

- 1. Public Defender Program
  - 2. Assigned Counsel Program
  - 3. Coordinated Assigned Counsel Process Program
  - 4. Contracts with Attorneys
  - 5. Law School Clinical Program
  
  - 9. DK
- .....

- [1] Indicates the variable and reference numbers. A variable number and a reference number are assigned to each variable in the data collection. In the present codebook which documents the archived data collection these numbers are identical. Should the data be subsetted or rearranged by an OSIRIS program (e.g., MMP to intersperse data from another source, or TCOT to produce an analysis deck), the variable numbers would change to reflect the order of the new data collection, while the reference number would remain unchanged to reflect the variable number in the codebook describing the archived data collection.
  
- [2] Indicates the abbreviated variable name (maximum of 24 characters) used in the OSIRIS system to identify the variable for the user. An expanded version of the variable name can be found in the variable description list.
  
- [3] Indicates the code values of missing data. In this example, code values equal to 9 are missing data (MD=9). Some analysis software packages (including the OSIRIS software package) require that certain types of data which the user desires to be excluded from analysis be designated as "MISSING DATA," e.g., inappropriate, unascertained, unascertainable, or ambiguous data categories. Although these codes are defined as missing data categories, this does not mean that the user should not or cannot use them in a substantive role if so desired.
  
- [4] Indicates the starting location and width of this variable when the data are stored on a magnetic tape in the OSIRIS format. If the variable is of a multiple-response type, the width referenced is that of a single response. In this example the variable named "TYPE CRIME DEF PROGRAM" is 01 column wide and is located in the 11th column within the record.

- [5] This is the full text (question) supplied by the investigator to describe the variable. The question text and the numbers and letters that may appear at the beginning reflect the original wording of the questionnaire item.
- [6] Indicates the code values occurring in the data for this variable.
- [7] Indicates the textual definitions of the codes. Abbreviations commonly used in the code definitions are "DK" (Do Not Know), "NA" (Not Ascertained), and "INAP" (Inappropriate).

## ICPSR PROCESSING INFORMATION

The data collection was processed according to the standard ICPSR processing procedures. The data were checked for illegal or inconsistent code values which, when found, were recoded to OSIRIS missing data values. No consistency checks were performed. Statements bracketed in "<" and ">" signs in the body of the codebook were added by the processors for explanatory purposes.

Instructions for Completing this Questionnaire

1. The label at the bottom of this page contains the name of this county. We have identified your county as funding one or more indigent criminal defense programs (public defender, assigned counsel, contract system, or law school clinical programs). If this county does not provide partial or total funding for any indigent criminal defense programs, please contact Abt Associates Inc. at the designated telephone number given below.
2. This brief questionnaire contains three questions. Please answer each question by printing the requested information in the space provided.
3. In Question 2, you will be asked to provide expenditure information for each indigent criminal defense program funded by this county.
4. If you have any questions or need assistance in completing the questionnaire, please contact Cheryl Vernon or Lois Olinger, Survey Directors for this Bureau of Justice Statistics survey, at this toll-free number: 1-800-343-3019.
5. Please mail the completed questionnaire within 20 days in the pre-addressed, pre-paid envelope provided. While you are not required to respond, your cooperation is appreciated in order to make this first national indigent criminal defense survey comprehensive, adequate, and timely. Your individual responses will be known only to Abt Associates and will remain confidential.

Instructions for Completing this Questionnaire

1. The label at the bottom of this page contains the name of this indigent criminal defense program. It also lists the name of the study county. We have identified your program as serving this county. When a question refers to "the county" you should answer only for the county on the label. If this indigent criminal defense program does not serve some or all of the county, please contact Abt Associates Inc. at the designated telephone number given below.
2. Please answer each question in sequence by circling the appropriate number or code, and/or by printing the requested information in the space provided. In some cases you will be requested to skip certain questions based on your response. For some questions you will be asked to circle all responses that apply.
3. Based on your answer to Question 1, you will be instructed on page 2 to answer Parts A, B and/or C of this questionnaire. Please carefully follow these instructions. All respondents should complete Part D of this questionnaire which begins on page 8.
4. If you do not know the answer to a question, write "DK" for don't know.
5. If you have any questions or need assistance in completing the questionnaire, please contact Cheryl Vernon or Lois Olinger, Survey Directors for this Bureau of Justice Statistics survey, at this toll-free number: 1-800-343-3019.
6. Please mail the completed questionnaire within 20 days in the pre-addressed, pre-paid envelope provided. While you are not required to respond, your cooperation is appreciated in order to make this first national indigent criminal defense survey comprehensive, adequate, and timely. Your individual responses will be known only to the research team and will remain confidential.
