SENTENCING STATISTICS FOR HIGHER CRIMINAL COURTS (1985)

#### **EXPLANATORY NOTES:**

- 1. Table 1 "Statistical Measures of Penalties", relates to the sentence for every offence for which there is a penalty.
- 2. The preferred measure in Table 1 is the median. The median has half the values on each side of it (when the number of observations is an even number the midpoint of the two middle values is selected). The average (arithmetic mean) is subject to distortion due to extreme and unusual values. The mode gives the size of the most common penalty. The percentiles, read in conjunction with the median, indicate the size of the spread or variation, as each includes a quarter of the observations. The maximum and minimum values are self explanatory. The total number of observations (counts) is included as those with a small number of observations lack the reliability of those with more.
- 3. In Table 1 only the major penalty for each offence is shown. However, in Tables 3 and 4 ancillary penalties are also given, but are not quantified.
- 4. The Index to Table 1, as well as giving the number for each type of offence, also gives the code number. This code number remains the same in each of the tables and can therefore be utilised to locate any particular offence in each of the Tables.
- 5. The following offence grouping is followed:

#### Offence Grouping

6.

#### Code Group

123456789

Homicide and related offences. Wounding, assaults, etc.		
Sexual offences		
Robbery and allied offences for gain		
Theft, burglary, etc.		
Deception.		
Property damage.		
Other offences.		
Summary offences		

Table 2 "Disposition of Offences" is the only table which shows the disposition of every count appearing on the Presentments filed. When examining convictions in this table one should remember that pleas of guilty are shown separately. The meaning of the abbreviations used is as follows. (See attached).

"Acq/Dir" means acquitted by direction of the trial Judge.

"Plead G" means plea of guilty.

"Nolle" means Nolle Prosequi (No Bill) which is a stay of criminal proceedings. The stay is usually permanent but a nolle prosequi is no bar to further criminal proceedings.

"Insanity" means acquitted on grounds of insanity and detained in custody at the Governor's pleasure. That is, the person is detained until released upon order of the Governor-in-Council (normally acting on the recommendation of the Parole Board that the person's release will no longer be prejudicial to community interests).

"No Ev Led" means no evidence was led by the Director of Public Prosecutions.

- 7. Table 3, "Penalties Imposed for Each Offence", simply presents the information given in Table 1 aggregated into a different format. It does, however, provide additional information as to ancillary penalties. Note that the number given in brackets for the ancillary penalty is already included in the table above for that code.
- 8. Only Table 4 shows the number of persons convicted. Since a person can in practical terms only be shown under one offence, the principal offence, that is the one with the severest penalty according to the rules in paragraph 9, is shown.
- 9. The number of persons sentenced is found by selecting the principal offence under which to record that person. The rules used to select the principal offence are as follows:
  - (a) Imprisonment a penalty
    - (i) Where there are two or more offences with imprisonment, the count with the longest term imposed is selected as the principal offence.
    - (ii) Where (i) above each count has the same term of imprisonment imposed then the principal offence is that with an ancillary penalty, e.g. imprisonment and licence cancellation.
    - (iii) If all counts in (ii) above have ancillary penalties (including those where the ancillary penalty appears to apply equally to all counts) then the penalty is selected utilising the predetermined hierarchy of penalties followed by the highest value (time first, money second).
    - (iv) If all counts have the penalty of imprisonment and the principal offence is not selected by the above rules then the first mentioned conviction becomes

#### the principal offence.

#### (b) Hierarchy for Penalties Other than Imprisonment

(Note: Youth Training Centres are treated as imprisonment).

- 2. Alcoholic and Drug Dependant Persons Centre (A.D.D.P.)
- 3. Attendance Centre
- 4. Community Service Order (C.S.O.)
- 5. Probation
- 6. Bond
- 7. Fine
- 8. Restitution/Compensation order

9. Other

10.

The principal offence is that with the highest rating in the above list. The logic follows that for selecting the principal offence under imprisonment in (a) above.

Information in the tables has come from collated daily reports of the Director of Public Prosecutions Officers. A cross check is usually made with the Daily List for Melbourne and the Circuit Section Register cards to ensure that all reports are received. However, this year, for reasons of economy, it was decided to accept that the daily reports in the Listing Section formed a complete set for Melbourne. Circuit Courts were checked by Patricia Jenkins. No attempt is made to edit or check the description of the offence recorded by the Preparation Officer nor is key punching verified.

- 11. Details are not recorded until sentences have been passed on those persons convicted. No attempt has been made to reconcile the number of persons sentenced with the number of persons convicted, as shown in tables 3.9 and 5.3 "Persons Whose Case was a Receipt or a Disposal of a Criminal Matter in the Supreme or County Court Victoria", since different counting procedures are followed and separate sources of information are utilised.
- 12. The figure for Nolle Prosequi's will be an underestimate as only those cases which have a Case Completion Report for completed, that is those in which at least one event went to Court, are counted. Those cases in which all counts have a Nolle Prosequi (No Bill) are not reported in this system.

13. Details of sentences are not recorded if the case has been presented by the Commonwealth Director of Public Prosecutions.

iv

- 14. The results of appeals and hearings of breaches of Bonds and Probation have not been taken into account.
- 15. The sentence given is the sentence for each count. No attempt is made to show whether terms of imprisonment are either cumulative or concurrent or to give the minimum term which the Court may have ordered to be served.
- 16. Where, for example, a bond of 12 months is given for a number of counts, the length of the bond (or probation, etc.) is recorded against each count.
- 17. Persons found unfit to plead are not sentenced and are therefore excluded from relevant tables until such time as they are fit to stand trial.
- 18. Coding of the sentences was done by Patricia Jenkins and Virginia White checked doubtful entries. Key punching was kindly performed by a Community Employment Program.
- 19. Peter Elliott was the person responsible for developing the software needed to produce these statistics. It was based on the work of Dr. Kwee Phua.
- 20. Inquiries concerning these statistics may be made by telephoning (03) 603 4330 and speaking to the Manager, Management Information Section, (Mr. W.U. Johnston). The office is situated on the 20th Floor of 200 Queen Street, Melbourne. The postal address is Box 857 K, Melbourne, Australia, 3001.
- 21. The International Standards Serial Number for this publication is ISSN 0725-654X.

#### INDEX TO TABLE ONE

\*\*\* NOTE : ATTEMPTS AND COMSPIRACIES ARE NOT CROSS REFERENCED. \*\*\* NOTE : DRUG OFFENCES ARE BROKEN DOWN INTO FOUR AREAS:

1	) BARBITUATES		

(2) HALLUCINOGENIC DRUGS

íť.

- (3) OPIATES AND NARCOTICS
- (4) CANNABIS AND CANNABIS RESIN
