INTRODUCTION

INTRODUCTION

This is the fourth annual Criminal Justice Profiles report published by the New York State Division of Criminal Justice Services.

Originally conceived as an aid for criminal justice practitioners in policy formulation, this publication brings together data from a variety of sources to provide a comprehensive picture of criminal justice activities within New York State, New York City, and each of the counties in the State. These activities span the system's major processing points beginning with the number of index crimes known to the police and ending with the number of offenders under parole supervision. Juvenile Offender processing data and more detailed data on alternative to incarceration programs have been incorporated into this edition. The 1986 data are compared to the 1982 data. In addition, the 1986 data are highlighted using population based rates and county rankings based on these rates for index crimes known to the police, arrests, probation, county jail and penitentiary, state prison, and parole activity. The rates provide a standardized measure that permits a county by county comparison of criminal justice activity by controlling for population size. Appendix B presents a State summary by county of the population rates and rate ranks along with a summary of the percent distribution for indictment, disposition, conviction, and sentencing activities for both 1985 and 1986.

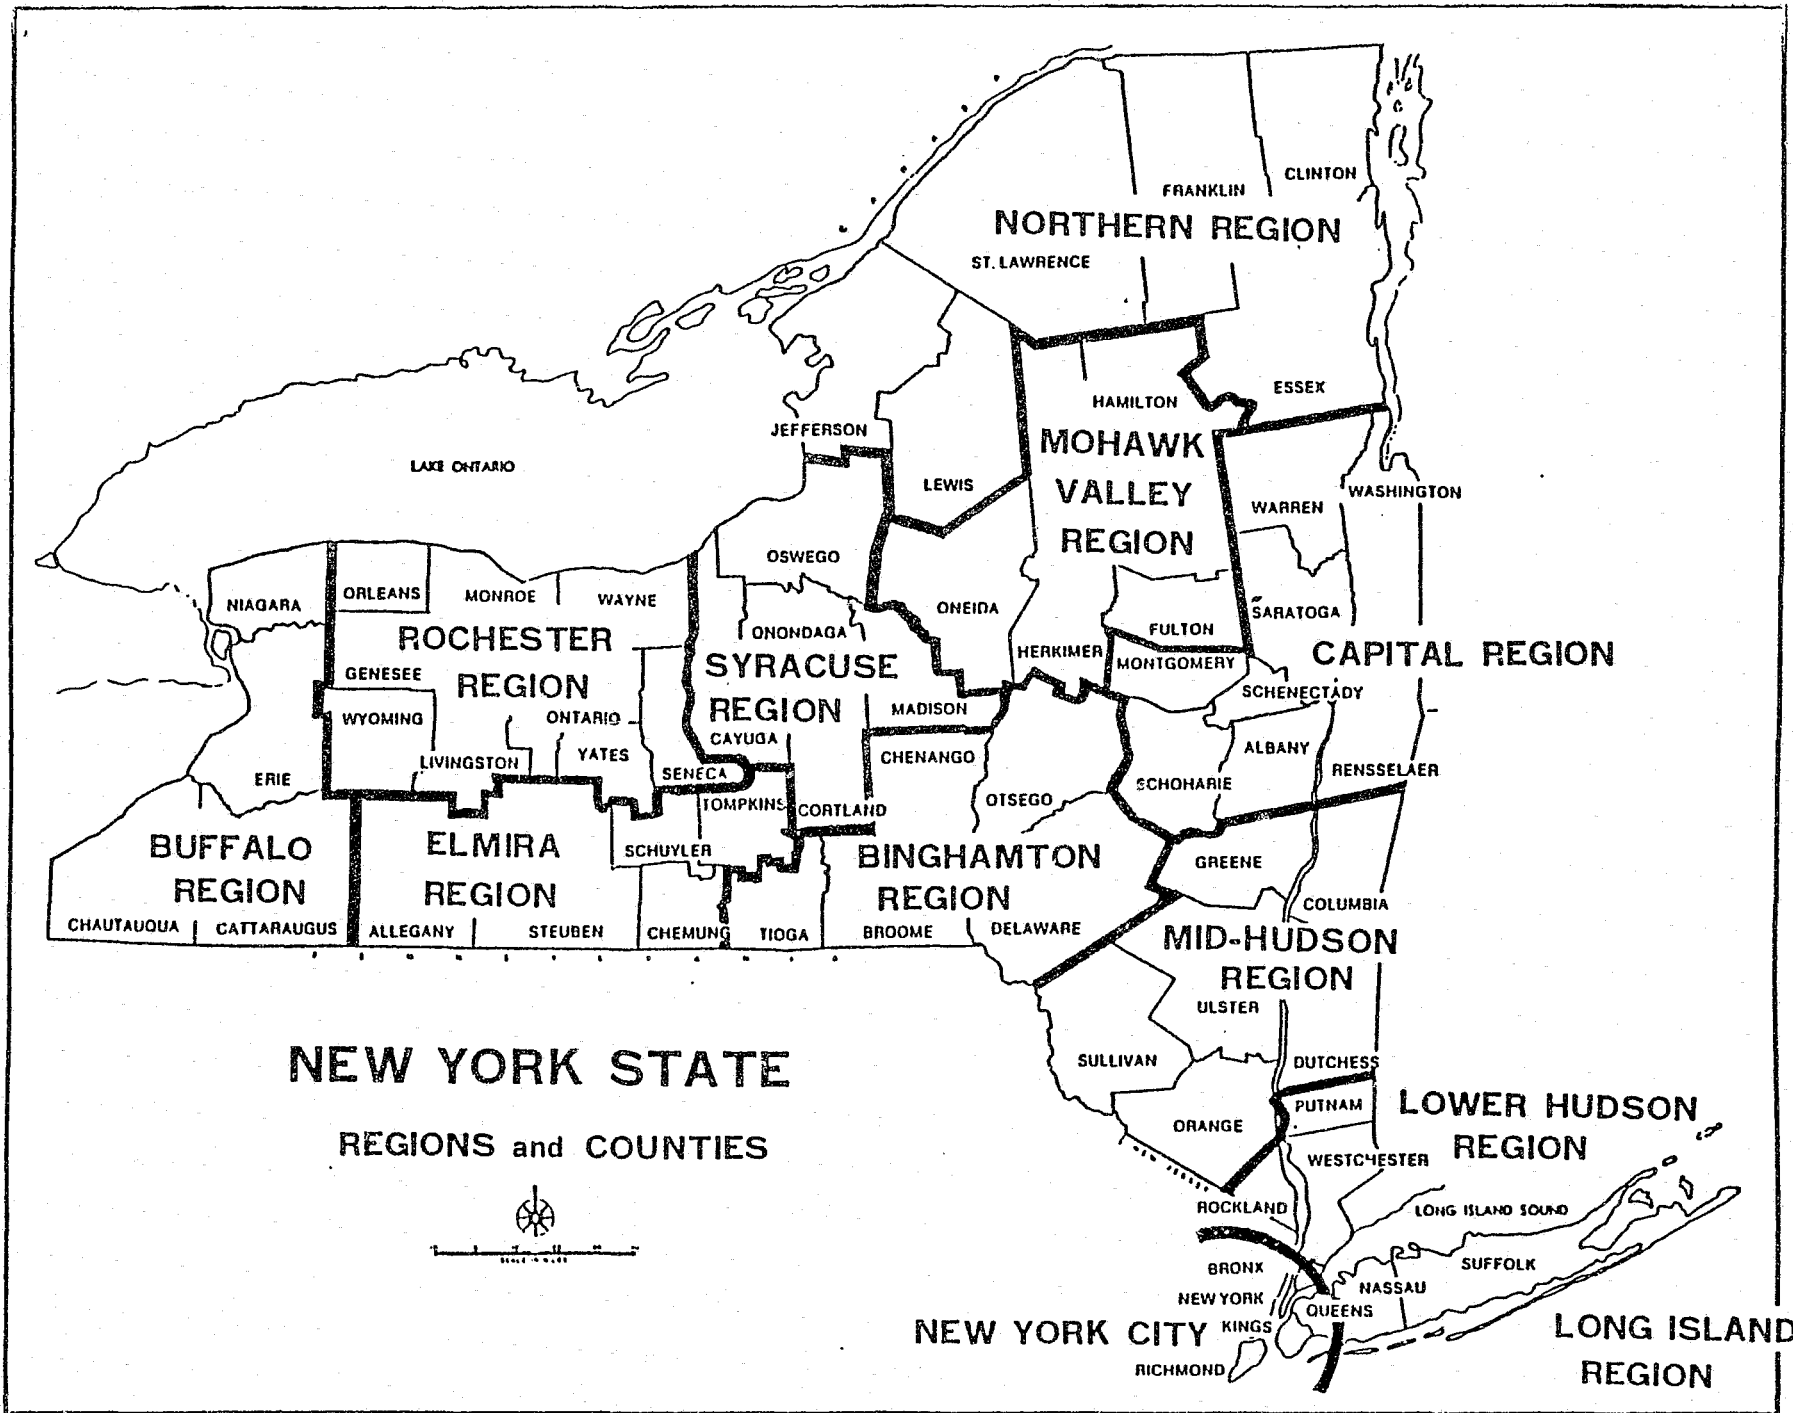

In addition to providing statistics for all facets of the criminal justice process, each of the criminal justice profiles also presents relevant demographic and socioeconomic data, along with criminal justice local assistance funding and State correction and youth facilities data. The funding information presented for criminal justice local assistance programs and the budget, capacity, and staffing information presented for State correction and youth facilities provide a measure of the economic impact each have on the counties in which they are operated.

Appendix A contains notes on the analyses utilized, sources of data, units of count, offender types, and offense categories. As mentioned earlier, Appendix B presents a State summary by county of selected statistics from both the "demographic and socioeconomic characteristics" and "crime and criminal justice activity" tables in Section II and Section III, respectively. Appendix C provides a State summary by county of the percent of dispositions reported to the Division of Criminal Justice Services. Maps showing the location of Department of Correctional Services facilities and Division for Youth facilities are presented in Appendix D. Appendix E contains a list of offenses counted as violent felonies. Descriptions of the local assistance programs are contained in Appendix F. Both Appendix G and Appendix H provide supplementary fiscal information for criminal justice local assistance funding in the State profile.

To facilitate the publication's use as a statistical reference for criminal justice activity within a county or region, the data have been organized by county rather than activity. Each profile uses a standardized table format for the presentation of data. As mentioned previously, the Criminal Justice Profiles publication is comprised of 13 volumes:

- o Volume I contains only the New York State profile.
- o Volume II through Volume XII are regional volumes and contain the New York State profile and the profiles of counties located within the region. The New York State regional map presented on the opposite page identifies the regions and the counties located within each of the regions.
- o Volume XIII contains the New York State profile and the profiles of the six most populous non-New York City counties (Erie, Monroe, Nassau, Onondaga, Suffolk, and Westchester).

An order form for additional volumes of this publication can be found on the last page of this volume.

¹ NYS Penal Law codes for the most serious felony and misdemeanor charge in an arrest event have been organized by UCR Index crime categories to allow more meaningful comparisons with the UCR Index crime data presented in Table 1 of Section III. The unit of count for arrest data, the arrest-event, differs from those used for Index crimes (see Appendix A). Also, these arrest data reflect only adult arrests (i.e., persons age 16 years of age or older at time of arrest); while crimes committed by persons under age 16 are included in Table 1. Finally, these arrest data do not necessarily reflect clearances of the reported crimes shown in Table 1.

² Arrests for the Index crime of "motor vehicle theft" are reported as "larceny" because it is not possible to extract motor vehicle larcenies from the Arrest and Processing Trends File.

¹ A Juvenile Offender is a person 14 or 15 years of age who is criminally responsible for a specified felony act(s) (see Appendix I); and a person 13 years of age who is criminally responsible for an act which constitutes second degree murder as defined in subdivisions one and two of section 125.25 of the New York State Penal Law. Criminal courts have original jurisdiction over juvenile offenders who are prosecuted as adults. A criminal court can waive original jurisdiction and remove a "juvenile offender" to family court where that person is reclassified as a "juvenile delinquent."

¹ This summary includes local assistance funds that are not reported in "county" profiles because the funds were awarded to agencies (e.g., the State Police or the Public Defenders Association) that do not provide county-specific services. Please see Appendix G for local assistance funds awarded to agencies in New York City that provide services citywide and Appendix H for local assistance funds awarded to agencies that provide services statewide.

² On April 1, 1985, the Alternatives to Incarceration Program was transferred from the Division of Criminal Justice Services and combined with the Division of Probation to form the Division of Probation and Correctional Alternatives. The Alternative to Incarceration Program expenditures from FY 1982-83 through 1984-85 are included with the expenditures reported for this newly formed agency.

³ The FY 1985-86 DFY budget increased 58 percent over the appropriation for the previous fiscal year as a result of Governor Cuomo's recommendation. This increase allowed DFY to pay for current programs and also eliminate arrearages.

⁴ The Office of the State Comptroller administers this program.

⁵ The responsibility for the administration of this program was transferred from the Division of Parole to the Division of Substance Abuse Services in FY 1987-88. Funds for this program were first appropriated in FY 1986-87; these funds were reappropriated for FY 1987-88.

² Increases or decreases in the number of felonies and misdemeanors between these two periods reflect in part changes in Section 155 of the Penal Law which became effective on 1/1/87; some larceny offenses that were classified as felonies prior to this date are now classified as misdemeanors.

¹ NYS Penal Law codes for the most serious felony and misdemeanor charge in an arrest event have been organized by UCR Index crime categories to allow more meaningful comparisons with the UCR Index crime data presented in Table 1 of Section III. The unit of count for arrest data, the arrest-event, differs from those used for Index crimes (see Appendix A). Also, these arrest data reflect only adult arrests (i.e., persons age 16 years of age or older at time of arrest); while crimes committed by persons under age 16 are included in Table 1. Finally, these arrest data do not necessarily reflect clearances of the reported crimes shown in Table 1.

² Arrests for the Index crime of "motor vehicle theft" are reported as "larceny" because it is not possible to extract motor vehicle larcenies from the Arrest and Processing Trends File.

¹ A Juvenile Offender is a person 14 or 15 years of age who is criminally responsible for a specified felony act(s) (see Appendix I); and a person 13 years of age who is criminally responsible for an act which constitutes second degree murder as defined in subdivisions one and two of section 125.25 of the New York State Penal Law. Criminal courts have original jurisdiction over juvenile offenders who are prosecuted as adults. A criminal court can waive original jurisdiction and remove a "juvenile offender" to family court where that person is reclassified as a "juvenile delinquent."

¹ This summary includes local assistance funds that are not reported in "county" profiles because the funds were awarded to agencies (e.g., the State Police or the Public Defenders Association) that do not provide county-specific services. Please see Appendix G for local assistance funds awarded to agencies in New York City that provide services citywide and Appendix H for local assistance funds awarded to agencies that provide services statewide.

² On April 1, 1985, the Alternatives to Incarceration Program was transferred from the Division of Criminal Justice Services and combined with the Division of Probation to form the Division of Probation and Correctional Alternatives. The Alternative to Incarceration Program expenditures from FY 1982-83 through 1984-85 are included with the expenditures reported for this newly formed agency.

³ The FY 1985-86 DFY budget increased 58 percent over the appropriation for the previous fiscal year as a result of Governor Cuomo's recommendation. This increase allowed DFY to pay for current programs and also eliminate arrearages.

⁴ The Office of the State Comptroller administers this program.

¹ The FY 1985-86 DFY budget increased 58 percent over the appropriation for the previous fiscal year as a result of Governor Cuomo's recommendation. This increase allowed DFY to pay for current programs and also eliminate arrearages.

² This program was implemented in FY 1984-85 and is funded through the State Operations Budget.

³ This program was implemented in FY 1986-87 and is funded through the State Operations Budget.

⁴ This program was implemented in FY 1985-86.

¹ NYS Penal Law codes for the most serious felony and misdemeanor charge in an arrest event have been organized by UCR Index crime categories to allow more meaningful comparisons with the UCR Index crime data presented in Table 1 of Section III. The unit of count for arrest data, the arrest-event, differs from those used for Index crimes (see Appendix A). Also, these arrest data reflect only adult arrests (i.e., persons age 16 years of age or older at time of arrest); while crimes committed by persons under age 16 are included in Table 1. Finally, these arrest data do not necessarily reflect clearances of the reported crimes shown in Table 1.

² Arrests for the Index crime of "motor vehicle theft" are reported as "larceny" because it is not possible to extract motor vehicle larcenies from the Arrest and Processing Trends File.

¹ A Juvenile Offender is a person 14 or 15 years of age who is criminally responsible for a specified felony act(s) (see Appendix I); and a person 13 years of age who is criminally responsible for an act which constitutes second degree murder as defined in subdivisions one and two of section 125.25 of the New York State Penal Law. Criminal courts have original jurisdiction over juvenile offenders who are prosecuted as adults. A criminal court can waive original jurisdiction and remove a "juvenile offender" to family court where that person is reclassified as a "juvenile delinquent."

¹ This summary includes local assistance funds that are not reported in "county" profiles because the funds were awarded to agencies (e.g., the State Police or the Public Defenders Association) that do not provide county-specific services. Please see Appendix G for local assistance funds awarded to agencies in New York City that provide services citywide and Appendix H for local assistance funds awarded to agencies that provide services statewide.

² On April 1, 1985, the Alternatives to Incarceration Program was transferred from the Division of Criminal Justice Services and combined with the Division of Probation to form the Division of Probation and Correctional Alternatives. The Alternative to Incarceration Program expenditures from FY 1982-83 through 1984-85 are included with the expenditures reported for this newly formed agency.

³ The FY 1985-86 DFY budget increased 58 percent over the appropriation for the previous fiscal year as a result of Governor Cuomo's recommendation. This increase allowed DFY to pay for current programs and also eliminate arrearages.

⁴ The Office of the State Comptroller administers this program.

¹ This program was implemented in FY 1984-85. FY 1985-86 appropriation of \$1,000,000 was reappropriated for FY 1986-87 and again for FY 1987-88.

² No funds were appropriated for this program in FY 1982-83.

³ Agencies are reimbursed for expenditures from the "NYC" and "Statewide" (non-NYC) lump sum appropriations for this program, therefore, appropriations are not available by county.

⁴ FY 1985-86 was the first year the State received these federal block grant funds. Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁵ Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁶ This program was implemented in FY 1987-88.

⁷ This federally funded program was implemented in FY 1987-88. Appropriations are based on the State's fiscal year.

⁸ This Act was established in FY 1983-84. At the time of publication, appropriations were not available by county.

⁹ In FY 1984-85 the administration of this program was transferred from the Department of Labor to the Division of Criminal Justice Services. Unallocated FY 1985-86 monies were reappropriated for FY 1986-87. Agencies are reimbursed for expenditures from the "Statewide" lump-sum appropriation for this program, therefore, appropriations are not available by county.

¹⁰ This program was implemented in FY 1984-85.

¹¹ This program was implemented in FY 1983-84. The FY 1982-83 funds are the combined expenditures of the three programs that were merged to form TCI: the State Felony Program, the Major Violent Offense Trial Program, and the Major Offense Prosecution Program.

¹ NYS Penal Law codes for the most serious felony and misdemeanor charge in an arrest event have been organized by UCR Index crime categories to allow more meaningful comparisons with the UCR Index crime data presented in Table 1 of Section III. The unit of count for arrest data, the arrest-event, differs from those used for Index crimes (see Appendix A). Also, these arrest data reflect only adult arrests (i.e., persons age 16 years of age or older at time of arrest); while crimes committed by persons under age 16 are included in Table 1. Finally, these arrest data do not necessarily reflect clearances of the reported crimes shown in Table 1.

² Arrests for the Index crime of "motor vehicle theft" are reported as "larceny" because it is not possible to extract motor vehicle larcenies from the Arrest and Processing Trends File.

¹ A Juvenile Offender is a person 14 or 15 years of age who is criminally responsible for a specified felony act(s) (see Appendix I); and a person 13 years of age who is criminally responsible for an act which constitutes second degree murder as defined in subdivisions one and two of section 125.25 of the New York State Penal Law. Criminal courts have original jurisdiction over juvenile offenders who are prosecuted as adults. A criminal court can waive original jurisdiction and remove a "juvenile offender" to family court where that person is reclassified as a "juvenile delinquent."

¹ This summary includes local assistance funds that are not reported in "county" profiles because the funds were awarded to agencies (e.g., the State Police or the Public Defenders Association) that do not provide county-specific services. Please see Appendix G for local assistance funds awarded to agencies in New York City that provide services citywide and Appendix H for local assistance funds awarded to agencies that provide services statewide.

² On April 1, 1985, the Alternatives to Incarceration Program was transferred from the Division of Criminal Justice Services and combined with the Division of Probation to form the Division of Probation and Correctional Alternatives. The Alternative to Incarceration Program expenditures from FY 1982-83 through 1984-85 are included with the expenditures reported for this newly formed agency.

³ The FY 1985-86 DFY budget increased 58 percent over the appropriation for the previous fiscal year as a result of Governor Cuomo's recommendation. This increase allowed DFY to pay for current programs and also eliminate arrearages.

⁴ The Office of the State Comptroller administers this program.

¹ This program was implemented in FY 1984-85. FY 1985-86 appropriation of \$1,000,000 was reappropriated for FY 1986-87 and again for FY 1987-88.

² No funds were appropriated for this program in FY 1982-83.

³ Agencies are reimbursed for expenditures from the "NYC" and "Statewide" (non-NYC) lump sum appropriations for this program, therefore, appropriations are not available by county.

⁴ FY 1985-86 was the first year the State received these federal block grant funds. Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁵ Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁶ No funds were appropriated for this program in FY 1982-83.

⁷ This federally funded program was implemented in FY 1987-88. Appropriations are based on the State's fiscal year.

⁸ This program was implemented in FY 1987-88.

⁹ This Act was established in FY 1983-84. At the time of publication, appropriations were not available by county.

¹⁰ In FY 1984-85 the administration of this program was transferred from the Department of Labor to the Division of Criminal Justice Services. Unallocated FY 1985-86 monies were reappropriated for FY 1986-87. Agencies are reimbursed for expenditures from the "Statewide" lump-sum appropriation for this program, therefore, appropriations are not available by county.

¹¹ This program was implemented in FY 1984-85.

¹² This program was implemented in FY 1983-84. The FY 1982-83 funds are the combined expenditures of the three programs that were merged to form TCI: the State Felony Program, the Major Violent Offense Trial Program, and the Major Offense Prosecution Program.

² Increases or decreases in the number of felonies and misdemeanors between these two periods reflect in part changes in Section 155 of the Penal Law which became effective on 1/1/87; some larceny offenses that were classified as felonies prior to this date are now classified as misdemeanors.

¹ NYS Penal Law codes for the most serious felony and misdemeanor charge in an arrest event have been organized by UCR Index crime categories to allow more meaningful comparisons with the UCR Index crime data presented in Table 1 of Section III. The unit of count for arrest data, the arrest-event, differs from those used for Index crimes (see Appendix A). Also, these arrest data reflect only adult arrests (i.e., persons age 16 years of age or older at time of arrest); while crimes committed by persons under age 16 are included in Table 1. Finally, these arrest data do not necessarily reflect clearances of the reported crimes shown in Table 1.

² Arrests for the Index crime of "motor vehicle theft" are reported as "larceny" because it is not possible to extract motor vehicle larcenies from the Arrest and Processing Trends File.

¹ A Juvenile Offender is a person 14 or 15 years of age who is criminally responsible for a specified felony act(s) (see Appendix I); and a person 13 years of age who is criminally responsible for an act which constitutes second degree murder as defined in subdivisions one and two of section 125.25 of the New York State Penal Law. Criminal courts have original jurisdiction over juvenile offenders who are prosecuted as adults. A criminal court can waive original jurisdiction and remove a "juvenile offender" to family court where that person is reclassified as a "juvenile delinquent."

¹ This summary includes local assistance funds that are not reported in "county" profiles because the funds were awarded to agencies (e.g., the State Police or the Public Defenders Association) that do not provide county-specific services. Please see Appendix G for local assistance funds awarded to agencies in New York City that provide services citywide and Appendix H for local assistance funds awarded to agencies that provide services statewide.

² On April 1, 1985, the Alternatives to Incarceration Program was transferred from the Division of Criminal Justice Services and combined with the Division of Probation to form the Division of Probation and Correctional Alternatives. The Alternative to Incarceration Program expenditures from FY 1982-83 through 1984-85 are included with the expenditures reported for this newly formed agency.

³ The FY 1985-86 DFY budget increased 58 percent over the appropriation for the previous fiscal year as a result of Governor Cuomo's recommendation. This increase allowed DFY to pay for current programs and also eliminate arrearages.

⁴ The Office of the State Comptroller administers this program.

² Agencies are reimbursed for expenditures from the "NYC" and "Statewide" (non-NYC) lump sum appropriations for this program, therefore, appropriations are not available by county.

³ FY 1985-86 was the first year the State received these federal block grant funds. Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁴ Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁵ This federally funded program was implemented in FY 1987-88. Appropriations are based on the State's fiscal year.

⁶ This act was established in FY 1983-84. At the time of publication, appropriations were not available by county.

⁷ In FY 1984-85 the administration of this program was transferred from the Department of Labor to the Division of Criminal Justice Services. Unallocated FY 1985-86 monies were reappropriated for FY 1986-87. Agencies are reimbursed for expenditures from the "Statewide" lump-sum appropriation for this program, therefore, appropriations are not available by county.

⁸ This program was implemented in FY 1984-85.

⁹ This program was implemented in FY 1983-84. The FY 1982-83 funds are the combined expenditures of the three programs that were merged to form TCI: the State Felony Program, the Major Violent Offense Trial Program, and the Major Offense Prosecution Program.

¹ NYS Penal Law codes for the most serious felony and misdemeanor charge in an arrest event have been organized by UCR Index crime categories to allow more meaningful comparisons with the UCR Index crime data presented in Table 1 of Section III. The unit of count for arrest data, the arrest-event, differs from those used for Index crimes (see Appendix A). Also, these arrest data reflect only adult arrests (i.e., persons age 16 years of age or older at time of arrest); while crimes committed by persons under age 16 are included in Table 1. Finally, these arrest data do not necessarily reflect clearances of the reported crimes shown in Table 1.

² Arrests for the Index crime of "motor vehicle theft" are reported as "larceny" because it is not possible to extract motor vehicle larcenies from the Arrest and Processing Trends File.

¹ A Juvenile Offender is a person 14 or 15 years of age who is criminally responsible for a specified felony act(s) (see Appendix I); and a person 13 years of age who is criminally responsible for an act which constitutes second degree murder as defined in subdivisions one and two of section 125.25 of the New York State Penal Law. Criminal courts have original jurisdiction over juvenile offenders who are prosecuted as adults. A criminal court can waive original jurisdiction and remove a "juvenile offender" to family court where that person is reclassified as a "juvenile delinquent."

¹ This summary includes local assistance funds that are not reported in "county" profiles because the funds were awarded to agencies (e.g., the State Police or the Public Defenders Association) that do not provide county-specific services. Please see Appendix G for local assistance funds awarded to agencies in New York City that provide services citywide and Appendix H for local assistance funds awarded to agencies that provide services statewide.

² On April 1, 1985, the Alternatives to Incarceration Program was transferred from the Division of Criminal Justice Services and combined with the Division of Probation to form the Division of Probation and Correctional Alternatives. The Alternative to Incarceration Program expenditures from FY 1982-83 through 1984-85 are included with the expenditures reported for this newly formed agency.

³ The FY 1985-86 DFY budget increased 58 percent over the appropriation for the previous fiscal year as a result of Governor Cuomo's recommendation. This increase allowed DFY to pay for current programs and also eliminate arrearages.

⁴ The Office of the State Comptroller administers this program.

² No funds were appropriated for this program in FY 1982-83.

³ FY 1985-86 was the first year the State received these federal block grant funds. Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁴ Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁵ This federally funded program was implemented in FY 1987-88. Appropriations are based on the State's fiscal year.

⁶ This act was established in FY 1983-84. At the time of publication, appropriations were not available by county.

⁷ In FY 1984-85 the administration of this program was transferred from the Department of Labor to the Division of Criminal Justice Services. Unallocated FY 1985-86 monies were reappropriated for FY 1986-87. Agencies are reimbursed for expenditures from the "Statewide" lump-sum appropriation for this program, therefore, appropriations are not available by county.

⁸ This program was implemented in FY 1984-85.

⁹ This program was implemented in FY 1987-88.

¹⁰ This program was implemented in FY 1983-84. The FY 1982-83 funds are the combined expenditures of the three programs that were merged to form TCI: the State Felony Program, the Major Violent Offense Trial Program, and the Major Offense Prosecution Program.

¹ NYS Penal Law codes for the most serious felony and misdemeanor charge in an arrest event have been organized by UCR Index crime categories to allow more meaningful comparisons with the UCR Index crime data presented in Table 1 of Section III. The unit of count for arrest data, the arrest-event, differs from those used for Index crimes (see Appendix A). Also, these arrest data reflect only adult arrests (i.e., persons age 16 years of age or older at time of arrest); while crimes committed by persons under age 16 are included in Table 1. Finally, these arrest data do not necessarily reflect clearances of the reported crimes shown in Table 1.

² Arrests for the Index crime of "motor vehicle theft" are reported as "larceny" because it is not possible to extract motor vehicle larcenies from the Arrest and Processing Trends File.

¹ A Juvenile Offender is a person 14 or 15 years of age who is criminally responsible for a specified felony act(s) (see Appendix I); and a person 13 years of age who is criminally responsible for an act which constitutes second degree murder as defined in subdivisions one and two of section 125.25 of the New York State Penal Law. Criminal courts have original jurisdiction over juvenile offenders who are prosecuted as adults. A criminal court can waive original jurisdiction and remove a "juvenile offender" to family court where that person is reclassified as a "juvenile delinquent."

¹ This summary includes local assistance funds that are not reported in "county" profiles because the funds were awarded to agencies (e.g., the State Police or the Public Defenders Association) that do not provide county-specific services. Please see Appendix G for local assistance funds awarded to agencies in New York City that provide services citywide and Appendix H for local assistance funds awarded to agencies that provide services statewide.

² On April 1, 1985, the Alternatives to Incarceration Program was transferred from the Division of Criminal Justice Services and combined with the Division of Probation to form the Division of Probation and Correctional Alternatives. The Alternative to Incarceration Program expenditures from FY 1982-83 through 1984-85 are included with the expenditures reported for this newly formed agency.

³ The FY 1985-86 DFY budget increased 58 percent over the appropriation for the previous fiscal year as a result of Governor Cuomo's recommendation. This increase allowed DFY to pay for current programs and also eliminate arrearages.

⁴ The Office of the State Comptroller administers this program.

¹ This program was implemented in FY 1984-85. FY 1985-86 appropriation of \$1,000,000 was reappropriated for FY 1986-87 and again for FY 1987-88.

² No funds were appropriated for this program in FY 1982-83.

³ Agencies are reimbursed for expenditures from the "NYC" and "Statewide" (non-NYC) lump sum appropriations for this program, therefore, appropriations are not available by county.

⁴ FY 1985-86 was the first year the State received these federal block grant funds. Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁵ Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁶ No funds were appropriated for this program in FY 1982-83.

⁷ This federally funded program was implemented in FY 1987-88. Appropriations are based on the State's fiscal year.

⁸ This act was established in FY 1983-84. At the time of publication, appropriations were not available by county.

⁹ In FY 1984-85 the administration of this program was transferred from the Department of Labor to the Division of Criminal Justice Services. Unallocated FY 1985-86 monies were reappropriated for FY 1986-87. Agencies are reimbursed for expenditures from the "Statewide" lump-sum appropriation for this program, therefore, appropriations are not available by county.

¹⁰ This program was implemented in FY 1984-85.

¹¹ This program was implemented in FY 1983-84. The FY 1982-83 funds are the combined expenditures of the three programs that were merged to form TCI: the State Felony Program, the Major Violent Offense Trial Program, and the Major Offense Prosecution Program.

¹² This program was implemented in FY 1987-88.

APPENDIX A
EXPLANATORY NOTES

EXPLANATORY NOTES

ANALYSES

The statistics presented in this document include frequencies, percents, percent changes, rates, and rate rank scores.

Percent changes are sensitive to relatively small changes in absolute numbers when the numbers used to calculate the percent changes are low. In addition, the percent change is not a valid indicator of change when the number reported for the base year (the 1982 calendar year or the 1982-83 fiscal year) is zero (0). In such instances the notation "NA" is used.

Rates are ranked from high to low; e.g., if the rates for an activity in the 62 counties ranged from 200.0 to 50.0 per 100,000 population, the highest rate (200.0) would be ranked one (1) and the lowest rate (50.0) would be ranked 62. Rank values for both the public assistance data and the county jail and penitentiary data reflect the rankings for only the 57 non-New York City counties, making the range for rank values of these data one (1) to 57. It is important to note that the rank calculations do not take into consideration the magnitude of the differences between the ranked rates. Also, dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

The Bureau of Census provisional population estimates for 1985 that are reported in Section I were used for all population-based rate calculations presented in the briefing book with the exception of those reported for "Index Crimes Known to the Police" (Section III: Table 1). Index crime rates were calculated using population estimates provided by the Federal Bureau of Investigation. These population data were used rather than the Bureau of Census population data to maintain comparability with Index crime rates reported in the annual NYS Crime and Justice publication. FBI population data are used because the production of this annual publication begins before the more authoritative Bureau of Census population data become available.

The New York State Department of Motor Vehicles provided the data on licensed drivers in New York State that was used to calculate the rate of DWI arrests per 1,000 licensed drivers (Section III: Table 2-E).

SECTION I CRIMINAL JUSTICE AGENCIES

Criminal justice agencies located within or providing direct services to the county are presented in this section.

SECTION II DEMOGRAPHIC & SOCIOECONOMIC CHARACTERISTICS

The demographic and socioeconomic data presented in this section were provided by a number of sources.

- o NYS Department of Commerce (personal per capita income data)
- o NYS Department of Education (high school dropout data)
- o NYS Department of Labor (labor force data)
- o NYS Department of Social Services (public assistance program data)
- o New York State Statistical Yearbook: 1983-84 (square miles and 1970-80 population change data)
- o U.S. Bureau of the Census (population, age, race, and ethnicity data)

SECTION III CRIME AND CRIMINAL JUSTICE ACTIVITY

It is important to note that in instances where multiple offenses are reported for an event, the offense classification for the event is generally determined by the most serious offense reported for that event. However, the criteria which agencies have developed to rank crimes by seriousness may differ among the statistical systems operated by State agencies. As a result, a robbery that is identified as the most serious offense in a multiple crime event by one agency may not be identified as the most serious crime that occurred during an event by another agency.

The characteristics of the data presented in Section III vary across tables. Table 1 in this appendix defines data populations, units of count, offender types, and offense categories by table. The data sources are also identified.

SECTION IV LOCAL ASSISTANCE FUNDS

The expenditures and appropriations for local assistance programs funded with federal monies are based on the State's fiscal year.

SECTION V STATE CORRECTIONAL FACILITIES

DOCS capacity data reflect both housing and "other" categories, such as transit units and reception centers; they exclude temporary spaces, Special Housing Unit cells, and hospital spaces. DFY capacity data reflect the number of youths that can be housed at a facility and is contingent upon both available space and number of staff.

DOCS staff data reflect both full-time and part-time staff, while DFY staff data reflect full-time equivalent staff.

The operating budget and capital improvement budget expenditures include monies spent both within and outside the county. The DOCS facility-based budget does not include centralized billings. DFY's facility-based budget excludes centralized billings and monies budgeted for regional offices and aftercare workers.

The increase in parole revocations resulting from new felony convictions reflects legislative changes and improved efficiency of the parole revocation process. A primary factor was the passage of legislation, incorporated into the Division's rules and regulations effective November 1, 1984, authorizing the Parole Board to issue a final declaration of delinquency for releasees convicted of new felonies committed under supervision and receiving new indeterminate sentences. A final declaration of delinquency streamlines the violation process in these cases by obviating the need for a final revocation hearing. The streamlined process has resulted in an increased proportion of returns for new convictions.

* An adult is an offender who is 16 years of age or older at time of arrest.

** A Juvenile Offender is a person 14 or 15 years of age who is criminally responsible for a specified felony act(s) (see Appendix I); and a person 13 years of age who is criminally responsible for an act which constitutes second degree murder as defined in subdivisions one and two of Section 125.25 of the Penal Law. Criminal courts have original jurisdiction over juvenile offenders who are prosecuted as adults. A criminal court can waive original jurisdiction and remove a "juvenile offender" to family court where that person is reclassified as a "juvenile delinquent."

* The monthly average number of persons in public assistance programs is not reported by county for the five New York City boroughs - only for New York City as a whole.

NOTE: Percents presented in this Table have been rounded to the first decimal place, however, the rank scores for percents were calculated using numbers with four (4) decimal places.

Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

* NYS Penal Law codes for the most serious felony and misdemeanor charge in an arrest event have been organized by UCR Index crime categories to allow more meaningful comparisons with the UCR Index crime data presented in Table 1 of this appendix. The unit of count for arrest data, the arrest-event, differs from those used for Index crimes (see Appendix A). It is also important to note that these arrest data reflect only adult (i.e., persons age 16 or older), while crimes committed by persons under age 16 are included in the Index crime counts. Finally, these data do not necessarily reflect clearances of the reported crimes shown in Table 1.

** Arrests for the Index crime of "motor vehicle theft" are reported as "larceny" because it is not possible to extract motor vehicle larcenies from the Arrests and Processing Trends File.

NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

* Felony and misdemeanor arrests that include at least one drug charge (Penal Law of New York State - Sections 220 and 221).

NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

* Felony and misdemeanor arrests that include at least one charge for a DWI offense (Vehicle and Traffic Law: State of New York - Section 1192).

NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

* These data reflect the most serious sentence in multiple sentence dispositions (e.g., sentences including a jail term and a fine have been counted as "local jail"). This distribution of sentence types may be affected by the underreporting of dispositions to the Division of Criminal Justice Services (see Appendix F).

* These data reflect the most serious sentence in multiple sentence dispositions (e.g., sentences including a jail term and a fine have been counted as 'local jail'). This distribution of sentence types may be affected by the underreporting of dispositions to the Division of Criminal Justice Services (see Appendix F).

* Intake occurs only in family court.

NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

* The total number of probation cases supervised during a given year; i.e., probation cases carried over from the previous year (cases under supervision on December 31) plus those received during the year.
 NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases.
 For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

* Rates based on the number of family and criminal court cases supervised during the year.

** Rates based on the number of family court probation cases supervised during the year.

*** Rates based on the number of criminal court probation cases supervised during the year.

NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

* Data are not reported by county for New York City - only for New York City as a whole.

NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

* The total number of parolees under supervision during a given year; i.e., parolees carried over from the previous year (cases under supervision on December 31) plus inmates released during the year to the Division of Parole for Supervision.

NOTE: Dramatic changes in rank scores should be interpreted with caution. The sensitivity of rates to relatively small changes in absolute numbers increases as the size of the population decreases. For example, an increase of one (1) in a given activity in a county with 5,000 residents will cause the value of the rate to increase by 20, while an increase of one (1) in a county with 50,000 residents will cause the value of the rate to increase by only two (2).

APPENDIX F
NEW YORK STATE
LOCAL ASSISTANCE PROGRAM DESCRIPTIONS

DEPARTMENT OF CORRECTIONAL SERVICES

Board of Prisoners. The Board of Prisoners' account is the only source of local assistance funding administered by DOCS. Funds paid out of the account cover four areas:

- o Coram Nobis: Inmates may have to be returned to their county of commitment for court proceedings. When they are, they are housed in the county jail. Counties are reimbursed \$20 per diem for housing these inmates.
- o Felons: Persons convicted of "D" and "E" felonies who receive a maximum sentence of less than one year cannot be incarcerated in State facilities. Instead, these sentences are served in county jails. This program reimburses the county at the rate of \$20 per diem.
- o Parole Violators: Counties are reimbursed \$20 per diem for housing parole violators until they can be transferred into the State system.
- o State Readies: These are convicted felons for whom the committing county has the Department that they are awaiting transfer into the State system. Beginning on 7/1/85, counties were reimbursed \$20 per diem toward the cost of housing those who have been state ready for five days. After the inmate has been state ready five days, reimbursement is retroactive to the first day. Conversely, if an individual is state ready for only one to four days, there is no reimbursement.

Community Treatment Programs. The Department of Correctional Services has in the past, and will again this year, be allowed to enter into agreements to place low-risk inmates, within a year of parole eligibility, into community contract facilities. These 24-hour a day facilities offer drug rehabilitation programs to those inmates who, it is believed, have more of a drug problem than a criminal history. Innovative project components include the use of naltrexone on a pilot basis, intensive vocational rehabilitation services, and on-site supervision by parole officers.

Under the community contract program, the Division of Substance Abuse Services identifies which community beds can be used and arrives at a contract with the local facilities. The program operated with approximately 300 contract beds in 1983 and again in 1984, but was not continued in the 1985-86 fiscal plan. A total of 300 slots for DOCS inmates is proposed for FY 1986-87, at a per inmate per annum cost of \$11,000, versus the \$26,000 a year cost of incarceration in correctional facilities. Given the actual cost of incarceration within the DOCS system, the choice is to imprison one inmate or to treat three in the community. Funding of the program could result in a net savings to taxpayers of \$7 million annually, according to memoranda in support of the legislation.

Prison Transfer to State Facilities. The State reimburses counties for their costs incurred in transporting state-ready inmates to State correctional facilities.

CRIME VICTIMS BOARD

Crime Victims Compensation Awards. The Crime Victims Compensation Program provides financial assistance to innocent victims of violent crimes. Claims may be filed by the victim of a crime who has incurred personal injuries or by a surviving spouse, parent, child, or other dependent if the victim died as a direct result of the crime. Payments are made for unreimbursed medical and rehabilitative expenses as well as loss of earnings or support. Funeral benefits may be paid to any person who has paid the burial expenses. The program is also permitted to reimburse claimants for transportation costs incurred for necessary court appearances in connection with the prosecution of a crime and for loss or damage to essential personal property. Victims 60 years or older and disabled victims need not be injured to qualify for these last two benefits. Beginning with Federal Fiscal Year 10/1/85 - 9/30/86 the State will receive federal compensation funds on a 35% reimbursement rate; these funds are included in the FY 1985-86 appropriation.

Victim and Witness Assistance Program. In FY 1981-82, the Crime Victims Board initiated the Victim and Witness Assistance Program with \$1.5 million in funding for 22 programs. The number of funded programs has since doubled. Each of the local programs which receives funding provides services in one of five general areas for victims and witnesses:

- o victims of domestic violence,
- o elderly crime victims,
- o victims of sexual assaults,
- o all types of victims, and,
- o court related services.

These programs provide a comprehensive array of assistance services to address the economic, fiscal, psychological, and criminal justice consequences of victimization. Services include: information, referral to other agencies, supportive counseling, psychological counseling, group counseling, application assistance, court notification, court accompanied impact statements, hotline, lock installation, home visits, escort service, and transportation.

The agency has expanded existing programs and initiated new programs with federal funds from the Victims of Crime Act (VOCA) of 1984.

DIVISION OF CRIMINAL JUSTICE SERVICES

Asset/Forfeiture Legislation. The passage of Article 13-A (CPLR) provided prosecutors in New York State with a new tool to combat crime. This statute allows for the seizure of the proceeds and instrumentalities of crime, thereby reducing the profitability of, and incentive for, illegal activity.

Pursuant to Chapter 669 of the Laws of 1984, \$1 million in State funds were made available to counties participating in the Target Crime Initiative Program (see description below) and the New York City Special Narcotics Prosecutor for the purpose of establishing forfeiture units in local prosecutors' offices. Funds were not appropriated in FY 86-87 for the forfeiture effort because the value of assets seized could be utilized to support the initiative.

Crime Prevention and Protection. This program provides funds for special contractual services, for expenses of programs to prevent crime and protect senior citizens. These appropriations commenced with one award in 1977 and increased to 90 awards in 1985. There was no appropriation for FY 1982-83. Although initially placed in the state purposes portion of the budget, this appropriation now appears in local assistance.

The responsibility for implementation rests with the Commissioner of the Division of Criminal Justice Services, and is administered by the Office of Funding and Program Assistance.

Emergency Felony Case Processing Program. A rapid increasing court backlog led to the passage of the Emergency Felony Case Processing Program (Chapters 496 and 497 of the Laws of 1971. When first enacted, 15 additional court parts were established with State support to expedite the processing of the backlogged felony cases. As a result of court reorganization and consolidation efforts, the historically designated parts have been integrated into the total court system. The N.Y.C. Legal Aid Society and Department of Probation also participate in the program by providing defense services and completing pre-sentence investigations. The State shares with the City of New York the incremental expense of maintaining an enhanced level of criminal court parts, with State aid totaling up to 58% of the cost. Payment of aid is contingent on a matching appropriation from the City of New York for the remaining 42% of expenses.

Indigent Parolee Program. The State provides aid to counties for the legal representation of indigent parolees by private, appointed attorneys and public defense programs, pursuant to Section 250(i) of the Executive Law and Article 18-B of the County Law. The program has existed since 1973 and helps meet the needs of indigent parole violators for competent legal help. By encouraging

DIVISION OF CRIMINAL JUSTICE SERVICES

(continued)

defense attorneys to provide this assistance quickly and often, this State aid effort also contributes to a more efficient parole revocation process, the elimination of delays, and a reduction in unnecessary incarceration of alleged violators.

Legal services for individuals involved in parole revocations are provided according to a plan that is executed by either the county executive or the board of supervisors of each county or by the governing city in which a county is wholly contained. The plan describes whether the legal assistance purchased will involve the services of a public defender, a private legal aid bureau or society, or an administrator of a bar association appointed-counsel plan. The Division of Criminal Justice Services is responsible for the administration of these funds through a system of reimbursement to the counties.

Justice Assistance Act - Federal Funds. The Division of Criminal Justice Services, through the Juvenile Justice and Federal Programming Unit, administers federal block grant funds received under the Justice Assistance Act. The Justice Assistance Act's block grant program will award New York State \$3,396,000 to support programs in any of 18 federally designated program areas. The Governor's Office, in consultation with members of the legislature, has directed that these funds will support programs in the following areas, subject to necessary federal approvals:

- o Prosecution of White Collar and Organization Crime
- o Violent Predator
- o Pre-Trial Services
- o Enhancement of Child Abuse Prosecution
- o Information Systems
- o Narcotics Enforcement
- o Integrated Criminal Apprehension Program

Juvenile Justice and Delinquency Prevention - Federal Funds. The Division of Criminal Justice Services, through the Juvenile Justice and Federal Programming Unit, administers federal block grant funds received under the federal Juvenile Justice and Delinquency Prevention Act. These funds are utilized by New York State to assist units of local government and State agencies in improving the operations of the juvenile justice system, in efforts to control crime, and to assure the quality of justice in the State. The funds primarily provide seed money to support changes and improvements in the juvenile justice system. Funds are used to support programs in six areas:

- o Delinquency Prevention/Diversion
- o Services for Detained and Incarcerated Youth
- o Dispositional Alternatives
- o Court Processing
- o Monitoring Compliance
- o Systems Planning and Interagency Coordination

Law Guardian Back-Up Center. Statewide Youth Advocacy of Rochester has received a legislative appropriation to establish the Law Guardian Back-Up Center. This Center will provide technical assistance and training to law guardians practicing before family courts primarily outside of New York City. Training and legal research will cover JD, PINS, and abuse/neglect proceedings. Social work and legal assistance will also be provided. A brief bank and library will be developed, as will an inventory of dispositional alternatives and community-based programs. Updates will be provided on legal and legislative developments. Videotaped training to be used in rural counties will be developed. Staff will include two lawyers and one social worker.

Major Offense Police Program (MOPP). This program provides State funds to nine of the largest police agencies in the State to target violent offenders, career criminals, and narcotics traffickers. The cities of New York, Rochester, Syracuse, and Nassau and Suffolk counties have identified career criminals who receive special case processing by the Detective Bureau when arrested for felony offenses. The City of Buffalo established separate task forces dealing with robbery, burglary, and sex crimes to identify and apprehend career offenders. Rockland and Orange counties created county-wide task forces comprised of local police officers and county district attorney investigators to target major narcotics traffickers. In Westchester, Nassau, and Suffolk counties M.O.P.P. funds supplement existing narcotics investigations through the addition of personnel and "buying-money." In 1984, M.O.P.P. funds supported 199 sworn police personnel, one assistant district attorney, and nine support staff who conducted intensive investigations against "career criminals" who were violent or repeat felons. M.O.P.P. personnel in the nine localities handled a total of 9,852 cases against the most serious offenders in 1984, up 12% from the 1983 M.O.P.P. total of 8,820 cases.

Mobile Radio District Program. This program seeks to standardize law enforcement radio configurations and enhance communication hardware in municipal law enforcement agencies. Effective April 1, 1983 the Mobile Radio District program was re-enacted by the legislature. The legislature did not appropriate any monies for this program in 1982.

The program that has been in effect for the past thirteen years was a combination of federal and locally funded projects. Since 1982 the program has been State funded.

The responsibility for implementation now rests with the Commissioner of the Division of Criminal Justice Services and is administered by the Bureau for Municipal Police, Mobile Radio District Unit.

DIVISION OF CRIMINAL JUSTICE SERVICES
(continued)

Narcotics Control. The federal Anti-Drug Abuse Act of 1986 established a program of grants to State and local agencies for drug law enforcement. Under this Act, the State and localities are eligible for funds under the Narcotics Control Assistance Formula Grant Program. New York State is eligible for \$111,539,00 in federal fiscal year 1987. It is anticipated that the federal award for FY 1988 and FY 1989 will be for the same amount.

The New York State Legislature has identified the following priority areas: apprehension, prosecution and adjudication of persons who violate State and local controlled substances laws, as defined in the penal and public health laws; additional correctional resources for such persons; programs to eliminate the growth and production of controlled substances, programs for drug-dependent offenders; and demonstration programs to identify major offenders and move these offenders expeditiously through the judicial system.

The distribution of funds will be in the ratio of 39.61 between State agency programs and local government programs. These federal funds must be matched on a cash basis with one dollar in non-federal funds for every three dollars in federal funds.

Nassau County Service to Rape Victims Task Force. Advocacy services for victims of sexual assault include the following: hospital advocacy (support, information, referral, follow-up); criminal justice system advocacy; recruitment, supervision, and training of volunteers; newsletters; field placement for students; public information through public speaking and distribution of literature.

Neighborhood Preservation Crime Prevention Act. Established in the Laws of 1983, Chapter 55, by Governor Cuomo and the Legislature, the Neighborhood Preservation Crime Prevention Act made funds available to local not-for-profit organizations (excluding municipalities, except for auxiliary police programs). The funds are awarded on a competitive basis for organizations to operate crime prevention programs.

The responsibility for the implementation of this program rests with the Commissioner of the Division of Criminal Justice Services. It is administered by the Office of Crime Prevention of the Bureau for Municipal Police. The funds supporting NPCPA are in the state purposes portion of the annual budget, but the statute creating this program indicates that the awards are to be made to community-based organizations.

New York City School Security Officer Program. This program extends an existing ongoing effort in New York City junior and senior high school buildings to include elementary school buildings in Community School District 20 in Brooklyn. The \$415,000 will provide salaries and support for such elementary school security officers.

DIVISION OF CRIMINAL JUSTICE SERVICES
(continued)

N.Y.S. Defenders' Association. The State has funded the N.Y.S. Defenders' Association since 1981 in order to provide broad-based defender support services on a statewide level. Over the past four years, the Association has provided legal research and consultation on over 4,000 requests by public defense attorneys. Such assistance encompasses legal memoranda, analyses of briefs, consultation, videotaped court simulation, workshops, and training seminars.

The Association is involved in amicus curiae work. It provides a referral service to help defenders obtain expert witnesses, investigators and attorneys with particular expertise, and it collects and disseminates briefs and other material to provide defense attorneys with legal research capabilities. It also provides technical assistance to both State and local governments, provides evaluative seminars and engages in research and data retrieval covering various aspects of the criminal justice system.

Offender Aid and Restoration of Western New York, Inc., (OAR/WNY). (OAR/WRY) delivers a wide variety of services to ex-offenders and their families. OAR/WRY conducts workshops that train ex-offenders in setting employment goals and completing applications. Ex-offenders learn about employer expectations and techniques for successful job interviews and job retention. The family services program delivers support and counseling to families before, during, and after the offender's incarceration and helps the family in making requests for assistance through social service agencies. The program seeks to address the needs of the ex-offenders in order to facilitate their successful reentry into society.

Prisoners' Legal Services. Prisoners' Legal Services of New York (PLS) provides legal assistance to inmates of New York's 38 State correctional facilities who have no other legal representation, are financially unable to retain counsel and cannot obtain legal assistance from any other legal services organization. PLS began in 1976 with federal grant funds, and since 1978 has been supported by the State.

With a central office in New York City, Prisoners' Legal Services maintains six field offices, located in Albany, Buffalo, Ithaca, Plattsburgh, Poughkeepsie, and New York. The types of cases handled by Prisoners' Legal Services are grouped into three general categories: 1) post-conviction matters, such as sentence computation and determination of parole eligibility; 2) institutional problems, such as disciplinary procedures and living conditions; and 3) a wide range of civil and domestic law problems, such as matrimonial actions and custody proceedings. These legal services have succeeded in providing for reasonable and satisfactory resolution of inmate problems and grievances. As a result of this kind of assistance to indigent inmates, Prisoners' Legal Services also serves the State's court system, to the extent that it screens complaints from its inmate clients and diverts from the courts potential litigation which is deemed to be without merit.

DIVISION OF CRIMINAL JUSTICE SERVICES
(continued)

Soft Body Armor Reimbursement Program. Effective April 1, 1984 a bill became law which amended the Executive Law in relation to providing for State reimbursement to municipalities, public authorities, and public benefit corporations for expenses incurred in the purchase of soft body ballistic armor vests for police officers. The Soft Body Armor Vest Reimbursement Program was initiated in the Department of Labor in 1981.

Section 837-d of the Executive Law effectively repealed Article 17-A of the Labor Law and empowers the Commissioner of the Division of Criminal Justice Services to certify vouchers for the State Comptroller for reimbursement payments.

The responsibility for implementation and regulation now rests with the Commissioner of the Division of Criminal Justice Services. Due to the specific law enforcement nature of the project, the practical operational functioning of the program was assigned in April of 1984 to the Bureau of Municipal Police, Police Training and Administrative Services Section.

No information relative to expenditures is available prior to the Division of Criminal Justice Services' involvement in the project.

Special Narcotics Court Program. The Special Narcotics Court Program (SNP) was initiated by Chapter 462 of the Laws of 1971 as a legislative response to the need for an efficient, specialized, and coordinated narcotics prosecution effort in the City of New York.

Pursuant to this legislation, a Special Narcotics Prosecutor was appointed by the five District Attorneys in New York City. He is centrally located, with offices in lower Manhattan, and is responsible for the citywide prosecution of narcotics cases, as well as convening a special citywide Grand Jury.

In addition to providing for the office of the Special Prosecutor, the legislation provides for the creation of twelve new criminal court parts, primarily concerned with the handling of narcotics cases. Extensive reorganization of the court system by the Office of Court Administration has resulted in the integration of the twelve narcotics parts with other criminal parts in the New York City Supreme Court.

The State continues to fund up to 61 percent of the costs of the office of the Special Narcotics Prosecutor and an enhanced level of criminal parts, as well as the supportive services rendered by the City Departments of Probation and Corrections and the Legal Aid Society. The City contributes the remaining 39 percent.

Special Warrant Enforcement Enhancement Program. Governor Cuomo and the Legislature established the Special Warrant Enforcement Enhancement Program

DIVISION OF CRIMINAL JUSTICE SERVICES
(continued)

(S.W.E.E.P.) in September 1984 in response to a growing backlog of outstanding criminal warrants. S.W.E.E.P. provided \$2.5 million in State funds to assist 21 law enforcement agencies in apprehending their most serious felony warrant suspects. The goal of the program is to provide funding assistance for additional enforcement personnel for short term, intensive warrant enforcement in the localities with the most severe felony warrant backlogs. These personnel are assigned on a temporary basis to enhance existing warrant enforcement efforts. A total of 5,947 warrants were cleared under S.W.E.E.P. including 1,818 violent felony and 2,590 felony warrants.

Suffolk County Criminal Justice Coordinating Council Re-Route Transitional Program for Ex-Offenders. Transitional services program designed to expedite the reintegration of ex-offenders into the community upon their release from Suffolk County Correctional facilities. A multi-service, multi-disciplinary, inter-agency approach including therapy, family counseling, supplementary education, job training, job placement, legal aid, needs-based payments, and linkages to services for areas outside the program's scope.

Target Crime Initiative Program. The Target Crime Initiative Program (TCI) was created April 1, 1983 as the result of a recommendation by the Governor to the Legislature. Three prosecution programs, the State Felony Program, Major Violent Offense Program, and the Major Offense Prosecution Program, were merged into one comprehensive anti-crime package to eliminate overlapping and duplicated program services. The primary goal of TCI is to combat violent felony crime and target on the swift adjudication of habitual and violent offenders. Specific program objectives include reducing the caseloads of TCI attorneys, increasing the number of indictments against repeat offenders, eliminating plea bargaining except under extraordinary circumstances, increasing the rate and level of convictions, and increasing the number and length of prison sentences for TCI defendants. The number of counties participating in TCI has been expanded from 18 to 27, and now includes those counties reporting 97% of the violent felonies in the State.

Transit Crime Interdiction Program. In April 1985, the Transit Crime Interdiction Program was established. This program supports a Decoy Unit of 24 officers and 3 supervisors. Members of the Decoy Unit analyze crime patterns on the subway system and then pose as persons likely to be victimized in order to catch offenders in the act of committing serious crimes. Through the end of October 1985, the Decoy Unit made a total of 460 felony arrests of which 443 were made on the subway, 2 on buses, and 15 off the transit system. Of the 405 adult offenders arrested, 292 had prior arrest records, including 224 which had prior felony arrests.

Transit Strike Force. In response to growing public outcry over subway crime, Governor Cuomo and the State Legislature provided 3.5 million dollars for the establishment of the Transit Police Strike Force on April 1, 1983. The Strike Force generates a target list of violent or repeat offenders operating on the

DIVISION OF CRIMINAL JUSTICE SERVICES
(continued)

subway system. The crimes include homicide, kidnapping, forcible rape/sodomy, and robberies which are targeted along with suspects who have been arrested for five or more larcenies from the person such as pickpocketing or jostling. These targets receive special handling when arrested to ensure their removal from the subway system. During 1984, the Strike Force arrested 1,866 persons as target offenders or for committing target crimes. Of these, 908 were augmented by the Strike Force's Major Case or Robbery Squads resulting in 907 felony arraignments. An additional 41 non-target cases were augmented, bringing the total number of offenders augmented to 949. The Apprehension Unit of the Strike Force targets pickpockets, jostlers, and bagopeners, and arrested 416 persons for such offenses in 1984.

Community Patrol Officer Program. DCJS will administer a grant to the Vera Institute to conduct a two-year evaluation of the Community Patrol Office (CPO) program.

The CPO program is an innovative effort to foster improved police-community relations and enhance the ability of the police to address crime and order maintenance problems in target areas. The program is staffed by 250 volunteer police officers and sergeants, who are assigned to designated beats consisting of approximately twenty square blocks.

Vera Institute staff served as consultants to the New York City Police Department during the planning of the CPO concept, and closely monitored pilot testing of the project. Fifty beats will be randomly selected for an evaluation sample, and a variety of techniques will be employed in the comprehensive analysis covering every aspect of the program.

Westchester Datafacs. The Westchester Datafacs System is a regional network of nine photofacsimile transmitters placed strategically throughout the country to service the Criminal History Record Information requests of forty local police departments. The Criminal History Record Information, or "rap-sheet," is transmitted from the Criminal History Repository located at the Division of Criminal Justice Services in Albany to the requesting local police department. In turn, the information is then forwarded to the District Attorney and Court enabling the presiding judge to make a better informed bail/bond or release decision.

Information expedites the criminal justice process and serves to reduce the number of defendants detained in the County Jail facility. In this sense, the Datafacs System is truly an alternative to incarceration.

DIVISION OF PAROLE

Parole Resource Center. The Parole Resource Center (PRC) provides the Division of Parole with the capability to contract with community-based service providers for housing and programming of selected individuals released to community supervision. This structured environment has provided the Board of Parole with an alternative to continued incarceration of individuals in need of supportive services in the community. The PRC provides a reasonable level of assurance that individuals in need of a structured setting upon release are provided with an opportunity to participate in community-based programs which will lead to their long-term success in life styles.

Parole Transitional Facilities. The Parole Transitional Facility Program (PTF) functions in much the same manner as does the Parole Resource Center (PRC). The basic difference is in the point of entry into the Program. The PTF provides the Parole Board with an alternative option for dealing with rule violators whose reimprisonment would serve little or no purpose. The use of a crisis intervention treatment approach provides short-term services in a semi-structured residential setting in the community rather than in the detached surroundings of a correctional facility.

Employment Services Project. Employment is a key element in the successful adjustment to community life upon release from a correctional facility. Funding has been provided to enhance the Division's efforts in employment training and placement services. Contracting with the Vera Institute of Justice for services under its Vocational Development Program, the Division of Parole can provide developmental employment services and increase its private sector job placement services. In addition, Vera will assist the Division of Parole in the training of its employment services staff to maximize the employability and placement capability and in long range strategic planning to improve services performance.

DIVISION OF PROBATION AND CORRECTIONAL ALTERNATIVES

"Classifications/Alternatives" Bill. The "Classifications/Alternatives" bill (Chapters 907 & 908, Laws of 1984) was enacted on August 6, 1984 to help reduce overcrowding pressures in the county jails, to facilitate more efficient and practical jail population management, and to support the development and implementation of alternatives to incarceration. The statute reflects a unique and effective linkage of two distinct criminal justice issues to facilitate reduced reliance on confinement and more efficient utilization of that significant scarce resource -- jail beds. This legislation reduces the number of state mandated classification categories in local correctional facilities from twelve to four. However, in order for a county to take advantage of this reduced classification system, it must prepare and carry out a service plan (approved by the Division of Probation and Correctional Alternatives) for the development and implementation of alternatives to incarceration. The service plan must be the collaborative product of a county advisory board composed of the key criminal justice decision makers, and must present a comprehensive overview of the local criminal justice system which serves to identify target populations, factors contributing to overcrowding, programmatic needs, and specific proposals for the use of state aid available under the bill. In fiscal year 1986-87, a total of \$3,050,000 was available to all counties and the City of New York. These funds are to be distributed according to a modified population-based formula outlined in the statute.

In the two and one-half years that have passed since enactment of this legislation, important and far-reaching changes have taken place in the activities and organization of local criminal justice systems. Almost eighty percent of the jurisdictions in New York State have taken advantage of the bill's provisions. Forty-four counties and the city of New York submitted alternatives to incarceration service plans and have now implemented alternatives to incarceration programs. During State fiscal year 1986-87 (the second year of funding) a total of 67 programs were supported and operated consistent with the counties' service plans.

Demonstration Projects. These projects generally fall into one of four program models: community service, defendant-based advocacy, pre-trial, and offender rehabilitation/specialized services. In FY 1986-87 there were 31 such projects. During the current fiscal year, FY 1987-88, 28 of these 100% State funded projects are expected to provide services to more than 15,000 clients.

Demonstration projects are designed to reduce the incidence of incarceration through the use of community-based alternatives that emphasize public safety and cost effectiveness.

Intensive Supervision/Alternative Sentencing Program. The Intensive Supervision/Alternative Sentencing Program (ISP/ASP) is intended to provide a viable dispositional option to the courts. A cooperative effort between State and local jurisdictions, ISP/ASP provides fiscal resources to support a program model which emphasizes strict supervision and complete accountability to sentencing courts.

DIVISION OF PROBATION AND CORRECTIONAL ALTERNATIVES
(continued)

The program focuses on two discrete groups from among the much larger, generally successful probation population: felony offenders sentenced to probation only because ISP/ASP supervision is available; felony and misdemeanor probationers statistically least likely to successfully complete their sentences.

During FY 1985-86, a new aspect of this overall program has been added called the Conditional Order of Probation Experiment (COPE). This new effort provides for a limited demonstration period in which the suitability of an offender for probation sentence may be determined.

PINS Adjustment Services Act. Chapter 813 of the Laws of 1985 is an important new program intended to decrease the inappropriate utilization of the Family Court process and the number of out-of-home placements in matters involving persons alleged to be in need of supervision (PINS). It is the purpose of this law to implement assessment, planning, and service delivery strategies Statewide that can support successful diversion of PINS from the family court process. The Act establishes a four year period, beginning January of 1987 and ending on December 31, 1990, during which localities may voluntarily implement the provisions of the Act. The Act encourages localities to set and accomplish long-term goals in planning for the delivery of a comprehensive array of services to meet the needs of these youths and families. To assist localities in coordinating and strengthening services for this population, the law provides short-term enriched incentive funding during the four year voluntary implementation period.

The January 1986-87 initial appropriation of \$1 million is targeted for a start-up date of January 1, 1987.

Regular State Aid. Section 246 of the New York State Executive Law provides for financial assistance from the State to localities for probation operations "...for control and rehabilitation of offenders." In order to receive these funds to develop and improve services, local probation departments must operate according to approved programs within the Division's Rules and Regulations. Current reimbursement is set at 46.5 percent of approved expenditures for maintaining and improving probation services.

During FY 1982-83 a special Warrant Enforcement Unit was funded in New York City under this program.

DIVISION FOR YOUTH

Community Based Organization. The Community Based Organization (CBO) Urban Home Initiative is a 100 percent State funded initiative which provides residential services for up to one year for youth ages 16-21. There are currently two line item appropriations which support two programs in New York City (one for older homeless youth and one for Juvenile Offenders on parole); and one program in the City of Buffalo which services young mothers and their children.

Community Care Program. In response to concern over the increasing costs of residential care, recidivism, and the importance of the post-release period to a successful return to community life, the Division funds a new direction in, and emphasis on, aftercare services. The initiative, which was designed to establish, for the first time, joint State/local cooperation in planning and implementing post-institutional follow-up services, will facilitate the successful transition of youth released from DFY residential placement to their communities.

Secure and Non-Secure Detention Services. Designed to provide 50 percent fiscal support to localities operating secure and/or non-secure detention programs. These funds provide the Division with the leverage to assure compliance with rules and regulations governing detention facilities. The non-secure aspect of this program has been steadily expanding to accommodate the more difficult youth in the least restrictive environment.

Job Development. The New York State Division for Youth contracts with community based organizations to provide employment/training transitional services to Division youngsters recently released or about to be returned from residential care. The Division funds programs which manifest an ability to build on the vocational foundations established during the youngster's facility placement.

Runaway and Homeless Youth Services (RHYA)/Transitional Independent Living Support. Gives the Division the authority and financial capability to support and encourage the continued establishment of local programs to serve runaway and homeless youth. This request reflects the programmatic agenda and fiscal requirements necessary to maintain and expand this program. Statutory provisions, which were modified during 1985, permit the expansion of this program into the area of providing services to the homeless and transitional youth up to age 21 and beyond the crisis services by which DFY was formerly limited.

Special Delinquency Prevention Program. Provides 100 percent funding for community-based youth services targeted at youth at risk to help prevent unnecessary or further involvement with the justice system. Allocations are based on a combination of youth population and/or needs assessment data.

DIVISION FOR YOUTH
(continued)

Special Legislative Contracts. A legislative initiative providing funds for new or expanded youth centers, career counseling, and recreation programs.

Voluntary Agency Care. Designed to provide 50 percent fiscal support to local Departments of Social Services who are responsible for payment for care of PINS and JD youth involuntary child care agencies. This request allows the Division to provide support and technical assistance to local departments and voluntary agencies to improve services to troubled youth.

Youth Development and Delinquency Prevention. Provides local community psycho-social and recreational programs for youth through county and municipal youth bureaus. Implementation is aided through programmatic support from Division field staff and financial assistance provided by the state aid formula of Article 19A of the Executive Law. This budget request focuses on both the programmatic and fiscal aspects of YD/DP and Youth Initiatives in creating more effective local youth services that address the pressing needs of youth.

OTHER CRIMINAL JUSTICE AGENCIES

Salaries of District Attorneys. Pursuant to County Law 700, Chapter 986, Laws of 1984, \$10,000 per year is apportioned to all qualified upstate counties and to New York City for each of the counties therein for the salaries of district attorneys elected, re-elected, or appointed after April 1, 1970. Beginning in September 1985 and each year thereafter, an eligible county shall receive the difference between the base salary of the county district attorney on January 1 of the current year and December 31 of the prior year.

STOP Program - Drug Residence Project. The Selective Treatment Options for Parolees (STOP) Project is a cooperative effort involving State criminal justice and human services agencies to establish community-based residential treatment programs for parolees in need of chemical dependency services. The STOP Project facilities, which will be established through contracts with community-based service providers through the Division of Substance Abuse Services, will function in much the same manner as Parole Resource Centers except that the programs are targeted for individuals with drug abuse histories. Responsibility for the administration of this program was transferred from the Division of Parole to the Division of Substance Abuse Services in FY 1987-88.

² On April 1, 1985, the Alternatives to Incarceration Program was transferred from the Division of Criminal Justice Services and combined with the Division of Probation to form the Division of Probation and Correctional Alternatives. The Alternative to Incarceration Program expenditures from FY 1982-83 through 1984-85 are included with the expenditures reported for this newly formed agency.

³ The FY 1985-86 DFY budget increased 58 percent over the appropriation for the previous fiscal year as a result of Governor Cuomo's recommendation. This increase allowed DFY to pay for current programs and also eliminate arrearages.

⁴ The Office of the State Comptroller administers this program.

¹ This table presents local assistance program funds that are disbursed in ways which preclude accounting for them at either the county or the New York City level. In addition, Statewide "appropriations" may include funds that had not yet been disbursed at the time these data were submitted for this publication.

² This program was implemented in FY 1984-85. FY 1985-86 appropriation of \$1,000,000 was reappropriated for FY 1986-87 and again for FY 1987-88.

³ No funds were appropriated for this program in FY 1982-83.

⁴ Agencies are reimbursed for expenditures from the "NYC" and "Statewide" (non-NYC) lump sum appropriations for this program.

⁵ FY 1985-86 was the first year the State received these federal block grant funds. Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁶ Expenditures and estimated appropriations for this federally funded program are based on the State's fiscal year.

⁷ This federally funded program was implemented in FY 1987-88. Appropriations are based on the State's fiscal year.

⁸ This Act was established in FY 1983-84.

⁹ In FY 1984-85 the administration of this program was transferred from the Department of Labor to the Division of Criminal Justice Services; county level expenditures for FY 1982-83 and FY 1983-84 are not readily available. Agencies are reimbursed for expenditures from the 'Statewide' lump-sum appropriation for this program. Unallocated FY 1985-86 monies were reappropriated for FY 1986-87.

¹⁰ This program was implemented in FY 1984-85.

¹¹ This program was implemented in FY 1983-84. The FY 1982-83 funds are the combined expenditures of the three programs that were merged to form TCI: the State Felony Program, the Major Violent Offense Trial Program, and the Major Offense Prosecution Program.
