Preface

The 1983 National Jail Census, the fourth enumeration of local confinement facilities since 1970, was authorized by the Omnibus Crime Control and Safe Streets Act of 1968, as amended (42 U.S.C. 3732), to assess the needs of the Nation's jails.

The findings of this report were made possible through the patient efforts of administrators and practitioners in the Nation's local correctional facilities. BJS hopes that these data will be useful to Federal, State, and local correctional administrators, researchers, practitioners, and academicians in understanding the characteristics and needs of local correctional facilities.

The 1983 National Jail Census collected data on facilities, inmates, programs, employees, and expenditures for local correctional facilities throughout the country.* The reference date for the census was June 30, 1983. Annual data are for the fiscal year as defined by each facility.

Detailed findings of the 1983 Local Jail Census are presented in five volumes, available separately or together:

FROM THE DIRECTOR
BUREAU OF THE CENSUS

On behalf of the Bureau of Justice Statistics of the Department of Justice, the Bureau of the Census is conducting a census of the Nation's jails. The purpose of the census is to obtain current information on the Nation's jail facilities. This information was last collected from all jails in 1978. The data will be used to assess the needs of the Nation's jails and will be made available to state and local correctional officials and the public.

In order to complete data collection as soon as possible and permit early publication of census results, we will appreciate a prompt response, preferably within 3 weeks. If there are any items on the questionnaire for which answers cannot be readily obtained from available records, please provide reasonable estimates and indicate them with an asterisk (*). If we can be of help in completing the questionnaire, please call the Bureau of the Census on (301) 763-2896.

This report is authorized by the Omnibus Crime Control and Safe Streets Act of 1968, as amended (42 U.S.C. 3732). Although response to this Census is voluntary, your participation is needed to make the results of this census comprehensive, accurate, and timely.

Sincerely,

BRUCE CHAPMAN

Report to the Nation on Crime and Justice on Slides!

Now you can take data from *Report to the Nation* on the road. The Bureau of Justice Statistics (BJS) has converted the book's charts, maps, and graphs to slides. The slides are designed for showing at public and community forums, conferences, and in classrooms and training academies.

More than 125 slides present a statistical portrait of crime and justice in the United States. Each slide is coded for ready reference to the full text

of the second and most current edition of the *Report*, so a full presentation can be easily created.

Slide topics highlight criminal justice issues of the 1980s—How much crime is there? Who does it strike? When? Where? Who is the typical offender? What happens to convicted criminals? What are the costs of justice? Who pays?

The slides span the gap between researchers and the people who need answers about crime.

Crime and Older Americans Information Package

- Are older Americans more likely to be victims of crime than younger age groups?
- Are the elderly being arrested for certain crimes more frequently than in the past?
- Are offenders in crimes against the elderly more likely to be strangers or nonstrangers compared to other age groups?

A new information package available from the Justice Statistics Clearinghouse answers these and other questions about crime and the elderly. Drawing from national sources for crime statistics—including the BJS National Crime Survey, the FBI Uniform Crime Reports, and the BJS National Corrections Reporting Program—the 34-page package discusses the types of crimes in which older Americans are most likely to be victims and offenders, and the types of crime prevention they use.

As the elderly population has grown, so has concern about the effects of crime on this age group.

Population statistics indicate that older Americans are fast becoming a large segment of the total U.S. population. In 1985, Americans 60 years and older totaled 39.5 million—a 21-percent increase over the past 10 years.

This package also includes the names and addresses of associations and organizations that are sources of information about crime and older Americans and a list of further readings.

Crime and Older Americans costs only \$10.00.
