## F O R E W O R D

This report provides an overview of juvenile court dispositions in Pennsylvania. The data contained in this publication are a summary of the information forwarded by all of the juvenile courts in the Commonwealth to the Juvenile Court Judges' Commission during calendar 1987.

It is our hope that the data contained in this report will be informative to the general public and useful to all those agencies and organizations concerned with the problems, issues and needs associated with "delinquent" youth.

This report would not be possible without the financial support of the Pennsylvania Commission on Crime and Delinquency, and the information supplied by the juvenile courts and juvenile probation departments of this Commonwealth. It is with a sincere appreciation of these dedicated people that the Commission presents this report.

Respectfully submitted,

## PREFACE

To avoid confusion regarding the unit of count used in tabulating Juvenile Court Statistics and to improve the understanding of how data can be interpreted kindly note:

1. The primary unit of count is the DISPOSITION. A disposition is defined as a referral disposed by the probation department and/or the court. Within a single referral, a youth may be charged with a number of offenses, and one youth may be involved in a number of dispositions within a calendar year. In addition, a youth may be referred on more than one occasion and receive only one disposition. Therefore, one is cautioned NOT to attempt to interpret the data as: (a) the number of youth who are processed by the court, or (b) the number of offenses charged to juveniles. The use of disposition as the unit of count was selected because it provides the best statistic for indicating how frequently the juvenile court is utilized in dealing with law violating;
2. There are times when you will see the word "CASE" used to describe the data. In JCJC reports the word case is used interchangeably with the word "disposition";
3. Therefore, the UNIT OF COUNT refers to a case disposed by a juvenile court and/or probation department. The term "DISPOSED" means that some definite action/decision has been implemented or that some treatment plan has been decided upon or begun;
4. The data presented in JCJC reports does not constitute a complete and comprehensive measure of the extent of delinquent behavior. Some youth are never apprehended and of those that are apprehended the police, school authorities, or other social agencies divert some cases for intervention outside the juvenile court system. In addition, the statistical system is not geared to collect all charges. The system is constructed to collect up to a total of the four (4) most serious charges per disposition;
5. Some agencies and individuals attempt to utilize the JCJC reports to assess the workload of the juvenile courts and/or probation departments. The data collected by JCJC does NOT reflect the workload of said entities. At best the figures reported by JCJC would reflect only a partial indication of workload and/or activity;
6. The report is limited to disposition data regarding delinquency cases and does not include dependency cases.

Beginning with the 1985 report the Commission collected additional information on placement reviews and selected special conditions attached to the primary disposition(s). In order to maintain the ability to compare disposition information with data reported prior to 1985, this information is not included in the primary tables but is reported in the last several pages of the report.

## SUMMARY OF JUVENILE COURT DISPOSITIONS, 1987\*

There were 29,602 delinquency related cases disposed of in Pennsylvania during 1987. Probation was the most frequently utilized disposition (19.5%) followed in descending order by Informal Adjustment (16.9%), Placement (14.2%), Consent Decree (11.3%), Complaint Withdrawn (10.0%), Warned (8.2%) and Continued on Previous Disposition (5.2%). All remaining dispositions types totaled (14.7%). It should be noted that transfer to criminal court accounted for only (1.0%) of all dispositions.

In 1987, delinquency related dispositions in the State decreased by 6.5% in comparison to 1986 figures. Allegheny County reported a decrease of 6.3% while Philadelphia County reported a decrease of 14.6%. Aggregate dispositions reported by the rest of the counties in the Commonwealth reflect a decrease of 1.5%. The following summary table reflects delinquency related dispositions for the six year period from 1982 through 1987.

The median time lapse for all cases from referral to disposition was 56 days. This is an increase of 5 days or 9.8% compared to 1986 figures. Continuance of Previous Disposition took the longest median time to dispose. The following table summarizes the mean and median time lapse for all dispositions by specific type of disposition.
