October, 1988

PREFACE

It is a privilege to offer the Pennsylvania Department of Corrections' 1987 Annual Statistics Report for Pennsylvania County Prisons and Jails. This report contains a wide-range of statistical and demographic information about the Commonwealth's county prison population.

The statistical information contained in this report is particularly important in light of the recent growth of the populations in the county prisons and jails. We must better understand the characteristics of our local inmate population if we are to understand the problem of prison and jail overcrowding that faces all of us.

I hope you find the report useful, and I want to thank all local correctional administrators and their staffs for assistance in the preparation of this report.
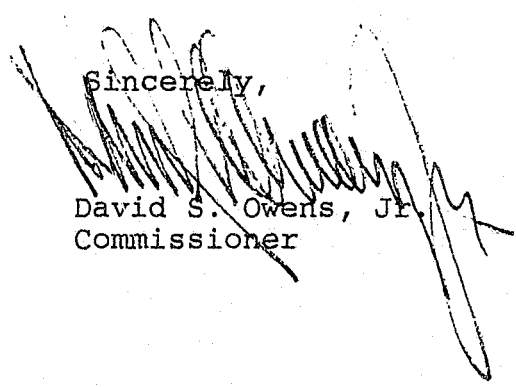

Sincerely,

David S. Owens, Jr.
Commissioner

TABLE OF CONTENTS

INTRODUCTION

The Commonwealth's county prison system is just as diverse as the political and structural make-up of the counties themselves. However, one characteristic binds them together, the recent increase in the county prison population. This report will enable the reader to comprehend the increasing demands placed upon these county facilities, especially when they are reviewed in terms of increasing populations during recent years.

Purpose

The purpose of this annual statistical report is to provide summary data on county prison inmate populations.

Explanatory Notes

Committing county - Where indicated, several tables displaying detail data on defendants sentenced to and released from county prisons and jails are compiled by common pleas court or "committing county." This is necessary because several counties commit or transfer their sentenced prisoners to other surrounding county prisons and jails because of the crowded condition of their own facilities.

Conditional release - This term identifies those parolees who are released under the supervision of the Pennsylvania Board of Probation and Parole (PBPP) or who are paroled directly by the Court of Record (often referred to as "county parole"). Unless otherwise specified, these two groups will be combined in this report.

County prisons and jails - Generally, first through fifth class counties have "prisons" and sixth through eighth class counties have "jails", though local terminology my vary (e.g., Allegheny County Jail). Generally, the county prisons are administered by a prison board and an appointed warden; county jails are usually administered by an elected sheriff. In recent years the county prisons and jails have primarily received only the short-term sentenced prisoners and pre-trial detentioners.

Court sentences - This term identifies those county prisoners committed by a Court of Record to serve sentences for felony and misdemeanor offenses.

Detentioners received - This term identifies those individuals detained prior to trial as well as other prisoners not sentenced directly to the local prisons where they are contained. Detentioners include those individuals who were: (1) held for trial, further hearing, or as a material witness, (2) held for various federal, state or other police authorities, and (3) held for mental examination or observation.

1

Detentioners released - This term identifies those individuals released by the following methods: (1) bail, (2) holding authority (i.e., court, minor judiciary, coroner, etc.), (3) sentenced to local county prison, (4) sentenced to state correctional institutions, (5) sentenced to state regional correctional facilities, (6) by various federal, state, and police authorities, and (7) mental patients released.

Metropolitan Statistical Area (MSA) - The Office of Management and Budget (Federal) has announced the designation of 257 Metropolitan Statistical Areas (MSA's), 23 Consolidated Metropolitan Statistical Areas (CMSA's), and 78 Primary Metropolitan Statistical Areas (PMSA's). An area qualifies as an MSA if there is a city with a population of at least 50,000 or an urbanized area of at least 50,000 with a total population of at least 100,000. If an area has more than one million population and meets certain criteria, that area is classified as a CMSA and its components are considered as PMSA's. MSA's and PMSA's are classified by size as follows:

    Level A - Areas of 1,000,000 or more
    Level B - Areas of 250,000 to 1,000,000
    Level C - Areas of 100,000 to 250,000
    Level D - Areas of less than 100,000

Minor judiciary sentences - This term identifies those individuals who receive sentences by the minor judiciary (district magistrates, justices, etc.) for county prison commitment. (Note: The municipal court in Philadelphia County handles this type of case.)

Part I offenses - In general, Part I crimes are those serious offenses that are reported to law enforcement agencies and are commonly referred to as crime index offenses. Part I offenses consist of murder, manslaughter, forcible rape, robbery, aggravated assault, burglary, theft-larceny, motor vehicle theft, and arson.

Part II offenses - Part II offenses are made up of all other crimes not classified a Part I crime.

Rate per 100,000 civilian population - This term represents the ratio of a prison population with respect to the civilian population of the county.

Sentenced prisoners - In this report, sentenced prisoners include both defendants sentenced by a Court of Record and the Minor Judiciary (district magistrates, justices and etc.) to serve a sentence in a local county prison or jail.

Unconditional releases - This term identifies those sentenced county prisoners who were given a final discharge and are no longer under any type of supervision after their release from county prison. Unconditional releases include the following: (1) expiration of maximum sentence, (2) by court order, (3) by minor

judiciary order, and (4) by payment of fines and costs.

Yearly average daily population - This term represents the cumulative daily inmate population count as of midnight, divided by the number of days in the calendar year.

Source of Information

Information found in this report is based entirely upon monthly and quarterly statistical reports submitted by county prisons and jails to the department's Planning, Research, and Statistics Division, organized under the Deputy Commissioner for Administration. The data is then edited, corrected, and summarized for input into this report.

SELECTIVE NARRATIVE SUMMARY

Population Trends

Even though several county prisons are under court order to limit or reduce their inmate population, populations in Pennsylvania county prisons and jails have doubled during the last ten years. Since 1978, the yearly average populations in these correctional facilities increased by 6,781 or 105.7 percent, from 6,414 in 1978 to 13,195 in 1987.

Characteristics of Inmate Population

A review of the statewide county prison inmate population on December 31,1987 revealed the following:

1. 54.3% were white; 45.7% were non-white;
2. 93.7% were males; 6.3% were females;
3. 30.5% were confined in Philadelphia County Prisons;
4. There were 107.5 county prisoners per 100,000 civilian population;
5. 40.3% were sentenced; 59.7% were detentioners (unsentenced).

TOTAL POPULATION VS DETENTION POPULATION
DECEMBER 31, 1977 TO 1987
Admissions

During 1987, there were 100,681 admissions to county prisons and jails. As expected, 77,512 (77.0%) were detained for various reasons and the remaining 23,169 (23.0%) were sentenced to serve short-term sentences in local correctional facilities. Drunken drivers represented 40.1 percent of all defendants sentenced to county prisons and jails in 1987. The average maximum sentence of all sentenced prisoners was 443 days and their average age was 30.4 years.

4

Releases

During 1987, 15,282 or 69% of all sentenced prisoners released from county prisons and jails were placed under supervision of state and county paroling authorities. Sentenced prisoners released served an average of 94.9 days; 36.3 percent of these served from one to fifteen days. Of the 77,635 detentioners released in 1987, 29,340 or 37.8 percent were released on bail, 37,605 or 48.4 percent were released from detention by various authorities, and only 10,690 or 13.8 percent were sentenced to state and local correctional facilities.

The Largest County Prisons

In 1987 twenty-seven counties had average populations exceeding 100 prisoners that accounted for 88.9 percent of the Commonwealth's total population in local correctional facilities. County prisons averaging over 300 prisoners were: Philadelphia (4,092), Allegheny (979), Delaware (592), Montgomery (589), Bucks (536), Chester (455), Dauphin (437), Lancaster (376), Berks (362), Lehigh (358), York (344), and Northampton (312).

Driving Under the Influence

Defendants convicted and sentenced to county prisons and jails for driving under the influence (drunken driving) increased by 2,198 or 31% from 7,089 in 1986 to 9,287 in 1987. Since 1983, the number of drunk drivers sentenced to county prisons and jails increased by 6,400 or 221.7 percent from 2,887 in 1983 to 9,287 in 1987. Drunk drivers released during 1987 served an average of 27 days and 59 percent of them served fifteen days or less.

1986	16,239	4,209	73,572	7,060	12,917	72,790
1987	19,581	3,588	77,512	6,866	15,282	77,635

* Represents prisoners sentenced to serve time in local county correctional facilities.

NOTE: Since the above data does not include admissions and releases such as transfers,
       outmate and weekend movements, and miscellaneous movements (too numerous to mention),
       the above totals will not balance with end-of-year population counts.

TOTAL	102	78	86	94	140

45

a.   Not calculated for base populations under 25.

b.   Less than one yearly average prisoner.

c.   Closed

d.   Forest County Jail is functioning only as a 48 hour holding
     facility. Sentenced prisoners are transferred to Warren
     County Jail and are included in Warren's totals.

Table 10

*   Ratio for 1986 are based on population estimates for July 1,
     1985.

**   Ratio for 1987 are based on population estimates for July 1,
     1986.

They are produced jointly by the Pennsylvania State Data Center,
Pennsylvania State University Capitol Campus, and the U.S. Bureau
of the Census.

Table 16

*   Murder includes 3rd degree and unspecified murder only

**   Manslaughter includes a total of 87 homicide by motor vehicle
