AN ANALYSIS OF PART I CRIME 1987

A number of observations can be made as a result of the Crime Analysis compiled by the Criminal Justice Coordinating Council.

- . Part I (MAJOR) CRIMES increased by 1.6% from 1986 to 1987.
- . VIOLENT CRIMES increased by 2.8% from 1986 to 1987.
- . The Clearance Rate for MAJOR CRIMES increased from 15.4% in 1986 to 16.6% in 1987. The Clearance Rate increased for Larceny (15.1% - 1986 vs. 17.1% - 1987) and Robbery (27% - 1986 vs. 29.2% - 1987) over the prior year.
- . Of the 1,669 ROBBERIES in 1987, a handgun was used in 442 incidents and 115 of these incidents occurred in the street. This represents a 37.2% decrease when comparing the same factor to 1986.
- . Overall PROPERTY CRIME increased 1.5% from 1986 to 1987. There was no significant change in the number of Robberies and Burglaries from 1986 to 1987.

AN ANALYSIS OF THE TEN YEAR (1978-1987) TREND IN PART I CRIME

- . The total number of Part I crimes for 1987 (44,469) as compared to 1978 (50,720) represents one of the lowest reported crimes in this ten year period.
- . We note that during this ten year period 1978-1987 there was an overall decrease of 12.3% in total crime. However, there was an increase of 55.7% in VIOLENT CRIMES, specifically the crimes of ROBBERY increased (44.1%), ASSAULT (67.2%) and MURDER (104.5%).
- . Our analysis also indicates that there was an increase of 83% when comparing Violent Crime to Property Crime Ratio from 1978 (.0437) to 1987 (.0803).
- . For the period of 1978-1987 PROPERTY CRIME decreased by 15.3%. There were also significant decreases in BURGLARY (26.3%) and LARCENY (16.9%) during the ten year period 1978-1987.

AN ANALYSIS OF THE TEN YEAR 1978-1987 TREND CRIME RATE PER 100,000 POPULATION

- . A review of TABLE II, indicates that the total number of VIOLENT CRIMES per 100,000 has increased 105.4 per 100,000 when comparing 145.8 per 100,000 in 1978 to 251.2 per 100,000 in 1987.
- . In contrast, PROPERTY CRIME has decreased 209.1 per 100,000 when comparing 3336.2 per 100,000 in 1978 to 3127.1 per 100,000 in 1987.

AN ANALYSIS OF ROBBERY 1979-1987*

- . A review of TABLE V indicates an increase of 28.6% in the incidence of ROBBERY when comparing 1979-1987. This increase can be attributed to the increase during this period in the frequency of convenience stores (149%), gas station (111%) and residential (82%) robberies.

AN ANALYSIS OF BURGLARY 1978-1987

- . An examination of TABLE I indicates a decrease of 26.3% from 1978-1987. This is the seventh consecutive year that the incidence of BURGLARY has declined from a high of 15,687 in 1980 to 9,068 in 1987.

ANALYSIS OF RESIDENTIAL BURGLARY 1981-1987*

- . An examination of the seven year trend of BURGLARY in Nassau County indicates that Residential Burglaries continue to be the prime target.
- . When comparing 1981 (70%) to 1987 (66%) the percentage of Residential to total Burglaries has remained constant.

*Prior years data not available.

PART II INCIDENTS 1978-1987

SECTION IV

INCIDENCE OF CRIME TYPE BY COMMUNITY

Table IX provides a record of criminal incidence by the community of occurrence. In order to compile the number of criminal incidents per community and then compare that analysis with the appropriate geographical/demographical locale it is necessary to utilize three complete sets of source documents. The communities are those as identified by the Nassau Police Department's location codes and are delineated as combined Incorporated Villages and Unincorporated statistical areas. The population data was arrived at from a LILCO estimate from Jan. 1, 1987 which in turn is based upon the April 1, 1980 census. The number of criminal incidence per community have been extrapolated from the Uniform Crime Reports of both the Independent Police Depts. and the Nassau County Police Dept.

Inconsistencies evident in the comparison of the above source documents do not obscure the essential validity for their use. In some cases communities or areas may exist for the N.C. Police Dept. crime reporting procedures but do not have separate data for census purposes. When this occurred several reports were analyzed and combined to obtain a "best fit" and these communities were then marked with footnotes.

We note in this analysis that in approaching the community by community analysis there are several factors that tend to detract from absolute reliability of such comparison. Two of these factors are: difference in definition or interpretation of what criminal incident occurred as recorded by different Police Depts. and differences in community boundaries as defined by the Nassau County Police Department and the U.S. Census Bureau.

TOTAL CRIMINAL INCIDENTS

While there are some areas that have offense levels that are much higher than the County norm, generally, crime in Nassau County remains a dispersed phenomenon. Indicative of this is the fact that the communities with the highest concentrations of population consistently have the highest number of reported (see TABLE XA) crimes. The increase in the number of criminal incidents in Nassau County for 1987 is also reflected in increases in the reported incidents in the majority of the ten communities with the greatest number of crimes.

NASSAU COUNTY
CRIMINAL JUSTICE COORDINATING COUNCIL
AN ANALYSIS OF
FELONY CASE PROCESSING
IN
NASSAU COUNTY
1983-1987

PREFACE

METHODOLOGY OF REPORT PREPARATION

The Criminal Justice Coordinating Council has prepared an analysis of Felony Case Processing comprising the years 1983 thru 1987. In preparing this study, CJCC has utilized the District Attorney's Management Information System known as D.A.I.S.. This computer system is programmed to follow the progress of criminal cases from their entry into the system and during their flow within the judicial system. This information system, CJCC believes, provides an accurate and detailed account of criminal case data in Nassau County.

What has emerged as a result of this coordinated effort is an ability to observe and analyze the processing of cases in Nassau County.

SECTION I

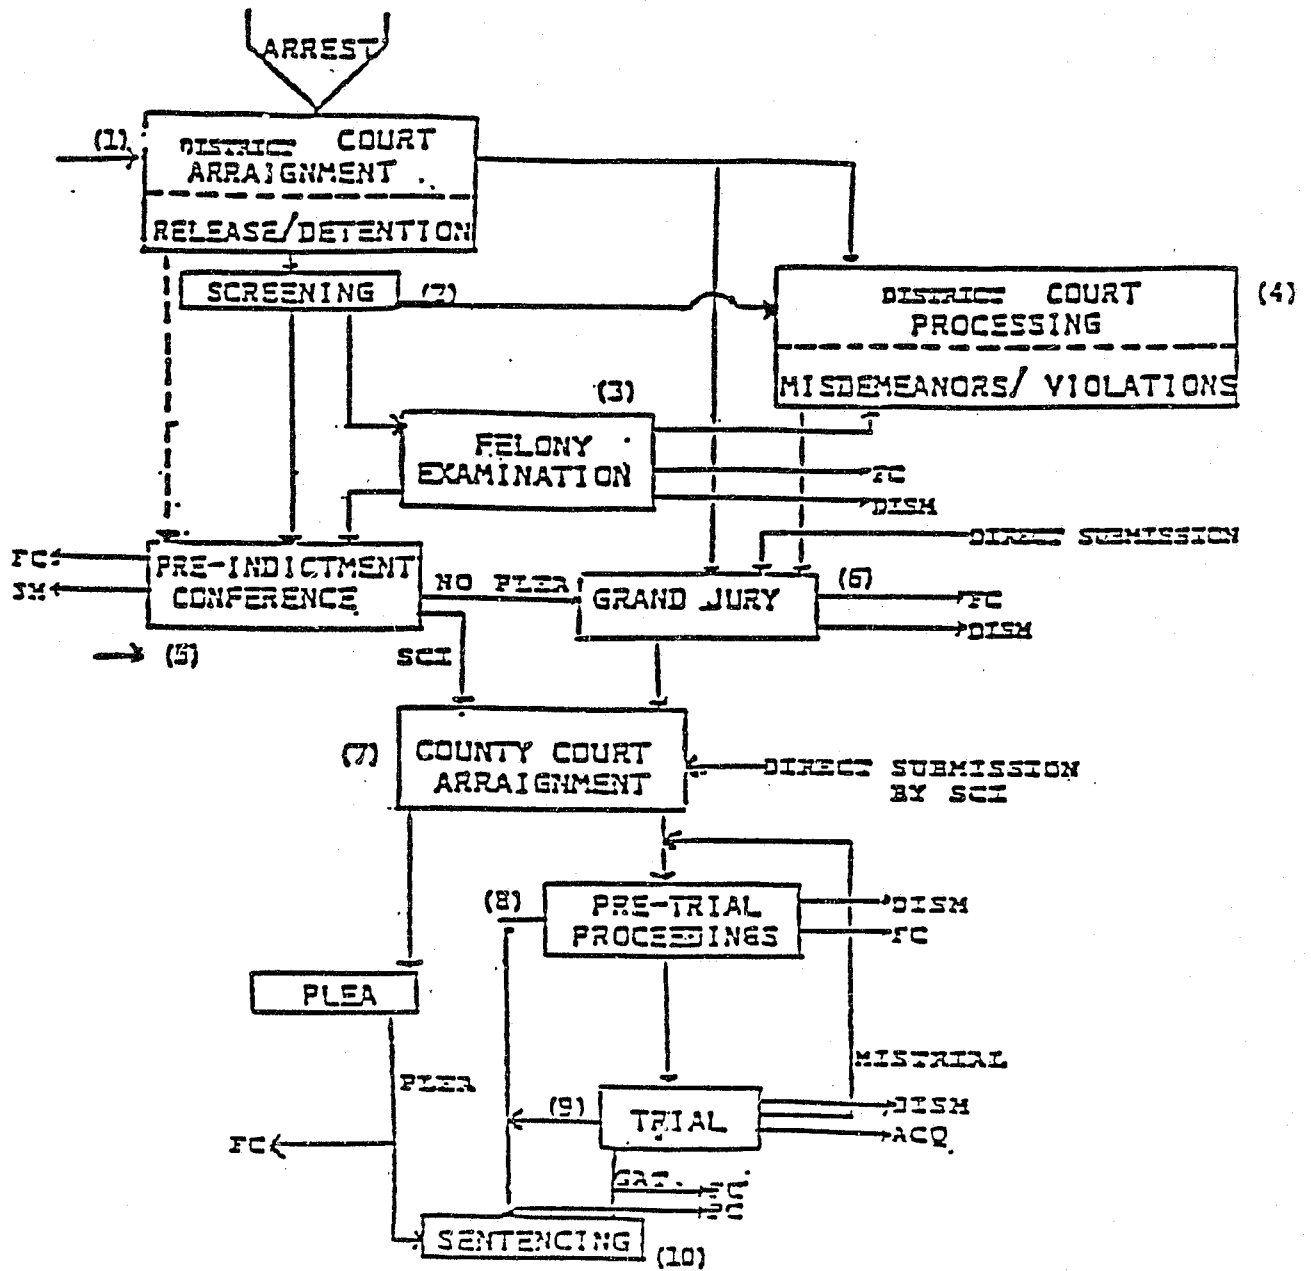

OVERVIEW OF FELONY CASE PROCESSING FLOW

Upon an arrest, the arrestee is brought to District Court Arraignment Part, where there is a reading of an accusatory instrument, together with a setting of bail. The defendant is then given the opportunity to retain a lawyer. If the defendant cannot afford one, a lawyer will be appointed by the Court.

The case then proceeds to the District Attorney's Screening Unit to determine the scope of prosecution. The case is placed on the Felony Screening calendar for conference. If a misdemeanor plea is agreed upon, the case is then disposed of in District Court. The defendant may request as a matter of right a felony examination (which is waived in the majority of cases). In the event defendant exercises the right to a felony examination, a hearing is held before a District Court Judge to determine if there is a reasonable cause to believe that a felony was committed by the defendant, and whether the case should be held for the action of the Grand Jury. In any case, the defendant may request a pre-indictment conference in County Court where the matter may be disposed of through a plea of guilty to a Superior Court Information. If no plea is agreed upon the case will then be presented to the Grand Jury. If the Grand Jury hands up an indictment, the defendant will be arraigned in County Court and the case will then proceed to trial, unless the defendant pleads guilty to the highest count of the indictment.

SECTION II

DISTRICT COURT ACTIVITY PERTAINING TO DISPOSITION OF FELONIES

In the development of a Criminal Justice Management Information System, of which this report may be considered a part, the key elements are: 1) the number of reported criminal incidents, 2) the number of arrests resulting from those incidents, 3) the number of cases prosecuted as a result of arrests and 4) the number and type of convictions and sentences resulting from the cases that are prosecuted. A shortcoming of the previous case processing reports was that the number of dispositions appeared to be far lower than the number of felony cases filed. This was due to the fact that the cases which were filed as felonies and disposed of as misdemeanors in District Court were not included. Thus, in the interest of presenting a more definitive picture of the actual workings of the prosecutorial and court components of the system, we are including a description of the felony cases that were disposed of in District Court as non-felonies.

SECTION III

ANALYSIS OF HIGH CHARGE AT ARREST VS
CHARGE AT CONVICTION

Some of the factors that impact on the analysis of pleas of guilty are: 1) the possible over-charging of a defendant; 2) the reactivation of cases from long-outstanding indictment warrants when a defendant is finally apprehended; 3) the legal problems in proving certain cases; and 4) the reduction of charges in exchange for a defendant's guilty plea, consistent with normal District Attorney's office policies.

Table XIII shows a comparison between the initial highest charge at arrest and the charge at point of conviction whether by guilty verdict after trial or by plea of guilty.

Charge reductions shown in the guilty verdict after trial columns, in Table XIII on page 102 and 103, are not the result of plea negotiations, but rather are a result of the trial process.
