CRIME IN KANSAS, 1988 contains statistical information documenting the status of crime during calendar year 1988. This publication is based upon reports received from over 350 local and state law enforcement agencies. Their participation and assistance in providing this data is greatly appreciated. The various tables and graphic presentations can be a valuable planning tool for the criminal justice community as well as to those responsible for its activities.

Featured in this annual publication is more extensive data from the state's Incident Based Reporting System. This system has been developed to better characterize the dimensions of crime in Kansas and to provide more in-depth information to state and local policy makers.

It is with pleasure that this publication of CRIME IN KANSAS is presented.

IN MEMORIAM

Crime in Kansas 1988 is dedicated to Detective Terry W. McNett, Sedgwick County Sheriff's Office, who was killed while serving search warrants from a drug investigation on February 2, 1988.

Detective McNett, 36, started his law enforcement career as a patrolman with the Haysville Police Department on January 1, 1973. He joined the Sedgwick County Marshal's Office April 6, 1977, and from there became a deputy for the Sedgwick County Sheriff's Office on June 18, 1979. He was promoted to Narcotics Investigator in May, 1981, and at the time of his death was involved with the Sedgwick County Drug Task Force.

Detective McNett was highly respected and admired by his fellow officers. He had a unique ability in dealing with informants and suspects. After buying drugs and arresting one particular individual, he subsequently bought drugs and arrested the individual two more times, each time convincing the individual that he was no longer a law enforcement officer!

Detective McNett was a tragic loss of a professional and dedicated law enforcement officer. Our most sincere condolences to Detective McNett's family and friends.

INTRODUCTION

The Kansas Bureau of Investigation is the Central Repository of criminal justice related data for the state. K.S.A. 21-2501(a) and K.S.A. 21-2504 require the submission of reports from all local police and sheriff departments to the KBI. Recently, state agencies with law enforcement responsibilities have begun to report information as well. There were over 350 state and local reporting entities during calendar 1988 upon which this publication is based.

The state has participated in the national Uniform Crime Reporting (UCR) program, maintained by the Federal Bureau of Investigation, since 1969. Prior to the development of a state-level program in the late 1970's, most reporting by local agencies was done directly to the FBI. The establishment of the state program ensured better coordination between the state and the national program, a higher level of data quality, and more complete reporting.

The UCR program collects offense data on murder, rape, robbery, aggravated assault/battery, burglary, theft and motor vehicle theft. The offenses are referred to as Part I crimes--so designated by the National Sheriff's Association and the International Association of Chiefs of Police in the 1930's due to their severity, frequency of occurrence and likelihood of being reported. These crimes are the basis for the Crime Index - the barometer by which crime trends have been measured for over 50 years. Arson was added to this list in the 1980's but is not included in calculations of the Crime Index. Part I crimes are divided into two categories: violent crime, which includes murder, rape, robbery and aggravated assault/battery; and, property crime, including burglary, theft and motor vehicle theft. Additionally, arrest statistics are collected on these crimes as well as other so-called Part II crimes. Data on law enforcement personnel, including assaults, are also collected as part of the program. Program principles include using the "hierarchy rule" (counting only the most serious crime in a multiple offense situation), counting only arrests made for crimes committed in an agency's jurisdiction and being a monthly summary reporting system.

In order to better address requests for crime statistics and to provide a more complete view of the complexion of crime in Kansas, a

pilot program on Incident Based Reporting was begun in 1984 with participation by ten local law enforcement agencies. This program detailed crime reporting based upon incidents of reported crime wherein numerous points of information could be gathered and studied. Prior to implementation of this program, summary reports were prepared by the local agencies, forwarded to the KBI, tallied by the state and sent to the FBI. In 1988, all but four law enforcement agencies reported on the Incident Based Reporting System and this publication reflects presentations on this expanded data base.

The goals of the Incident Based Reporting System are: 1) the standardization of reporting methods and data elements; 2) the collection and reporting of data based on Kansas law, rather than national standards; 3) the maintenance of a state-level stolen property file; 4) to maintain a broad data-base allowing for the analysis of crimes, victims, suspects, etc.; 5) better feedback to local agencies. Long range goals include the ability to: 1) link arrests with offenses; 2) count arrests made for another agency; and 3) track offenders through the justice system.

Nationally, the Uniform Crime Reporting program is also transitioning into the National Incident Based Reporting System (NIBRS). After an exhaustive period of study, 53 data elements have been identified as core to this program and the Kansas system will be modified to ensure incorporation of the few data elements currently not in the IBR data base. With this incorporation, the three previously identified long range goals will be accomplished. Coupled with a renewed interest in the issue of data quality, the future is bright for crime reporting programs both nationally and within the state of Kansas.

OBJECTIVES OF CRIME IN KANSAS 1988:

- o - To provide justice system administrators with crime statistics for administrative and operational use;
- o - To inform the Executive, Legislative and Judicial branches of government, and the public, as to the nature of the crime problem in Kansas -- its magnitude and its trend;

- o - To provide information to those charged with the responsibility of formulating public safety policy;
- o - To determine who commits crimes by age, sex, race, and other attributes in order to find the proper focus for prevention and intervention programs;
- o - To provide Kansas citizens with the most complete information on the nature and extent of crime;
- o - To include comprehensive data for researchers and planners;
- o - To provide base data and statistics to assist in the assessment of social and other causes for the development of theories of criminal behavior, to assist in the assessment of the efficiency, effectiveness and performance of criminal justice agencies, and to measure the effects of prevention and deterrence programs; and,
- o - To provide the FBI with complete data to be included in the national crime report.

CRIME FACTORS:

It is important to remember that crime is a social problem and, therefore, a concern of the entire population of Kansas.

The most important and vital influences on the occurrence of crime include:

- o - Density and size of the community population and its surrounding area;
- o - Composition of the population with reference particularly to age, sex, race, and ethnic origin;
- o - Economic status and mores of the population;
- o - Stability of the population with respect to transient factors;
- o - Climate, which includes seasonal weather conditions;
- o - Cultural conditions; i.e., educational, recreational and religious characteristics;
- o - Effective strength of the law enforcement agencies;

- o - Standards governing appointments to law enforcement agencies;
- o - Policies and/or attitudes of criminal justice system, practitioners including prosecution, courts, corrections and social services agencies;
- o - Relationship and attitudes of the public toward law enforcement problems;
- o - Administrative and investigative efficiency of law enforcement, including the degree of adherence of crime reporting and crime description standards; and,
- o - Organization and cooperation of adjoining and overlapping police jurisdictions.

DATA COMPARISONS/LIMITATIONS:

This program was developed for Kansas law enforcement agencies by the Kansas Bureau of Investigation to furnish information for use primarily by contributing agencies. The tendency with a publication of this nature is to attempt to make comparisons of data between jurisdictions, whether between agencies, counties, or regions. Caution is urged in attempting to make comparisons between agencies; the reasons for this will become apparent as the reader reviews the publication. Data presented herein are carefully planned to present the truest and most accurate picture possible of crime in Kansas.

It is not always appropriate to compare single agencies because of the great variety of factors which affect the extent and fluctuation of crime and which are not taken into consideration in either raw data or crime rates. For example, one occurrence of theft is weighed equally with one occurrence of murder, even though the two crimes are obviously at opposite spectrums on a scale of seriousness. For the purpose of this publication, all crimes are weighted equally in computing crime rates.

The Incident Based Reporting program in Kansas is the best information presently available for reflecting crime as reported to law enforcement. It does not claim to represent all crime occurring in Kansas because it is dependent upon the willingness of the victim to

report the crime to law enforcement and the willingness of law enforcement to report the crime to the Kansas Bureau of Investigation.

This publication of Crime In Kansas, 1988 is the result of the efforts of 350 local and state law enforcement agencies submitting required information to the state program maintained by the Kansas Bureau of Investigation. The effort by the numerous individuals responsible for this process is greatly appreciated.

CRIME INDEX OVERVIEW

Crime Index Offenses (murder, rape, robbery, aggravated assault/battery, burglary, theft and motor vehicle theft) totaled 119,280 in 1988, a decrease of 1.2% over 1987. The ten year trend of Crime Index Offenses shows an increase of 6% in crimes reported in 1988 as compared to 1979 figures. This increase is due, in part, to better reporting methods and the participation of more agencies.

Crime Index Offenses are divided into two sub-categories: 1) Violent Crime; and, 2) Property Crime. In the Violent Crime category aggravated assault/battery continues to be the most frequently reported crime and constitutes 66.7% of all violent crime reported. Theft is the most often reported Property Crime; 58.8% of reported property crime and slightly over fifty-four percent of the entire Crime Index are thefts.

The Crime Clock suggests that, on an average, one Crime Index Offense occurred every four minutes in 1988, while the individual categories of Violent Crime and Property Crime show an occurrence rate of 58 minutes, 56 seconds and 4 minutes, 45 seconds, respectively. August ranks as the month with the most Crime Index offenses reported.

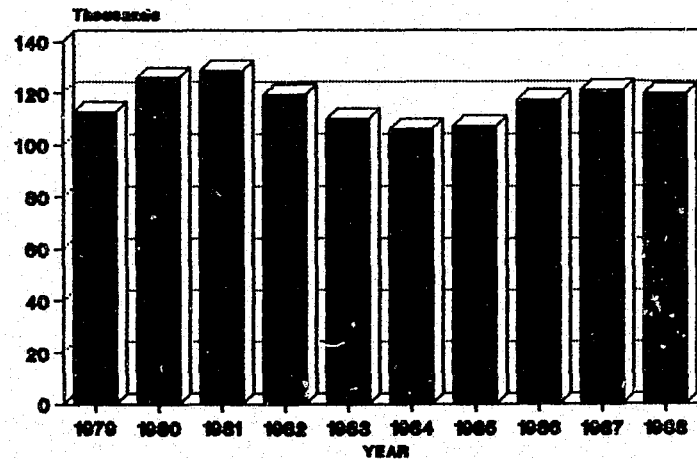

There are thirty-five cities in Kansas with populations of over 10,000. Those cities account for 80.2% of all Crime Index Offenses that occurred in 1988. Kansas City experienced the greatest number of violent crimes; Wichita had the largest number of property crimes.

The crime clock should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of the Part I Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

VIOLENT CRIME

In 1988 a violent crime of murder, rape, robbery or aggravated assault/battery occurred on an average of every 59 minutes in Kansas. Statistics for 1988 indicate that 3.6 persons per thousand population experienced some type of violent crime.

Violent crime accounted for 7.5% of the total crime index offenses reported in 1988. This crime category totaled 8,918 in 1988 compared to 8,817 in 1987, a increase of 1.2%.

Information on simple assault/battery has been included even though it is considered a Part II offense under UCR guidelines. However, due to the frequency that this crime against persons is reported, the information is valuable to law enforcement.

MURDER AND NON-NEGLIGENT MANSLAUGHTER

Kansas Statutes define murder and non-negligent manslaughter as follows:

"Murder in the first degree is the killing of a human being committed maliciously, willfully, deliberately and with premeditation or committed in the perpetration or attempt to perpetrate any felony," (K.S.A. 21-3401).

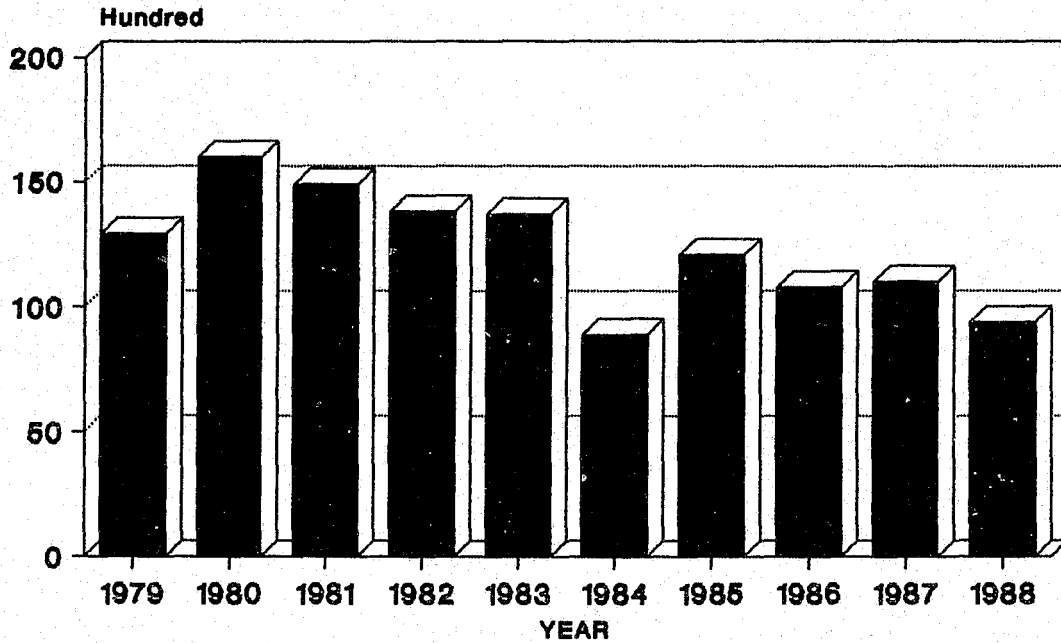

"Murder in the second degree is the malicious killing of a human being, committed without deliberation or premeditation and not in the perpetration or attempt to perpetrate a felony," (K.S.A. 21-3402).

"Voluntary manslaughter is the unlawful killing of a human being, without malice, which is done intentionally upon a sudden quarrel or in the heat of passion," (K.S.A. 21-3403).

The national program defines murder as "the willful (nonnegligent) killing of one human being by another," (Uniform Crime Reporting Handbook, 1984, page 6).

In 1988, Kansas reported 94 homicides, a decrease of 14.6% compared to the 110 homicides reported in 1987. Slightly over half (53.2%) of these crimes were committed with a firearm of some type. Of the 94 homicides reported, 22.3% involved family members and an additional 3.2% involved girlfriend/boyfriend relationships. Characteristics show the victim was most often a black male between the ages of 22 to 30. While, in contrast, the perpetrator was most likely a white male between the ages of 22 and 30. The largest number of homicides were reported in December.

RAPE

K.S.A. 21-3502 defines rape as:

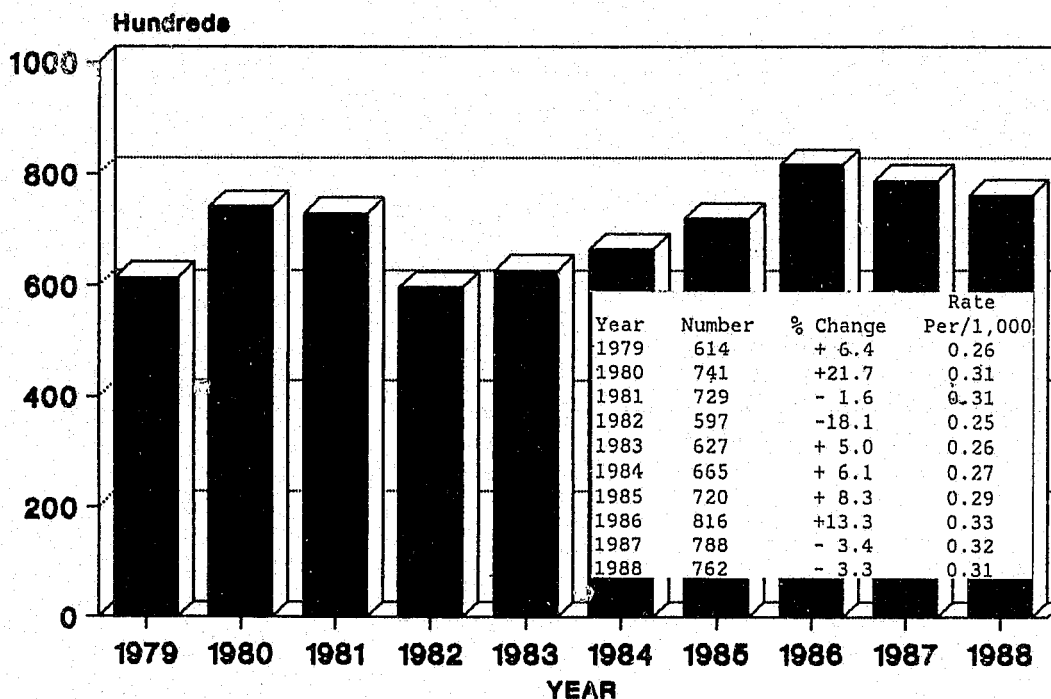

"...sexual intercourse with a person who does not consent to the sexual intercourse..."

The national UCR program does not include male sexual assaults under the rape definition; those are considered "other sex offenses" and fall within the Part II crimes category. However, under Kansas Statutes, male sexual assault is considered rape in some incidents and counted as such.

There were 762 reported rapes in 1988, a decrease of 3.3% compared to 788 reported in 1987. Most of these rapes (81.4%) occurred in cities with populations of 10,000 or greater. The highest number of rapes were reported in the month of July. Over half of these rapes (57.4%) occurred between 10:00 p.m. and 4:00 a.m. and happened in residences and apartments (59.7%).

The most frequent rape victim is a white female, between 15-19 years of age, while the most common offender is a white male, age 20-24. In 53.5% of reported rapes the offender was known by the victim. Six males were victims of rape, while 7 females were offenders in 1988.

ROBBERY

Under the national UCR program and Kansas law, robbery is:

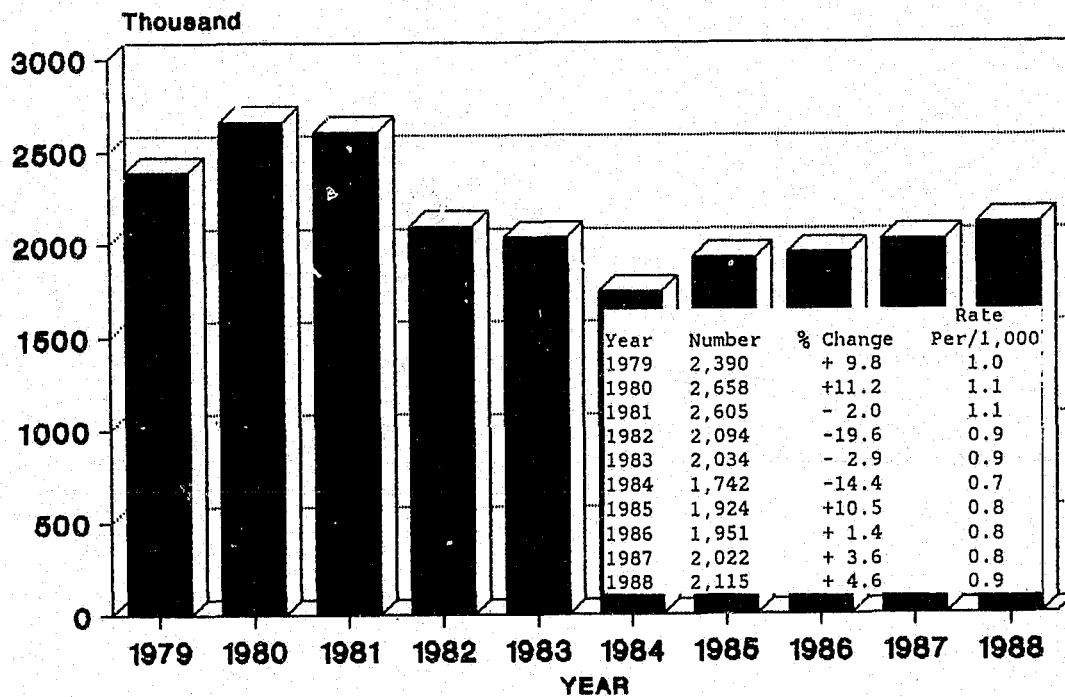

"...the taking of property from the person or presence of another by threat of bodily harm to his person or the person of another or by force."

Robberies reported increased 4.6% in 1988 compared to 1987, this slight increase reflects a trend that has been appearing since 1984 when the lowest number of robberies were reported in a ten year span. The majority of robberies (94.0%) occurred in cities with populations of 10,000 or greater and the largest number (928) occurred in business establishments where \$287,521 of property was reported stolen.

The highest number of robberies (256) were reported in December. Robberies most frequently occurred on Tuesday and Saturday between the hours of 6:00 p.m. and 12:00 p.m.

The majority of the offenders (52.2%) were a stranger to the victim and used a personal weapon (hands, fists, feet, etc.) to commit the offense.

AGGRAVATED ASSAULT/BATTERY

Aggravated assault is defined in Kansas under K.S.A. 21-3410 as:

- "(a) Unlawfully assaulting or striking at another with a deadly weapon; or
- (b) Committing assault by threatening or menacing another while disguised in any manner designed to conceal identity; or
- (c) Willfully and intentionally assaulting another with intent to commit any felony."

Aggravated battery is defined in Kansas under K.S.A. 21-3414 as:

- "(a) Inflicts great bodily harm upon him; or
- (b) Causes any disfigurement or dismemberment to or of his person; or
- (c) Is done with a deadly weapon, or in any manner whereby great bodily harm, disfigurement, or death can be inflicted."

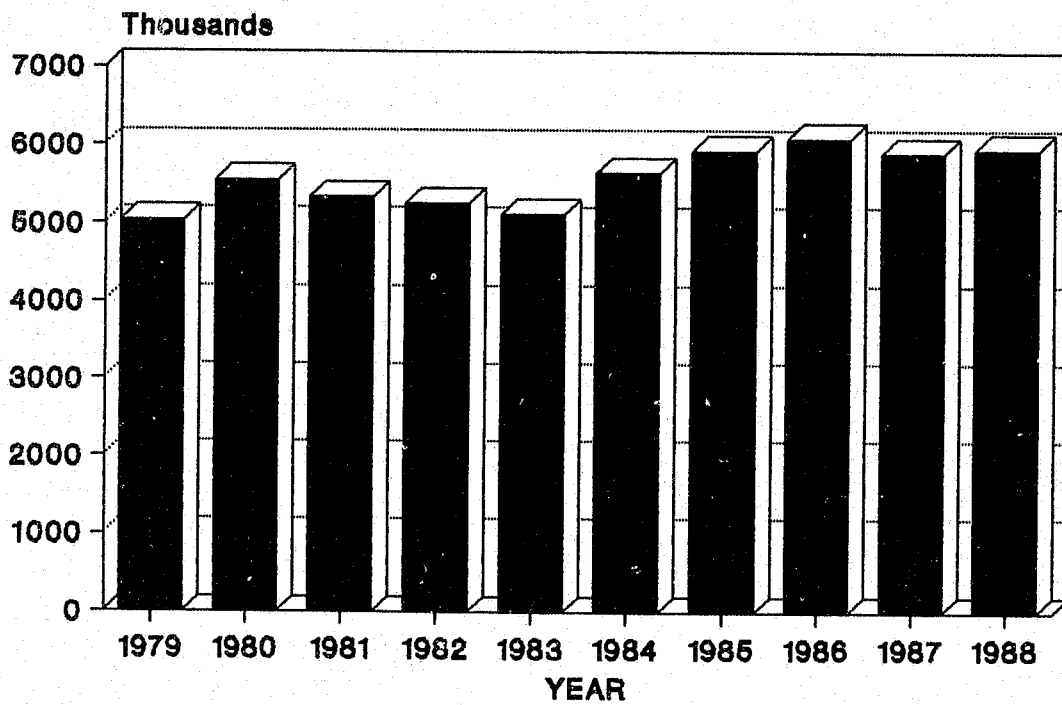

Aggravated assault is defined for the Uniform Crime Report as:

"An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm,"
(Uniform Crime Reporting Handbook, 1984, page 16).

Aggravated assault/battery continued to be the most frequently reported violent crime representing 66.7% of this category. Aggravated assault/battery increased nine-tenths of one percent in 1988, as compared to 1987.

The largest percentage of aggravated assault/battery reports (79.2%) occurred in cities with populations of 10,000 or above. Victims were most often between the age of 20-25 (1,264) and were related to (18.3%) or acquainted with (40.7%) the offender. Nearly half (44.1%) of reported assault/battery occurred in a residence on Saturday between the hours of 10:00 p.m. to 2:00 a.m.

SIMPLE ASSAULT/BATTERY

Assault is defined in Kansas under K.S.A. 21-3408 as:

"An assault is an intentional threat or attempt to do bodily harm to another coupled with apparent ability and resulting in immediate apprehension of bodily harm. No bodily contact is necessary."

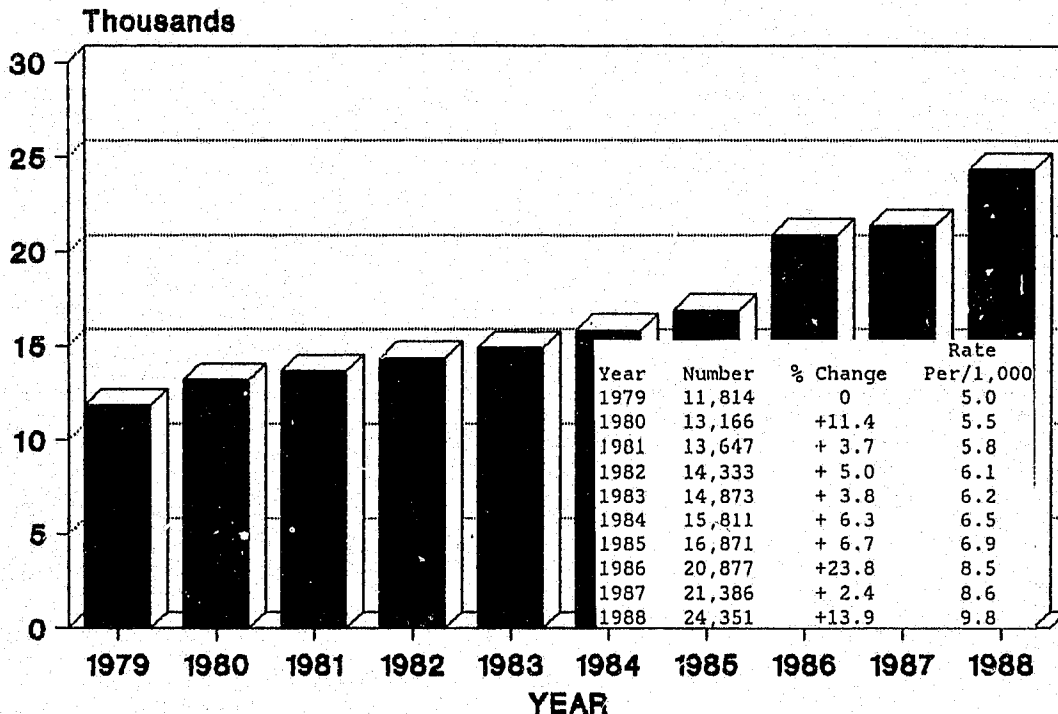

Battery is defined in Kansas under K.S.A. 21-3412 as:

"Battery is the unlawful, intentional touching or application of force to the person of another, when done in a rude, insolent or angry manner."

Simple assault/battery (no weapon and no injury involved) is a Part II crime. In 1988, this crime totaled 24,351 reflecting a 13.9% increase from 1987. The trend shows a continuous pattern of simple assault/battery increasing since 1979, with the smallest increase occurring in 1987.

Most simple assault/battery is committed by a family member (27.1%) or an acquaintance (25.7%) of the victim; the majority of the victims, 4,161, are between the ages of 20 and 25. These offenses most often occurred on weekends (51.0%) during the summer months with 7,097 reported incidents and 42.1% happen between 8:00 p.m. and 2:00 a.m.

PROPERTY CRIME

Part I property crime, which includes burglary, theft, and motor vehicle theft, decreased 1.4% in 1988 and totaled 110,362 reported offenses. These three offenses represent 92.5% of the total crime index and are responsible for 99% of all reported stolen property.

Also included is data on the eighth Part I offense of arson and criminal damage to property, which is considered a Part II offense. Arson statistics are currently being collected and reported by the State Fire Marshall's Office. Criminal damage can only be ascertained from those agencies reporting on the Incident Base Reporting System.

BURGLARY

Burglary in Kansas is defined under K.S.A. 21-3715 as:

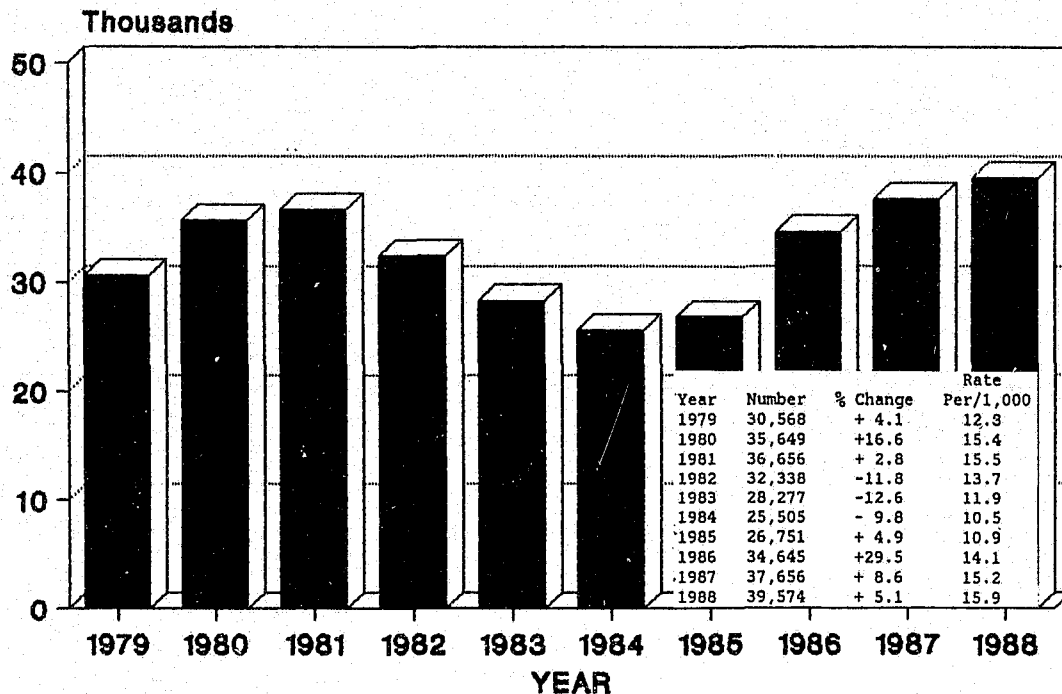

"...knowingly and without authority entering or remaining within any building, mobile home, tent or other structure, or any motor vehicle, aircraft, watercraft, railroad car or other means of conveyance of persons or property, with intent to commit a felony or theft therein."

The national UCR program does not recognize a vehicle as a structure, therefore, for UCR reporting purposes, breaking into a vehicle has traditionally been counted as a theft. However, under Kansas state statute these offenses are classified as burglaries.

In 1988 burglaries rose from 37,656, reported in 1987, to 39,574 an increase of 5.1%. Burglary had the lowest clearance rate of Part I offenses reported in 1988 at 9.4%. Of the total burglaries reported 53.8% were non-residence and 45.5% occurred at night.

Of the \$23,857,782 of stolen property reported for this offense, 54.9% was taken in residence burglaries. There was an increase of 9.2% for total property stolen in burglaries as compared to 1987.

THEFT

Kansas Statute K.S.A. 21-3701 defines theft as:

"...any of the following acts done with intent to deprive the owner permanently of the possession, use, or benefit of the owner's property:

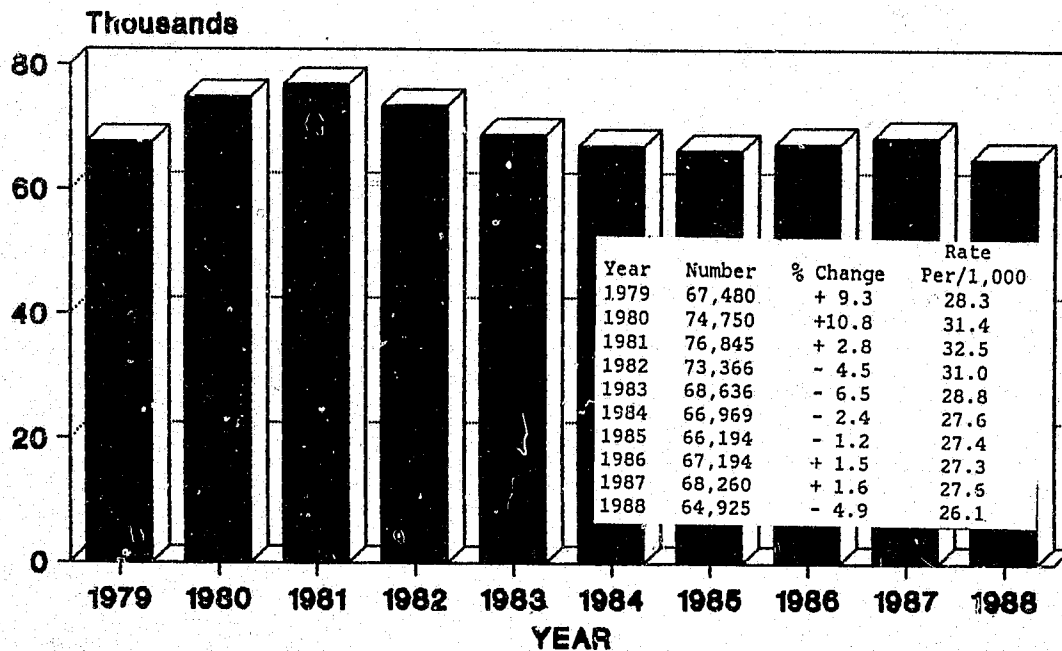

- (a) Obtaining or exerting unauthorized control over property; or
- (b) Obtaining by deception, control over property; or
- (c) Obtaining by threat, control over property; or
- (d) Obtaining control over stolen property knowing the property to have been stolen by another."

A decrease of 4.9% in theft was reflected from 1987. Theft (which also includes attempts) was the most frequently reported Part I crime at 54.4% of the total index.

Theft of auto accessories accounted for 17.1% of total thefts reported and amounted to \$1,967,783. The tables show that a theft offense is most apt to occur between 4 p.m. - 6 p.m. on Friday from a commercial building.

Under Kansas law, theft is listed under several different statutes but is counted as theft for FBI purposes. A list of these statutes with a breakdown of ten specific categories of occurrence is included.

MOTOR VEHICLE THEFT

The national UCR program separates stolen motor vehicles from the general theft category to allow for more accurate accounting of vehicles stolen. Motor vehicle theft reflects a 2.0% decline from 1987; however, motor vehicle theft had the highest value of stolen property for Part I crimes at \$26,887,965.

It should be noted that a discrepancy in dollar value of stolen vehicles exists in some tables. When a vehicle is taken in the commission of a more serious crime (rape, burglary, etc.) a motor vehicle theft is not tallied, but the vehicle will be counted as property taken during the offense.

CRIMINAL DAMAGE

Criminal damage to property is defined in K.S.A. 21-3720 as:

"...by means other than by fire or explosive:

- (a) Willfully injuring, damaging, mutilating, defacing, destroying, or substantially impairing the use of any property in which another has an interest without the consent of such other person; or
- (b) Injuring, damaging, mutilating, defacing, destroying, or substantially impairing the use of any property with intent to injure or defraud an insurer or leinholder."

The figures provided in this section are based on statistics from the Incident Base Reporting System and do not include those agencies that are UCR participants only.

There were 40,421 incidents reported in 1988, listing Criminal Damage as one of the violations. There were 27,101 violations where Criminal Damage was the primary offense. Included with the Criminal Damage violations were 9,929 burglary-related violations and 9,377 theft-related violations. Another 3,737 miscellaneous offenses were also indicated.

Criminal damage loss reported totaled \$6,955,181 in 1988 which reflects an increase of 20.8% from 1987. The table shows vehicles are the primary target for Criminal Damage (41.1%) and constitute 31.9% of the total dollar loss.

Criminal Damage most frequently occurred on Friday or Saturday (37.8%), between the hours of 8:00 - 12:00 p.m.

ARSON

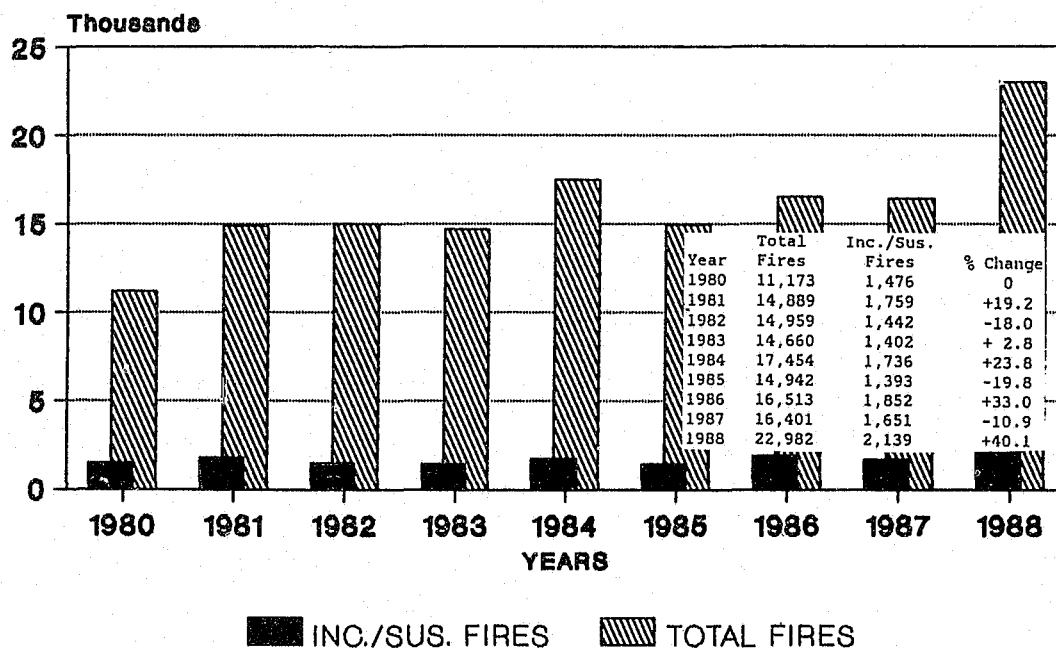

Arson is defined in K.S.A. 21-3718 as:

- "...knowingly, by means of fire or explosive
- (a) Damaging any building or property in which another person has any interest without the consent of such person;
 - or
 - (b) Damaging any building or property with intent to injure or defraud an insurer or lienholder."

Arson statistics for 1988 are based on information provided by the State Fire Marshal's Office as reported under the Kansas Fire Incident Reporting System (KFIRS).

The trend graph depicts yearly total fires as reported to KFIRS and the number of incendiary/suspicious fires. The data shows a substantial (40.1%) increase in fires as compared to 1987. The pie chart shows that grass/refuse fires are a primary problem to local firefighters.

STOLEN AND RECOVERED PROPERTY

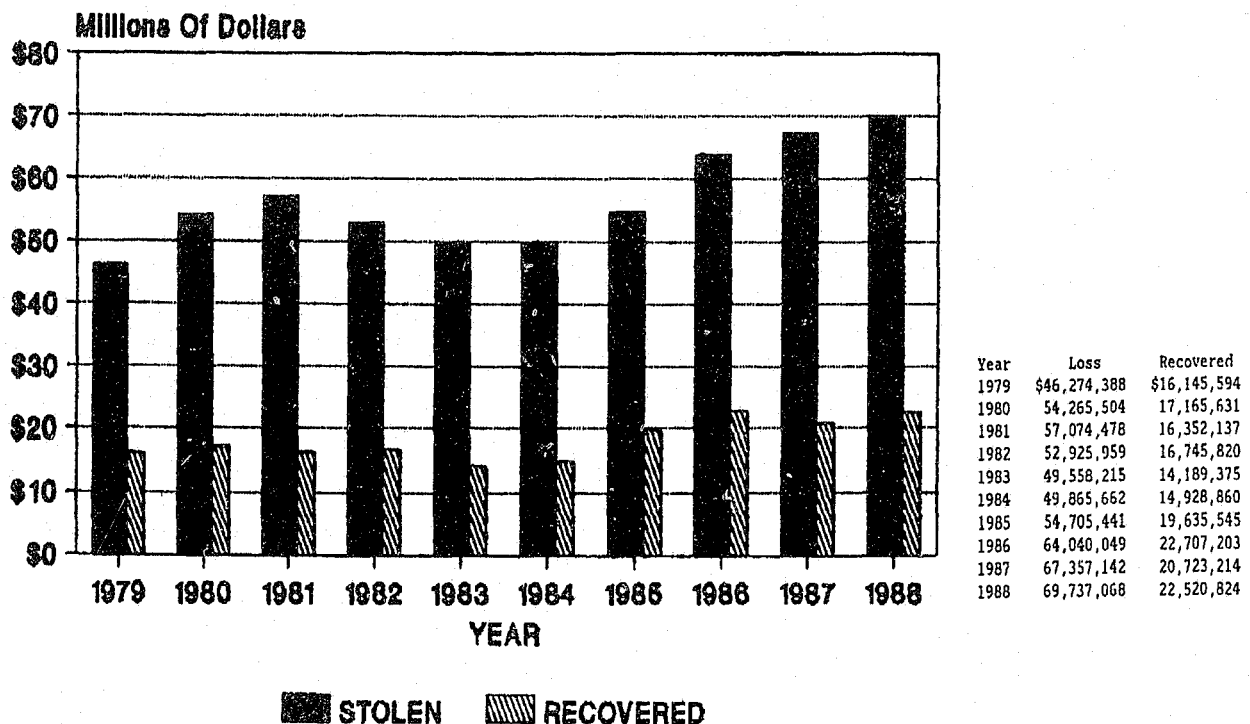

In 1988, property reported stolen equalled \$69,737,068 which is a 3.5% increase from 1987. Agencies recovered \$22,520,824 of property that had been reported stolen either in, or prior to, 1988 (an increase of 8.7% from 1987).

Motor vehicles accounted for 40.2% of property reported stolen and were the most frequently recovered property (83.4%).

Nearly seventy-eight percent of reported stolen property was in cities with a population of over 10,000; recovered property totaled \$17,640,258 in these same cities.

A list of property reported stolen through the Incident Base Reporting System is included; this information is used to create the Kansas Stolen Property File. The file is used as a resource for law enforcement agencies to search for recovered property that may have been reported stolen by Kansas agencies. Unlike the National Crime Information Center (NCIC) the Kansas System is unique in that only a property description is required for a search of the file.

ARRESTS

The total arrests for 1988 increased slightly (0.5%) as compared to 1987. However, this is a continuation of a five year trend which has seen arrests increase 23.5% from 1984 to 1988. The largest increase was Part II adult arrests with 62,843 reported in 1987 and 63,678 in 1988.

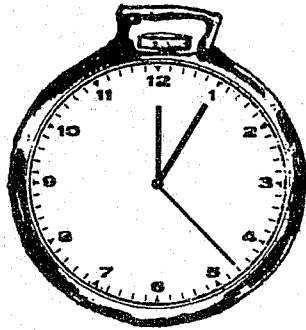

Juveniles seventeen years of age were the most often arrested accounting for 25.3% of all juvenile arrests. While the most frequently arrested adults were 25-29 amounting to 21.5% of total adult arrests.

The greatest number of juveniles arrested (5,447) were for the Part I crime of theft. The largest number of adults (14,143) for the Part II offense of DUI.

The arrest clock should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of Part I Offenses, rather, it represents the annual ratio of crime to fixed time intervals.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Kansas had the misfortune of losing a sheriff's deputy in the line of duty in 1988.

The deputy with the Sedgwick County Sheriff's Office was killed during a drug raid.

Assaults on law enforcement officers decreased 6.8%, from 922 in 1987 to 863 in 1988. Of these total assaults, 81% were without serious injury; 699 of these offenses, or 89.7% were committed by hands, fists, or feet. The highest incident of assault occurred while responding to some type of disturbance, with this category accounting for 50.1% of assaults. Approximately 37.7% of all assaults on law enforcement officers occurred between the hours of 10:00 p.m. and 2:00 a.m. ninety-two percent, or 796, of all assaults were cleared.
