Bureau of Justice Statistics reports

(vised February 1990)

Call toll-free 800-732-3277 (local 301-251-5500) to order BJS reports, to be added to one of the BJS mailing lists, or to speak to a reference specialist in statistics at the Justice Statistics Clearinghouse, National Criminal Justice Reference Service, Box 6000, Rockville, MD 20850.

BJS maintains the following mailing lists:

- Law enforcement reports (new)
- Drugs and crime data (new)
- Justice spending & employment
- White-collar crime
- National Crime Survey (annual)
- Corrections (annual)
- Juvenile corrections (annual)
- Courts (annual)
- Privacy and security of criminal history information and information policy
- Federal statistics (annual)
- BJS bulletins and special reports (approximately twice a month)
- Sourcebook of Criminal Justice Statistics (annual)

Single copies of reports are free; use NCJ number to order. Postage and handling are charged for bulk orders of multiple reports. For single copies of multiple titles, up to 10 titles are free; 11-40 titles \$10; more than 40, \$20; libraries call for special rates.

Public-use tapes of BJS data sets and other criminal justice data are available from the National Archive of Criminal Justice Data (formerly C.J.I.D.), P.O. Box 1248, Ann Arbor, MI 48106 (toll-free 1-800-999-0860).

National Crime Survey

Criminal victimization in the U.S., 1987 final report, NCJ-115524, 6/89
1986 final report, NCJ-111456, 9/88

BJS special reports:

Hispanic victims, NCJ-120507, 1/90
The redesigned National Crime Survey: Selected new data, NCJ-114746, 7/89

Motor vehicle theft, NCJ-109978, 3/88

Elderly victims, NCJ-107876, 11/87

Violent crime trends, NCJ-107217, 11/87

Robbery victims, NCJ-104638, 4/87

Violent crimes by strangers and nonstrangers, NCJ-103702, 1/87

Preventing domestic violence against women, NCJ-102037, 8/86

Crime prevention measures, NCJ-100438, 3/86

The use of weapons in committing crimes, NCJ-99543, 1/86

Reporting crimes to the police, NCJ-89432, 12/85

Locating city, suburban, and rural crimes, NCJ-89535, 12/85

The risk of violent crime, NCJ-97119, 5/85

The economic cost of crime to victims, NCJ-92450, 4/84

Family violence, NCJ-93449, 4/84

BJS bulletins:

Criminal victimization 1988, NCJ-119845, 10/89

Households touched by crime, 1988, NCJ-117434, 6/89

Criminal victimization 1987, NCJ-113587, 10/88

The crime of rape, NCJ-93777, 3/85

Household burglary, NCJ-89001, 1/85

Measuring crime, NCJ-75710, 2/81

BJS technical reports:

New directions for the NCS, NCJ-115571, 3/88

Series of crimes: Report of a field test, NCJ-104615, 4/87

Lifetime likelihood of victimization, NCJ-104724, 3/87

Response to screening questions in the NCS, NCJ-87824, 7/85

Redaction of the National Crime Survey, NCJ-111457, 3/89

The seasonality of crime victimization, NCJ-110333, 8/88

Crime and other Americans Information package, NCJ-104569, 3/10, 5/87

Teenage victims, NCJ-103138, 12/86

Victimization and fear of crime: World perspectives, NCJ-93872, 1/85, 5/15

The Assistant Attorney General, Office of Justice Programs, coordinates the activities of the following program offices and bureaus: the Bureau of Justice Statistics, National Institute of Justice, Bureau of Justice Assistance, Office of Juvenile Justice and Delinquency Prevention, and the Office for Victims of Crime.

Acknowledgments

Hundreds of criminal justice professionals contributed to the success of the 1990 series of *Directories* by providing information on the level of automation in their agencies and describing criminal justice information systems. The National Clearinghouse for Criminal Justice Information Systems is grateful for the participation of these practitioners and developers and for the support and leadership of the Bureau of Justice Statistics which has long recognized the value of information technology to the administration of justice.

Foreword

The Bureau of Justice Statistics has supported and long encouraged the criminal justice community to replicate, coordinate and share information management systems, policy and data. To facilitate such sharing, BJS and SEARCH Group have, since 1980, collaborated on producing three editions of the *Directory of Automated Criminal Justice Information Systems*, a project initiated by the Law Enforcement Assistance Administration in 1972. The *Directories* provide information about particular information systems and the level of automation among justice agencies. They are designed with the specific intent of facilitating the exchange of information and the transfer or adaptation of exemplary systems.

Our latest, and fourth such collaboration, the 1990 edition of the *Directory of Automated Criminal Justice Information Systems*, is comprised of five separate volumes, one for each of the principal criminal justice disciplines: Corrections, Courts, Law Enforcement, Probation and Parole, and Prosecution. Taken together, the *Directories* are a valuable resource for criminal justice agencies in the process of selecting an automated information management system that will meet their individual needs. It is the hope of the Bureau of Justice Statistics that this series of *Directories* will promote computerized information processing and also will help state and local agencies to generate accurate and timely criminal justice statistics.

This series of *Directories* is part of the Bureau of Justice Statistics' continuing efforts to inform the national justice community of advances in information management and to promote automation among criminal justice practitioners nationwide.

Introduction

In 1976 SEARCH Group created the National Clearinghouse for Criminal Justice Information Systems to promote and facilitate the transfer of automated, public domain information management systems. The role of the Clearinghouse has grown to include the collection and dissemination of information about proprietary information systems as well. In support of this function, the Clearinghouse maintains the Automated Index of Criminal Justice Information Systems — a database containing information on automated systems and the hundreds of agencies using those systems. Since 1980 the Clearinghouse, with support from the Bureau of Justice Statistics, has published three editions of the *Directory of Automated Criminal Justice Information Systems* based on information generated from the Index's database. The *Directory* has served as a valuable resource for criminal justice practitioners who needed guidance in selecting an appropriate automated records system and it has also helped to minimize duplicate system development efforts.

Methodology

The SEARCH Automated Index of Criminal Justice Information Systems, the database for the printed *Directory*, was completely redesigned in 1989 and this *Courts Directory* reflects that revision. The redesign of the Automated Index altered the structure of the database and required modifications to the survey instrument used to collect the data. (See Appendix 3, *Sample Survey: Courts* and Appendix 4, *Sample Survey: Software Developer* for samples of the survey instrument.) Surveys were mailed to all agencies and software developers listed in the 1986 *Directory of Automated Criminal Justice Information Systems*. In addition, SEARCH requested state planning agencies, statistical analysis centers, state Attorneys General, and the directors of state and national criminal justice associations to identify automated criminal justice agencies and justice information systems that would be appropriate to include in the 1990 series of *Directories*. SEARCH then mailed surveys to the agencies and the system developers/vendors. If a

vendor identified agencies where the vendor's product was installed, a survey was also mailed to those agencies.

Organization and Use

The *Directory* has traditionally been published at three-year intervals as a single, large volume. In this 1990 edition, five separate volumes were published—one *Directory* for each of the principal criminal justice disciplines: *Corrections* (Volume I); *Courts* (Volume II); *Law Enforcement* (Volume III); *Probation and Parole* (Volume IV); and *Prosecution* (Volume V). Separate, discipline-specific volumes significantly reduced the publication size, making it easier for users to quickly locate the information they need. Together, the *Directories* contain profiles on 130 automated systems and over 700 criminal justice agencies.

Each *Directory* is divided into four parts: Part I, Agency Description Records; Part II, System Description Records; Part III, Indices; and Part IV, Appendices. The Agency Description Records are based on information provided by individual agencies that responded to SEARCH's national survey of criminal justice agencies, and the System Description Records reflect survey responses from the system developers and vendors.

A primary difference between past editions of the *Directory* and the 1990 edition is the manner in which information is presented. Previously, an automated system that was operating in several different agencies was independently described in the *Directory* by each installation, causing a great deal of duplication and some inaccuracies in the publication. Now, in the 1990 edition, the system information is listed only once, and agencies using that particular system are cross-referenced.

Part I: Agency Description Records

Agency Description Records for courts are divided into four sections. The first section at the top of the page provides the name, address and telephone number of the agency, the name and title of a contact person, and indicates the type of agency, the type of cases

processed, and the number of criminal, civil and appellate cases filed in 1988.

The second section, "Computer Equipment," contains information on the agency's computer hardware. The record describes the agency's access to a computer (whether it has exclusive use, shares with another agency or division, or relies on a central data processing bureau for computer services); the number of Full-time Equivalent data processing employees; and the hardware configurations used (type, manufacturer and model, operating system, quantity and the type of Local Area Network).

The third section, "Automated Functions," lists the agency's general functions that are automated, such as accounting, electronic mail, spreadsheets and word processing. This section also lists any automated functions that are specific to courts, such as calendaring-scheduling, case management, juror payroll and warrant management. (See Appendix 1, *Automated Functions: Discipline-Specific*, for a complete listing of the choice of automated functions for each discipline.)

The final section of the Agency Description Record is "Criminal Justice Software Applications," which lists the name and acronym of any criminal justice or courts-specific software application currently used by the agency. If the software package has a corresponding System Description Record entry containing system information supplied by the developer/vendor, then the page on which that record appears is also listed. This cross-reference enables the reader to learn about the functions, features and operational requirements of the system.

Part II: System Description Records

Courts System Description Records are divided into five sections. The first section lists the product name and acronym (if there is one), as well as the developer's name, address, telephone number and the name and title of a contact person. The record indicates whether the product is proprietary or in the public domain, whether the software can be modified and whether the source code is

available. It also identifies the programming language the system is written in, and lists the vendor support services offered and any special product features.

Section two, "Computer Equipment," lists the hardware configurations upon which the system runs, indicating the type (main-frame, minicomputer or microcomputer), manufacturer and model, operating system, and if it runs on a Local Area Network.

Section three, "Automated Functions," lists any automated functions of the system that are specific to courts, such as assignment-courtrooms, fine-restitution management, and juror management. (See Appendix 1, *Automated Functions: Discipline-Specific*, for a complete listing of the choice of automated functions for each discipline.)

The fourth section is the "Narrative" in which the vendor provides a general description of the system, and often includes the price of the product.

The fifth, and final, section of the System Description Record, "System Users," lists up to three agencies that have obtained the named product. If the specified agency has a corresponding Agency Description Record entry containing operational information supplied by a court, then the page on which that record appears is also listed. This cross-reference enables the reader to learn about the agency in which the system is operating.

Part III: Indices

The *Courts Directory* has two major types of Indices which enable readers to search the *Directory* quickly and easily for information on agencies and systems: Agency Indices and System Indices.

Index A, Agency Indices, includes five Indices of the agencies described in Part I: Agency Description Records:

1. *Agency Index by Agency Name* — alphabetically lists agencies by name, and includes each agency's city and state;
2. *Agency Index by Total Cases Filed/1988* — numerically ranks the agencies by the number of cases they filed in calendar year 1988, and includes the agency name, city and state;
3. *Agency Index by Computer Equipment* — alphabetically lists hardware manufacturer and model number of the computer equipment used by each agency;
4. *Agency Index by Automated Functions* — organizes the agencies by type of courts-related automated function, and alphabetically lists each agency by name;
5. *Agency Index by Criminal Justice Software* — alphabetically lists the criminal justice software applications that each agency has indicated it uses.

Index B, System Indices, includes five Indices of the systems described in Part II: System Description Records:

1. *System Index by System Name* — alphabetically lists systems by name, and includes each system's acronym, if there is one;
2. *System Index: Mainframes and Minicomputers* — alphabetically lists hardware manufacturer and model number of the mainframe or microcomputer that runs the listed software system;
3. *System Index: Microcomputers* — alphabetically lists the microcomputer's operating system that is required to run the listed software system;
4. *System Index by Automated Functions* — organizes systems by type of courts-related automated function, and alphabetically lists each agency by name; and

5. *System Index of Public Domain Systems* — alphabetically lists those systems that are in the public domain.

Part IV: Appendices

This *Courts Directory* has the following five Appendices:

1. *Automated Functions: Discipline-Specific* — A list of the discipline-specific, automated system functions included on the survey instrument. This listing includes the automated functions for each of the five disciplines: Corrections, Courts, Law Enforcement, Probation and Parole, and Prosecution;
2. *Manufacturer Abbreviations* — An alphabetical list of the abbreviations used to describe hardware manufacturers throughout the *Directory*, and the corresponding full company name;
3. *Sample Survey: Courts* — A sample of the survey form mailed to courts;
4. *Sample Survey: Software Developer* — A sample of the survey form mailed to software developers and vendors; and
5. *Update/Correction Notification Form* — A form to be used to inform SEARCH of any agency or system record additions, updates, omissions or corrections.

Limitations

Although the compilers of this *Courts Directory* have sought to create a useful and comprehensive resource document, readers need to be aware of and understand its limitations. It is not an exhaustive list of all automated criminal justice agencies or of all criminal justice information management systems. The publication is based on information voluntarily provided by criminal justice practitioners and system developers and vendors who responded to our survey. It was not possible to verify all submitted information and thus the data were accepted and used as reported.

If, for example, a survey was incomplete or an answer was unclear, the *Directory* will show a blank for that particular response.

Whenever possible, systems listed under "Criminal Justice Software Applications" in an Agency Description Record will be cross-referenced with a System Description Record. Likewise, if a developer describes a system in a System Description Record and indicates that the system is operational in a particular agency, every attempt was made to create a corresponding Agency Description Record. As mentioned above, however, records were only created if the developer and the agency submitted a complete survey form.

This *Courts Directory* can provide an excellent overview of a court's size and level of automation, as well as a representative sketch of a system's functions and features. Systems are frequently updated, however, and just as frequently are replaced. Personnel turnover and organizational changes may also cause some of the information contained in the *Directory* to be out of date. We suggest that readers interested in a particular system contact the developer or the agency that is using the system to verify the *Directory's* information and to learn first-hand of the system's capabilities.

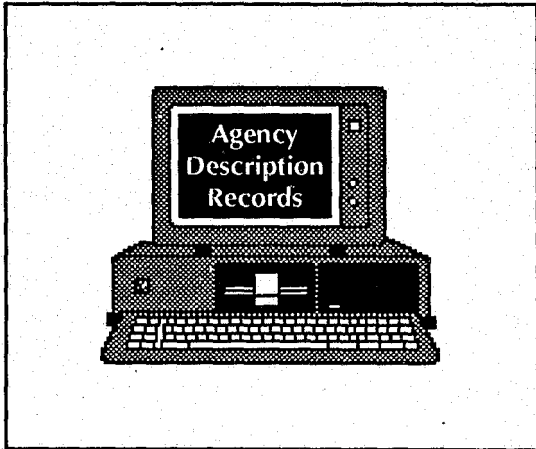

Readers are strongly encouraged to review the other four volumes in the *Directory* series when searching for an appropriate system or a comparable agency. For example, it is possible that a system that is used by a court, and thus is listed under "Criminal Justice Software Applications" in an Agency Description Record, is part of a larger system that was developed by a law enforcement agency. Because a law enforcement agency developed the system, the System Description Record will be in the *Law Enforcement Directory* (Volume III), not the *Courts Directory* (Volume II).

When reviewing the contents of the *Directories*, readers should also bear in mind that two different systems may have the exact same name. By checking the information in the System Description Record, readers can determine if identically-named systems are, in fact, produced by the same developer.

Finally, it is important that any omissions or errors be corrected and new information added to the Automated Index of Criminal Justice Information Systems. Readers are asked to use the *Update/Correction Notification Form* (See Appendix 5) to keep SEARCH informed of agency and system changes. This form may also be used to request a survey for the purpose of adding new Agency Description Records or System Description Records. All submitted forms will be used to amend and expand future editions of the *Directory* and the Automated Index of Criminal Justice Information Systems.

Computerized Access to Directory Information

As noted earlier, the Automated Index of Criminal Justice Information Systems is the database for the printed *Directories*. The Automated Index is continuously updated and revised as SEARCH receives new information on systems and automated agencies. Practitioners may access the Automated Index through the SEARCH-BBS, an electronic bulletin board that is available free of charge to the criminal justice community. Users may search the Automated Index for systems that meet specific functional, hardware, or software needs. They may also identify agencies which meet certain criteria and then review the criminal justice information systems in use by those agencies. Both of these approaches utilize a user-friendly, menu-driven system. To access the Automated Index through the SEARCH-BBS, users need a microcomputer, a modem and a communications package. Users are registered on-line by dialing 800-448-8257. (Please set your communication package to 8 data bits, 1 stop bit, no parity). Practitioners may also call or write to SEARCH and request a custom search of the Index database.

MICRO	H-P (ALL MODELS)	MPE & MPE-XL	No

AUTOMATED FUNCTIONS

alimony/child support, calendaring/scheduling, case disposition reports, civil case processing, docketing, jury selection

NARRATIVE

The Automated Judicial Management System is totally integrated, but modular in design if stand-alone installations are desired. "One-time data entry" provides complete tracking of a case from the point the incident is reported until it is resolved. Jailer can see from the CRT which prisoner is due in what court at what time. Docket information is available at the operator's desk. A calendaring and tickler system is available for follow-up. Simplified reporting and "at-the-bench" order writing is available for high-volume courts.

NARRATIVE

The Courts System is an integrated system for single and
 multi-jurisdictional departments. It has more than 50 modules available
 for police/fire/EMS, computer-aided dispatch, jail and court management
 systems. All software runs on IBM System/38 and IBM AS/400 computers with
 a tiered pricing schedule.

AUTOMATED FUNCTIONS

finer, collateral, bail

NARRATIVE

The Cash Remittance System is a municipal courts cash register function for personal computers. It handles the collection of fines and updates the corresponding case dispositions. Programs are written for personal computers as stand-alone units with communications programs that query and update the mainframe files. The system provides daily reconciliation reports. The system was implemented in FY 86-87 and consists of 22 programs written in "C" language, 6 in CICS/COBOL and 2 batch programs.

AUTOMATED FUNCTIONS

jury management, jury selection

NARRATIVE

The Jury Selection System helps the Municipal Courts select citizens from the voter registration list for potential jury duty. The system creates a file in such a manner to ensure that the selection of a jury reflects a fair representation of the city's population. The system also creates individual mail notices. The selected jurors list can be updated for exemptions or rescheduling. The Jury Selection System provides the capability to select and update individual records by name, voter registration number or selection number. The system also provides for changing scheduled juries and/or judges and re-issuing mail notices. The system was implemented in January 1987 and consists of 11 on-line and 13 batch programs written in NATURAL.

AUTOMATED FUNCTIONS

assignment-courtroom, assignment-judges, calendaring/scheduling, case disposition reports, docketing, fines, collateral, bail, juror management, jury selection, legal information retrieval

NARRATIVE

The Municipal Courts Criminal Justice System is referred to as the Criminal Justice Information System (CJIS). The CJIS monitors over 400,000 cases annually. It is an on-line system on the city's mainframe computer and interfaces with the Arrest/Disposition, Bexar County CJIS, Police Personnel, and the Geographic Base Systems. Data entry and updates are performed via video terminals. Many batch reports are generated from the CJIS, including court dockets and violation summaries. The CJIS generates correspondence to court participants notifying them of their case status. The system has the capability of retrieving information on-line by case number, person description, vehicle description, location, violation type, and judicial event.

MAIN	AMDAHL 5860	MVS 2.1	No
MAIN	IBM 370	MVS 2.1	No

AUTOMATED FUNCTIONS

finest, collateral, bail

NARRATIVE

The Parking Ticket System provides the San Antonio Municipal Court with a computer-generated delinquency notice for each violator with outstanding parking violations. More than 155,000 parking ticket violations are processed annually. Data entry of parking ticket information is done using the Datapoint Network. Parking ticket and moving violation disposition information is captured and transferred to the host computer each night. Delinquent notices are printed periodically, along with associated reports. Registration update information is obtained from the Motor Vehicle Division in Austin, Texas, to ensure that the correct address information is used on parking ticket notices. Two methods of retrieving information by terminal are available: by ticket number, and by license plate number. This system was implemented in October 1980 and enhanced in 1985.

1989 Survey of Automated Criminal Justice Agencies

Many criminal justice practitioners are discovering the benefits of using computers in their agencies. But agencies are often not informed about the existence and capabilities of automated information systems designed specifically for criminal justice. The National Clearinghouse for Criminal Justice Information Systems — a multi-functional program of SEARCH Group, Inc. and the Bureau of Justice Statistics — was established to collect and disseminate this information to benefit state and local justice agencies.

The Clearinghouse documents public domain and proprietary automated information systems and promotes and facilitates the transfer of proven criminal justice systems. For more than 12 years, the Clearinghouse has operated the Automated Index of Criminal Justice Systems. This Index contains information on over 1,500 operational justice systems and is an invaluable resource for criminal justice personnel who are turning to computers to solve their information management problems. In response to telephone requests from criminal justice agencies, SEARCH staff query the Automated Index database about systems that perform specific justice functions or which operate on particular hardware or operating systems.

SEARCH Group, Inc., is a nonprofit, public-interest organization dedicated to applying information technology to benefit criminal justice. SEARCH was recently awarded a grant by the Bureau of Justice Statistics, U.S. Department of Justice, to redesign and enhance the Automated Index. Enhancements planned for the Automated Index will increase its usefulness in responding to inquiries from agencies and expand its capability for more detailed data.

This survey is part of the Index enhancement effort and is designed to collect information on the types of automated system(s) maintained by your agency. Knowledge of your agency's automated system could help other agencies which are seeking to use technology to effectively manage their data. Your completed and returned survey will ensure that:

- The descriptions of your automated systems are included in the 1989 edition of the *Directory of Automated Criminal Justice Information Systems*, published by the Bureau of Justice Statistics; and
- The information on your agency's system(s) listed in the Automated Index is current, complete and accurate.

Does your agency use a computer to accomplish any of its tasks?

- No, we have a manual system Yes, we have an automated system.

If "No", it is not necessary for you to complete this survey. However, in order that this survey may be accounted for, we ask that you kindly return it as soon as possible. Please re-fold the survey, staple it (taking care to expose the portion that is addressed to SEARCH Group, Inc.) and drop it in the mail.

If "Yes", we would appreciate your completing the survey, which should take about 10 minutes. To return the survey, please re-fold and staple it (taking care to expose the portion that is addressed to SEARCH Group, Inc.) and drop it in the mail. If you have any questions regarding this survey, please contact Cheryl Moore at SEARCH Group, Inc. (916) 392-2550. Thank you.

SECTION I — AGENCY DESCRIPTION

1. Please check the *one box* that best describes your agency:

- | | |
|--|---|
| <input type="checkbox"/> Minor court of limited jurisdiction | <input type="checkbox"/> State appeals court |
| <input type="checkbox"/> General trial court | <input type="checkbox"/> State court of last resort |
| <input type="checkbox"/> Other (<i>please specify</i>) | |

2. Types of cases processed by your agency: (*check all that apply*)

Civil

- Small claims
- Civil to limited amount in controversy
- Civil over minimum amount in controversy
- Family
- Juvenile
- Probate
- Traffic Infractions/Parking
- Worker's Compensation

Criminal

- Misdemeanors
- Felonies through preliminary hearing
- Felonies through trial

Appeals

- Appeals from courts of limited jurisdiction
- Appeals from general trial courts
- Appeals from intermediate appellate courts

3. Approximate number of cases disposed of during 1988:

Criminal _____

Civil _____

Appellate _____

SECTION II — COMPUTER HARDWARE

■ This section collects information about the physical equipment (hardware) an system software your agency is currently using. Included are questions about how your agency's information processing is accomplished.

1. Please check the *one box* that best describes the computer access within your agency:

- Have exclusive use of one or more computers
 - Share computers with another agency, division or unit
 - Rely on a city, county or state central data processing bureau or agency for computer services
- Other (*please specify*) _____

2. Which computers are used by your agency? (Please indicate the quantity in front of the manufacturer's name and include the model name or number for each computer system.)

3. If your agency uses a computer system that is not listed in the above table, please provide the following information:

	Quantity	Manufacturer	Model
Mainframe	_____	_____	_____
Minicomputer	_____	_____	_____
Microcomputer	_____	_____	_____

4. Which operating systems are used by your agency? (Check all that apply)

	Version		Version
<input type="checkbox"/> Macintosh	_____	<input type="checkbox"/> VAX/V MS	_____
<input type="checkbox"/> MSDOS/PCDOS	_____	<input type="checkbox"/> VM	_____
<input type="checkbox"/> MVS	_____	<input type="checkbox"/> VSE	_____
<input type="checkbox"/> RSTS	_____	<input type="checkbox"/> XENIX	_____
<input type="checkbox"/> UNIX	_____	<input type="checkbox"/> Other _____	_____

5. Approximate number of microcomputers used by your agency _____
6. Number of microcomputers that are networked _____
7. Number of local area networks in your agency _____
8. Network(s) used (e.g. Novell, 3Com, 10Net, IBMPC) _____
9. Does your agency have any employees whose primary responsibilities include data processing, computer maintenance, programming, etc.?
- Yes
- No
- If yes, how many full time equivalent (FTE)? _____

SECTION III — LEVEL OF AUTOMATION

■ This question collects information on your agency's use of software packages which are *not specifically oriented to criminal justice*. (e.g. WordStar, Lotus 123, Rbas 5000). Please check one box for each function.

1. Does your agency use one or more software packages for the following general office automation functions?

Y N

- Accounting
- Computer Assisted Training
- Database Management
- Desktop Publishing
- Electronic Mail
- Graphics
- Payroll

Y N

- Personnel
- Schedule/Time Mgmt.
- Spreadsheets
- Statistical Analysis
- Word Processing

■ This question collects information on your agency's use of software packages which are *specifically oriented to criminal justice functions or information systems*. Please check one box for each function. Check no if the function or information system is performed solely by one of the general office automation software packages listed above.

2. Does your agency use one or more software packages for the following criminal justice functions?

Y N

- Assignment - Courtrooms
- Assignment - Judges
- Calendaring - Scheduling
- Case Management
- Fine/Restitution Management

Y N

- Juror Management
- Juror Payrol
- Summons Mgmt.
- Warrant Mgmt.

Other (please specify) _____

SECTION IV — AUTOMATED JUSTICE APPLICATIONS

■ We will use the following information to contact the developer(s) of the software system(s) currently being used by your agency. This will allow us to gather specific information about the software packages.

1. Please provide the following information about the criminal justice software system(s) currently being used by your agency:

◆ System name _____ Developer _____

Address and/or phone number _____

Purchased Developed in-house

◆ System name _____ Developer _____

Address and/or phone number _____

Purchased Developed in-house

◆ System name _____ Developer _____

Address and/or phone number _____

Purchased Developed in-house

SECTION V — CONCLUSION

■ Please provide the following information about the person in your agency who is best qualified to provide **technical information** about the computer hardware and software system(s) used by your agency. This individual will be included as the contact person in the 1989 edition of *The Directory of Automated Criminal Justice Information Systems* and should be the person who will be available to respond to inquiries from SEARCH staff and justice agencies.

Name _____ Title _____

Agency _____ Telephone _____

Address _____

■ In the event that a question may arise during the processing of this survey, please provide the name, title, agency and telephone number of the person who completed this survey.

Name _____ Title _____

Agency _____ Telephone _____

■ Thank you for taking the time to complete this survey. The timely data you provide will help to ensure the effectiveness of the Automated Index.

1989 Survey of Criminal Justice Software Developers

Many criminal justice practitioners are discovering the benefits of using computers in their agencies. But agencies are often not informed about the existence and capabilities of automated information systems designed specifically for criminal justice. The National Clearinghouse for Criminal Justice Information Systems — a multi-functional program of SEARCH Group, Inc. and the Bureau of Justice Statistics — was established to collect and disseminate this information to benefit state and local justice agencies.

The Clearinghouse documents public domain and proprietary automated information systems and promotes and facilitates the transfer of proven criminal justice systems. For more than 12 years, the Clearinghouse has operated the Automated Index of Criminal Justice Systems. This Index contains information on over 1,500 operational justice systems and is an invaluable resource for criminal justice personnel who are turning to computers to solve their information management problems. In response to telephone requests from criminal justice agencies, SEARCH staff query the Automated Index database about systems that perform specific justice functions or which operate on particular hardware or operating systems.

SEARCH Group, Inc., is a nonprofit, public-interest organization dedicated to applying information technology to benefit criminal justice. SEARCH was recently awarded a grant by the Bureau of Justice Statistics, U.S. Department of Justice, to redesign and enhance the Automated Index. Enhancements planned for the Automated Index will increase its usefulness in responding to inquiries from agencies and expand its capability for more detailed data.

This survey is part of the Index enhancement effort and is designed to collect information on the types of automated system(s) maintained by your agency. Knowledge of your agency's automated system could help other agencies which are seeking to use technology to effectively manage their data. Your completed and returned survey will ensure that:

- The descriptions of your automated systems are included in the 1989 edition of the *Directory of Automated Criminal Justice Information Systems*, published by the Bureau of Justice Statistics; and
- The information on your agency's system(s) listed in the Automated Index is current, complete and accurate.

Please take this opportunity to provide us with information about the automated system(s) your organization has developed. The survey can usually be completed in less than 15 minutes. When you have completed this survey, please refold and staple it (taking care to expose the portion that is addressed to SEARCH Group, Inc.) and drop it in the mail. If you have found it necessary to copy and/or insert additional pages, please be sure that a complete, stapled survey is included for each product described. A large envelope may be used to return two or more surveys.

Your cooperation and attention to this survey are greatly appreciated. If you have any questions regarding this survey, please contact Cheryl Moore at SEARCH Group, Inc. (916) 392-2550.

Please submit a completed survey for each individual criminal justice-oriented product offered by your firm or agency. Where pages of the survey are common to two or more of the products you are describing, feel free to copy the completed pages and insert them in the appropriate product description. This will save you time and duplication of effort.

We ask that you do not list the individual modules that comprise an integral system separately as products unless each module can operate as a stand-alone package.

1. Full Product Name _____ Acronym (if applicable) _____

2. Is this product comprised of stand-alone modules capable of functioning independently?

No Yes

If yes, please list the modules (use additional paper if necessary)

- A. _____
 B. _____
 C. _____

3. Which computers can be used to operate this product? (Please place a check mark in front of the manufacturer's name and include the model name or number for each computer system.)

Mainframe computers

Minicomputers

Microcomputers

<input checked="" type="checkbox"/>	Manufacturer	Model	<input checked="" type="checkbox"/>	Manufacturer	Model	<input checked="" type="checkbox"/>	Manufacturer	Model
	Amdahl						Altos	
							Apple II/III	
							Apple Macintosh	
	AT&T			AT&T			AT&T	
							Compaq	
	Control Data							
	Data General			Data General				
				DEC			DEC	
	Hewlett Packard			Hewlett Packard			Hewlett Packard	
	Honeywell Bull			Honeywell Bull				
	IBM			IBM			IBM	
							ITT	
							Leading Edge	
	NCR			NCR			NCR	
				NEC			NEC	
				Prime				
	UNISYS			UNISYS			UNISYS	
							Tandy	
				Texas Instruments			Texas Instruments	
				Wang			Wang	
							Zenith	

4. If this product uses a computer system that is not listed in the above table, please provide the following information:

	Manufacturer	Model
Mainframe	_____	_____
Minicomputer	_____	_____
Microcomputer	_____	_____

5. Under which operating systems does this product operate? (please check all that apply)

	Version		Version
<input type="checkbox"/> Macintosh	_____	<input type="checkbox"/> VAX/VMS	_____
<input type="checkbox"/> MSDOS/PCDOS	_____	<input type="checkbox"/> VM	_____
<input type="checkbox"/> MVS	_____	<input type="checkbox"/> VSE	_____
<input type="checkbox"/> RSTS	_____	<input type="checkbox"/> XENIX	_____
<input type="checkbox"/> UNIX	_____	<input type="checkbox"/> Other _____	_____

6. Does this product function on a local area network?

- No
- Yes

If yes, please list the network(s) _____

7. Is this product copyrighted?

- No
- Yes

8. Is this product in the public domain?

- No
- Yes

9. In what programming language(s) is this product written? _____

10. Is the software modifiable by the end user?

- No
- Yes

11. Please provide a short narrative of this software package, including pricing structure.

12. Is the source code available to the end user?

- Yes, supplied with the product
- Yes, available to the end user, but not normally supplied with the product
- No, neither supplied nor available

13. What support services do you offer to users of this product? (check all that apply)

- User's Manual
- Demonstration Software
- Computer Assisted Training
- On-site Training
- 24-hour Support
- Other (please specify) _____
- Technical/Reference Manual
- Programming Svcs/Custom Mod.
- Off-site Training
- On-site Technical Support
- Telephone-based Tech. Support

14. What features does this product offer the end user? Please list only functions which are a part of the application software, not additional capabilities which are a part of the operating system or language in which the system was developed.

- Menu-driven user interface
- Icon-driven user interface
- Supports "scroll" fields
- Application-level security features
- Graphic output
- Ad hoc reports
- Ad hoc query language or SQL
- Exact-match searches
- Sound alike searches
- Context-sensitive help
- On-line help
- Multiuser record-level data locking
- Other (please specify) _____
- "Pop-up" windows
- Supports mouse or light pen
- Log-in security features
- Data encryption security features
- Color video output
- "Hot key" movement between system functions
- Query-by-example
- "Wildcard" searches
- Import/export data from/to other systems
- Import/export data from/to other programs
- Multiuser file-level data locking
- Multiuser field-level data locking

15. Does this product perform general administrative functions?

- No Yes

If yes, please indicate which functions are served (check all that apply):

- Accounting
- Personnel
- Resource Allocation
- Budgeting
- Planning
- Training
- Payroll
- Research/Statistics
- Other (please specify)

**16. Which criminal justice discipline does this product *primarily* serve?
(select only one)**

- Corrections
- Courts
- Law Enforcement
- Probation and Parole
- Prosecution
- Other (please specify) _____

17. Please advance to the specific criminal justice discipline identified in question 16 and check all the functions the product performs.

Corrections

- Agency Billing
- Commissary
- Criminal History
- Gang Intelligence
- Good/Bad-time Calculations
- Inmate Accounting
- Other _____
- Inmate Classification
- Inmate Records
- Inmate Visitation
- Institutional Infractions
- Juvenile Records
- Medical History
- Menu Planning
- Prisoner Behavior Models
- Transport Prisoners
- Trust Fund Accounting

Courts

- Alimony/Child Support
- Assignment/Courtroom
- Assignment/Judges
- Attorney Registration
- Brief Bank
- Calendaring/Scheduling
- Case Disposition Reports
- Civil Case Processing
- Court Library System
- Criminal History
- Other _____
- Docketing
- Estate Case Management
- Family Court Case Mgt.
- Fines, Collateral, Bail
- Garnishment Accounting
- Juror Payroll Processing
- Jury Management
- Jury Selection
- Juvenile Records
- Legal Information Retrieval
- Licensing/Reg.
- Paring Case Management
- Pretrial Services
- Probate Case Management
- Restitution
- Small Claims Case Processing
- Summons Control
- Traffic Case Management
- Victim/Witness Information
- Workman's Comp

■ One function of the Clearinghouse is to refer agencies interested in a product to other agencies that are using it in an operational setting. To facilitate this referral process, please list up to three agencies using this software.

1. Agency Name _____

Contact Name _____

Address _____

Telephone _____

2. Agency Name _____

Contact Name _____

Address _____

Telephone _____

3. Agency Name _____

Contact Name _____

Address _____

Telephone _____

■ Please complete the following section to describe your firm or agency. The contact person will be listed in the 1989 edition of the *Directory of Automated Criminal Justice Information Systems*. This should be the person who will be available to respond to inquiries from SEARCH staff and justice agencies.

Developer/Agency Name _____

Address _____

City _____

State _____ ZIP _____ Telephone _____

Contact Person _____ Title _____

■ In the event that a question arises during the processing of this survey, please provide the name, title, agency and telephone number of the person who completed this survey.

Name _____ Title _____

Agency _____ Telephone _____

Thank you for taking the time to respond to this survey.

Update/Correction Notification Form

Date _____

- Our agency/system was not included in the *1990 BJS Directory of Automated Criminal Justice Information Systems*. Please send questionnaire.

- Corrections
 Courts
 Law Enforcement
 Probation/Parole
 Prosecution
 Vendor/Developer

- Our entry is erroneous. I have attached a copy of our entry and have marked the changes.

Please put me on the mailing list for—

- Law enforcement reports**—national data on State and local police and sheriffs' departments: operations, equipment, personnel, salaries, spending, policies, programs
- Federal statistics**—data describing Federal case processing, from investigation through prosecution, adjudication, and corrections
- Drugs and crime data**—sentencing and time served by drug offenders, drug use at time of crime by jail inmates and State prisoners, and other quality data on drugs, crime, and law enforcement
- Justice expenditure and employment reports**—annual spending and staffing by Federal/State/local governments and by function (police, courts, etc.)

- White-collar crime**—data on the processing of Federal white-collar crime cases
- Privacy and security of criminal history information and information policy**—new legislation; maintaining and releasing intelligence and investigative records; data quality issues
- Juvenile corrections reports**—juveniles in custody in public and private detention and correctional facilities
- BJS bulletins and special reports**—timely reports of the most current justice data
- Prosecution and adjudication in State courts**—case processing from prosecution through court disposition, State felony laws, felony sentencing, criminal defense

- Corrections reports**—results of sample surveys and censuses of prisons, parole, probation, and other corrections data
- National Crime Survey report**—only regular national survey of crime victims
- Sourcebook of Criminal Justice Statistics** (annual)—broad-based data from 150+ sources (400+ tables, 100+ figures, subject index, annotated bibliography, addresses of sources)
- Send me a form to sign up for **NC Reports** (free 6 times a year), which abstracts both private and government criminal justice publications and lists upcoming conferences and training sessions in the field.

To be added to any BJS mailing list, please copy or cut out this page, fill in, fold, stamp, and mail to the Justice Statistics Clearinghouse/NCJRS.

You will receive an annual renewal card. If you do not return it, we must drop you from the mailing list.

To order copies of recent BJS reports, check here and circle items you want to receive on other side of this sheet.

Now you can receive BJS press releases and other current data from the NCJRS Electronic Bulletin Board!

The Electronic Bulletin Board provides quick and easy access to new information—use your personal computer and modem, set at 8-N-1 (rates 300 to 2400 baud), and call 301-738-8895, 24 hours a day.

Once online, you will be able to review current news and announcements from BJS and its Justice Statistics Clearinghouse, including new publication listings and conference calendars.

For more information about the Bulletin Board, call 1-800-732-3277.

BJS menu options
