FOREWORD

This is the fourteenth Crime and Justice Annual Report prepared by the Division of Criminal Justice Services pursuant to Sections 837, 837-a, and 837-b of the Executive Law.

The Division appreciates the cooperation and support of the nearly 600 police departments, sheriffs' offices and specialized police agencies that provide offense and arrest data for the report. We also wish to express our gratitude to District Attorney and Special Prosecutor offices throughout the State for their continued cooperation and assistance in providing data on the processing of felons. The Division is also indebted to the Superintendent of the Division of State Police, the Chairman of the Board of Parole, the Chairman of the Commission of Correction, the Commissioner of Correctional Services, the State Administrator of the Courts, the Chairwoman of the Crime Victims Board, the Director of the Division for Youth, and the Director of Probation and Correctional Alternatives for the data provided by their respective agencies.

The contributions of all involved in the preparation of this report permit the Division to provide a clear picture of the nature of crime and justice issues in New York State. Without the concerted and dedicated efforts of the people who serve in the many local and State agencies which comprise our criminal justice system, the publication of this report would not be possible. It is these efforts which are documented in this Crime and Justice Annual Report.

1988 CRIME AND JUSTICE ANNUAL REPORT

NEW YORK STATE COUNTIES AND COUNTY SEATS*

Published by
STATE OF NEW YORK
DEPARTMENT OF COMMERCE

INTRODUCTION

The New York State Division of Criminal Justice Services was assigned the responsibility for the collection of data concerning crimes and arrests in New York State, effective January 1975, pursuant to Sections 837, 837-a and 837-b of the Executive Law.

In assuming that responsibility, the Division was also committed to providing relevant data to the National Uniform Crime Reporting Program administered by the Federal Bureau of Investigation and to disseminating this information to the New York State criminal justice community.

This publication is the fourteenth annual report produced in discharge of that responsibility.

UNIFORM CRIME REPORTING

Uniform Crime Reports submitted monthly by police agencies in New York State are the basis for much of the material contained in this report. These reports include information on:

Part I Offenses
 Part II Offenses
 Location and Time of the Offense
 Value of Property Stolen
 Part I Arrests
 Part II Arrests
 Law Enforcement Officers Killed or Assaulted
 Number of Law Enforcement Employees

- o *In 1988, all 586 law enforcement agencies participated in the Uniform Crime Reporting Program and agencies with multi-county jurisdictions reported separately of each county within their jurisdiction.*
- o *Police agencies also submit supplementary reports on homicide and arson offenses. These detailed reports allow for a more in-depth analysis of these serious crimes.*

In addition to Uniform Crime Reporting data contained in this report, we have provided data on felony arrests, felony drug arrests, and felony indictments and dispositions.

- o *The arrest material is derived from the Computerized Criminal History (CCH), which is based on the arrest fingerprint cards submitted to the Division of Criminal Justice Services in compliance with Section 160.20 of the Criminal Procedure Law. Adult felony and misdemeanor arrests are presented for each county from 1983 through 1988.*

FELONY INDICTMENT AND DISPOSITION

The felony indictment and disposition material is reported by District Attorneys and Special Prosecutors throughout the State pursuant to Section 837-a of the Executive Law. This material includes data on felony indictments, felony drug indictments, felony dispositions and median time from indictment through disposition.

- o *Information from other criminal justice agencies is included in this report to present, in one volume, as much information as possible about the criminal justice system.*

OTHER SUBMITTING AGENCIES

Agencies that have submitted data and are included in this report are:

Office of Court Administration
 Division of Probation and Correctional Alternatives
 Department of Correctional Services
 Commission of Correction
 Division of Parole
 Division For Youth
 Crime Victims Board

The arrest reports reflect the number of persons arrested for Part I and Part II Offenses, as described above.

This report also provides greater detail regarding the following aspects of Part I Offenses:

- a. Type of Weapon/Force Used
- b. Type of Location in which the Crime was Committed
- c. Number of Offenses Cleared
- d. Type and Amount of Property Stolen and Recovered

AGE, SEX, RACE AND ETHNIC ORIGINS OF PERSONS ARRESTED

1. Persons Under 16 Years of Age (Juvenile)
2. Persons 16 Years of Age and Over (Adults)

- o Note: The FBI/UCR Program treats persons under 18 as juveniles, and requires that they be so reported. This report, however, is compiled in accordance with New York State Law which classifies juveniles as those persons under 16 and adults as those 16 and over.*

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Statistics are provided on the number of New York State Law Enforcement Officers Killed or Assaulted. A description of the conditions under which the officers were assaulted is also provided.

HOMICIDE ANALYSIS

- o Details on homicides committed in New York State, including characteristics of victims and circumstances under which such homicides occurred, are provided.*

ARSON ANALYSIS

- o *This report provides additional detail concerning arson. The analysis describes the types of structures involved, distribution of activity and clearance rates.*

DOMESTIC VIOLENCE

- o *Statistics are presented relating to the incidence of Domestic Violence by geographic locations in New York State, New York City and Upstate Counties.*

For many reasons, not all offenses come to the attention of the police. Victims may feel too embarrassed to report a crime or that the loss sustained was too small to report or believe that there is nothing the police can do. Victimization studies have confirmed that many offenses are never reported.

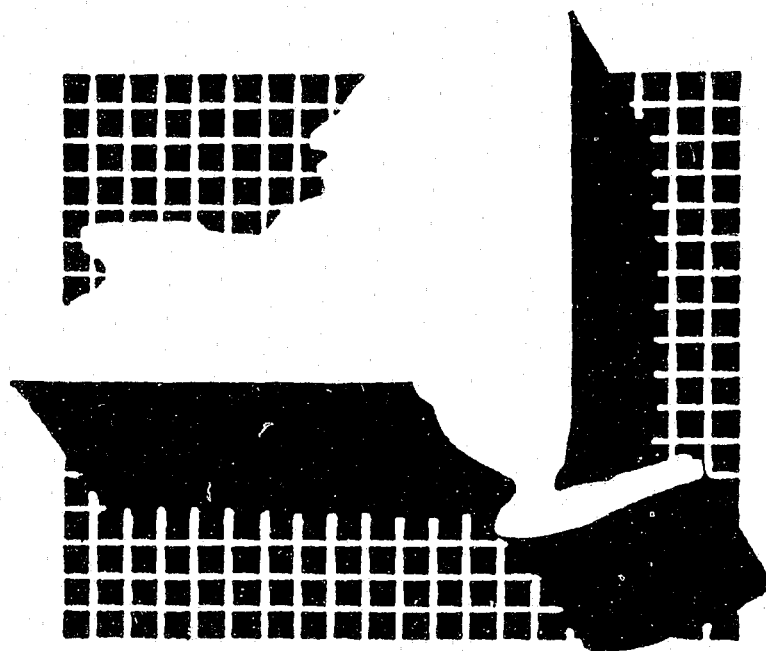

When an offense is cleared, it is usually done by one or more arrests. However, there are exceptional circumstances when an offense may be cleared without an arrest. Exceptional clearances result when the police know who and where the offender is and have enough evidence to support an arrest, but are prevented from doing so because of some reason outside of their control.

To combat crime effectively, it must be known when and where crime is occurring. The county, as a crime location, is not sufficiently definitive. Therefore, we have instituted direct reporting to the State program from every Police Chief and Sheriff in New York State in accordance with State Law.

It is important to note that without the collaboration of the Law Enforcement Agencies and cooperation of the criminal justice agencies, this Report would not be possible.

POPULATION DATA SOURCE

Population data used for calculating crime rates for the 1988 Crime and Justice Annual Report are based on 1980 census data and updates provided by the United States Department of Commerce - Bureau of Census and the New York State Department of Commerce.

DOMESTIC VIOLENCE

OFFENSES

For over 50 years criminal offenses have been used as a crime index to assess the level of criminal activity within an area. The index offenses were selected because of their seriousness or frequency of occurrence.

The index offenses are murder & non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny and motor vehicle theft.

Comparisons of crime rates between police agencies or counties should be made with extreme caution. The crime rates published in this report are based solely on offenses reported or known to the police and the size of the resident population. Additional factors which may influence crime rates are density of population, geographic location, social attitudes, economic conditions, number of law enforcement officers, seasonal and transient populations, and rural or urban environments.

ARSON

This is the tenth analysis of arsons in New York State to be presented in the Crime and Justice Annual Report. The data for these analyses are derived from a supplementary arson data collection program begun in 1979 under the Uniform Crime Reporting (UCR) System.

- o Arson is defined by the Uniform Crime Reporting Program as a "willful or malicious burning, or attempted burning, of a dwelling house, public building, motor vehicle, aircraft, or personal property of another." Only fires determined through investigation to have been willfully or maliciously set are classified as arsons.*
- o A "cleared"¹ arson incident is defined as an offense for which a perpetrator has been taken into custody or is otherwise known by police to have committed the crime, but for reasons outside police control cannot be taken into custody.*

Arsons reported under Part II of the UCR program and shown elsewhere in this volume are reported under the "hierarchy rule," whereby an offense is counted only if it is the most serious in an incident. Under this program, an arson offense is reported regardless of whether it occurred in conjunction with a more serious offense. This analysis, therefore, shows more arson offenses than are shown for arson offenses in the UCR Part II offense presentations.

Type of property is divided into three categories:

- structural (residential, commercial, public/community, and other);
- mobile (motor vehicle and other);
- other property.

The definitions of property type are as follows:

SINGLE OCCUPANCY RESIDENTIAL

includes houses, townhouses and duplexes.

OTHER RESIDENTIAL

includes apartments, tenements, flats, hotels, motels, inns, dormitories and boarding houses.

STORAGE

includes warehouses, garages and barns.

INDUSTRIAL/MANUFACTURING

includes factories and all other manufacturing facilities.

OTHER COMMERCIAL

includes stores, restaurants and offices.

PUBLIC/COMMUNITY

includes churches, jails, schools, colleges and hospitals.

ALL OTHER STRUCTURES

includes out-buildings, monuments and structures under construction.

MOTOR VEHICLES

includes automobiles, trucks, buses, motorcycles, motor scooters, and snowmobiles.

OTHER MOBILE

includes airplanes, boats, trailers, and recreational vehicles.

OTHER PROPERTY

includes crops, timber, fences, and signs.

Estimated values of property damaged are included in the report. They are included in order to provide an estimate of the absolute minimum dollar value. Because many police departments have little or no access to dollar amounts for arson, the monetary values for many arson cases are not reported.

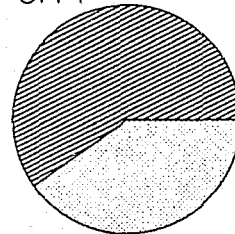

¹ The clearance rate is the ratio of clearances to the net number of arsons reported, expressed as a percent. Because a 1988 clearance does not necessarily reflect clearance of an offense reported in 1988, the clearance rate should be considered only as a general indicator of processing efficiency.

ARSON ANALYSIS NEW YORK STATE SUMMARY

ARSONS REPORTED

There were 11,646 arson incidents reported in New York State in 1988, a 3.1% increase from 1987.

Structural Arsons

- o Arsons of structures accounted for 63.4% of all New York State arsons. Of these 46.1% were residential arsons. Consistent with data from previous years, residential structural arsons remained the most common type of structural arson throughout the State.*
- o Commercial structure arsons accounted for 11.9% of all arsons in New York State. "Other Commercial" arsons, the most frequent form of commercial arson in New York State, accounted for 7.4% of the arsons statewide.*
- o The 717 arsons that occurred in abandoned structures accounted for 6.2% of all arsons in New York State. Residential structures were the most common form of abandoned structures to be targets for arson.*

Mobile Arsons

- o In this category, the 3,850 "motor vehicle" arsons reported in New York State accounted for 33.1% of all New York State arsons, while "other mobile" accounted for 1.2% of these arsons.*

ARSONS CLEARED

- o In 1988, 1,278 arson incidents were cleared in New York State. Of these, 78.6% were structure arsons, of which 56.2% were residential and 12.9% were commercial.*
- o Three hundred seventy-three of the arson clearances involved persons under age 18. Persons in this age group accounted for 29.2% of the arson clearances in the state; this represents a slight decrease from 1987 when they accounted for 30.9%.*

ARSON CLEARANCE RATES

- o The 1988 clearance rate for all arsons in New York State was 11.0%. This relatively low clearance rate inclusive of the low clearance rates of New York City and Upstate, seems to reflect the extreme difficulty in solving a crime in which most of the physical evidence is destroyed.*
- o Arson clearance rates also vary by the type of property involved. In 1988 statewide clearance rates for the "other property" (22.8%) and "other structure" (20.2%) categories had the highest clearance rates, while "motor vehicle arson" had the lowest clearance rate (5.0%).*

**NEW YORK STATE
DOMESTIC VIOLENCE
1988**

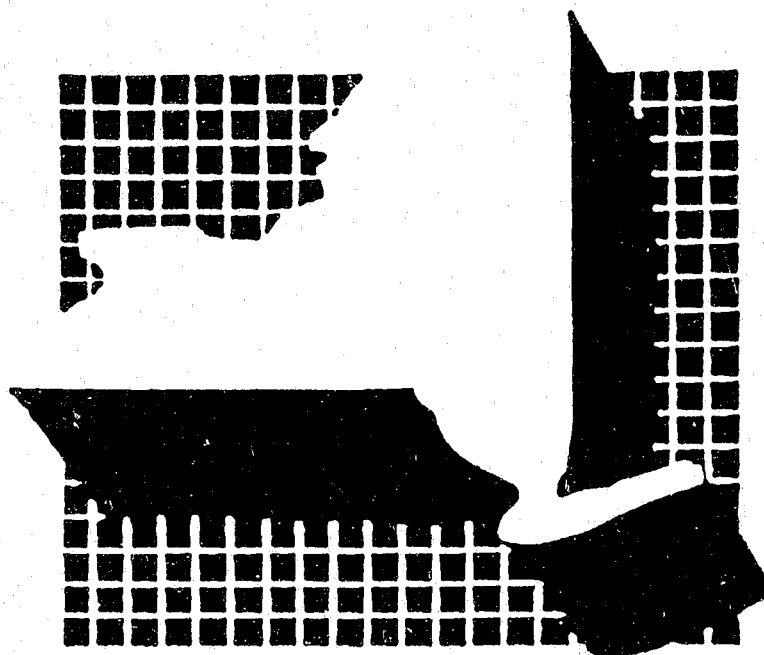

The Governor's Task Force on Domestic Violence was established by Executive Order #90 on May 17, 1979, to study "the traumatic effects of domestic violence and how our social and legal systems can better deal with such violence and its causes."

The Uniform Crime Reporting System (UCR) is utilized by DCJS as the data collection instrument for obtaining domestic violence data from the local law enforcement agencies. The domestic violence data reflected in this report are based on those offenses which have come to the attention of law enforcement officers, regardless of whether a formal complaint was filed or an arrest made.

For New York City, the 55,787 offenses reported in 1988 is a 7.7 percent increase over 51,796 reported in 1987, while the Upstate counties increased 56.6 percent.

Statewide, domestic violence offenses reported increased. A total of 90,001 offenses were reported in 1988 as opposed to 73,645 reported in 1987, an increase of 22.2 percent. As in prior years, this increase is due in part to improved reporting by the law enforcement agencies across the State. Additionally, procedural changes that require an arrest to be made in domestic violence cases have contributed significantly to the reported increases.

NEW YORK STATE DRUG ARRESTS

DISTRIBUTION BY SALE AND POSSESSION
1988

INDICTMENTS AND DISPOSITIONS

The following tables present data on felony indictments and dispositions for 1988 and 1987. This information is obtained from a statistical reporting system based on individual reports of each indictment and each disposition submitted by district attorneys and special prosecutors throughout the State. The unit of count in this reporting system is the defendant/indictment; that is:

- o *When several defendants are named in one proceeding or indictment, each defendant is counted separately; and*
- o *When one defendant is named in multiple proceedings or indictments, each indictment is counted separately.*

The use of offender-based statistics and the tracking of each defendant from time of indictment until final disposition makes possible the measuring of elapsed time between various stages in processing. The median time is obtained by ranking all the values in a specific category (for example, time from indictment to disposition) and choosing the middle number - that is, the number with an equal amount of values above and below it. As a result, the median values are not influenced by very large or very small numbers which can affect averages.

It should be noted that the disposition data reported in these tables pertain to cases handled during the specified year by the superior courts. These dispositions may be for indictments in the same or previous years.

REPORT ON
1988
HAZARDOUS WASTE AND WASTE DISPOSAL VIOLATIONS
IN NEW YORK STATE

Legislative enactment (Chapter 631 of the 1987 Laws of New York) requires the Division of Criminal Justice Services to collect and analyze statistical and all other information and data with respect to the number of environmental crimes and offenses violating Articles 27, 37, 40 and Titles 27 and 37 of Article 71 of Environmental Conservation Law regarding hazardous waste and waste disposal. The following is presented in satisfaction of that mandate for the year 1988.

PREFACE

This report presents a general overview of the number of hazardous waste and waste disposal violations monitored by specific State agencies in 1988. Included are summaries of reports submitted to the Division of Criminal Justice Services from the Department of Environmental Conservation, the Department of Law, the Division of the State Police, the Division of Criminal Justice Services as well as reports from the Kings County and Suffolk County District Attorney's offices.

BACKGROUND

This past year New Yorkers have become increasingly aware of the threat imposed by hazardous waste and waste disposal violations. Illegal dumping, oil and gasoline spills, tire dump fires, underground tank leaks, illegal disposal of medical waste ("red-bag waste")...each week local and national papers reported on violations that threatened health, property and the environment. Some violations were accidental, occurring because of inattention or improper training. Others were intentional, committed for profit, convenience, or both. Whether violations were accidental or intentional, it is certain that the problems surrounding hazardous waste and waste disposal are increasing and the solutions are not simple.

1988 HAZARDOUS WASTE AND WASTE DISPOSAL LEGISLATION

The New York State legislature and Governor Cuomo have persisted in their efforts to find effective long-term solutions to the issues surrounding hazardous waste and waste disposal. New legislation has been adopted for stricter regulation, extension of authority (empowerment of the courts), clarification of definitions (to enhance prosecution), criminalization of violations, and harsher penalties for offenders. In 1988 the State introduced its newest strategy...waste reduction.

In its anticipated impact, the enactment of the "**Solid Waste Management Act of 1988**" (Ch. 70 Laws of 1988) is the most notable recent legislation. Its pervasiveness spans eight bodies of Law and is expected to influence every government agency, municipality and ultimately every citizen in terms of how they address the issues of solid waste including solid waste management, recycling and reduction. This law affects the Environmental Conservation Law, the Public Authorities Law, the Economic Development Law, the State Finance Law, the County Law, the General Municipal Law, the Town Law, and the Village Law.

Included in this legislation is a declaration of State priorities concerning solid waste. In general, these priorities are:

- o to reduce the generation of solid waste,
- o to reuse or recycle material (to further reduce the generation of solid waste),
- o to recover energy from waste which cannot be reused or recycled, and
- o to dispose of waste that cannot be reused, recycled or from which energy cannot be extracted, by land burial or other approved method.

This legislation guides planning units on local solid waste management plans, allows the State to provide assistance in developing such plans and allows funding for part of the cost of plan preparation. It defines "secondary materials" (recycled materials) and offers assistance to the Department of Economic Development in conducting secondary materials market development programs and in the education of the consumer on the benefits of solid waste management. In addition, it creates a solid waste management board and stipulates its powers, duties and responsibilities. It provides for the regulation of permits and technical assistance for new solid waste management facilities. It establishes a Bureau of Waste Reduction and Recycling and provides for commercial and industrial waste audits. It encourages the separation of waste at source and promotes the purchase of recycled paper by public authorities, counties and municipalities.

Other 1988 legislation includes:

- o **Chapter 148** of the Laws of 1988 amends the Environmental Conservation Law by excluding low-level radioactive waste management facilities, from the definition of an industrial hazardous waste treatment, storage, and disposal facility. Effective June 20, 1988.
- o **Chapter 253** of the Laws of 1988 amends the Environmental Conservation Law by eliminating exemptions for permit requirements for the disposal of construction and demolition debris and setting sanctions for violations. Effective July 11, 1988.
- o **Chapter 301** of the Laws of 1988 amends the Environmental Conservation Law. The Commissioner is given the authority to enter into standby contracts for the purpose of achieving timely and effective remedies in a cost effective manner for the clean-up of hazardous substances or wastes. Effective July 25, 1988.
- o **Chapter 360** of the Laws of 1988 amends the Environmental Conservation Law. It sets State Pollutant Discharge Elimination System (SPDES) requirements and defines hazardous waste, pollutant, sewer system and treatment works. Criminal liability is established as is the court jurisdiction and sentence that can be imposed. Effective July 29, 1988.
- o **Chapter 428** of the Laws of 1988 amends the Environmental Conservation Law by modifying the definition of disposal and release to include "the abandonment of any substance" and defining "abandonment". Effective July 29, 1988.
- o **Chapter 595** of the Laws of 1988 amends the Environmental Conservation Law requiring State Agencies, Public Authorities or Public Benefit Corporations to submit an annual assessment of environmental operations. Effective Dec. 31, 1988 with contingencies.
- o **Chapter 649** of the Laws of 1988 amends the Environmental Conservation Law in that it changes the date for reporting the status of inactive hazardous waste sites and requires that monies expended or encumbered in accordance with the Environmental Quality Bond Act or the Hazardous Waste Remedial Fund be reported for each site. Effective Sept. 1, 1988.
- o **Chapter 654** of the Laws of 1988 amends the Environmental Conservation Law and the Public Health Law concerned with infectious waste transportation designating increased civil and criminal penalties for violations. Effective Nov. 1, 1988.

- o **Chapter 655** of the Laws of 1988 amends the Environmental Conservation Law and Public Health Law regarding infectious waste allowing the expenditure of up to two million dollars for the implementation of enforcement and response programs. Effective Nov. 1, 1988.
- o **Chapter 235** of the Laws of 1988 amends the Parks, Recreation and Historic Preservation Law by forbidding the deposit of rubbish on lands under the jurisdiction of the Office of Parks and Recreation and Historic Preservation; setting penalties for such violations and empowering the court to order convicted person to remove the rubbish or waste materials and to restore the land affected. Effective Nov. 1, 1988.
- o **Chapter 111** of the Laws of 1988 amends the Public Authorities Law relating to the Montgomery, Otsego, Schoharie Solid Waste Management Authority and extends the time counties may elect to join such authority. Effective June 13, 1988.
- o **Chapter 619** of the Laws of 1988 amends the Public Authorities Law establishing a small quantity generator hazardous waste audit program and requiring trade secret confidentiality from contractors in the industrial material recycling program. Effective Dec. 30, 1988.
- o **Chapter 627** of the Laws of 1988 amends the Public Authorities Law for the creation and regulation of the Oneida-Herkimer Solid Waste Management Authority. Effective Sept. 1, 1989.
- o **Chapter 665** of the Laws of 1988 amends the Public Authorities Law for the creation and regulation of the County of Franklin Solid Waste Management Authority. Effective Sept. 1, 1989.
- o **Chapter 670** of the Laws of 1988 amends the Public Authorities Law for the creation and regulation of the County of Essex Solid Waste Management Authority. Effective Sept. 1, 1988.

HAZARDOUS WASTE AND WASTE DISPOSAL VIOLATIONS
AGENCY REPORT SUMMARIES

In addition to the use of legislative initiatives to attack the problems of hazardous waste and waste disposal, a variety of State agencies have become increasingly active in monitoring hazardous waste and waste disposal violations and enforcing legislation.

The State Police Hazardous Materials Unit - Comprised of sixteen uniformed State Troopers, this unit has in the past targeted all vehicles placarded as carrying hazardous materials. As of May 1987, it was given the authority to inspect any vehicle suspected of carrying hazardous materials. Specializing in inspection of highway transport of hazardous materials, the following was reported to the Division of Criminal Justice Services as 1988 activity:

NEW YORK STATE POLICE
HAZARDOUS MATERIALS UNIT REPORT
1988

- 9,395 vehicles stopped and cargoes ascertained through a walk-around inspection.
- 4,318 formal inspection reports filed.
- 3,240 of those formally inspected were found to be carrying hazardous materials (75%) and were inspected to determine compliance with Hazardous Materials and Motor Carrier Safety Regulations.
- 1,078 were formal non-hazardous materials inspections.
- 4,144 Vehicle and Traffic tickets were issued.
- 1,658 tickets were issued for violations of 14-f of the Transportation Law (referred to in ECL 27-0305) including violation of Motor Carrier Safety Regulations.

Of those formally inspected, 1,309 vehicles (approximately 30%) were found to have safety violations of such seriousness to cause them to be removed from service. A total of 874 of the vehicles taken out of service (67.8%) were carrying hazardous materials. Reasons for the removal of these vehicles included 164 vehicles (18.8%) removed for brake problems, 196 (22.4%) removed for mechanical problems and 514 (58.8%) for non-mechanical problems.

From the total number of formal inspections, 6,724 violations were discovered (including both hazardous material and non-hazardous material violations).

It should be noted that the category "hazardous materials" includes the subcategory "hazardous waste." Tickets issued by the State Police were primarily for violations of New York State Transportation Law which regulates the transport of hazardous materials. Some of those tickets issued included violations related to the transport of hazardous waste.

The State Police Motor Carrier Safety Assistance Program Unit further monitors the transport of hazardous materials. This unit also consists of sixteen uniformed State Troopers and, in conjunction with the Department of Transportation, has the authority to stop any truck to check for safety and transportation violations. Such inspections can include a check for hazardous materials. For the calendar year 1988 this unit submitted the following information to the Division of Criminal Justice Services:

NEW YORK STATE POLICE
MOTOR CARRIER SAFETY ASSISTANCE PROGRAM UNIT REPORT
JANUARY 1988 THROUGH DECEMBER 1988

5,796 Trucks inspected.

3,025 Vehicles found with safety violations of such seriousness to result in removal from service.

5,536 Total Tickets issued.

649 Tickets issued for hazardous materials violations (11.7% of the total number of tickets issued). These were for violation of fourteen-f of the Transportation Law referred to in ECL 27-0305.

4,887 Tickets issued for other violations.

Tickets issued for hazardous materials violations are primarily for violations of the Transportation Law. Those tickets may include violations related to hazardous waste and waste disposal.

Fines imposed totaled \$1,151,900.00 and included a \$325,000 Federally imposed fine.

In order to further facilitate the prosecution of cases, many District Attorney's Offices have established active environmental crime units. Eighty-three percent of the cases closed (77 cases) were corporations/other entities while 17 percent of the cases (16 cases) were against individuals.

Of those cases closed in 1988, the original charges included 39 felony charges, 89 misdemeanor charges and 3 violations.

Dispositions resulted in fines, penalties, and consent orders totaling \$1,054,011.00. Approximately 73 percent of the monetary sentences (\$765,115.00) were fines from criminal convictions and 27.4 percent (\$288,896.00) were penalties and consent orders from civil and administrative dispositions.

Note: Consent orders are an administrative action on the part of Environmental Conservation. An amount is determined in accordance with the degree of harm caused by the offense. The offender agrees to pay the amount and signs a document to that effect. Monies collected via consent orders are placed in a remedial fund which is used in the cleanup of hazardous waste. Fines indicate a criminal disposition; penalties and consent orders indicate a civil or administrative disposition.

DEPARTMENT OF ENVIRONMENTAL CONSERVATION
DIVISION OF ENVIRONMENTAL ENFORCEMENT
1988 REPORT ON HAZARDOUS WASTE AND WASTE DISPOSAL VIOLATIONS

The Department of Environmental Conservation's (EnCon) Division of Environmental Enforcement (DEE) assists in the civil and criminal enforcement of Environmental Conservation Law. Consisting of attorneys, engineers, geologists and chemists, DEE provides valuable legal and technical assistance to a number of State units; Environmental Conservation Investigations, County District Attorney's Offices, the State Attorney General's Office and the U.S. Department of Justice. Support services provided by DEE include legal sufficiency evaluations of investigations, sampling and analysis of evidence, the drafting of search warrants, legal research, and investigator assistance in the development of matters for prosecution referral.

While DEE does not have independent criminal prosecution authority on many occasions, DEE attorneys have been deputized to handle environmental prosecutions.

The Division of Environmental Enforcement's report on 1988 Division activities concerned with hazardous waste and waste disposal violations includes all of the cases already reported by Environmental Conservation Investigations and several reported by the District Attorney's Offices. Two of Environmental Enforcement's cases were not included in other reports. These cases, both against corporations, resulted in convictions by plea. The conviction charges included illegal disposal of hazardous waste, Misdemeanor (ECL 71-2705), with a fine of \$2,500

and remediation costs. The other case resulted in a conviction to Offering a False Instrument for Filing in the First Degree (PL 175.35).

Division of Criminal Justice Services - The Computerized Criminal History/Offender-Based Transaction Statistics (CCH/OBTS) data system utilized by the Division of Criminal Justice Services (DCJS) is a compilation of data from police, courts, and correctional agencies and is used to track individual offenders through the criminal justice system. The total number of violations reported from the information contained in this file is considerably lower than the total number reported by Environmental Conservation Investigations (currently considered the most complete data source on the subject). The reasons are several. In order to be included in the DCJS data base, the charge must have been for a fingerprintable offense as designated by State law. Not all EnCon hazardous waste/waste disposal violations are fingerprintable. It follows, therefore, that the charge must have been levied against a person as opposed to a corporation or other entity. In a review of the hazardous waste/waste disposal violation data on cases disposed by the EnCon Investigations Unit it was determined that less than 20 percent of the violators charged were individuals. Lastly, the CCH/OBTS data system requires that the fingerprintable EnCon hazardous waste/waste disposal charge must be the most serious charge levied ('top-charge') in an arrest or disposition event in order to be included in a DCJS count. Often a violation will include other more serious charges.

The information available through the Division's CCH/OBTS file includes a regional breakdown of the number of violations.

For all of New York State in 1988 there was a decrease in the number of arrests in which a hazardous waste violation was the most serious charge (-11.8% overall). Of those cases disposed where the top arrest charge was for a hazardous waste or waste disposal violation, 45.5 percent resulted in a conviction to some charge in 1987 while in 1988, 71.4 percent resulted in a conviction. Convictions resulting from EnCon hazardous waste arrests for cases disposed in 1988 included 3 felony convictions, and 4 misdemeanor convictions.

SUMMARY

No single data source reveals the complete picture of 1988 hazardous waste and waste disposal violations in New York State. The primary reason for this is that each individual reporting agency focuses on particular aspects of the problem that are of concern to that agency be it the transport of hazardous materials, the court processing of offenders, arrest processing or the clean-up, prevention or investigation of violations.

Currently, the diverse information-gathering and reporting systems being implemented by these agencies along with the possibility of data overlap prohibit combining the reports to arrive at a single, accurate accounting of total violations in the State. For these reasons, a State summary has not been included. It is recommended that each data source be reviewed independently of any other.

The information in this report does provide a general overview of the number of hazardous waste and waste disposal violations that were monitored and addressed by specific State agencies in 1988.

2.2 CRIMINAL CASES

Criminal cases are processed in the trial courts as follows: Felony indictments and superior court informations are processed in the Criminal Term of the Supreme Court in New York City and in the County Court outside of New York City. In several counties outside New York City, a portion of the felony caseload is processed in the Supreme Court as well. The courts of limited jurisdiction--Criminal Court of the City of New York; District Courts of Nassau and Suffolk; and City, Town, and Village Courts outside New York City--have original jurisdiction over felonies and complete jurisdiction over misdemeanors, violations, and infractions.

1. Criminal Term of Supreme and County Courts

Filings: Statewide, 67,177 felony cases were filed in Supreme and County Courts during 1988.³ Sixty-six percent (44,668) of the 1988 filings occurred in New York City.

Table 2-2 shows 1988 filings by judicial district.

³"Cases" are a count of "defendant-indictments," i.e., each defendant on each indictment counts as a case.

Table 2-3 focuses on individual counties, ranking the seventeen counties with 400 or more felony case filings. These seventeen counties accounted for 90% of all filings. New York County had the highest volume, with 14,451 filings. Kings, Bronx, and Queens followed.

Dispositions: Statewide, 64,611 cases reached disposition (guilty plea, trial verdict, dismissal, or miscellaneous other) in 1988. Sixty-six percent (42,372) of the 1988 dispositions occurred in New York City.

Table 2-2 shows 1988 dispositions by judicial district.

Table 2-3 shows that eighteen counties with over 400 dispositions accounted for 90% of all felony case dispositions. Twelve counties which commenced over 40 trials accounted for 89% of felony trials commenced statewide in 1988. Of the total of 4,996 felony trials commenced, 4,154 (83%) were jury trials.

Figure 2-1 shows felony case dispositions by type. There were 53,700 guilty pleas (83%), 5,523 dismissals (8.5%), 4,433 trial verdicts (7%), and 955 other dispositions (1.5%).

There were 93,093 summons cases added to the calendar. (In addition, 125,914 summons cases were filed but not added to the calendar (defendant did not appear.) There were 94,475 calendared dispositions.

City and District Courts outside New York City: Criminal case intake in the City Courts and the Nassau and Suffolk District Courts totalled 239,045 in 1988. The courts reported 218,045 dispositions. Of the dispositions, 56% were by guilty plea, 33% by dismissal, 5% by referral to grand jury, 2% by trial verdict, and 4% other.

There were 445,909 noncriminal (violations and infractions) Uniform Traffic Tickets disposed in these courts. These consisted primarily of fines paid (by personal appearance and mail). In cities without Parking Violations Bureaus, the City and District Courts process parking tickets. Dispositions totalled 964,148 in 1988.

2.8 STANDARDS AND GOALS

Since 1975, Standards and Goals of the Chief Administrator of the Court have provided performance measures for the courts for elapsed time to disposition for felony cases in the Supreme and County Courts, civil cases in the Supreme Courts, and for proceedings in the Family Courts.⁶

Felony Cases: The applicable standard is disposition within six months from filing of indictment, excluding periods when a case is not within the active management control of the court (e.g., warrant outstanding).

During 1988, 84% of felony case dispositions statewide were achieved within the six-month standard.

Civil Cases: The standard is disposition within fifteen months from the filing of note of issue. During 1988, 79% of note of issue dispositions statewide were achieved within this standard.

Family Court: The standard is case disposition within 180 days of the commencement of the proceeding, excluding periods when a case is not within the active management control of the court (e.g., warrant outstanding). During 1988, 99% of dispositions statewide were reached within the standard.

⁶See "Standards and Goals" memorandum of the Chief Administrator of the Court of 2/28/79, containing revisions approved by the Administrative Board of the Courts on 1/25/79 to the Standards and Goals adopted in 1975.

DIVISION OF PROBATION AND CORRECTIONAL ALTERNATIVES

The New York State Division of Probation and Correctional Alternatives (DPCA) collects adult supervision data from local probation departments using on-line data entry and stores the data in its mainframe computer in a case based system. All other probation workload data (intake, investigations, and Family Court supervision) is collected using a monthly statistical reporting system. This data is stored in a desktop computer. Alternative to Incarceration data is stored in a case based system in the DPCA mainframe computer. Data collection for this system is manual with data entry provided by DPCA.

The following statistics were taken from these systems:

¹ Figures are a total of Family and Criminal Court cases.

² For years prior to 1986, in order to eliminate duplicate counting of inter and intra-state transfers, probationers transferred out were deducted from those on probation.

³ For adult supervision cases, the categories include: early discharge, maximum expiration, death, technical violation and new conviction.

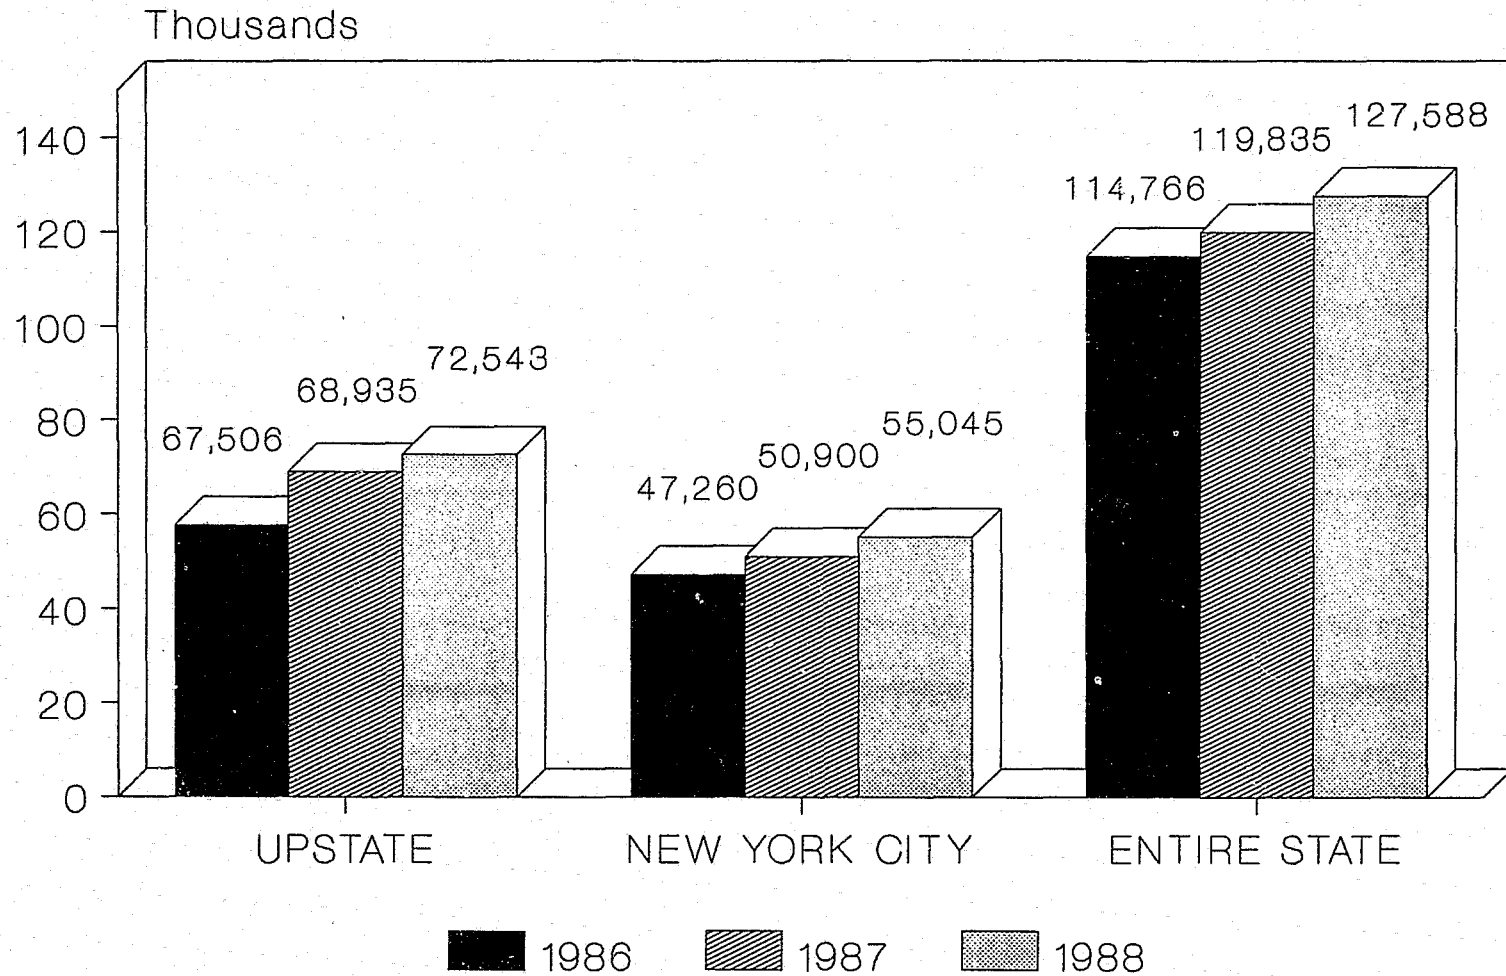

⁴ For Family Court cases, the data shows total passed from supervision.

Percentage represents increase (decrease) from previous year.

NEW YORK STATE DEPARTMENT OF CORRECTIONAL SERVICES

Under Custody Population (Table 1 and Chart 1)

The number of inmates in New York State prisons declined to a low of 12,444 at the close of calendar year 1972 following a series of judicial and policy decisions that restricted the types of offenders that could be sentenced to state correctional facilities. This decline began in 1964 and continued over a nine year period. Contributing to this decline was the Baxtrom decision which led to the release from Department custody of all criminally insane inmates held beyond their maximum expiration dates along with related decisions which ended the practice of holding under custody dangerous mentally incapacitated persons for long periods of time. These decisions, coupled with other factors including a revised Penal Law which became effective in September 1967, changes in sentencing procedures, and the development of major institutional programs for drug addicts by the state's drug control agency, resulted in an annual net loss in the under custody population which continued through 1971. This situation reversed in 1973 when admissions exceeded releases for the first since 1963. The rise has continued every year through 1988, when the under custody population rose to 44,560, an increase of 258% or 32,116 inmates over a 17 year period. Reasons for this increase include a major growth in violent and drug crime over this period and a series of stringent laws mandating imprisonment for a growing number of offenses.

Admissions To Department Custody (Table 1 and Chart 2)

Admissions to Department custody have shown a general rise starting with 1971 and continuing through 1988. The three year period 1978-1980 did see a lower volume of admissions than was recorded in 1977 but at the expense of a growing number of felony cases awaiting disposition for periods of over six months. The reduction of this particular felony disposition backlog was accompanied by a sharp rise in 1981 admissions. Admissions have continued to rise since that point reaching an all time annual high of 23,627 in 1988. Court commitments account for eight out of ten admissions and trends in this category largely shape the flow of offenders into state prisons. Court commitments declined to a low of 4,250 in 1970. From this 1970 low, commitments have risen to a high of 17,386 in 1988, an increase of 13,136 or 309 percent. Beginning in 1971, felony commitments rose rapidly, offsetting declines in commitments for lesser offenses which had been diverted to other agencies. Contributing to this trend has been a rise in felony arrests, indictments, and court dispositions and an increasing tendency of the courts to commit convicted felons to state correctional facilities. Several more stringent laws enacted in 1973 and in subsequent years have added to this increase in commitments. These include the second felony offender law which imposes mandatory state prison sentences for such offenders; a drug law which imposes harsher penalties on drug offenders; and the imposition of mandatory terms of imprisonment for all Class B and for certain Class C and Class D felonies. The trend toward a higher level of court commitments has continued through 1988 reflecting also the impact of the violent felony legislation that became effective in 1978 as well as the growing pool of felony offenders who must be sent to prison in the event of a new felony conviction.

Releases From Department Custody (Table 1 and Chart 2)

Releases from Department custody remained relatively stable during the five year period 1971-1975, averaging 7,285 annually. In 1976 a sharp rise in releases is observed, up 10% over the previous year. This substantial rise reflected a growth in the pool of parole eligible inmates in the burgeoning inmate population who were subsequently released to parole supervision. The year 1978 saw a temporary drop in releases which reflected longer minimum periods of incarceration being set by the Board of Parole and a modest shift toward longer sentences on the part of the courts, both of which lessened the number of paroles. Releases for 1979 and 1980 resumed an upward trend, including high volumes of parole and conditional releases. A decline in 1981 releases reflected both sentencing changes under the violent felony offender law as well as a change in the manner in which the minimum period of incarceration was determined for a considerable portion of the inmate population. Releases resumed their upward trend in 1982 and reached an all time annual high of 19,909 in 1988.

Reason For Commitment (Table 2)

Of 17,375 offenders committed during 1988 to custody of the Department of Correctional Services, 8,168 or 47.0% were sentenced as second felony offenders while 157 or 0.9% were sentenced as persistent felony offenders. A small portion of the commitments, 358 or 2.1% were sentenced as Youthful Offenders.

The majority (6,740 or 38.8%) of the 1988 commitments had been convicted of crimes designated in the penal law as Violent Felony Offenses (VFO). Commitments for robbery led the VFO group followed by crimes involving homicide; burglary; violent sex offenses; assault and dangerous weapons. Second felony offenders accounted for 38.8% of the VFO group, the lowest proportion among the various crime groupings.

The second largest group of the 1988 commitments had been convicted of drug felonies (6,437 or 37.0%). Drug commitments had averaged only 11% or 12% of annual commitments for several years. Starting in 1984, however, the proportion as well as the number of drug felons has grown rapidly. The proportion of second felony offenders among drug commitments has also grown substantially from only 7.7% in 1978 to 49.7% in 1988.

There were 1,045 offenders committed for other felonies involving violence or coercion. Commitments for robbery led this group followed by crimes of homicide; assault; and other sex felonies. Over half, 52.2%, of this group were sentenced as second felony offenders.

The remaining 3,158 were committed for property and other felonies including 358 as Youthful Offenders. Burglary was the largest crime in this group followed by grand larceny, stolen property and forgery. This group, excluding Youthful Offenders, had the highest proportion of second felony offenders at 64.6%.

STATE OF NEW YORK • EXECUTIVE DEPARTMENT
STATE COMMISSION OF CORRECTION

NEW YORK STATE COMMISSION OF CORRECTION

The State Commission of Correction oversees all correctional facilities in New York State including state prisons, county jails, city, town and village lockups and precincts. Its goals are: to ensure humane treatment of inmates; to improve operations and programs in correctional facilities; and to improve its own functions as a corrections overseer. In light of these goals, the Commission investigates problems and issues in correctional practices, establishing and enforcing standards for safe, sanitary and orderly settings for both staff and inmates in the State of New York. It offers technical assistance to administrators and training services for personnel. The Commission approves and, when appropriate, assists in the development of new construction. It also serves as a central repository for information on the correctional system in New York State.

Three Commissioners head the agency: A Chairperson and two others who chair the Citizens' Policy and Complaint Review Council and the Medical Review Board, respectively. The Citizens' Council monitors grievances in county facilities and provides an avenue for citizen participation in development of Commission policies and programs. The Medical Review board monitors medical and psychiatric services in correctional facilities and investigates circumstances surrounding inmate deaths.

The correctional system in New York State is comprised of three major correctional jurisdictions including the Department of Correctional Services, the New York City Department of Correction, and county jails/penitentiaries. The Department of Correctional Services (DOCS) operates all state correctional facilities. The New York City Department of Correction (NYCDOC) operates all county correctional facilities within the City of New York; and thirdly, county jails and penitentiaries are operated by individual county sheriffs/corrections departments.

In addition, the Commission of Correction monitors and serves as a central repository of data for the New York City Police Department (operating New York City Precinct Lockups) and all other City, Town and Village Police Department Lockups outside the City of New York.

INMATE POPULATIONS

The Commission began collecting inmate population data by conducting semi-annual telephone surveys to county jails and penitentiaries in 1981. Currently, county correctional facilities report inmate populations via the on-line Jails Daily Population Reporting System on a daily basis.

Inmate population counts for both the New York City Department of Correction and the State Department of Correctional Services are obtained from Daily Population Reports produced by both departments.

Table I presents the inmate population across the three major correctional jurisdictions from 1981-1988.

TOTAL ADMISSIONS AND SENTENCED ADMISSIONS FOR COUNTY JAILS AND PENITENTIARIES

County jail and penitentiary admission data are derived from the Statewide Compilation of Data from Sheriffs' Annual Reports for the years 1977-1988. The Commission of Correction compiles this annual report from individual Sheriff and Penitentiary reports submitted by all county correctional facilities.

The following tables (Tables II-VII) represent total admissions reported by county correctional facilities. Total admissions include all sentenced and unsentenced admissions. Chart I illustrates total admissions by the most serious reason for commitment (felony, misdemeanor, etc.) Tables VIII-X represent sentenced admission data.

TOTAL ADMISSIONS TO CITY, TOWN AND VILLAGE LOCKUPS

Table XVI indicates the total number of admissions reported by police department lockups across New York State 1977-1988. The Commission compiles annual data from individual record of detention reports received from police department lockups.

Beginning in 1985, the Commission requested a one day population figure from police departments. This one day population represents the number of admissions during the 24 hour period of 12/31. Table XVII reports these December 31 population figures.

NEW YORK STATE EXECUTIVE DEPARTMENT
DIVISION FOR YOUTH

During 1988, 2,283 individuals were admitted to residential facilities operated by the New York State Division for Youth. Of these, 1,862 were first admissions having had no prior contact with Division programs; 250 were readmissions from aftercare; and 171 had experienced previous placements with the Division (Table VI).

For those youths adjudicated Juvenile Delinquents, Restrictive Juvenile Delinquents or Juvenile Offenders, the offenses of burglary, robbery, larceny and other thefts accounted for 57.1% of the admissions. Assaults and homicides were responsible for an additional 14.2% of the admissions for this group (Table I).

Among the 2,283 admissions, 7.6% were placed in secure facilities and an additional 30.0% in limited secure facilities. The largest category among admissions was cooperative/voluntary which accounted for 29.1% of the admissions (Table II).

Juvenile Delinquent adjudications accounted for 80.8% of the admissions and Juvenile Offender adjudications an additional 6.4%. Persons In Need of Supervision were responsible for 11.4% of the 1988 admissions (Table III).

Males made up 85.2% of the admissions and females the remaining 14.8% (Table IV). Table V which lists admissions by ethnicity, shows Blacks accounting for 52.0% of the admissions, followed by Whites at 31.8%, and Hispanics at 15.3% .

DIVISION OF PAROLE

1986-1988

THE BOARD OF PAROLE

During the 1986-87 and 1987-88 fiscal years, the Parole Board conducted over 41,000 interviews and/or hearings in State correctional facilities to determine parole eligibility dates for certain inmates, the release readiness of eligible inmates to parole supervision and the re-release of parole violators, as well as other types of administrative hearings.

The number of release interviews conducted by the Parole Board increased from 19,873 in 1986-1987 to 21,448 in 1987-1988, a 8% increase.

The Parole Board granted release to 25,983 inmates during the last two fiscal years with an increase of 24% in 1987-88. Release decisions were granted to 14,429 initial applicants during the two year period (inmates who became eligible for parole release after serving their minimum sentence from April 1, 1986 through March 31, 1988). Reappearance interviews resulted in 8,288 release decisions for inmates who were previously eligible for parole release, but were denied release and became eligible again. Re-release interviews for violators resulted in 3,259 inmates released to the community. Other release interviews resulted in 7 inmates being granted parole. The decisions rendered at the various release interviews are summarized in Table 1 below.

* This table excludes release interviews conducted with Shock Incarceration inmates (N=64) and interviews related to release to the Immigration and Naturalization service for deportation proceedings (N=177), both of which began in 1987-88.

The community protection efforts of the Parole Board are reflected in a comparison of some of the characteristics of inmates granted and denied release at initial interviews. The comparison reveals that inmates who were denied release were more likely to have committed crimes involving the use of a weapon or the occurrence of an injury. Further, those who were denied release had more extensive prior records than inmates granted release. The effectiveness of the Parole Board's screening is demonstrated in greater detail in the table to follow:

PAROLE OPERATIONS

Institutional Parole

The Parole Officer assigned to an institution plays a critical role in the inmate's transition from institutional to community life. The IPO serves in a bridging capacity between the inmate and the community, the inmate and the field parole officer, and the inmate and the Parole Board.

The role of the Parole Officer with an institutional assignment includes an assessment of the needs of each inmate and encourages their participation in programming, during incarceration, which meets these needs. These Parole Officers conduct inmate group counseling sessions and Parole orientation classes for inmates. Additionally, they interview inmates, in advance of their Board release interviews, to gather information which is presented to the Board in summary reports together with recommendations as regards the granting or denial of parole release and the possible conditions of release.

After a parolee has been granted release, the Parole Officer continues to participate in Parole Board release planning through the Community Preparation Program. The Parole Officer provides the link between the institution and the community both through pre-release interviews conducted with inmates and through ongoing communication with the Field Area Office to which the parolee is to be released. These services are provided to both inmates who are released by decision of the Parole Board and to those conditionally released.

Finally, institutionally assigned Parole Officers continue to participate on correctional temporary release committees which grant temporary work release, furloughs and other leaves of absence for good cause to inmates. The Institutional staff is involved in committees within the state's correctional facilities that give support and advice to drug and alcohol programs.

Community Supervision of Parolees

Community supervision is at the heart of the Division's community protection mission. The Parole Officer with a field assignment is located in the community supervising offenders released from state correctional facilities. Community protection requires that Parole Officers adhere to strict supervision standards. Additionally, it is essential to ensure that parolees comply with the terms and conditions of release. When the conditions of release are violated, the Parole Officer must take appropriate action.

Presence in the community allows the Parole Officer to become familiar with the services and resources which the neighborhood contains. Through their familiarity with the surrounding community, the officer can expedite the reintegration of the offender by linking offenders with particular needs to relevant services.

Beginning in FY 85-86, the Division implemented Differential Supervision which was a unique approach to community supervision caseload management. The concept targets resources on parolees with the highest levels of need for surveillance and social services in an attempt to meet the agency's goals of community protection and parolee reintegration. Allocation of these resources is based on a model of risk management under which newly released parolees are placed on Intensive caseloads which require extensive contact standards and reduced caseload size. After 15 months parolees are moved to larger, Regular caseloads when their potential threat to the community and level of service needs have been reduced.

There were 37,868 individuals under community parole supervision during fiscal year 1987-88, as reflected in Table 3. This represented an increase of 10% over the previous year's figure of 34,519. Parole Board releases from state correctional facilities increased from 11,445 during fiscal 1986-87 to 13,633 during fiscal 1987-88. Statistics reflecting median time-served of those released by the Parole Board have remained very consistent over the years.

Total End of Year Caseload (March 31)	27,518	30,374

A/ These individuals were actually released from state prison during the given fiscal year. The total number of releasees should not be confused with the number of inmates granted release by the Parole Board during the same year. Release interviews are done two months in advance, so that the number of actual releases is usually less than the number of inmates granted release by the end of a year. Moreover, inmates granted release in March, which is the close of the fiscal year, would be counted as releasees in the new fiscal year.

B/ This includes cases released to supervision both within and out-of-state.

C/ Removals include parolees discharged from parole supervision by expiration of maximum sentence, death, Board action, court order and prison returns.

D/ Dynamic population is the cumulative number of parolees under supervision during all or any part of the year.

E/ Delinquents are those parolees carried by parole officers who are either in the stages of the violation process or are absconders. Not all delinquents in the violation process will have their parole revoked.

Outcome of Parole Supervision

The primary goals of the Division of Parole are to assist offenders released from correctional institutions to adjust to community life, and to provide community protection by preventing these individuals from re-engaging in criminal behaviors.

Parole Officers carry out these goals by supervising parolees in the community, coordinating the delivery of available social services, and helping to motivate and guide the parolees towards a more positive lifestyle. However, one must realize that not all persons will abide by their conditions of release. The Division must, therefore, fulfill the goal of community protection by returning a violator to prison.

A violation of parole occurs when an individual under supervision violates the conditions of parole in an important respect. These conditions are agreed to in writing by an inmate upon release from prison to community parole supervision. They stipulate, for example, that if the releasee absconds from supervision or re-engages in criminal activity, his/her parole is subject to revocation. The individual may consequently be returned to prison following a series of due process hearings.

In the 1987-88 period, 15% of all parolees under supervision during the year were returned to prison by the courts for committing new crimes or by the Parole Board for violating the rules of parole (e.g., absconding, or illegal use of drugs). Table 4 provides a more detailed analysis of the parole success rate.

Table 4: Outcome of Parole Supervision

Outcome Measure	1986-1987 <u>A/</u>	1987-1988 <u>B/</u>
Rate of Parolees Returned to Prison with New Court Conviction During Year	4% (N=1,298)	4% (N=1,600)
Rate of Parolees Returned to Prison for Violating Conditions of Parole During Year	10% (N=3,299)	11% (N=4,106)
Total Rate of Prison>Returns During Year	13% (N=4,597)	15% (N=5,706)

A/ Rates computed on basis of dynamic population of 34,519 parolees during April 1, 1986 through March 31, 1987.

B/ Rates computed on basis of dynamic population of 37,868 parolees during April 1, 1987 through March 31, 1988.

In view of the data in Table 4, the parole success rate can be measured in several different ways.

In terms of total number of parolees not returned to prison, the success rate was 87% in 1986-87 and 85% in 1987-88. These results are an indication of the Division's overall performance in deterring parolee crime and reincarceration.

From the point of view of enforcing the rules of parole, parolees returned to prison for rule violations cannot really be considered "failures" in the same sense as those who were returned for new criminal convictions. For example, absconding from supervision is less serious than committing a violent offense. But, more importantly, a prison return based on a rule violation decreases the chances of a parolee being a threat to community safety. Given this, the success rate was actually 96% for fiscal year 1986-87 and 1987-88.

Using the most rigorous definition of success, those parolees in an active reporting status, the success for 1986-87 was 73%; in 1987-88 it was 72%. This measure excludes parolees in either an incarcerative or absconder status. It is important to note that not all of these incarcerated or absconder parolees will have their parole revoked or even enter the violation process.

 STATE OF NEW YORK

 CRIME VICTIMS BOARD

The Crime Victims Board (CVB) was established August 1, 1966 to provide monetary compensation to eligible crime victims. Since 1966 numerous legislative enactments have expanded eligibility and award criteria which have enabled the CVB to provide a wide array of assistance to crime victims and witnesses.

By statute the CVB is mandated as a "payer of last resort". Compensation able to be provided to crime victims, not necessarily physically injured, includes but is not limited to awards for: unlimited unreimbursed medical expenses including necessary counseling expenses for victims and appropriate family members; unreimbursed loss of earnings/support up to a weekly maximum of \$400 until an aggregate of \$30,000 is reached; unreimbursed funeral expenses to a maximum of \$2,500; the cost to repair or replace items of essential personal property up to \$500; unlimited, unreimbursed occupational or vocational rehabilitative needs; the cost of residing at or utilizing services of a domestic violence shelter; and lastly, the payment of reasonable attorney's fees up to \$1,000.

In fiscal year 1986-87, the CVB witnessed a dramatic increase in claims filed by crime victims attributable to two main factors: 1) the enactment of Chapter 688, Laws of 1985 which made significant enhancements to eligibility and award criteria; and, 2) a New York City-wide police notification program which provided information on the existence of and benefits available from the CVB. In the following fiscal years, the increase in claims filed by crime victims has been at a rate consistent with other increases experienced before Chapter 688 became effective.
