INTRODUCTION

The 1988-89 Fiscal Year Statistical Summary is issued by the Los Angeles County Sheriff's Department as a means of evaluating the effectiveness of current procedures and as a reference for future development of the department.

The following is a clarification of the terms utilized in the summary:

Crime Rates

Crime rates in this summary are based on population of 10,000 rather than 100,000 as in the State of California and Federal Bureau of Investigation reports. This makes the rates more significant in view of the population distribution in the various Station and Contract City areas. The crime rate is calculated as follows:

$$\frac{\text{Number of Crimes in Area "Y"}}{\text{Population in Area "Y"}} \times 10,000 = \text{Crime Rate}$$

Population

Population figures were obtained from the Los Angeles County Department of Regional Planning July 1989, publication.

Area

The area computations are based on figures provided by the Los Angeles County Department of Public Works for January 1, 1989.

Comparisons

Factors contributing to crime are numerous and vary from place to place. Readers are cautioned against drawing conclusions from direct comparisons of crime figures between individual communities of similar populations and size. In Los Angeles County, a jurisdiction in excess of eight million population, several factors affect the rate of crime. The factors include:

- Crime reporting practices of citizens
- Multiple levels of economic status
- Population, both resident and transient
- Composition of the population in regard to age and sex
- Population density and community characteristics: commercial, educational, recreational, religious and economic
- Public attitude toward crime and law enforcement
- Number of police employees per unit of population
- Policies of the prosecuting officials and courts

In evaluating percentage changes, consideration must be given to the dates during which the changes took place as well as to the actual number of crimes upon which the percentage is based.

Part I Offenses

The Part I Offenses are used by law enforcement agencies in the United States to reveal the extent and trend of criminal activity. Any significant change from the anticipated pattern of the figures alerts law enforcement administrators to possible problem areas. The Part I Offenses are Criminal Homicide, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny Theft, Grand Theft Auto, and Arson. The Sheriff's Department tabulates Part I Offenses by Uniform Crime Report standards and maintains statistical files with regard to violations, locations of occurrences, arrests by age and sex of the offenders, and by disposition of cases. Only the most serious classification is tabulated from reports with multiple classifications. If a suspect is charged with Burglary and Vandalism, only the Burglary (the more serious crime) is included in the statistics. However, if several persons together commit one crime, each person is counted in "Adults Arrested"; only one crime is counted in "Cases Handled." Thus, statistics maintained by each of the stations or bureaus may differ from those recorded in this summary. Similarly, a single case handled may have multiple assignments with the result that cases assigned will total more than cases handled.

Percentage Comparisons

Whenever the availability of data permits, percentage changes are indicated. These percentages reflect increases or decreases in the total number of cases. It must be noted that these changes do not adequately reflect changes in manpower expended. It is, in fact, possible for a decrease in cases to represent an increase in man-hours expended due to a greater number of hours required for each case.

Walnut Station

Whenever reference is made to Walnut Station, in this book, it refers to the Walnut/San Dimas Regional Area.

CONTRACT LAW ENFORCEMENT BUREAU

FUNCTIONS

Contract Law Enforcement Bureau consists of two details:
Contract Law Enforcement and Traffic Services.

Contract Law Enforcement Detail's primary function is coordinative liaison between the Department's Field Operations Regions' headquarters, the Sheriff's stations serving our thirty-eight contract cities, the Board of Supervisors, the Chief Administrative Office, the Auditor-Controller's Office and the Sheriff's Fiscal Services Bureau.

Contract Law Enforcement Detail is responsible for and participates in the following activities:

- Maintenance of contract city service level records.
- Maintenance of contract city personnel staffing, deployment, and related cost records.
- Review and approval of contract city monthly billings.
- City-County law enforcement services problem solving.
- Personal appearance at municipal government meetings.
- Liaison with the Chief Administrative Office's City-County Coordinator and contract city officials.
- Liaison and coordination between the Sheriff's Department and the Auditor-Controller's Audit Division for contract service rates.
- Periodic review of contract obligations; participation in Field Operations Regions' command inspection process.
- Review, development, and evaluation of statistical studies related to contracting.
- Development of contract feasibility reports, upon request.
- Review of legislation and court decisions affecting contract law enforcement.

Departmental revenues from the contract law enforcement program for Fiscal Year 1988-89 exceeded \$90 million.

TRAFFIC SERVICES DETAIL

FUNCTIONS

The Traffic Services Detail's primary function is the coordination of the Department's traffic program within the thirty-eight contract cities.

The Detail is responsible for and participates in the following activities:

- Develop traffic-related Departmental policies and procedures.
- Assist the Advanced Training Bureau with the implementation and presentation of all formal traffic training programs.
- Staff the Department's Traffic Collision Response Team.
- Coordinate the Department's Commercial Vehicle Enforcement Program.
- Order Notice to Appear (SH-CR-66) and Notice of Parking Violation (SH-CR-67) forms.
- Order, maintain stock, control, and issue Traffic Collision Report forms CHP-555, CHP-555-03, CHP-556.
- Order, maintain stock, control, and issue California Highway Patrol Collision Investigation Manuals.
- Develop standardized Departmental forms for traffic enforcement.
- Review all traffic-related grant proposals.
- Provide stations with in-service traffic training (upon request).
- Provide stations with assistance in analyzing their traffic statistics (upon request).
- Maintain Department traffic data and statistics.
- Maintain liaison with other traffic-related agencies.
- Participate in command inspections of each station's traffic program.
- Prepare and distribute indexed briefings on traffic-related issues.

RESERVE FORCES BUREAU

The information contained in this report gives an account of the various activities performed by the Sheriff's Reserve Forces Bureau during the 1988-89 Fiscal Year as it compares to the 1987-88 Fiscal Year.

The total number of hours worked by all Reserve components reflects an increase for this period. However, the Uniform Reserve and Mountain Rescue Units shows a decrease in total hours worked. The overall component of Reserves decreased, but there was a slight increase in the average number of hours per year per Deputy.

Through the effort of the Reserves, the monetary savings to the County taxpayers for 1988-89 was \$11,838,607.50*.

*Based upon the hourly rate of a Deputy Sheriff Generalist, Intermediate POST Certificate, with a 37.6% benefit package, totalling \$29.10 per hour.

JUVENILE OPERATIONS BUREAU

Activity Summary

The Juvenile Operations Bureau is composed of three details which provide distinctly different services in their respective fields of specialization.

OPERATION SAFE STREETS

At stations with attached Operation Safe Streets (OSS) personnel, all cases routinely assigned to station investigative services that involve target street gang members are assigned to, and investigated by, Operation Safe Streets.

The Operation Safe Streets detail is also responsible for information gathering in all station areas experiencing street gang problems. The detail performs additional functions which include selective gang suppression efforts, enhancing the flow of communication between our Department and other agencies, development and maintenance of the Gang Reporting, Evaluation And Tracking (GREAT) system and representation of the Department before various factions of government and the news media.

The Operation Safe Streets detail is a highly mobile unit of street gang experts who can be deployed on short notice to any site within the Sheriff's Department's jurisdiction to address a problem concerning street gang activity.

GANG ENFORCEMENT TEAM

The County-wide Gang Enforcement Team (GET)* is made up of uniformed personnel who specialize in the suppression of gang activity in the County of Los Angeles. The detail began when emergency funding was provided by the Board of Supervisors to impact the growing amount of gang activity occurring in the South Central Los Angeles area. Four gang teams were attached to Operation Safe Streets on March 18, 1988.

The deployment of Gang Enforcement Teams is determined by the number of incidents or type of gang activity affecting patrol stations located throughout the County of Los Angeles. Teams are available to impact the existing gang activity by providing direct patrol service and the selective enforcement of laws or municipal ordinances in those areas experiencing the greatest level of gang activity.

Gang Enforcement Teams are highly mobile and can respond to a variety of law enforcement needs, including, but not limited to, the suppression of gang activity, intervention during civil disorders, security at large events and disasters, or as a manpower tool to assist patrol or detective operations during emergencies.

The following statistics cover the Fiscal Year 1988-89.

JUVENILE OPERATIONS BUREAU

- SANE PROGRAM -

SUBSTANCE ABUSE NARCOTICS EDUCATION

Now four years old, the Los Angeles County Sheriff's Department Substance Abuse Narcotics Education (SANE) Program is working with 4th, 5th, and 6th grade students in 373 elementary schools, in 50 separate school districts in Los Angeles County.

Sheriff Block developed the SANE Program to impact the demand for drugs and alcohol by our youth. He recognized that traditional enforcement methods involving investigation and arrest of drug abusers and drug dealers would not solve the nation's drug problem. In fact, drug abuse by the youth of America exceeds that of every other nation in the free world. Studies conducted by the University of California, Los Angeles; the California Attorney General's Office; and many others all reflect the epidemic proportions that youthful drug abuse in America has attained.

SANE is a unique drug prevention program in that it is a true partnership effort involving the Los Angeles Sheriff's Department, school districts, schools, and municipalities throughout Los Angeles County. Deputies assigned to the SANE Program work with school districts in the selection of curriculum and the staff development of their teachers. Regardless of the curricular materials chosen, deputies and teachers will share in its presentation to students. It is uncommon for a prevention program not to embrace a particular curriculum, but to work with several different curricula. However, as the SANE Program developed, it became apparent that one generic curriculum would not fit the needs and requirements of the many different school districts in the Sheriff's jurisdiction. In an area as cosmopolitan as Los Angeles County, with its diversity and changing character from one community to the next, it became important that the SANE Program be flexible enough to apply its methodology to any viable curriculum.

Despite curricular differences that exist from district to district, the SANE Program's methodology remains virtually constant. Lessons are co-taught. Both deputy personnel and school teachers present lessons that teach children decision-making skills, coping skills, and develop self-esteem.

JUVENILE OPERATIONS BUREAU

SANE (Continued)

Children are taught how to say no to drugs and alcohol. They are taught coping techniques that enable them to resist pro-drug peer pressure, and they are taught accurate information about the drugs of choice.

Municipalities support the SANE Program by contracting with the Sheriff's Department to supply SANE personnel to their schools and communities. It is unique in government to find different governmental entities working together with a common program toward a common goal. The result is both cost effective and efficient.

Deputies assigned to the SANE Program also do vital work outside of the classroom. They join with PTA groups, neighborhood watch groups, civic, service, and religious groups to provide parents with the education and knowledge they need to combat the drug problem. This parent education component is very important to the SANE Program. Parents are taught how to recognize the signs and symptoms of drug abuse. They are taught about the different kinds of drug paraphernalia that children can buy in stores everywhere, and they are taught about the kinds of prevention programs that are in effect in their schools. Parents are encouraged to take the prevention techniques being taught in the school and apply them in their homes.

There are currently 48 deputies, 4 sergeants, and one lieutenant assigned to the SANE Program. Each was carefully selected for a variety of skills, and then trained by experts in the field of prevention. The SANE Training School is an intense 144-hour program that includes 64 hours of teacher training, leading to a vocational teaching certificate. Thirty-two hours of public speaking, courses in narcotics, gangs, human relations, prevention strategies, media relations, and the education profession are also covered.

With the rise of gang violence and the connection between drugs and gangs, the SANE Program has developed a gang prevention curriculum. Currently being piloted in one district, the gang curriculum will go into general use in the Fall of 1989. The curriculum is designed to fit into the existing SANE framework. This alleviates the need to offer a totally separate program to the already overburdened schools. The curriculum includes lessons on self-esteem, media influence, alternatives, power, violence, and social values. Interest in the new gang curriculum is intense, as the need is apparent. The concept of combining SANE and gang prevention is an idea that has already been widely heralded by school districts.

JUVENILE OPERATIONS BUREAU

SANE (Continued)

Despite the need, most school districts just do not have the time available in their school day for an additional, separate curriculum dealing with the gang problem. However, by combining gang prevention materials with the existing SANE Program, very little additional classroom time is required, and both the problems of drugs and gangs can be effectively dealt with.

The SANE Program, with the assistance of the Los Angeles County Office of Education, is engaged in a longitudinal study that will evaluate the SANE Program's effectiveness over the long term. The study, in use in 14 school districts, will measure such things as: drug knowledge, values, attitudes about drugs and drug usage, and the amount of drug use that is occurring. Through the use of this study, the SANE Program will be able to adjust and change to meet the needs of our students and communities, and remain a dynamic force in the fight against drug abuse.

No single program is going to solve the problems of drug abuse and gang violence facing our nation; but SANE, in concert with continuing strong enforcement efforts and support from the state and federal level, will be a significant factor in solving these serious social problems over the course of time.

DATA SYSTEMS BUREAU

AUTOMATED TIMEKEEPING AND PAYROLL SYSTEM (ATPS): This Unit provides management/administrative functions over a comprehensive automated system performing the personnel and timekeeping functions of the Sheriff's Department and Executive Office of the Board of Supervisors.

<u>Workload</u>	<u>Fiscal Year</u> <u>1988-89</u>
Number of requests for ad hoc reports received	1,157
Number of ad hoc reports produced	1,150
Number of time transactions processed	1,246,271
Number of personnel transactions processed	58,026
Number of timekeepers trained	64
Number of new IDs and passwords issued	142
Total number of system users accessing ATPS	269

COUNTYWIDE WARRANT SYSTEM (CWS): The Countywide Warrant System became operational April 11, 1988. CWS is primarily an on-line system with some batch reporting capabilities that stores and retrieves warrants that are created, modified, or recalled within the County of Los Angeles. The system has been designed to provide information on wanted persons, parolees, restraining orders, as well as warrants. There are over 1-1/2 million records in CWS. Nearly 20,000 users access the CWS System via a network of nearly 4,000 terminals.

The Countywide Warrant System has a volume of eight million transactions a month since implementation. Data base size has grown from 1.25 million records to 1.8 million records without impacting the system's sub 3-second, response time.

During the first year of operation, the CWS Staff received 391 requests for data processing services. During the same period, 328 requests were completed including 155 system modifications from a total 240 requested.

Improvements to the Countywide Warrant System made this past year include:

- Reduction of operating costs of CWS on-line audit log at a savings of approximately \$35,000 per month or \$420,000 per year.
- Significant improvements to interface between the State's Wanted Persons System and CWS. The two systems now operate at nearly a one-to-one relation.
- Creation of a new data base draw-off which permits production of ad hoc statistical reports for the Los Angeles County Marshal.
- A feasibility study was completed to incorporate probation records in CWS.

TECHNICAL SERVICES DIVISION

DATA SYSTEMS BUREAU (Continued)

Currently, CWS Staff has been working on a major enhancement to include parolee records in the system. This additional record type will provide field officers with yet another tool to improve officer safety. A training manual has been completed in anticipation of the incorporation of parolee information in September, 1989.

This Unit is currently exploring the possibility of selling, leasing, and/or using other options to various other counties which are interested in using the CWS System.

JUSTICE DATA INTERFACE CONTROLLER (JDIC): This system is a regional law enforcement message switching computer which supports the data communication needs of the Sheriff's Department, all municipal police departments, and a variety of other criminal justice and law enforcement agencies throughout Los Angeles County. Utilizing JDIC, users may communicate with any criminal justice facility within the county, state, or nation which is connected to the JDIC System, California Law Enforcement Telecommunication System (CLETS), or National Law Enforcement Telecommunication System (NLETS), respectively, through its connection with a variety of law enforcement computer systems, users may enter, update, and inquire upon information maintained in local, California Department of Justice, and United States Department of Justice data files.

JUSTICE DATA SYSTEM: This system is an on-line and batch computer system which serves as the information centerpiece to the criminal justice community within Los Angeles County. It is comprised of: the Automated Justice Information System (AJIS), which provides custody information on all inmates who have been arrested and booked by any agency participating in the consolidated booking system or remanded to the custody of the Sheriff by the court; Event Index (EI), which provides summary information related to any crime, arrest, or incident report

written by either the Los Angeles County Sheriff's Department or the Los Angeles Police Department; and Personal History Index (PHI), which provides local criminal history, applicant, and licensing information to authorized criminal justice agencies.

The Justice Data System is utilized, not only by the Los Angeles County Sheriff's Department, but numerous other criminal justice agencies throughout the County including; Municipal and Superior Courts, District and City Attorneys, Public Defender, Probation Department, County Marshal, Coroner's, State Department of Corrections, West Los Angeles Office of Federal Bureau of Investigation, and all other local law enforcement agencies.

SYSTEMS DEVELOPMENT: The primary function of the Systems Development Section is to act as a facilitator between Departmental computer users and computer associated vendors. The responsibilities of this section include: analysis and recommendations regarding initial Departmental computer needs, evaluation of computer hardware and software, recommendations regarding purchase of computer hardware, software and related peripherals, development of requests for quote (RFQ) and requests for bid (RFB), act as liaison between Departmental end-users, DPD and private vendors during all stages of automated systems development, coordinate Departmental budget for repair and maintenance of microcomputers and related peripherals, and coordinate through Internal Services Department/Data Processing the contracting of private sector vendors for computer programming services.

DATA PROCESSING SERVICES: This Unit provides data processing services to support field operations, investigative, custody, administrative, and staff functions of the Sheriff's Department by developing and maintaining Departmental computer information systems. Data Processing Services supports 20 information processing activities including the operations of the Sheriff's Department computers and the coordination of other computer

ARSON/EXPLOSIVES/HAZ-MAT DETAIL

This highly skilled unit is responsible for investigating fires, explosives, illegal possession of explosives, and cases involving automatic weapons and silencers.

The detail provides the county with trained bomb disposal technicians and has a mission to render safe any improvised explosive devices and to dispose of hazardous explosives and ordnance encountered within the county area requesting assistance.

An integral contribution of this unit to the county is their nationally recognized ability to conduct effective arson investigation. The combination of their technical expertise in determining cause and origin of fires, coupled with their expertise in conducting criminal investigations, provides a highly efficient arson investigation unit.

FORGERY/FRAUD DETAIL

The Forgery/Fraud Detail is made up of three units, each of which is assigned separate responsibilities.

The Forgery Investigation Unit is assigned worthless document cases which include forged checks, warrants, and other bank instruments, misuse of credit cards, and forged prescriptions.

The Central Check Index is responsible for receiving, coordination and distribution of forged checks, credit card cases, and forged prescriptions. Information received from all Sheriff's stations and 36 other Los Angeles County police agencies is correlated, indexed, and available for use by investigators.

The Fraud Unit is charged with the responsibility to investigate illegal acts whose purpose is to obtain money or property, or to obtain business or personal advantage. These acts include: frauds, embezzlements, buncos, unfair business practices, thefts by use of computers, and thefts of trade secrets.

COMMERCIAL CRIMES BUREAU

VEHICLE THEFT DETAIL

The Vehicle Theft Detail investigates cases involving the identification of vehicles with altered or missing vehicle identification numbers (VIN). Periodic inspections are conducted of garages, dismantlers, wrecking yards, and motorcycle shops for stolen vehicles and other violations of law. The detail investigates counterfeit registrations and conspiracies.

Responsibilities are facilitated by various limited access files containing information identifying vehicles and suspects. Liaison is maintained with state and national vehicle theft investigative agencies and associations. This detail applies its specialized technical knowledge to the investigation of organized commercial vehicle thefts, stolen or abandoned heavy duty commercial vehicles, construction equipment, motor homes and campers. Liaison is maintained in all matters pertaining to Sheriff's Department tow services.

The Vehicle Theft Detail also has cargo theft responsibilities for all cargo thefts, hijackings, thefts from trailers and containers with cargo, and high value shipping dock thefts. Liaison is maintained with the trucking industry by attending industry sponsored meetings and by personal contact with individual company representatives. Liaison is also maintained between all Los Angeles County Sheriff's stations and other concerned agencies in the Southern California area, facilitating the free flow of cargo theft information.

INVESTIGATIVE SERVICES DETAIL

Investigative Services Detail consists of four specialized units: Escape Team, Surveillance Team, Jail Investigations Unit, and the Pawns and Receivers Unit.

The Escape Team is responsible for apprehending adult escapees and for handling Los Angeles County escapees apprehended in foreign jurisdictions.

The Surveillance Team conducts surveillance and stakeouts in support of Detective Division Units, investigates threats against judges and public officials, and provides security for the transportation/disposal of high value evidence. Additional responsibilities include witness protection operations and special investigations requested by Departmental Executives.

The Jail Investigations Unit investigates crimes occurring within the following jail facilities: Men's Central Jail, Inmate Reception Center, Hall of Justice Jail, Peter J. Pitchess Honor Rancho, Biscailuz Center, all Court Lock-ups, and the Prisoner Transportation System.

The Pawn and Receivers Unit conducts investigations and inspections concerning pawnshops, gun dealers, metal yards, jewelry stores, medical supply houses, and other secondhand dealers.

DETECTIVE DIVISION

HOMICIDE BUREAU

The Homicide Bureau is a specialized bureau employing unique investigative and evidence-handling expertise in such cases as homicides, accidental deaths, narcotic overdoses, suicides, and other sudden and unexplained deaths; inmate deaths; missing and unidentified adults, including missing juveniles where they have been missing over 30 days; and gunshot injuries involving department personnel.

The Homicide Bureau also provides investigative expertise to independent cities, when requested, in homicides, other death investigations, and in officer involved shooting incidents.

MAJOR INVESTIGATIONS

The cases included in this category involve an immediate response by two or more homicide investigators, intensive investigation over a period of days or weeks, and the preparation of extensive written reports. The majority of the Homicide Bureau's investigative effort is expended in this area.

HOMICIDE BUREAU

MISSING PERSONS

These investigations vary considerably depending upon the circumstances. Missing Adult cases, with no evidence of foul play, normally involve several hours of investigation, follow-up reports, and oftentimes a personal contact with relatives. A missing juvenile with foul play suspected can require a massive response of available personnel and days of investigation.

NARCOTICS BUREAU

The bureau investigates cases involving the illegal use, addiction, possession, sale, and transportation of controlled substances. It also gathers and disseminates narcotic information, coordinates disposal of controlled substances, participates in narcotics task forces, and provides training in controlled substances for local law enforcement and other governmental organizations.

CHILD ABUSE DETAIL

This detail is responsible for the investigation of all child physical abuse, familial sexual abuse of children, and failure to thrive cases involving child victims occurring within the jurisdiction of the Department. Child Abuse investigators receive extensive training to qualify them as experts in this field. Based on this acquired expertise, Child Abuse staff members train other law enforcement professionals in child abuse symptoms and investigative techniques. Additionally, the detail provides training expertise for the Department of Children's Services, hospital staff, paramedics, and school district personnel.

Although the number of cases reported decreased by close to 7%, the actual percentage of cases assigned to investigators increased by over 0.5%. The caseload of the Child Abuse Detail is expected to markedly rise during the next fiscal year as the Detail assumes and integrates full investigative responsibility for an expanded case assignment, including all allegations of the sexual abuse or sexual exploitation of a child, regardless of the location of the offense or familial relatedness of the perpetrator.

DELINQUENCY PREVENTION DETAIL

Diversion recognizes the value of early intervention, prior to the establishment of anti-social deviant behaviors. Diversion services are supplied to youth who qualify for the program based on the absence of past serious criminal involvement. Identified youth do not enter the juvenile justice system following their arrest, but rather are "diverted" to specific programs with the intent to prevent future criminal involvement. The diversion services are supplied by allied community based agencies, and are selected and evaluated not only on the services they render but also on their recidivism rates.

The Delinquency Prevention Detail is responsible for monitoring and providing expertise on the Department's Juvenile Diversion Program. Primarily utilized by Field Operations detective personnel, the Delinquency Prevention Detail staff work closely to assist investigations through the diversion process. Guidance is then given to assure selection of a program best suited to the needs of the youth and his/her family. Additionally, Delinquency Prevention Detail staff represents the Department on a significant number of State and local children services advisory and policy committees, diversion project advisory and policy boards, as well as serves on School Attendance Review Boards throughout the County of Los Angeles.

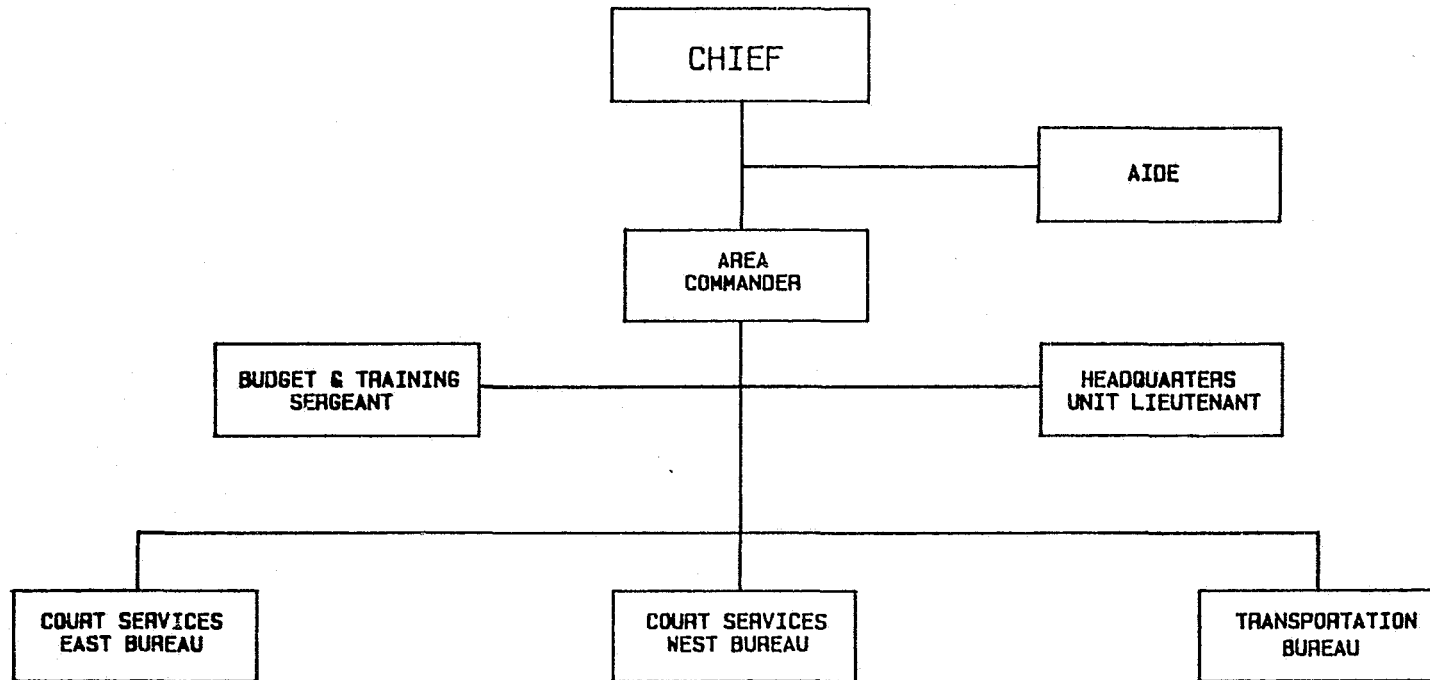

Juveniles Arrested	12,167
Juveniles Diverted	2,470
Diversion Rate	20.3%
