INTRODUCTION

The North Dakota Uniform Crime Report (UCR) Program was established in response to the need for timely, accurate, and reliable reporting of the number and nature of crimes. The data obtained through the UCR Program serve as a set of uniformly defined criminal statistics for inter-agency, interstate, or national comparisons.

Crime in North Dakota, 1989 is the result of a comprehensive analysis of the Uniform Crime Reports. It is intended to serve as a summary of statistics on crime in the counties and state of North Dakota and to provide legislators, government administrators (state, county, and city), law enforcement officials, the judiciary, and the general public with the most complete, reliable information available on reported criminal activity in North Dakota.

NORTH DAKOTA CRIME SUMMARY, 1989

There were 16,704 crime index offenses reported in 1989. This is a 7.6 percent decrease from the total of 18,077 reported in 1988.

The index crime rate was 2531 per 100,000 population. The index crime rate dropped 7.2 percent from 1988 to 1989.

The total number of violent crimes (murder, rape, robbery, and aggravated assault) was 414. This is a 5.6 percent increase over the 1988 total of 392.

Violent crime accounted for 2 percent of total index crimes reported in 1989.

Collectively, property crimes (burglary, larceny/theft, motor vehicle theft) decreased 7.9 percent from 17,685 in 1988 to 16,290 reported in 1989. Ninety-eight percent of index crimes reported in North Dakota were property crimes.

The 13,215 larceny/thefts reported in 1989 accounted for 79 percent of total index crimes.

Approximately 25 percent of total index crime was reported cleared by arrest or other means in 1989.

Law enforcement agencies reported 24,341 arrests in 1989. This is an arrest rate of 3,688 per 100,000 population. Approximately 26 percent of those arrested were under the age of 18.

Over 8.2 million dollars worth of property was reported lost to crime in 1989 with 40 percent of that amount reported recovered by law enforcement officials.

(This page intentionally left blank.)

NORTH DAKOTA UCR PROGRAM

The North Dakota Uniform Crime Reporting (UCR) Program involves the collection, compilation, and analysis of crime and arrest statistics reported by the various local law enforcement agencies throughout the state. Fifty-one sheriffs' departments and the following police departments reported to the North Dakota UCR program in 1989: Bismarck, Bowman, Carrington, Devils Lake, Dickinson, Fargo, Grafton, Grand Forks, Harvey, Hazen, Jamestown, Langdon, Mandan, Mayville, Minot, Rugby, UND, Valley City, Wahpeton, Watford City, West Fargo, and Williston. In addition to the 72 agencies reporting directly, many smaller police departments report to their county sheriff's office for inclusion in that report. Any cities which contract for law enforcement services are accounted for in the report of the contractor agency, usually the county sheriff's department.

No tribal law enforcement agencies reported to the North Dakota UCR Program in 1989.

The federal counterpart of the North Dakota UCR program is the National UCR program under the direction of the FBI. The UCR Program has been used nationally and in North Dakota for many years to measure the extent, distribution, and fluctuation of crime through the crime index. The crime index is not an absolute measure, but rather an indication of the amount and type of crime occurring in any given jurisdiction. The index is composed of seven crimes recognized as the most serious crimes in our society and the most frequently reported to law enforcement. The seven crimes are subclassified as follows:

VIOLENT CRIME: Murder/Non-Negligent Manslaughter
 Rape
 Robbery
 Aggravated Assault

PROPERTY CRIME: Burglary
 Larceny
 Motor Vehicle Theft

Federally, a Modified Crime Index is also calculated. This includes arson as the fourth property crime and the eighth index offense. Data on arson is not included in this report.

In the UCR program, if multiple index offenses are committed, only the most serious is recorded. Prior to an offense becoming recorded in the UCR program, it must first be brought to the attention of local law enforcement officials and then must be reported by these local agencies to the UCR program. Therefore, the UCR program can only reflect crime indirectly in its reports as the statistics gathered in the program are based on reported offenses only. No one can state precisely how much crime goes unreported each year. Reporting of crimes depends on several factors, including actual perception of an act as being a crime, the probability of loss of status for reporting (as in cases of rape), and the perceived probability of action on the part of the law enforcement agency contacted.

In 1989, the participating law enforcement agencies were responsible for completing their own crime reports and submitting them monthly to the Bureau of Criminal Investigation, Office of the Attorney General. Several types of data are gathered, including:

Offense Data

- The number of known crime index offenses.
- Type and value of stolen property.
- Additional information on homicides and arsons.
- Law enforcement officers killed or assaulted.

Arrest and Clearance Data

- Numbers and types of index offenses cleared
- Numbers and types of index offenses cleared involving juveniles.
- Number of persons arrested by offense.
- Characteristics of persons arrested (age, sex, race).

To allow for comparison among several geographic and/or jurisdictional areas with differing populations, or to allow comparison across time of an area undergoing population fluctuations, the UCR program provides for the calculations of crime rates to remove any potential biases created by population differences. Since a rate relates the incidence of activity to population, it is possible to measure annual fluctuations in criminal activity by comparing rates of crime reported in any given year with those reported in other years. Federally, UCR crime index rates are calculated based on the number of reported offenses per 100,000 population.

Crime Index Offenses

TABLE I

Index Offenses Reported Statewide
by Offense
North Dakota, 1989

	Offense Total	% of Total Index Offenses
Murder/Non-negligent Manslaughter	9	0.1%

1984	686,000	17,479	2548.0	-3.8%
1985	686,000	18,159	2647.1	3.9%
1986	679,000	17,458	2571.1	-2.9%
1987	672,000	18,884	2810.1	9.3%
1988	663,000	18,077	2726.5	-3.0%
1989	660,000	16,704	2530.9	-7.2%

* Population figures are Census Bureau Estimates.

** Rate is calculated as the number of crimes reported per 100,000 population.

*** Prior to 1973, the larceny/theft category of index crimes included only those offenses of \$50.00 and over. In 1973, this category was expanded to include all larceny theft without regard to dollar value. These figures have been adjusted to include an estimate of larceny/theft offenses under \$50.00.

TABLE III

**Percent Change In Index Crime Rate
From Base Year 1971
North Dakota, 1971-1989**

Year	Crime Rate per 100,000	Percent Change From Base Year(1971)
1971	1984.1	-
1972	1991.0	0.4%
1973	2104.7	6.1%
1974	2170.3	9.4%
1975	2326.2	17.2%
1976	2505.7	26.3%
1977	2496.9	25.9%

1983	2648.1	33.5%
1984	2548.0	28.4%
1985	2647.1	33.4%
1986	2571.1	29.6%
1987	2810.1	41.6%
1988	2726.5	37.4%
1989	2530.9	27.6%

VIOLENT CRIME

Violent crime includes the offenses of murder/non-negligent manslaughter, forcible rape, robbery, and aggravated assault. See Appendix A for UCR definitions of these and other index offenses. There were 414 violent crimes reported in North Dakota in 1989. This is a 5.6 percent increase over the 1988 total of 392 offenses. Violent crime totaled 2.5 percent of reported index crimes in North Dakota. Figure II shows the violent crime trend in North Dakota for the period of 1970 through 1989. See Appendix E for yearly totals and rates of violent crime.

Figure II
Violent Crime Trend

MURDER/NON-NEGLIGENT MANSLAUGHTER

The UCR program defines Murder/Non-negligent Manslaughter as the "willful killing of one human being by another." Attempts to murder, assaults to murder, suicides, accidental deaths, justifiable homicides, and deaths caused by gross negligence are **not** included in this category.

There were 9 murder/non-negligent manslaughters known to the North Dakota UCR program in 1989. This results in a murder/non-negligent manslaughter rate of 1.4 per 100,000 population. In 1988, 11 deaths due to this offense were reported.

Figure III presents the 20-year trend for homicides in North Dakota. There is an average of nine offenses per year during this period. Fluctuations in the number of offenses were more pronounced in the past than they have been in recent years. See Appendix E for yearly totals and rates of homicide.

Table IV on the next page summarizes the circumstances of the 1989 incidents. As indicated in the table, all but one of the murder/non-negligent manslaughters were cleared by the identification of the assailant by law enforcement. The assailant in the shooting death of a man in rural Morton County has not been identified.

Figure III
Homicide Trend

Table IV
Summary of Homicides
North Dakota, 1989

Date and Location of Incident	Victim(s)		Assailant(s)		Weapon Used	Relationship of Victim to Assailant	Circumstances
	AGE	SEX	AGE	SEX			
03/26/89 Turtle Mt. Res.	21	M	22	M	Knife	Brother	Victim was stabbed during an argument.
08/01/89 Williston	25	F	19	M	Hands	Neighbor	Victim was robbed, beaten & strangled
08/23/89 Rural Fordville Grand Forks Co.	52	M	52	M	Shotgun	Former friend	Assailant violated protection order, entered farmhouse & shot victim.
09/17/89 St. Michael Ft. Totten Res.	23	M	15 17	M M	Knife	Acquaintance Acquaintance	Victim was stabbed after a fight.
09/23/89 Grand Forks	3	F	19	M	Suffocation	Family friend	Victim was found with a plastic bag tied around her head.
10/12/89 Rural Dunseith Rolette County	66	F	73	M	Handgun	Wife	Murder-suicide
12/08/89 Rural Buxton Traill County	40 11	F F	42	M	.22 Caliber Rifle	Wife Daughter	Double murder-suicide
12/15/89 Rural Morton County	39	M	UNKNOWN		.25 Caliber Auto Handgun	UNKNOWN	Victim's body was found on his farm. He had been shot twice in the head.

Table IV indicates that in North Dakota in 1989, all of the known assailants were relatives or acquaintances of their victims. For more information on clearances and arrests, see the sections of this report under those titles.

FORCIBLE RAPE

The UCR program defines Forcible Rape as "carnal knowledge of a female forcibly and against her will." Assaults to rape, attempts to commit rape by force or threat of force are included. Carnal abuse, statutory offenses (no force -- victim under age of consent), and other sex offenses are **not** included.

There were 78 forcible rapes reported in North Dakota in 1989. This is an increase of approximately 5 percent from the 1988 total of 74 offenses. Of the forcible rape offenses, 44 were rapes by force and 34 were reported as assaults or attempts to rape. Figure IV shows the trend of reported rapes in the period from 1970 through 1989. See Appendix E for yearly totals and rates of forcible rape.

Fifty-eight of the 78 reported rapes were cleared by arrest or exceptional means, a clearance rate of 74 percent. In 1988, a clearance rate of approximately 60 percent was reported.

Since the UCR definition states that victims of rape are always female, the rate of occurrence for reported rapes is calculated based only on the female population. The Census Bureau's population estimate for North Dakota in 1989 is 660,000. The number of females is approximately half of that figure. There were 23.6 reported rapes per 100,000 females in 1989,

Figure IV
Rape Trend

compared with 22.3 per 100,000 females in 1988.

In North Dakota, forcible rape accounted for approximately 19 percent of violent index crimes and 0.5 percent of total index crimes reported. Murder/non-negligent manslaughter and robbery are the only offenses which have smaller percentages, accounting for 0.1 percent and 0.3 percent of total index offenses, respectively.

Most reported rapes occurred in the more populated cities and their surrounding counties. See Appendix B for the number of rapes and rate reported by each UCR reporting jurisdiction.

ROBBERY

Robbery is defined by the UCR program as "the taking or attempting to take anything of value from the care, custody or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear."

There were 61 robberies reported in North Dakota in 1989, an increase of 13.0 percent from the 54 reported in 1988. Figure V on the next page presents the trend of reported robberies from 1970-1989.

The 1989 robbery rate was approximately 9.2 per 100,000 population as compared with 8.1 per 100,000 population in 1988.

The clearance rate for robberies was 41 percent in 1989, as compared with 19 percent in 1988. For information on clearance rates for robberies and other offenses, see the section of this report entitled "Clearances."

There were 32 reported arrests for robbery in 1989. Of these, 25 were adults and 7 were juveniles. Twenty-eight of those arrested were male. For more information on arrests for robbery and other offenses, see the section entitled "Arrests."

Figure V
Robbery Trend

The UCR program categorizes robberies both by type of weapon used and type of victim (i.e. individual, commercial, household, etc.) Table V provides a breakdown by type of weapon used. Thirty-nine percent, or 24, of the reported robberies involved the use of personal weapons (hands, fists, feet, etc.). Approximately 25 percent involved knives or other cutting instruments. Firearms were used in about 30 percent of the incidents.

TABLE V

Robbery by Type of Weapon Used
North Dakota, 1989

Type of Weapon	Number of Reported Incidents	Percent of Total Reported Robbery Offenses
Firearm	18	29.5%
Knife or Cutting Instrument	15	24.6%
Hands, Fists, Feet, etc.	24	39.3%
Other Weapons	4	6.6%
TOTAL	61	100.0%

Figure VI presents a breakdown of reported robberies by type of victim in North Dakota in 1989.

Figure VI
Type of Robbery

The value of property reported stolen in robberies in North Dakota was \$54,648, compared with \$75,476 in 1988. See the section on Property Loss Due to Crime for more information.

AGGRAVATED ASSAULT

The UCR program defines Aggravated Assault as "an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed."

There were 266 aggravated assaults reported in North Dakota in 1989. This represents an increase of 5.1 percent from the 253 offenses reported in 1988. The aggravated assault rate for 1989 was 40.3 per 100,000 population.

Figure VII illustrates the breakdown of aggravated assaults by type of weapon used.

For further information on aggravated assaults, see "Clearances," "Arrests," and Appendix B.

Seventy-six percent of all reported aggravated assaults in North Dakota in 1989 involved the use of personal weapons (hands, fists, feet, etc.). Knives or other cutting instruments were the next most commonly used weapons. Firearms were used in approximately 5 percent of the total aggravated assaults.

Figure VII
Type Of Aggravated Assault

Figure VIII illustrates the trend in aggravated assaults for the period 1970 - 1989. See Appendix E for yearly totals and rates for aggravated assaults.

Figure VIII
Aggravated Assault Trend

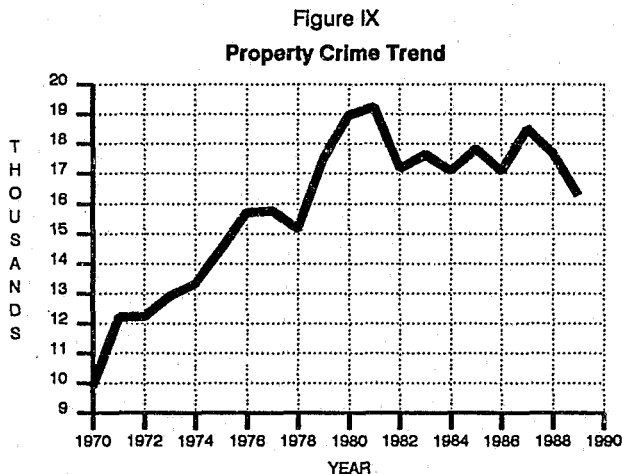

PROPERTY CRIME

Property crime includes the offenses of burglary, larceny/theft, and motor vehicle theft. In 1989 the total number of property crimes was 16,290. This is a 7.9 percent decrease from the 1988 total of 17,685 offenses. Property crime accounts for approximately 98 percent of the index offenses reported in North Dakota.

By offense category, burglary decreased 18.9 percent, larceny/theft decreased 5.7 percent, and motor vehicle theft decreased 6.3 percent.

Figure IX presents the trend of property crime in North Dakota for the period from 1970 through 1989. See Appendix E for yearly totals and rates for property crime.

BURGLARY

The UCR program defines burglary as the "unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify an offense as burglary." Burglaries are classified into three categories: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

Figure X illustrates the proportion of total burglaries reported for each of the three categories.

Figure X
Type Of Burglary

In 1989, 2,341 burglaries were reported to the UCR program. This is a 18.9 percent decrease from the total of 2,886 reported in 1988.

The average dollar value per offense increased approximately 21 percent from \$ 521 in 1988 to \$ 628 in 1989. Financial losses to North Dakota citizens due to burglaries are substantial. The total dollar value of property lost to burglary in 1989 was \$ 1,470,610, this is a 2 percent decrease from the 1988 total of \$ 1,503,199. A portion of this property is recovered by law enforcement; however, the clearance rate for reported burglaries in 1989 was only approximately 17 percent. For more information, see the "Clearances" and "Property Loss To Crime" sections of this report.

The UCR program also classifies burglaries by the time and place of occurrence. Table VI on the next page presents this breakdown. Approximately 57 percent were burglaries of residences. Fifty-one percent of the burglaries occurred at night.

TABLE VI

**Burglary
by Location and Time of Occurrence
North Dakota, 1989**

	Residence	Nonresidence	Total*
Night	561	637	1,198
Day	243	143	386
Unknown	521	238	759
Total	1,325	1,018	2,343

* This total varies slightly from totals in previous tables because data is taken from 2 different report forms.

The rate of burglaries based on population is 354.7 per 100,000 inhabitants for 1989, as compared with 435.3 per 100,000 in 1988.

Figure XI illustrates the trend of reported burglaries for the period of 1970 through 1989.

See Appendix B for more information on the number of reported burglaries and rate of occurrence for each reporting jurisdiction.

Figure XI
Burglary Trend

LARCENY/THEFT

The UCR program defines larceny/theft as the "unlawful taking, carrying, leading or riding away of property from the possession or constructive possession of another. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc., in which no use of force, violence or fraud occurs. In the Uniform Crime Reporting Program, this crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft is also excluded from this category inasmuch as it is a separate crime index offense."

A total of 13,215 larceny/thefts were reported in North Dakota in 1989. This is a 5.7 percent decrease from the 1988 total of 14,016. The larceny/theft rate per 100,000 population was 2002.3, compared to 2114.0 in 1988. The average dollar value per offense decreased from \$ 340 in 1988 to \$ 314 in 1989. Larceny/thefts accounted for 79.1 percent of the total index offenses reported and amounted to approximately 50 percent of the total value of stolen property.

In 1989, initial property losses due to larceny/theft were reported to be \$ 4,149,541 which is \$ 611,977 less than the 1988 total. This is a 12.9 percent decrease. While a portion of the stolen goods was recovered, the clearance rate for larceny/thefts is relatively low (24%). For more information on larceny/thefts see "Clearances" and "Property Loss to Crime."

A percentage distribution of reported larceny/thefts is presented in Table VII on the next page. The largest single category of reported larceny/thefts was motor vehicle parts and accessories with over 19 percent. Approximately 25 percent of all larceny/thefts reported in North Dakota fall into the "All other" category. Since thefts of farm equipment fall into this category, this may partially explain the large percentage.

TABLE VII

Larceny/Theft by Type of Property
North Dakota, 1989

Type of Larceny	Number of Incidents	Percent of Total Larcenies
Motor Vehicle Access.	2,522	19.08%
Shoplifting	1,998	15.12%
From Motor Vehicles	1,834	13.88%
From Building	1,692	12.80%
Bicycles	1,467	11.10%
From Coin-Op.Mach.	359	2.72%
Purse-Snatching	32	0.24%
Pocket-Picking	10	0.08%
All Other	3,301	24.98%
TOTAL	13,215	100.00%

The UCR program classifies larceny/theft offenses by the dollar values involved. Figure XII illustrates the percentages of offenses per category. The distribution of percentages among the three categories is relatively even, but the largest number of offenses involved dollar amounts over \$200.

Figure XII
Monetary Value of Larceny/Theft

The trend of reported larceny/thefts in North Dakota from 1970 through 1989 is illustrated in Figure XIII. This trend has been generally rising through this 20-year period. See Appendix E for yearly totals and rates of larceny theft.

For information on the number and rates of occurrence of larceny/ thefts in each reporting jurisdiction, see Appendix B.

Figure XIII
Larceny/Theft Trend

MOTOR VEHICLE THEFT

Motor vehicle theft is defined by the UCR program as "the theft or attempted theft of a motor vehicle, this offense category includes the stealing of automobiles, trucks, buses, motorcycles, motorscooters, snowmobiles, etc. The definition excludes the taking of a motor vehicle for temporary use by those persons having lawful access."

There were 734 motor vehicle thefts reported in 1989. This is a decrease of 6.3 percent from the 1988 total of 783. The North Dakota Motor Vehicle Department reported 667,927 vehicles fitting the UCR definition registered in 1989. This results in a motor vehicle theft rate of 110 per 100,000 motor vehicles.

Of the 734 motor vehicles reported stolen in North Dakota in 1988, 559 (76%) were recovered. A total of 446 of these were reported stolen and were recovered within the same jurisdiction. An additional 113 vehicles were recovered in jurisdictions other than where they

were stolen. North Dakota law enforcement agencies also recovered 50 vehicles reported stolen in jurisdictions outside the state of North Dakota. For more information, see the "Clearances" and "Property Loss to Crime" sections of this report.

Figure XIV illustrates the trend of motor vehicle thefts from 1970 through 1989. See Appendix B for more information on the number and rate of motor vehicle thefts based on population for each reporting jurisdiction.

Figure XIV
Motor Vehicle Theft Trend

The UCR program classifies motor vehicle thefts by type of vehicle. Figure XV illustrates the percentage distribution for each category. The "Other Vehicles" category in the diagram includes all other motor vehicles as limited by the UCR program definition. Examples include motorcycles, snowmobiles, trail bikes, etc. Thefts of farm equipment, airplanes, and construction equipment are not included in the motor vehicle theft category, but are reported as larceny/thefts.

Figure XV
Type of Vehicle Stolen

CLEARANCES

The UCR program defines an offense as "cleared" by law enforcement when "at least one person is arrested, charged with the commission of the offense, and turned over to the court for prosecution. Several crimes may be cleared by the arrest of one person, while the arrest of many persons may clear only one offense. Law enforcement agencies may clear a crime by exceptional means when some element beyond law enforcement control precludes the placing of formal charges against the offender. Examples of circumstances allowing such clearances are the death of the offender (suicide, justifiably killed by police or private citizen, etc); the victim's refusal to cooperate with prosecution after the offender has been identified; or the denial of extradition."

Approximately 25 percent of the reported crimes were cleared in North Dakota in 1989. This figure has remained relatively stable throughout the years. (See Table VIII)

In North Dakota, approximately 71 percent of total violent index crimes reported to the UCR program were cleared in 1989. Clearance rates for violent crimes ranged from 41 percent for robbery to 89 percent for murder/non-negligent manslaughter. See Table IX for further information.

Approximately 24 percent of the total property index crimes were reported cleared in 1989. Clearance rates for the individual property crimes range from 17 percent for burglary to 47 percent for motor vehicle theft.

TABLE VIII

Index Offenses Cleared North Dakota, 1977-1989

Year	Number of Index Offenses Reported	Number of Index Offenses Reported Cleared	Percent Cleared
1977	16,205	4,066	25.0%
1978	15,595	3,969	25.4%
1979	17,931	4,139	23.1%
1980	19,324	4,085	21.2%

CLEARANCE RATES by Offense 1988-1989

<u>VIOLENT CRIME</u>	<u>1988</u>	<u>1989</u>
Murder	91%	89%
Forcible Rape	60%	74%
Robbery	19%	41%
Aggravated Assault	76%	76%
<u>PROPERTY CRIME</u>		
Burglary	18%	17%
Larceny/Theft	24%	24%
Motor Vehicle Theft	27%	47%

ARRESTS

Although primarily an indication of law enforcement activity, the number of arrests reported does provide a limited profile of the perpetrators of crime, especially for those crimes which have high clearance rates. Differing arrest practices, policies and enforcement emphases among agencies influence the volume of arrests for various offenses, particularly those against public order such as vagrancy, disorderly conduct, and related violations. However, arrests for serious crimes, e.g., robbery or burglary, are more likely to be consistent and uniform throughout all jurisdictions across the state.

The UCR program requires that an arrest be counted on each separate occasion an individual is taken into custody. Although several charges may be lodged against a person at the time of the arrest, only one arrest is counted for each separate time the individual is taken into custody.

Local law enforcement agencies report all arrests, whether for crime index offenses or other offenses, except misdemeanor traffic offenses. Therefore, considerable arrest data are available for which there are no corresponding offense data. All available arrest data are included here to allow a more complete review of the total numbers and types of persons arrested in North Dakota and to allow a potentially representative review of other (non-index) offenses occurring within the state.

There were 24,341 arrests reported by North Dakota law enforcement agencies in 1989. This total represents a decrease of approximately 7 percent from the 1988 total of 26,170 arrests.

In 1989, 26 percent of total arrests were arrests of juveniles. Table X breaks down arrest totals for juveniles and adults for the period 1977 - 1989. See Table XII for a breakdown of juvenile arrests by age, sex, and offense. The largest number of arrests of juvenile males were for

larceny/theft. The largest number of juvenile females arrested were runaways.

TABLE X

Adults and Juveniles Arrested North Dakota, 1977-1989

Year	Adults		Juveniles		Total
	Number	%	Number	%	
1977	16,915	74	5,887	26	22,802
1978	17,500	74	6,050	26	23,550
1979	18,981	74	6,707	26	25,688
1980	22,126	78	6,203	22	28,329
1981	22,203	78	6,158	22	28,361
1982	23,908	81	5,563	19	29,471
1983	24,015	82	5,318	18	29,333
1984	22,051	79	5,758	21	27,809
1985	21,320	78	6,138	22	27,458
1986	20,333	75	6,938	25	27,271
1987	19,839	74	6,843	26	26,682
1988	19,327	74	6,843	26	26,170
1989	17,914	74	6,427	26	24,341

The majority of total arrests were male with 75 percent of reported arrests. See Table XI for a breakdown of arrests by sex of the offender for the period 1977 through 1989.

TABLE XI

Table XIII provides a breakdown of arrests of adults by age, sex, and offense. The offense committed most often by adult males was driving under the influence. Adult females were arrested most often for fraud. The age group with the largest total arrests was the 25-29 category. The category with the least amount of arrests was the 60-64 age group.

Only 4,263, or 17.5 percent of the reported arrests were arrests for crime index offenses. Approximately 46 percent, or 1,965, of these were arrests of juveniles. In 1988, 47 percent of the 4,273 arrests for crime index offenses were arrests of juveniles.

The 8,074 reported arrests for DUI and liquor law violations represents approximately 33 percent of the total arrests reported in the state of North Dakota in 1989. Arrests of adults for DUI offenses decreased 17 percent from the total of 4,433 reported in 1988, while arrests for liquor law violations decreased only 2 percent for adults. The number of juveniles arrested for DUI decreased 39 percent from the 1988 total of 121 to 74 in 1989. Arrests for liquor law violations decreased 21 percent for juveniles.

There were 634 arrests of adults for drug abuse violations, an decrease of 6 percent from the total of 671 in 1988. Arrests of juveniles for drug abuse violations decreased by 27 percent from a total of 66 in 1988 to 48 in 1989.

Table XIV reviews arrests reported in 1989 in terms of racial category. Approximately 90 percent of total arrests were white, about 8 percent were Native American. (These statistics are provided by local law enforcement agencies which contribute to the North Dakota UCR program. No arrest figures for reservations in the state are included in these totals. Tribal law enforcement agencies currently do not participate in the UCR program.)

Table XV presents total arrests by racial category for the period 1977-1989. Although, the total number of arrests has fluctuated during this time, the percentages for each category have remained relatively constant.

TABLE XIV

**Race of Persons Arrested
North Dakota, 1989**

PROPERTY LOSS TO CRIME

Table XVI presents the annual statewide dollar value of reported property losses, value of property recovered, and percent recovered for the period of 1977 through 1989.

TABLE XVI
Property Loss to Crime
North Dakota, 1977-1989

Year	Value Stolen	Value Recovered	Percent Recovered
1977	\$4,647,442	\$2,181,163	47%
1978	5,969,383	2,790,073	47%
1979	7,053,153	3,568,907	51%
1980	8,773,753	3,992,838	46%
1981	8,865,139	4,109,378	46%
1982	8,725,532	4,305,097	49%
1983	8,782,823	3,957,757	45%
1984	7,740,904	3,448,505	45%
1985	8,116,022	3,686,750	45%
1986	7,452,333	3,303,453	44%
1987	8,577,693	3,165,137	37%
1988	9,225,631	3,391,176	37%
1989	8,251,241	3,302,306	40%

Table XVII provides a breakdown of value of property reported stolen by type of property. Eighty-one percent of the value of locally stolen motor vehicles and 37 percent of office equipment were recovered. Forty percent of the total dollar value of property stolen was recovered in 1989. Locally stolen motor vehicles account for over 30 percent of the total dollar value of property reported stolen.

Table XVIII on the next page presents the value of property stolen in terms of type of index offense involved. Average dollar value per offense is also included in this table. The average dollar value per robbery was \$ 895.87 and the average burglary involved the stealing of \$627.66 worth of property. Larceny/thefts involved property worth \$ 314.00 on the average. Motor vehicle thefts averaged \$ 3,552.66 per offense in 1989.

TABLE XVII
Property Stolen and Recovered
by Type of Property
North Dakota, 1989

Type of Property	Value Stolen	Value Recovered	%
Currency, Notes, etc.	748,457	154,736	21%
Jewelry & Precious Metals	485,757	59,867	12%

*In some categories, totals do not agree with totals in previous tables because the data is taken from two different report forms.

Index Crime by Contributor

Total reported index offenses are presented from several different perspectives in the following sections to provide comparisons as to where crime occurred in North Dakota in 1989.

INDEX OFFENSES BY INDIVIDUAL JURISDICTIONS

Currently, 51 of the 53 county sheriff's departments report directly to the UCR program as do the police departments of 22 cities in North Dakota. All cities with a population of over 2,000 report directly with the exceptions of Bottineau, and Oakes. Data from Bottineau is reported by the County Sheriff who provides police services to the city.

Table XIX lists county population and county index crime rate per 100,000 population for 1989. Total offenses reported varied from 215 reported by the Ward County Sheriff's Office to no index offenses reported by Logan County and Adams County.

Large cities often have a significant influence on the crime rate in the surrounding county. A county's crime rate is calculated using the county population (not including the population of any cities which are also UCR reporting jurisdictions) and the total number of index offenses reported by the county sheriff (not including index offenses reported by city police departments).

Table XX on the next page ranks the cities by crime rate per 100,000 population for 1989. Appendix B, "Index Offenses by Jurisdiction," provides more detail on what type of crimes are most frequently reported by each jurisdiction. Appendix C, "Percent Contributions Reported by Jurisdiction," lists the percentages of total statewide index crime per reporting jurisdiction.

TABLE XIX
UCR Reporting County Sheriffs' Offices

*Langdon reported Jan. through March only.

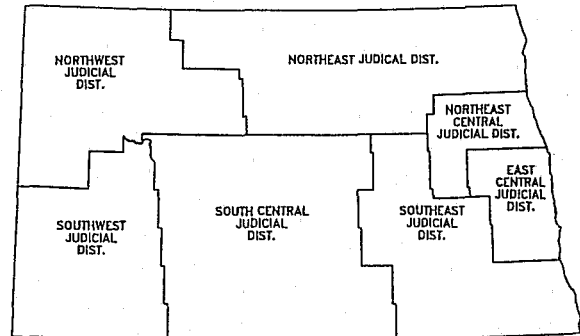

INDEX CRIME BY JUDICIAL DISTRICT

This section presents index crime rates calculated for each judicial district to provide for ready comparison with data on court caseloads published annually by the state court administrator. Figure XVI is a map of the judicial district boundaries. The crime rate for each district for 1989 is shown beneath the map and a ranking is given by crime rate.

Geographic size and population size seem to impact reported crime most significantly when a relatively large population is grouped into a relatively small geographical area, as in the cases of the East Central and Northeast Central Judicial Districts. Figure XVII shows the relative proportion of the total statewide index crime reported by law enforcement agencies in each

of the judicial districts. Note the proportions of crimes reported in the East Central and Northeast Central districts in Figure XVII compared to their sizes in Figure XVI.

Figure XVI
Index Crime by Judicial District

District	Population	Index Total	Rate/100,000	Rank
Northwest	106,169	2,497	2,397.1	4
Northeast	91,518	1,430	1,562.5	6
Northeast Central	77,781	2,908	3,738.7	2
East Central	109,336	4,239	3,877.0	1
Southeast	85,788	1,511	1,761.3	5
South Central	141,528	3,465	2,488.3	3
Southwest	44,375	642	1,466.8	7

Figure XVII
Index Offenses by Judicial District

RURAL-URBAN

The "urban" areas of the state were originally defined in 1980 as those communities with populations of 2,500 or greater and which reported directly to the UCR program. This was an arbitrary determination and definition, but it does allow us to talk about rural crime without addressing the state as a whole. The 16 cities listed below were included in our definition of "urban" areas. Some of these cities no longer have populations of at least 2,500 and the city of Hazen has grown to a population of 3,311. However, to maintain continuity, we will continue using the same list of cities to determine the "urban" population. All other portions of the state are designated as "rural" for purposes of this section.

<u>City</u>	<u>Population</u>
Bismarck	47,182
Carrington	2,412
Devils Lake	7,877
Dickinson	16,436
Fargo	68,965
Grand Forks	34,864
Grafton	4,714
Harvey	2,413
Jamestown	15,497
Mandan	15,368
Minot	34,670
Rugby	2,985
Valley City	6,978
Wahpeton	9,597
West Fargo	11,415
Williston	13,066
TOTAL	294,439

The rural and urban index crime rate both decreased from 1988 to 1989. While 55 percent of the state's population is "rural", the rural areas have contributed less than 25 percent of the total index crimes reported annually. See Table XXI for more information.

TABLE XXI

**Rural-Urban Index Crime Distribution
North Dakota, 1982-1989**

	<u>Population</u>	<u>Index Offenses</u>	<u>Rate/ 100,000</u>	<u>% of Total</u>	<u>%change in Rate</u>
1982	Rural 370,531 (55%)	4,019	1084.7	23%	
	Urban 289,489 (45%)	13,582	4535.4	77%

APPENDICES

(This page intentionally left blank.)

OFFENSES IN UNIFORM CRIME REPORTING

Offenses in Uniform Crime Reporting are divided into two groupings designated as Part I and Part II crimes. Information on the number of Part I offenses known to law enforcement, the number cleared by arrest or exceptional means, and the number of persons arrested is reported monthly. Arrest data are reported for Part I and Part II offenses. The Crime Index is composed of offenses 1-7 with the exception as noted in item 1 below.

NOTE: The classifications of these offenses for UCR reporting purposes are based on law enforcement investigation as opposed to determination by a court, medical examiner, jury, or other judicial hearing.

PART I OFFENSES

1. CRIMINAL HOMICIDE

a. Murder and non-negligent manslaughter:

The willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) the killing of a felon by a law enforcement officer in the line of duty; and (2) the killing of a felon by a private citizen.

b. Manslaughter by negligence:

The killing of another person through gross negligence. Excludes traffic fatalities. While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.

2. FORCIBLE RAPE

The carnal knowledge of a female forcibly and against her will. Included are rapes by force and attempts or assaults to rape. Statutory

offenses (no force used -- victim under age of consent) are excluded.

3. ROBBERY

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or putting the victim in fear.

4. AGGRAVATED ASSAULT

An unlawful act by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Simple assaults are excluded.

5. BURGLARY

Breaking or entering. The unlawful entry of a structure to commit a felony or theft. Attempted forcible entry is included.

6. LARCENY/THEFT

The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles or automobile accessories, shoplifting, pocket-picking, or the stealing of any property or article which is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, "con" games, forgery, worthless checks, etc., are excluded.

7. MOTOR VEHICLE THEFT

The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on the surface and not on rails. Specifically excluded from this category are motorboats, construction equipment, airplanes, and farming equipment.

8. Arson

Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle, personal property of another, etc.

PART II OFFENSES

9. OTHER ASSAULTS (SIMPLE)

Assaults or attempted assaults where no weapon was used or which did not result in serious or aggravated injury to the victim.

10. FORGERY AND COUNTERFEITING

Making, altering, uttering, or possessing, with intent to defraud, anything false which is made to appear true. Attempts are included.

11. FRAUD

Fraudulent conversion and obtaining money or property by false pretenses. Included are larceny by bailee and bad checks except forgeries and counterfeiting.

12. EMBEZZLEMENT

Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

13. STOLEN PROPERTY-- BUYING, RECEIVING, POSSESSING

Buying, receiving, or possessing stolen property, including attempts.

14. VANDALISM

Willful or malicious destruction, injury, disfigurement, or defacement of any public or private property, real or personal without consent of the owner or person having custody or control.

15. WEAPONS -- CARRYING, POSSESSING, ETC.

All violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers. Attempts are included.

16. PROSTITUTION AND COMMERCIALIZED VICE

Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring, or transporting women for immoral purposes. Attempts are included.

17. SEX OFFENSES (except forcible rape, prostitution, and commercialized vice)

Statutory rape and offenses against chastity, common decency, morals and the like. Attempts are included.

18. DRUG ABUSE VIOLATIONS

State and local offenses relating to narcotic drugs, such as unlawful possession, sale, use, growing and manufacturing of narcotic drugs.

19. GAMBLING

Promoting, permitting, or engaging in illegal gambling.

20. OFFENSES AGAINST FAMILY AND CHILDREN

Non-support, neglect, desertion, or abuse of family and children.

21. DRIVING UNDER THE INFLUENCE

Driving or operating any vehicle or common carrier while drunk or under the influence of liquor or narcotics.

22. LIQUOR LAWS

State or local liquor law violations, except "drunkenness" (offense 23) and "driving under the influence" (offense 21).

23. DRUNKENNESS

Drunkenness or intoxication. Excluded is "driving under the influence" (offense 21).

24. DISORDERLY CONDUCT

Breach of peace.

25. VAGRANCY

Vagabondage, begging, loitering, etc.

26. ALL OTHER OFFENSES

All violations of state or local laws, except offenses 1-25 and traffic offenses.

27. SUSPICION

No specific offense; suspect released without formal charges being placed.

28. CURFEW AND LOITERING LAWS

Offenses relating to violation of local curfew or loitering ordinances where such laws exist.

29. RUNAWAYS

Limited to juveniles taken into protective custody under provisions of local statutes.

(This page intentionally left blank.)

**NUMBER AND RATE OF INDEX CRIMES
BY REPORTING JURISDICTION
NORTH DAKOTA, 1989**

The rate per 100,000 population is shown in parentheses immediately below the actual number of incidents reported for each offense type. A county-wide total is also shown for each of those counties which have more than one reporting jurisdiction within its geographic boundaries.

County	Reporting Jurisdiction	Index Crime	Murder/ Non-neg Mans.	Rape	Robbery	Aggravated Assault	Burglary	Larceny/ Theft	Motor Vehicle Theft
Barnes	County S.O.	44 (737.1)				6 (100.5)	18 (301.6)	19 (318.3)	1 (16.8)
	Valley City P.D.	128 (1805.7)			1 (14.3)	2 (28.7)	13 (186.3)	102 (1481.7)	8 (114.6)
	County-wide Total	170 (1313.0)			1 (7.7)	8 (81.8)	31 (239.4)	121 (934.6)	9 (69.5)
Benson	County S.O.	123 (1681.7)					54 (738.3)	64 (875.0)	5 (68.4)
