STATE OF TENNESSEE
DEPARTMENT OF CORRECTION
FOURTH FLOOR, RACHEL JACKSON BUILDING
NASHVILLE, TENNESSEE 37243-0465

W. JEFF REYNOLDS
COMMISSIONER

December 31, 1991

The Honorable Ned McWherter
Governor of Tennessee
and
The General Assembly
State of Tennessee

Ladies and Gentlemen:

The Tennessee Department of Correction is pleased to report our progress in fiscal year 1990-91. The department continued its progress toward meeting the requirements of its 1985 Federal Court Order. One new institution was opened and construction and planning continued on three other new facilities. The number of offenders supervised by the Community Services Division continued to grow.

Overall, I am pleased with the progress made in all areas by the department. Our accomplishments are the result of the professional dedication and hard work of the department's employees.

Sincerely,

A handwritten signature in black ink, appearing to read "W. Jeff Reynolds".

W. Jeff Reynolds

Tennessee Department of Correction Mission Statement

The Tennessee Department of Correction's mission is to serve the public by managing offenders according to recognized professional standards.

The Department will carry out its mission by:

- *Implementing the orders of sentencing courts in a safe and humane manner.
- *Receiving and controlling sentenced or committed offenders.
- *Employing professional staff.
- *Using efficiently and effectively those resources appropriate to the identified needs and risks of individual offenders.
- *Providing opportunities and incentives for behavior change in offenders while providing sanctions and other disincentives for continued criminal behavior.
- *Providing adequate opportunities to develop behaviors which will enhance an offender's chance for success upon release from the Department's control.

Department Overview

- o Northeast Correctional Center in Johnson County opened in March and was filled to its operating capacity of 960 by June 1991.
- o The construction project to rebuild housing units and program space at Turney Center was completed.
- o Construction continues on three new institutions: Northwest Correctional Center, South Central Correctional Center, and Special Needs Facility. These facilities should open by June 1992.
- o Legislation passed permitting the contracting for private correctional services for one medium security facility. The department will select a vendor in November 1991 to operate South Central Correctional Center.
- o Legislation passed authorizing the department to develop joint ventures with private sector businesses to provide jobs for inmates.
- o Five federal court evaluators noted tremendous improvements in five institutions visited. The visits were to recommend to the federal court final population capacities at the regional facilities and to respond to the department's motion to partially double cell the new housing units at Turney Center. The department is awaiting a court order on the allowable capacities at the five institutions in question.
- o Eleven of the department's 16 currently eligible institutions are nationally accredited by the American Correctional Association. During FY 1990-91, two institutions received their initial accreditation, and four were reaccredited. Wayne County Boot Camp became only the second boot camp to be nationally accredited. The department's remaining five institutions are scheduled for accreditation audits in FY 1991-92.
- o The department greatly expanded institutional and community substance abuse programs for offenders with the assistance of federal funds.
- o The workload of the probation division was expanded to supervise short-term felons released from incarceration and offenders completing the department's boot camp program.

Fiscal Year 1990-91 Annual Report

Commissioner's Staff

Grubbs Litigation

Grubbs was filed as a class action suit in 1980, asserting that living conditions of inmates in Tennessee's then twelve state penal institutions violated Eighth and Fourteenth Amendment guarantees. Chief Judge L. Clure Morton of the Middle District of Tennessee conducted a bench trial in November and December 1981. Judge Morton found seven specific conditions in various institutions that violated constitutional standards. He determined at that time, to appoint a special master and required the department to submit plans for remedying the unconstitutional conditions on a strict timetable. Following Judge Morton's retirement, Grubbs was assigned to District Judge Thomas A. Higgins, on whose docket it remains.

During this fiscal year, the special master and four court evaluators visited Middle Tennessee Reception Center (MTRC), Morgan County Regional Correctional Facility (MCRCF), Lake County Regional Correctional Facility (LCRCF), and Turney Center Industrial Prison and Farm (TC). The purpose of the visits was to recommend final population capacities at the regional facilities and to respond to the state's motion to partially double cell the new housing units at TC. The evaluators communicated their findings and recommendations to the special master in a report dated October 1990. The evaluators noted tremendous improvements in the five institutions since their last visit in 1985 as noted below:

"The most striking finding of the evaluation is that the Tennessee Department of Correction is once again in full control of the facilities at issue. The facilities appear well managed, clean, and quiet. There is a marked absence of tension in the facilities, particularly striking in comparison to our earlier visits in 1984 and 1985. Staff morale is high. The rapport between staff and inmates has improved dramatically as has the institution environment and the quality of life at all five facilities. The architectural changes have had a dramatic effect and improvement on security,

control, program space, aesthetics, and the overall environment, climate and operating of all five of the institutions. While under-employment of inmates remains a problem in most of the facilities, the improvement in the number and quality of jobs is striking."

The department provided the special master with a response to the evaluators' report in December 1990. In February 1991, the special master filed his formal report and recommendations with the court. A hearing on this was held before Judge Higgins on June 20, 1991. An order from Judge Higgins has not been filed concerning the matter.

In May 1991, the department submitted to the special master a "Grubbs Matrix Resolution." The resolution outlined the status of the approximately 1,500 court evaluator recommendations, which are to be completed by June 30, 1992. The report noted that 96 percent of these recommendations have either been completed or designated as no longer appropriate/applicable. The department is currently working toward completion of the remaining recommendations.

Compliance

The Compliance Section provides support and assistance to all divisions by ensuring that departmental practices adhere to constitutional and professional standards, court recommendations, statutory laws and TDOC policies. The Compliance Section currently has three major areas of responsibility:

1. Reporting on the department's level of compliance with the approximately 1,500 court evaluator recommendations under the Grubbs lawsuit. This requires that reports be submitted to the special master on a semi-annual basis.
2. The coordination of the department's accreditation activities in all work locations involved in the process.

Fiscal Year 1990-91 Annual Report

3. The coordination and oversight of the department's annual inspections of all institutions and field service programs.

Court Compliance/Program Evaluation. During the six month reporting cycle ending December 1990, visits were made to five institutions to monitor compliance with evaluator recommendations under the Grubbs lawsuit. Concentration was placed in the areas of security and institutional environment. Visits were also made to three additional institutions to conduct audits of inmate Employment.

During the six month period ending June 30, 1991, the "Grubbs Matrix Resolution" process was developed and implemented. This section worked with all institutions involved in the lawsuit to determine the status of all court recommendations. The matrix resolution was compiled and submitted to the special master in May 1991.

Accreditation. During Fiscal Year 1990-91, six Department of Correction institutions had formal accreditation audits. This included Wayne County Boot Camp (WCBC) in September, Nashville Community Service Center (NCSC), and Morgan County Regional Correctional Facility (MCRCF) in October, Southeastern Tennessee State Regional Correctional Facility (STSRCF) in November, and Lake County Regional Correctional Facility (LCRCF), and Middle Tennessee Reception Center (MTRC) in June.

Wayne County Boot Camp became only the second short-term incarceration unit to be nationally accredited by the American Correctional Association (ACA). MCRCF was the department's eleventh institution to achieve national accreditation. The formal hearings for WCBC, MCRCF, NCSC, and STSRCF occurred at the January 1991 meeting of the ACA.

Three additional adult institutions formally entered the accreditation process during this fiscal year, bringing the total number of institutions involved in accreditation to 16. Turney Center Industrial Prison and Farm (TC), Riverbend Maximum Security Institution (RMSI), and West Tennessee High Security Facility (WTHSF), formally

entered the accreditation process. These three institutions are expected to have their accreditation audits during FY 1991-92.

Since accreditation is for a three year period only, six additional TDOC institutions began reaccreditation activities with the ACA during the fiscal year. These include LCRCF and MTRC, which were audited in June, 1991, as well as Carter County Work Camp (CCWC), Chattanooga Community Service Center (CCSC), Mark H. Luttrell Reception Center (MLRC), and Tennessee Prison for Women (TPW). These four institutions are also scheduled to have their formal reaccreditation audits during FY 1991-92.

Annual Inspections. Annual inspections are detailed observations and reports of the appearance, physical condition, and overall operation of each institution and field service program. These inspections are conducted by teams consisting of central office, institution, and field personnel. Reinspections, if necessary, are scheduled and conducted within 90 days following the completion of the original inspection. During the past year, 19 institutions and eight regional probation offices were inspected.

Legal Services

The Legal Services Section is counsel on behalf of the commissioner and is legal representative for the commissioner in various legal and administrative proceedings involving the department. The process of policy development, review, and distribution is also a function of the legal services section. The office assisted the office of the Attorney General in the defense of various inmate civil rights lawsuits filed against the department and its employees and in the defense of various appeals concerning employee grievances.

Strong emphasis continued to be placed on establishing and maintaining communications with employees in the field. The legal section attorneys presented workshops all across the state on many topics including the criminal sentencing code and

Source: Incarcerated Felon Population Projections, August 1991

the inmate disciplinary board. This section is responsible for administering detainees and the transfer of inmates under the Interstate Compact.

Planning and Research

The Planning and Research Section provides information, analysis, and research to assist in improving the department's management and operation. The section responded to numerous information requests and surveys received by the department from the General Assembly, federal court monitors, and other outside agencies. The section maintained reporting systems for institutional incident reports, monthly felon populations and movements, inmate activities, and legislative tracking. A revised felony inmate population projection was developed and presented to the Joint Legislative Oversight Committee on Corrections. The Section also assisted in developing new data collection systems and in improving the reliability and accuracy of existing data systems. The Sec-

tion produced this annual report. A listing of other available reports and Research Briefs produced by Planning and Research is included at the end of this report.

Internal Audit

Internal Audit is responsible for conducting all fiscal audits within the Department of Correction as assigned by the commissioner.

At the beginning of the fiscal year 1990-91 Internal Audit was working with the Fiscal Services Section on the Comptroller's audits for FY 1986-87 and FY 1987-88. Several audit findings that were repeated in two prior audits were targeted. Institutions were visited to determine current compliance and necessary changes were recommended

Fiscal Year 1990-91 Annual Report

During this fiscal year Internal Audit completed commissary audits at all institutions being accredited or reaccredited by ACA. Commissary audits are one of the mandatory standards for accreditation by ACA.

Internal Affairs Section

The Internal Affairs Section conducts investigations specifically authorized by the commissioner and are limited to matters relating to the operations of the department.

Four investigative inquiries were completed by Central Office Internal Affairs during the fiscal year and 65 investigative inquiries were completed by regional internal affairs personnel.

The principal types of investigative matters were drugs, staff misconduct, and escapes in the adult institutions.

The section continued to work closely with various federal, state, and municipal and county investigative agencies. This resulted in the mutual sharing of intelligence information, sharing of

technical services, and informant development. A number of investigative matters were referred to attorney generals throughout the state for possible prosecution.

Employee Grievance Section

The Employee Grievance Section is a resource for department employees with respect to correct procedures for resolving grievances and assists in establishing consistent actions. Classes for senior managers and pre-supervisors are conducted at the Tennessee Correction Academy. These classes focus on civil service concepts and procedures for disciplinary and grievance actions. Monthly and quarterly reports are distributed to assist in the establishment of consistency by allowing personnel to better monitor cases and provide feedback to the field.

During the fiscal year, a total of 108 grievances was submitted. Of this number, 66 decisions were upheld, 15 decisions were overturned, and 13 were deemed nongrievable. A total of 14 were resolved without a hearing. Over 98 percent of the grievances were submitted by adult institutions' staff.

WRITTEN WARNINGS REVIEWED - 63

Administrative Services

Leon Joyner
Assistant Commissioner

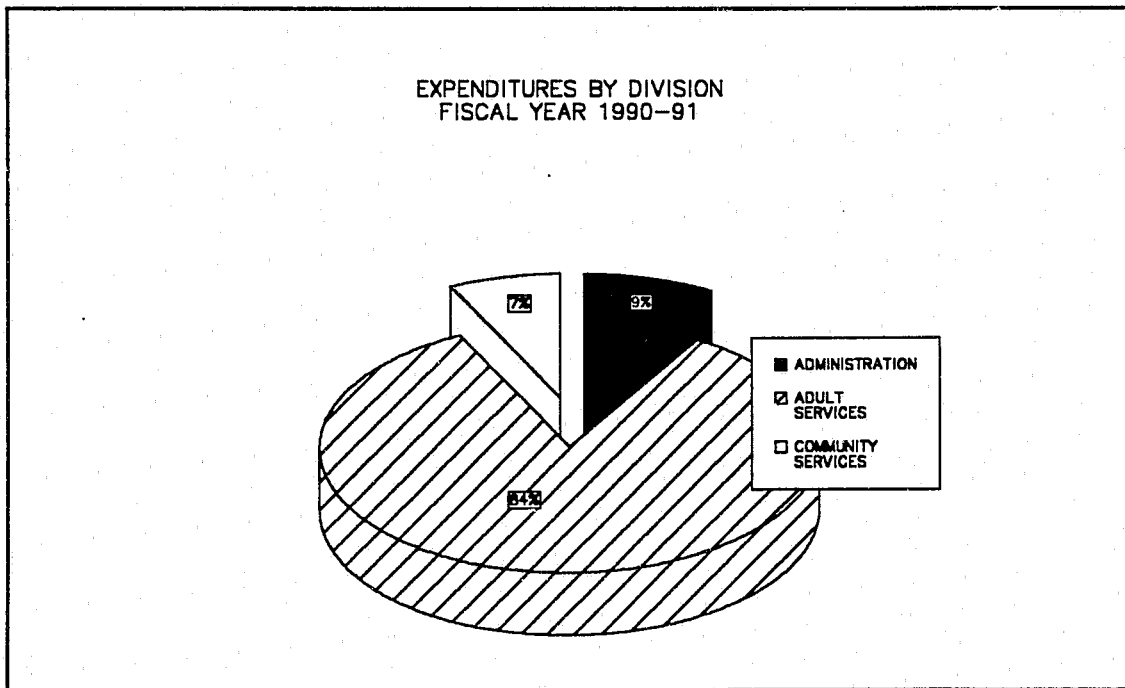

Budget

The budget section is responsible for coordinating the proper development, submission, and use of the department's operating budget. Technical assistance is provided to the field units in the development and management of the operating budget. The budget section also monitors, revises, and authorizes expenditure of the department's operating funds and revenue collections, prepares financial information and special projects for the legislative branch including fiscal impact of proposed legislation from the General Assembly, monitors the closing capabilities of the department, and serves as liaison between the wardens and directors of the department and Finance and Administration's budget section.

During FY 1990-91, the budget section, in conjunction with field and central office staff, operated under restricted hiring and purchasing procedures as directed by the Departments of Finance and

Administration and Personnel. Major reductions were made statewide due to undercollection of tax revenues. These reductions affected TDOC by reducing the FY 1990-91 and FY 1991-92 operating funds and abolishing 337 positions effective July 1, 1991. The department reverted slightly more than \$3,000,000 as a result of FY 1990-91 operations which represented only 1.3 percent of the department's allotment.

During FY 1990-91, the budget section began the process of phasing-down funding at Tennessee State Penitentiary and DeBerry Correctional Institute in concurrence with the department's plan to close both facilities by June 30, 1992. Additional funds were allotted to the new Northeast Correctional Center in order to fully fund the 998-bed facility. Funds were requested to begin the start up of three other new facilities: South Central Correctional Center, Northwest Correctional Center, and the Special Needs Facility. The closing of TSP and DCI, and the opening of the three new facilities will continue as major budgetary priorities.

(3) CAPITAL MAINTENANCE FUNDS ARE NOW APPROPRIATED
DIRECTLY TO THE DEPARTMENT OF FINANCE AND
ADMINISTRATION.

CAPITAL PROJECT COST ALLOCATION FOR FY 90/91	\$3.17
TOTAL COST INCLUDING CAPITAL	\$64.72

Correctional Enterprises

Correctional Enterprises of Tennessee (CET) in conjunction with institutional wardens manages the overall operations of the correctional farms and industry plants within TDOC. It provides training in specific industrial and farming processes, and teaches "real-world" work habits necessary for any job. CET produces high quality goods and services to government agencies and non-profit organizations.

Present industries include recycling of paper, aluminum and steel cans, and plastics bottles; textiles and apparel - sheets, towels, clothing; paint - interior and exterior; furniture - office, institutional, church, dorm; signs - street, silk screening; license plates; print - stationery, books, forms, decals; and furniture refurbishing.

CET's primary strategy for growth under the newly developed marketing plan will focus on improvements of current operations and finding new customers for existing product lines. CET has hired a Marketing and Sales program director and reorganized the section into three operational components including sales, customer service, and telemarketing.

Recent legislation allows CET to develop joint ventures with private sector businesses. Such ventures will operate under the Private Sector Prison Industry Enhancement Certification Program. CET is working with representatives of labor unions and the Department of Economic and Community Development to recruit business that is now going out of the country.

Certification of CET products is in progress. State law requires state and local governments to use products certified by the Board of Standards. Quality, competitive pricing, and availability are criteria each product must meet before being certified.

The farm program includes five farms and one central garage operation, utilizing 12,415 acres.

Two dairies have complete processing plants with half-pint cartoning, as well as bulk packaging, with plans to expand into juices, two-percent and chocolate milk.

Future plans include the exchange of farm crops for processed food, which will be used by the institutions, and a central distribution system for other food products not produced by CET.

Revenues collected for the past year were \$11.4 million, a nine percent growth over fiscal year 1989.

Engineering

The engineering section forms an administrative bridge between institutional managers and the architects, engineers, and contractors providing services to them. This section prepares maintenance budgets, new construction programs, cost proposals, and maintenance policy. Engineers review construction plans, specifications, and completed work as well as investigate new building sites.

Construction projects, planned and funded in the 1985 Special Session are nearly complete; only a few renovations remain unfinished. Most significantly this year, the facility upgrade at Turney Center and the statewide fence detection project were completed. Northeast Correctional Center, a medium security prison, was opened in Johnson County. Two additional medium security prisons are under construction in Lake and Lauderdale counties and the Special Needs Facility is under construction in Davidson County. These three prisons will open by July 1992.

Due to reduced revenues only a few projects are planned for FY 1991-92. They include planning for a new visitation center at MLRC, a new boiler plant at BMSP, a waste water plant improvement at MCRCF, and connecting corridors at the four regional prisons.

Fiscal Year 1990-91 Annual Report

Fiscal Services

The Fiscal Services Section is responsible for continuing to improve the department's financial accountability through the state's Financial Integrity Act. The section also assures prompt and accurate payment of the department's financial obligations. Technical assistance is provided to the field operating units in developing and maintaining integrity in the financial management system. The section is the liaison between TDOC and the Departments of Finance and Administration and General Services, Comptroller of the Treasury, and several other state departments.

During the fiscal year, the most significant activity was implementation of Tennessee On-line Purchasing System (TOPS). All facilities and offices having procurement functions were on-line at fiscal year end. The section continued its emphasis on the follow-up of implementation of actions included in the department's response to the latest audit report issued by the Division of State Audit of the Office of the Comptroller of the Treasury. An expenditures reporting program to strengthen the department's oversight of fiscal activity was implemented.

Management Information Services

Management Information Services provides sentence management information, computerized information reporting, technical assistance in the design and development of computerized systems, and forms and publications service. The section calculates all felon sentences, maintains all inmate records of offenders who have been in the system, and monitors the release dates for the parole board in order to produce the parole dockets.

During the fiscal year, the Systems Development Services staff, in addition to the routine maintenance of existing software, implemented three major systems and continued development of one major system that is crucial to the effective operation of the department.

Central Pharmacy System. The Central Pharmacy hardware and software was purchased and implemented in May 1991.

Correctional Enterprises Manufacturing System. The system design was approved in June 1991 and will be installed in the fall of 1991.

Correctional Enterprises Data Entry System. The replacement of Riverbend's data entry system and the addition of a new data entry plant at Northeast Correctional Center was approved in March 1991. The system was installed, tested and accepted by TDOC in May 1991.

Tennessee Offender Management Information System (TOMIS). During the fiscal year, the entire Systems Development staff was involved in the TOMIS project. The contract was awarded to Anderson Consulting in July 1990.

After the contract award, all TOMIS requirements were reviewed with the contractor and the TOMIS database was designed. User representatives were assigned to the project to utilize their expertise in specific areas and to assist the development team in many aspects of the TOMIS design. With the help of these user representatives, screens and reports were developed and tested for proper operation and accuracy in format and content. Program specifications and code were reviewed and approved. A plan to convert the data currently in OBSCIS to TOMIS has been developed as well as a training plan which includes computer based training, classroom and on-site training. Implementation plans for both Phase 1 and Phase 2 of the project have been developed. On-line help and user procedures have also been developed. The conversion of TOMIS Phase 1 is scheduled for February 1992.

Sentence Management Services (SMS) continued to provide training on the Criminal Sentencing Reform Act of 1989 and update training on sentence computation and modification. Probation officers statewide were trained on entry of judgment information into OBSCIS. At the same time, technical assistance was offered to sheriffs' departments supported by the probation office. This included providing copies of the revised Sheriff's

Administrative Services

Handbook for Sentence Management, procedures for submission of sentence reduction credits, and timely nature of change in offender status or location. The SMS portion of the MIS Operational Procedure Handbook was revised and updated. SMS was also involved in preparing for the implementation of TOMIS, providing input on desired outcomes for sentence computation and modification, outlining the procedures to be used, and purifying OBSCIS data for conversion to TOMIS.

Operational Support Services configured and delivered over 10 personal computers to field locations throughout the state. A considerable number of trouble calls regarding hardware were resolved.

Configuration and placement of 2,000 TOMIS terminals, printers and controllers has been the primary task for the year. Over 6,000 requests for information on inmates were filled, 585,000 data entry transactions were entered, 21,000 inmate file folders were filmed, and in excess of 277,000 pieces of mail were processed.

Personnel

The Personnel Section monitors and provides training for the personnel functions of the department for compliance with civil service rules, state law, and policies and procedures. The section also monitors training, performance evaluations, and employee assistance programs to enhance employee effectiveness. The section developed and monitored the department's affirmative action plan. The unit continues to coordinate systems to deal with the modified hiring freeze.

Recruiting efforts in the Johnson County area were completed culminating with the opening of the Northeast Correctional Center. Job Fairs, coordination with local governmental and media representatives, and liaison with other state departments were the primary activities in this area. Long-range planning will focus on Middle and West Tennessee in anticipation of the opening of the Special Needs Facility in Nashville and Northwest Correctional Center in Tiptonville.

Fiscal Year 1990-91 Annual Report

The unit coordinated the abolishment of 337 positions required by the administration's response to the revenue shortfall, and developed reduction-in-force options for all employees affected. The unit also worked to find placement opportunities for employees with no other options within the reduction-in-force policy. The effort was successful to the extent that there were no involuntary layoffs of employees.

Tennessee Correction Academy

The Tennessee Correction Academy's mission is to provide quality training to the department's personnel. Pre-service and In-service training increased during the fiscal year. The major focus of training was upon job specific skill attainment and enrichment.

In order to keep pace with the Department's expansion, the Academy intensified efforts to conduct on-site training programs within the regions, while continuing to offer pre-service and in-service train-

ing at the Academy. Several core curriculum courses for on-site delivery were developed. Train the Trainer and Presentation Skills programs were conducted for selected institutional personnel state-wide. Training programs conducted at the regions by Academy instructors increased dramatically. During the fiscal year, over 12 percent of the 6,296 academy trained personnel received their training at their respective worksites.

Specialized training programs provided by the Academy throughout the year included highly diverse offerings such as Sniper/Observer Training, Electronic Restraint Devices, Fire Safety Officer Training, Emergency Medical Technician Training, Firearms Instructor Certification, Computer-Based Training, Tact Team Training, and Basic Trauma Life Support.

The Academy User Board, which served as the program oversight and approval mechanism, continued to provide the leadership needed in supporting high quality, innovative training options at reduced costs while still meeting accreditation standards.

Assistant Commissioner

Classification Programs

The Classification Section is responsible for the implementation and maintenance of the system of managing the progression of inmates from intake into TDOC custody through the period of incarceration.

The classification process evaluates information concerning assessed needs of inmates to aid in making appropriate recommendations concerning programs and levels of supervision. A major objective is to involve inmates in programs in the least restrictive setting consistent with the safety and protection of the public, TDOC staff and other inmates. Emphasis is given to custody, i.e., necessary levels of supervision as determined from the recency, severity and frequency of an individual's institutional conduct and offense conviction history. The process of evaluation occurs continually throughout an inmate's period of incarceration, and is managed at the institutional level by correctional classification coordinators.

Information from the inmate needs assessment process is collected and maintained for use in the inmate program and departmental planning process.

This section is also responsible for ensuring that institutional inmate population levels do not exceed limits established by federal court mandate.

This is accomplished by authorizing admissions of inmates to the department from county jails on a daily basis contingent upon the in-house population count. Further, the section monitors and approves, on the basis of population levels, inter-institutional transfers of inmates.

Education

The Education Section provides staff support to the department's institutional education programs. These services include grant and entitlement program development and monitoring; curriculum frameworks and guides; technical assistance; liaison between the department and other agencies; and Career Ladder evaluation and payment coordination.

Significant events during the fiscal year included: establishment of the Tennessee Department of Correction as a G.E.D. Testing Center; adoption of approved academic textbooks; development of improved educational contract assistance for institutions; simplifying the purchasing procedure for Carl Perkins Vocational Grant Monies.

The total number of inmates receiving some type of educational service increased from 6,181 in FY 1989-90 to 7,735 during this fiscal year. The percent of inmates successfully passing the G.E.D. increased from 58.4 percent in FY 1989-90 to 71.0 percent in FY 1990-91.

Fiscal Year 1990-91 Annual Report

Food Services

The Food Services Section coordinates the food service operations in all the institutions. Advice and assistance are provided on operational matters such as sanitation, controlling food cost, and food preparation. Compliance with TDOC policies and ACA standards is monitored by institutional visits and annual inspections.

During fiscal year 1990-91, over 10,430,000 meals were served in the department. The food expenditure included: \$10,010,000 state funds and \$503,000 in U.S. Department of Agriculture commodities, for an average cost per day of \$2.88.

A semi-annual survey of inmates was conducted to determine their food preferences. The master menu was revised to reflect those preferences. The implementation of the master menu allowed us to put more emphasis on special diets, sanitation and other areas of food service. It has also allowed better control of food cost.

The third institution using the cook-chill method of food preparation opened in March, 1991. The use of this process has resulted in improved food temperatures for inmates served in their cells.

Health Services

The Health Services Section is responsible for planning, coordinating and monitoring the medical, mental health, and dental service delivery system for offenders incarcerated within TDOC.

A system to effectively monitor and assess institutional health service contracts has been implemented. A utilization review process requires the institution to report to the Director of Health Services when inmates are confined to community hospitals. Also, specific criteria for speciality clinic referrals has been developed and implemented for the purpose of appropriate utilization of resources.

Quality assurance is an on-going dynamic process in the department. A statewide quality assurance study is completed approximately once a month, addressing issues such as proper management of communicable disease, accuracy in filling prescriptions, and standards of care.

The Special Needs Facility scheduled to open early in 1992 will provide quality health care with emphasis on treatment for sex offenders and low-functioning inmates in a secure setting. The goal is to provide quality care at a minimum cost to the department.

Substance Abuse Programs

The purpose of the Substance Abuse Programs is to provide drug-involved offenders with an opportunity to change past drug abusing behaviors by providing access to treatment interventions designed for varying levels of need and motivation.

Utilizing assistance from the Bureau of Justice Assistance (BJA), the Department of Correction has expanded institutional substance abuse treatment programming to include: Twelve-Step based psychoeducational treatment models, a 48-bed modified Therapeutic Community, assessments, transitional release programming for drug involved offenders, and structured self-help programming.

During the first six months of the programs, approximately 350 incarcerated offenders received and/or completed substance abuse programming. It is estimated that 10% of the total in-house institutional population will receive or have access to substance abuse programming on an annual basis.

Historically, the Division of Field Services has had no funding to provide alcohol and drug treatment services. However, during the last fiscal year the division of field services entered into contracts with four local substance abuse treatment providers for residential substance abuse treatment beds and outpatient treatment services for convicted community-based felony offenders located within the four metropolitan areas. A specialized drug unit was also created in Shelby County to supervise drug-related cases sentenced to probation through Division X Criminal Court (Specialized Drug Court). Approximately 119 cases have received probation sentences through this court. Of that number, a total of 108 offenders have received inpatient, drug education or outpatient treatment services.

It is estimated that approximately 350 community-based drug involved offenders statewide will receive inpatient treatment services and another 500 offenders will receive drug education/outpatient treatment services on an annual basis.

Chattanooga Community Service Center

Knoxville Community Service Center

Morgan County Regional Correctional Facility

Northeast Correctional Center

Southeastern Tennessee State Regional Correctional Facility

Brushy Mountain State Penitentiary - Petros

Warden - Don Eberhart

Opened - 1896 Reopened - 1976

Capacity - 443

Average Daily Population - 406

Security Designation - Maximum

Accredited - Successfully completed their initial audit in October 1991. Official certificate will be awarded in January 1992.

Brushy Mountain State Penitentiary (BMSP) is the reception, classification and diagnostic center for East Tennessee. It was originally built as a time building facility. The facility has a maximum security designation.

Programs available at BMSP include G.E.D., Adult Basic Education for permanently assigned inmates, an industrial cleaning vocational program for minimum security inmates, college courses for permanently assigned inmates through Bryan College, Pre-release program, mental health programs (drug/alcohol and sex offender). Inmates are involved in support jobs at the facility and community service projects.

Carter County Work Camp - Roan Mountain

Warden - Harold Smith

Opened - 1986

Capacity - 180

Average Daily Population - 175

Security Designation - Medium

Accredited - Yes

Carter County Work Camp (CCWC) is based upon the concept of working inmates in the community. The facility has a medium security designation and houses inmates with ten years or less to serve until they are eligible for release.

Programs at the facility include G.E.D., Adult Basic Education, and a literacy program. A vocational program in the building trades is being taught through the Elizabeton State Area Vocational School. On-the-job training is given through community projects. Inmate work crews assist state and local government agencies as well as private and non-profit organizations in community service programs. Inmates are involved in support jobs at the facility.

Capital projects completed during the fiscal year include the addition of classrooms, inmate library, office space, and a warehouse.

Fiscal Year 1990-91 Annual Report

Chattanooga Community Service Center - Chattanooga

Warden - John Patterson
Opened - 1970
Capacity - 110
Average Daily Population - Male - 92, Female - 17
Security Designation - Minimum
Accredited - Yes

Chattanooga Community Service Center (CCSC) houses minimum security male and female offenders within five years of release with emphasis on pre-release and community reintegration.

Programs available at the facility include G.E.D., Adult Basic Education, and college courses through Bryan College. No vocational programs are currently offered. The facility provides state and local government agencies with skilled and unskilled labor. Work has been performed on schools and churches. Inmates are involved in support jobs in the facility.

Knoxville Community Service Center - Knoxville

Warden - Joe Fowler
Opened - 1971
Capacity - 150
Average Daily Population - 140
Security Designation - Minimum
Accredited - Yes (Reaccredited 1990)

Knoxville Community Service Center (KCSC) houses minimum security inmates who are within seven years of release with an emphasis on pre-release. This facility does not accept sex offenders, and only accepts offenders with violent offenses that have been recommended for parole.

Programs available at KCSC include remedial reading, tutoring, G.E.D. and Adult Basic Education, counseling services, work and educational release programs, substance abuse counseling, and eight hours of pre-release counseling prior to parole. A vocational program in television production skills is sponsored by the volunteer board. Inmates initially are involved in support jobs at the facility and then graduate to community service projects within the Knoxville and surrounding area. The work on community service projects helps develop skills in carpentry, masonry, landscaping and other related trades.

Adult Institutions

Morgan County Regional Correctional Facility - Wartburg

Warden - David G. Mills
Opened - 1980
Capacity - 791
Average Daily Population - 785
Security Designation - Close
Accredited - Yes

Morgan County Regional Correctional Facility (MCRCF) is a time building institution with a security designation of close.

Academic programs include G.E.D., Adult Basic Education and Special Education, as well as college courses through Bryan College. Vocational programs include commercial cleaning; commercial food service; building trades; upholstery; Vocational Office Education (VOE); heating and air conditioning; and refrigeration. Industries at the facility include Textiles and Furniture Refurbishing/Manufacturing. An institution leather program makes uniform belts and gun belts for all TDOC institutions. Inmates are involved in support jobs at the institution.

Inmates at the facility also were involved in various community service work projects.

Northeast Correctional Center - Mountain City

Warden - James A. Bowlen
Opened - March 1991
Capacity - 960
Average Daily Population - 174
Security Designation - Medium
Accredited - No

Northeast Correctional Center (NECC) opened in March 1991. NECC is a time building institution with a security designation of medium.

NECC is currently the largest and newest prison in the state. It is of the new, efficient prototypical design, designated by housing unit zone under the unit management concept. Inmate intake began on March 7, 1991 with approximately 20 inmates received daily. The population of approximately 945 inmates was reached in June 1991.

Academic programs include G.E.D. and Adult Basic Education, and college courses offered through Northeast State Technical Community College. Vocational courses include classes in Building Trades 1 and electricity. Future plans involve graphic arts/silk screening, data processing, and Building Trades 2.

Industries at the institution include a print plant and a data plant. In the near future, industry is projected to employ approximately 300 inmates.

The institution has a dedicated commitment to the local community for service projects. The completion and expansion of the Johnson County Visitor's Welcome Center and maintenance and repair necessary to the reopening of the Johnson County Hospital are currently priority service projects.

Fiscal Year 1990-91 Annual Report

Southeastern Tennessee State Regional Correctional Facility - Pikeville

Warden - Howard Carlton
Opened - 1980
Capacity - 782
Average Daily Population - 794
Security Designation - Close
Accredited - Yes

Southeastern Tennessee State Regional Correctional Facility (STSRCF) is a time building institution and has a close security designation.

Academic programs include G.E.D., Adult Basic Education, and college classes through Bryan College. Six vocational programs are offered including interior development and finish; heating, air conditioning, and refrigeration; building trades; commercial food services; and barbering. Agriculture products include dairy, poultry and field crops such as vegetables, corn and wheat. Community service crews completed numerous projects in the surrounding area. Community service also included assignments to Department of Transportation crews, crews working at the state park, and providing garden products to the local senior citizens center. Inmates are involved in support jobs at the facility.

DeBerry Correctional Institute - Nashville

Warden - David H. Russell, Acting
Opened - 1977
Capacity - 285
Average Daily Population - Male - 251, Female - 14
Security Designation - Maximum
Accredited - No

DeBerry Correctional Institute (DCI) currently houses offenders in need of mental health intervention and treatment, inmates participating in sex offender treatment program, and inmates with behavior problems. DCI also houses a group of support workers. The facility has a maximum security designation.

Goal-directed activities designed to provide inmates with opportunities for constructive living experiences and positive behavior changes are offered. Academic programs include G.E.D. and Adult Basic Education. The facility also has a sex offender treatment program. No vocational programs are currently offered. Inmates are involved in support jobs at the facility.

DCI is scheduled to close in mid-1992 upon the opening and transition to the Special Needs Facility. The facility will be transferred to the Metropolitan Government of Nashville and Davidson County

Middle Tennessee Reception Center - Nashville

Warden - Jack Morgan
Opened - 1979
Capacity - 594
Average Daily Population - 584
Security Designation - Close
Accredited - Yes

Middle Tennessee Reception Center (MTRC) is the reception, classification, and diagnostic center for male felons committed from the Middle Tennessee area. The facility is designated as close security.

Programs available at the facility include G.E.D., Adult Basic Education, college programs through Volunteer State Community College, and a vocational program in ornamental horticulture, greenhouse operation and management. Inmates are involved in support jobs at the facility.

Fiscal Year 1990-91 Annual Report

Nashville Community Service Center - Nashville

Warden - Jim Dickman
Opened - 1936 Present Mission - 1970
Capacity - 325
Average Daily Population - 313
Security Designation - Minimum
Accredited - Yes

The Nashville Community Service Center (NCSC) houses minimum security inmates within seven years of release with emphasis on pre-release and community reintegration.

Academic programs include G.E.D., Adult Basic Education, and literacy. Vocational programs in food service and building maintenance are offered through Branell College. Some inmates are eligible to enroll in community colleges and universities. Minimum community custody inmates work each day in the free world and are charged room and board fees. Inmates also perform various community service tasks for other state departments such as custodians and cooks for the Departments of Safety, General Services, and Military. Inmates are involved in support jobs at the facility.

Community service projects included janitorial and maintenance work for several churches, schools, and other charitable organizations and setting-up booths and clean-up for several local festivals. Restitution, pre-release, and substance abuse programs are available. Inmates participate in softball and basketball community leagues. The "Don't Follow Me" program is an inmate organization that tries to deter substance abuse and criminal activities by talking to schools, civic organizations, community groups, and appearances on radio talk shows.

Riverbend Maximum Security Institution - Nashville

Warden - Michael Dutton
Opened - 1989
Capacity - 608
Average Daily Population - 553
Security Designation - Maximum
Accredited - No

Riverbend Maximum Security Institution (RMSI) opened in September 1989. The facility is a time building institution with a security designation of maximum. The facility houses the state's Death Row inmate unit.

Educational programs include G.E.D. and Adult Basic Education. Vocational programs include printing, commercial cleaning, woodworking, and data processing. Industries at the facility include data entry and printing/quick print. Death Row inmates participate in the data entry industry, educational programs, and support services. Inmates are involved in support jobs at the facility.

Adult Institutions

Tennessee Prison for Women - Nashville

Warden - Penny Bernhardt
Opened - 1898 Present Facility - 1906
Capacity - 366
Average Daily Population - 339 Females
Security Designation - Maximum
Accredited - Yes

Tennessee Prison for Women (TPW) is the reception, classification, diagnostic center and time building institution for state sentenced women felons. The security designation is maximum.

Academic programs include G.E.D., Adult Basic Education, special education, and college courses offered through American Baptist College. Vocational programs include culinary arts, cosmetology, Vocational Office Education, and building maintenance trades. The uniform plant relocated to TPW in May 1990. Six inmates work as a beautification/clean-up crew for I-440. Inmates are involved in support jobs at the facility.

A new administration building was completed in October 1991.

Tennessee State Penitentiary - Nashville

Warden - Alton Hesson, Acting
Opened - -1898
Capacity - 900
Average Daily Population - 823
Security Designation - Medium
Accredited - No

Tennessee State Penitentiary (TSP) houses medium security inmates and inmates temporarily assigned for medical or court appearance reasons. Death Row inmates were moved to the new Riverbend Maximum Security Institution during fiscal year 1990. A 115-bed medical unit for inmates who are in need of medical care not available at the state's other institutions is located at TSP. The central pharmacy which serves all of the state's institutions is also located at the facility.

Academic programs include G.E.D. and Adult Basic Education. Vocational programs in upholstery and pest control are offered. Classes in computer programming and office occupations are provided by Branell College. A data entry industry program is available. Inmates are involved in support jobs at the facility.

TSP is in the process of phasing down its operations. After March 31, 1992, only 135 inmates will be housed at the facility - 100 medical and 35 support workers. Upon the opening of the Special Needs Facility scheduled for mid-1992, TSP will close.

Fiscal Year 1990-91 Annual Report

Turney Center Industrial Prison and Farm - Only

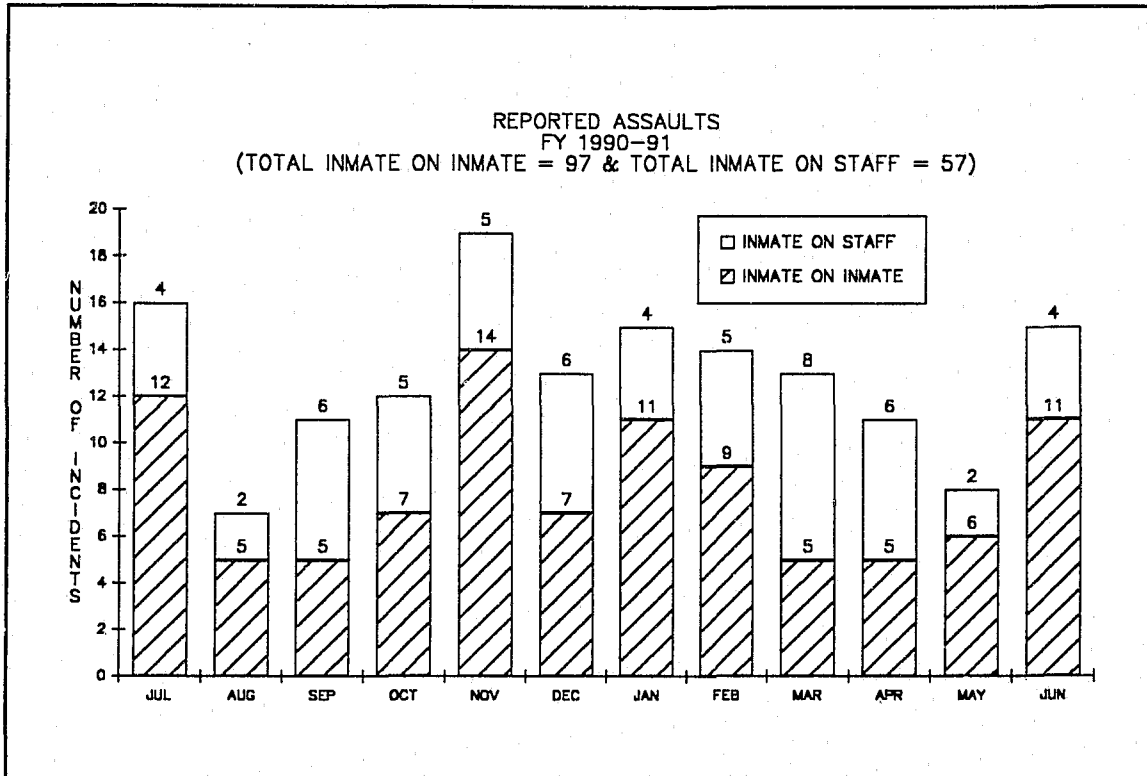

Warden - Jim Rose
Opened - 1971
Capacity - 778
Average Daily Population - 683
Security Designation - Close
Accredited - In process

Turney Center (TC) is a time building institution with emphasis on industry. The security designation is close.

Academic programs available at the facility include G.E.D., Adult Basic Education, and a college program through Columbia State Community College. Vocational programs include cosmetology, cabinetmaking and mill work, industrial maintenance, landscaping, Vocational Office Education, and commercial food services. Agriculture crops include field crops such as vegetables, corn, soybeans, and wheat. A sawmill is located at the facility. Inmates are involved in support jobs at the facility.

Inmate work crews completed numerous community service projects which included building the Tennessee Highway Patrol Station in Centerville, disassembling an old gymnasium for the Perry County school system, building playground equipment for the Williamson County school system, renovating the football team weight room for the Hickman County school system, renovating the Humphreys County Courthouse along with refinishing furniture, renovating the Only Community Center, and renovating Pinckney's Tomb, a historical monument located in Perry County.

Fiscal Year 1990-91 Annual Report

West Tennessee Region

Regional Administrator - Billy McWherter

Fort Pillow Prison and Farm

Lake County Regional Correctional Facility

Mark H. Luttrell Reception Center

Northwest Correctional Center

South Central Correctional Center

Wayne County Boot Camp

West Tennessee High Security Facility

Adult Institutions

Fort Pillow Prison and Farm - Henning

Warden - Fred Raney
Opened - 1938
Capacity - 654
Average Daily Population - 626
Security Designation - Close
Accredited - No

Fort Pillow Prison and Farm (FP) is a time building institution with a security designation of close. Producing agricultural products is one of the main functions of the facility.

Academic programs include G.E.D., Adult Basic Education, and college courses through Dyersburg State Community College. Vocational programs include masonry and commercial food services. The work emphasis is mainly agricultural. The facility also manufactures the motor vehicle plates for the state. Agriculture products include dairy, beef, field and truck crops, such as vegetables, corn, soybeans, wheat, and timber. Inmates are involved in support jobs at the facility.

Community service projects include construction of baseball fields and cleaning numerous cemeteries.

Lake County Regional Correctional Facility - Tiptonville

Warden - Charles Noles
Opened - 1981
Capacity - 715
Average Daily Population - 710
Security Designation - Medium
Accredited - Yes

Lake County Regional Correctional Facility (LCRCF) is a time building institution with special emphasis on education programs. The security designation is medium.

Educational programs include G.E.D., Adult Basic Education, special education, and vocational education. Vocational training is offered in carpentry; cabinet making and mill work; painting and interior finish; electrical wiring; masonry; automotive mechanics; welding; barbering; commercial food services; horticulture; plumbing; advanced building trades; and heating, air conditioning, and refrigeration. Postsecondary programs are also available to qualified offenders through Dyersburg State Community College and the University of Tennessee at Martin. Inmates are involved in support jobs at the facility.

Community service projects included renovation and painting for schools and other local facilities and construction and renovation projects for other state departments.

Fiscal Year 1990-91 Annual Report

Mark H. Luttrell Reception Center - Memphis

Warden - Bruce MacDonald
Opened - 1974
Capacity - 411
Average Daily Population - 395
Security Designation - Close
Accredited - Yes

Mark Luttrell Reception Center (MLRC) is the reception, classification, and diagnostic center for male felons committed from the West Tennessee area. The facility is designated as close security.

Educational programs include G.E.D., Adult Basic Education, and college courses by Shelby State Community College. Burnell College provides vocational programs in air conditioning and refrigeration, and building trades. Christian Brothers University administers a pre-release program. Inmates are involved in support jobs at the facility.

Community service projects included adopting Corry Junior High through the Memphis "Adopt-A-School" program; meeting with over 4,000 young people in over 100 sessions to hopefully deter youths from coming to prison; and state park clean-up.

Wayne County Boot Camp - Clifton

Warden - Malcolm Davis (Acting)
Opened - 1985 (Converted to Boot Camp - 1989)
Capacity - 120
Average Daily Population - 104
Security Designation - Medium
Accredited - Yes

In December 1989 the Wayne County Work Camp was reorganized as a Special Alternative Incarceration Unit, commonly referred to as the "Boot Camp." The boot camp program is a highly disciplined military style training program combined with various treatment programs. Eligible offenders are under 30 years of age, convicted of non-violent crimes with sentences of 6 years or less (longer for most drug offenses), and with no prior state or federal incarcerations. The program is operated as minimum security.

Military training consists of drill and ceremony, physical training, and respect for authority. Available treatment programs include Adult Basic Education, Horizons Plus program, self-esteem, substance abuse, and pre-release. Inmates are involved in support jobs at the facility. Inmates participate in the boot camp program between 90 and 120 days. Upon successfully completing the program, inmates are released to probation supervision.

Community service projects included cleaning cemeteries and constructing school playground equipment.

West Tennessee High Security Facility - Henning

Warden - Billy Compton

Opened - 1990

Capacity - 601

Average Daily Population - 564

Security Designation - Maximum

Accredited - Successfully completed their initial audit in November 1991. Official certificate will be awarded in January 1992.

West Tennessee High Security Facility (WTHSF) opened in January 1990. The facility is a time building with a security designation of maximum.

Educational programs available include G.E.D. and Adult Basic Education. Vocational programs include sewing, woodworking, masonry, and upholstery. The facility includes textile and wood refurbishing

Community Services

**Carey Rogers
Assistant Commissioner**

Field Services

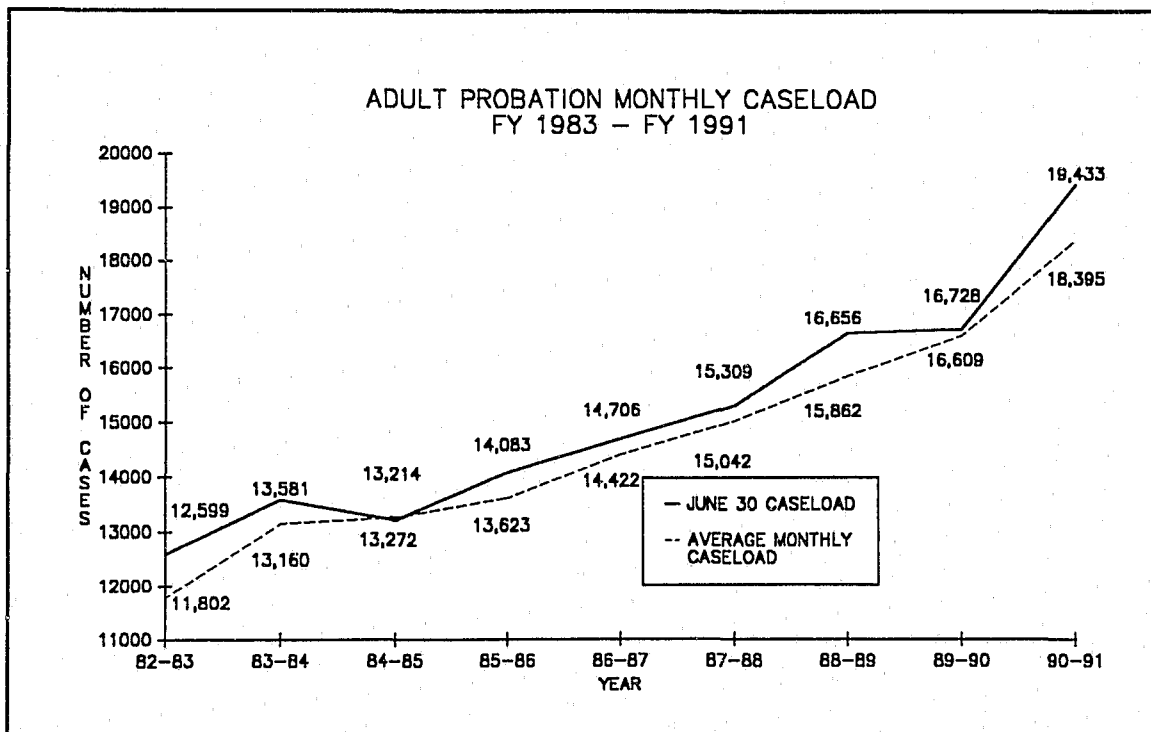

The purpose of the Field Services Section is to effectively supervise and investigate the conduct of persons placed on probation and referred to the department by the courts. Pre-sentence investigations and evaluations are provided to criminal and circuit courts. Other investigative reports include post-sentence, classification and interstate compact reports. The section also has the responsibility of collecting criminal injuries compensation, supervision and diversion fees from all eligible offenders. A Work Projects Program and an Intensive Supervision Program are administered by the section. In addition, the division operates specialized probation services for the Shelby County Criminal Court, Division X (Drug Court). An emphasis on identification and treatment for offenders with substance abuse related problems is the primary goal of this specialized unit.

The section is also responsible for screening eligible participants for the department's boot camp

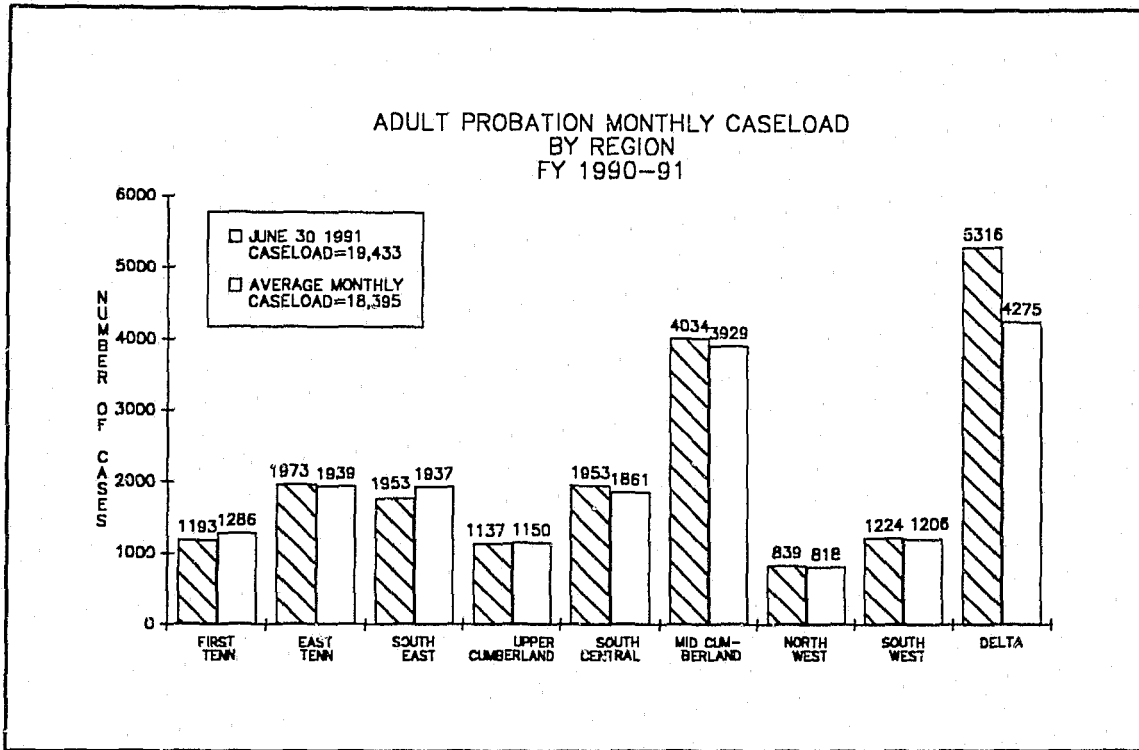

program from the local jails and facilities. Upon completion of the boot camp program, the probation staff is responsible for supervising the successfully released offender. During FY 1990-91, a total of 293 offenders were successfully released to probation supervision.

The Field Services section supervised 19,433 probationers in fiscal year 1990-91. Probation services are provided to all judicial districts in the state. A total of \$1,596,602 was collected during the fiscal year for the Criminal Injuries Compensation Fund; \$358,929 was collected in supervision fees; and \$135,849 was collected in Pre-Trial Diversion fees. Over 208,000 hours of community service work were performed by 2,573 probationers in the Work Projects Program.

The Intensive Supervision program supervised an average of 750 cases per month during the fiscal year and utilized both electronic monitoring and intermittent drug testing to provide intensified services. The cost of supervising an offender in FY 1990-91 was \$4.80 per day.

Community Corrections

The Community Corrections Section is responsible for overseeing the grant program for the delivery of community corrections services. Community Corrections programs are intended as an alternative to incarceration for offenders. The FY 1990-91 appropriation was for \$4.9 million. Grants went to 16 continuation programs. A 7 percent

increase in program admissions (1,154 to 1,239) occurred. The programs serve 93 counties including all four metropolitan areas. At the end of the fiscal year, 1,863 felony offenders were under Community Correction supervision. Many of the grantees use electronic monitoring devices to aid in enforcing house arrest components, and three grantees operate residential centers for offenders. Cost per offender per day declined by \$2.55 from the previous year.

Fiscal Year 1990-91 Annual Report

Fiscal Year 1990-91 Annual Report

COMMUNITY CORRECTIONS ADMISSIONS BY SEX AND RACE

County Correctional Incentive Program

Fiscal Year 1990-91 was the second year that local governments were compensated for housing state inmates on the basis of reasonable allowable cost. The average daily population decreased from 6,375 in FY 1989-90 to 4,900 in FY 1990-91. The average daily cost increased from \$26.17 in the previous fiscal year to \$29.91 in FY 1990-91.

Fifteen counties chose to contract with the department to house locally sentenced felons beginning in 1992. These counties will house about 2,800 inmates that will not create a demand on state prisons. The Shelby County Correctional Center opened new housing units funded by the CCIP and Davidson County began construction of a facility on the site of the DeBerry Correctional Institute to open in the spring of 1992. The Davidson County, facility, totally state funded, will house about 400 local felons.

Tennessee Jail Resource Center

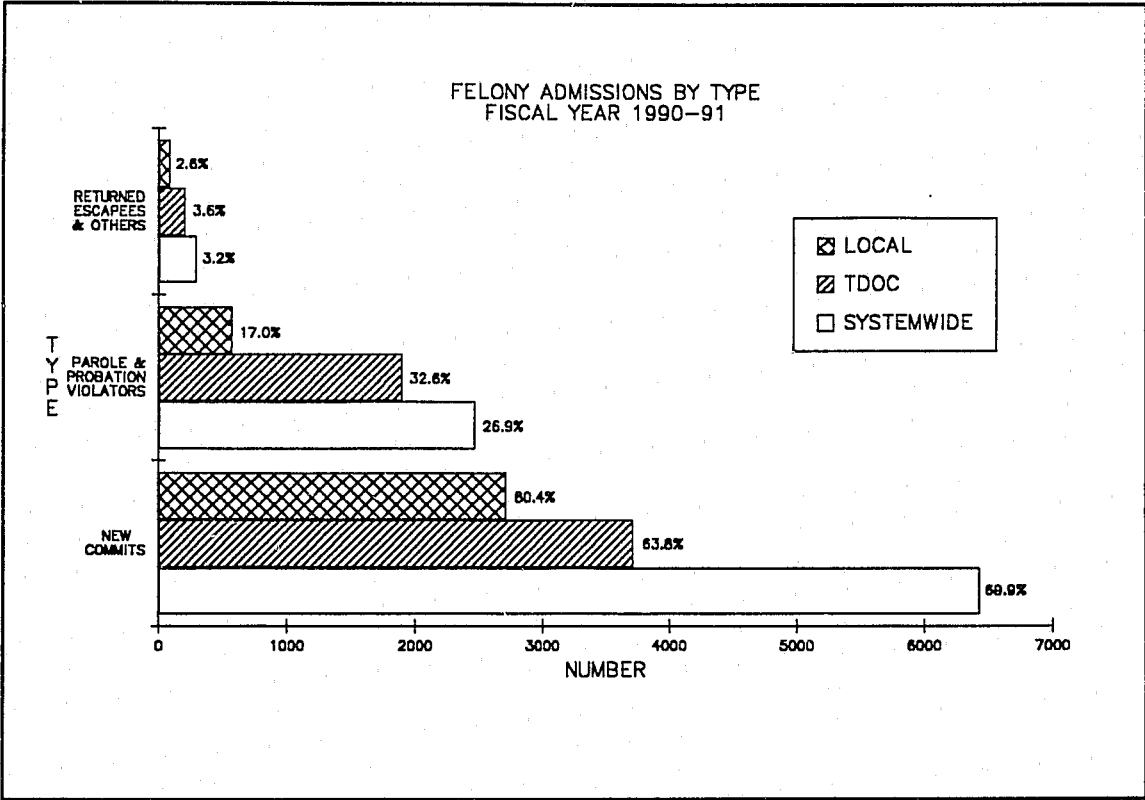

The Tennessee Jail Resource Center is responsible for providing technical assistance relating to construction and design of Tennessee county jails. The section also assists with development of policies and procedures regarding security, staffing, health care, nutrition and other operational and programmatic areas of concern. The section has developed a jail resource library that has been used by local governments.
