## ABOUT THE COVER

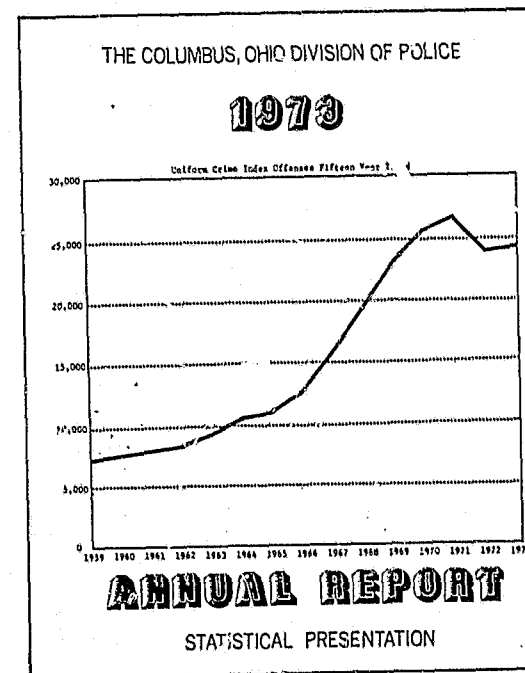

The graph on the front cover provides the viewer with a simple line diagram displaying the fifteen year trend of total Uniform Crime Index Offenses for the City of Columbus, Ohio. (Refer to page 5 for a detailed analysis of UCI offenses).

For a basic understanding of what the Uniform Crime Index Reporting Program is all about, a brief explanation is being given:

## WHY THE PROGRAM WAS INITIATED

Criminal statutes differ throughout the nation. This fact made difficult the collection of comparative crime information for the FBI to produce a quarterly and yearly publication, designed to display crime statistics on a nationwide basis. These statistics are used to keep law enforcement administrators informed of crime trends nationally, by geographic divisions and by states.

In order to have a uniform and beneficial program of the type described above, a uniform classification was developed and initiated by the International Association of Chiefs of Police. This classification is readily adaptable in any jurisdiction for crime tabulation purposes.

Thousands of local law enforcement agencies in the United States compile their local statistics monthly, using the guidelines established under the Uniform Crime Index Program. This data is then mailed to the FBI in Washington.

## THE MAJOR CRIMINAL OFFENSES USED IN THE UNIFORM CRIME INDEX PROGRAM

- Murder and Non-Negligent Manslaughter
- Forcible Rape
- Robbery
- Aggravated Assault
- Burglary
- Grand Larceny (\$50 and over in value)
- Auto Theft

The offenses used in the UCI Program were selected because they are the crimes which are the most likely to be reported to the police and they occur with sufficient frequency to provide an adequate basis for comparison. They are also serious crimes by nature and/or volume.
