INTRODUCTION

The annual Criminal Justice Profile series supplements and expands on the data provided in the Law Enforcement Information Center (LEIC) "Crime and Delinquency in California." There is a separate Criminal Justice Profile for each county and the state. Most of the data included in these publications are reported to LEIC by state and local agencies. Where other sources are used, those sources are noted.

Each Criminal Justice Profile focuses on a single county or the state as a whole. Each publication has three sections; they are:

- **Criminal Justice Trend Data.** Trend data are presented for crimes, arrests, arrest dispositions, corrections populations, criminal justice personnel and expenditures for the most recent ten years (1982-1991).
- **Current Year Data.** The subject matter in this section focuses on the most recent data year. In the Statewide Profile, the current data for each county are given. In each county profile, the data are shown for each contributing jurisdiction.
- **Appendix.** This section contains: (1) known data limitations and characteristics; (2) a glossary of criminal justice terms used in the publication; and (3) lists of the penal and other statutory codes which are included in each of the felony and misdemeanor arrest offense categories.

SPECIAL NOTES

Crime and Arrest Rates May Be Subject to Recomputation

Crime and arrest rates are calculated using annual population estimates provided by the Population Research Unit, California Department of Finance. Because population estimates for all of the 1980s are based on the 1980 Census and 1990 population estimates are based on the 1990 Census, caution should be used when comparing 1990 crime and arrest rates with rates for previous years. Crime and arrest rates for the '80s will be recalculated when revised intercensal population data become available.

Status of 1991 Juvenile Justice Information

Information on juvenile felony and misdemeanor arrests is included in the Arrests sections of this report. In prior years, this publication included a Juvenile Justice System section. Due to 1990 budgetary constraints, the funds necessary to continue the collection of information from county probation departments on juvenile justice dispositions and caseload data were eliminated. While disposition and caseload data for 1990-1991 are not available, data prior to 1990 are available upon request.

Special Requests

Data not provided in these publications may be available from LEIC by special request.

CRIMINAL JUSTICE DATA FOOTNOTES

Tables 1 and 1A: Reported Crimes and Clearances (Pages 5 and 6)

Aggravated assault: A law change in 1986 required reporting domestic violence incidents as criminal conduct.

1990 aggravated assault counts for Oakland P.D. were underreported due to programming problems.

Table 2: Supplemental Detail for Selected Reported Crimes (Pages 7 and 8)

Aggravated assault: A law change in 1986 required reporting domestic violence incidents as criminal conduct.

Value over \$400: A 1983 law raised the lower limit of felony theft from \$200 to over \$400.

Value \$200 through \$400: Prior to 1983, the \$200 through \$400 category includes all felony thefts exceeding \$199.

Tables 3A, 3B, and 3C: Felony Arrests (Pages 9-11)

Homicide and Assault: Assault with intent to commit murder is included in some homicide statistics because of a 1981 law that repealed Penal Code Section 217. As a result, homicide arrests from 1981 to 1985 may be slightly inflated, while assaults may be underreported.

Assault: A law change in 1986 required reporting domestic violence incidents as criminal conduct.

Tables 6 and 6A: Dispositions of Adult Felony Arrests (Pages 16 and 17)

In prior years, the Offender-Based Transaction Statistics (OBTS) file included dispositions processed through April of the following year. The final closeout date for 1991 data was extended to August 31, 1992 in order to increase the level of reporting by individual agencies. These data will not match 1991 "Crime and Delinquency in California" since those data were preliminary.

Petition to revoke probation: Prior to 1988, data for this category were included in "Complaints denied" and cannot be extracted.

Diversions dismissed: Prior to 1988, data for this category were included with "Dismissed" and cannot be extracted.

Table 7: Adult Probation (Page 18)

Total caseloads: Diversion cases are not included.

Other: Includes deceased, transferred to another county, sentence vacated, and appeal approved.

Table 8: Persons Held in Local Adult Facilities (Page 19)

Held in adult facility: Counts for each category in this table were taken the fourth Thursday in September of each year.

Table 9: Full-time Personnel (Page 20)

Total personnel: Law enforcement personnel are obtained in a one-day count taken on October 31. Probation department counts are taken January 1, while all other personnel counts are taken June 30. Corrections and Youth Authority are fiscal year counts from the Governor's Budget.

In some counties, the fluctuation in 1988 and 1989 sheriff's personnel is the result of the exclusion and subsequent inclusion of custodial personnel. The result of the 1985 revision of the "Number of Full-Time Law Enforcement Employees" reporting form may be discontinuity within some jurisdictions in the reported number of full-time law enforcement personnel for 1985-1987 in comparison with previous years.

Probation/Other: In 1985, a survey form was developed by the Bureau of Criminal Statistics to collect probation department data. Because of the new data collection method, additional classifications may be included in the "other" category.

Notes: Personnel for state agencies are shown only in the Statewide Criminal Justice Profile.

Department of Corrections and Youth Authority data are now obtained from the State of California Governor's Budget rather than from its Salaries and Wages Supplement. Because of this change, 1985-1989 counts have been revised from previously published data.

Table 10: Criminal Justice Expenditures (Page 21)

Grand total: All amounts shown in this table have been rounded and are shown in thousands. Expenditures include salaries and benefits, services, and supplies. Building construction is not included. In fiscal year 1984/85, the State Controller's Office revised its method of data collection, which impacted various subcategories.

Notes: Expenditures for state agencies are shown only in the Statewide Criminal Justice Profile.

Expenditure data are based on fiscal year, personnel data on calendar year.

Expenditure data for the Department of Justice and other regulatory agencies are not included.

Statewide expenditure data may differ from those published in "Crime and Delinquency in California, 1991" for two reasons: police department expenditure data for 1990/91 were preliminary; and, the statewide totals are based on the sum of independently rounded county data.

Notes: Rates on California Crime Index crimes, larceny-theft and arson crimes, and arrests are not computed for populations which are less than 100,000.

Rates may not balance because of independent rounding.

Percents may not total 100.0 because of independent rounding.

With the exception of clearance rates (Table 1A), percent distributions are not calculated when the total number upon which those percents are based is less than 50.

See known data limitations and characteristics for additional information located in appendix.

NOTES: Reporting of domestic violence information by local law enforcement agencies started January 1, 1986. With insufficient trend information or other sources available for data comparison, quality control efforts by the Bureau of Criminal Statistics were limited to verifying that agencies reported during the period covered and that counts totaled correctly on each report received.

APPENDIX

KNOWN DATA LIMITATIONS AND CHARACTERISTICS

CRIMES

- Mendocino County Sheriff's Department did not report data for May through December 1991.
- Tulelake Police Department did not report data for January through December 1991.
- Santa Fe Railroads have been deleted in 1991.

ARRESTS

Arrest and Citation Register

- The analysis of race/ethnic data must be considered in light of the subjectivity of the labeling process and classification changes, such as those of the U.S. Bureau of the Census (1980).
- Felony arrest counts may include some misdemeanor warrants for felony offenses.
- Through September 1988, law enforcement dispositions of adult arrests for Oakland Police Department do not accurately reflect disposition actions taken by that agency. Since Oakland accounts for approximately three percent of the arrests in California, the impact on statewide law enforcement dispositions is minimal.
- Mendocino County Sheriff's Department did not report data for May through December 1991.
- Tulelake Police Department did not report data for January through December 1991.
- Santa Fe Railroads have been deleted in 1991.

ADULT FELONY ARREST DISPOSITIONS Offender-Based Transaction Statistics System

- OBTS statistical data are taken directly from the state's Automated Criminal History System (ACHS). All arrests are entered to ACHS from the fingerprint card, while most dispositions are entered from the "Disposition of Arrest and Court Action" form (JUS 8715).
- These data reflect 1991 dispositions resulting from adult felony arrests which were made in 1991 or before. There is an important difference between the arrest data reported to the Law Enforcement Information Center (LEIC) and OBTS data. Arrest data are grouped by the year in which the arrest took place. OBTS data are grouped by the year of disposition regardless of the year in which the arrest occurred.
- These data do not represent the total number of adult felony arrest dispositions that occurred during 1991. For example, thousands of adult felony arrests are disposed of by revoking the arrestee's probation or parole status in lieu of filing charges on the new arrest. These new arrest offense dispositions may not have been reported as a final disposition on the JUS 8715 form. Any subsequent actions or arrestees who are turned over to other states or federal jurisdictions are not included in OBTS data. It is estimated that, at the statewide level, 30 percent of the adult felony arrests which were reported to LEIC by law enforcement agencies on the Monthly Arrest and Citation Register were not reported on the JUS 8715 form. In spite of this underreporting, the arrest dispositions received generally describe "statewide" processing of adult felony arrestees through California's criminal justice system. However, comparisons of county and local data should be made with caution since the level of reporting may vary between jurisdictions and from year to year.
- If a person is arrested for multiple offenses, OBTS selects only the most serious offense, based on the severity of possible punishment. If there are multiple court dispositions, OBTS selects the most serious court disposition and the associated offense.

- OBTS data on state institutional commitments may vary from information compiled and reported by other state agencies because of differences in the data collection systems. For example, the Department of Corrections (CDC) counts the number of defendants actually received in CDC institutions, even though a defendant may have been convicted and sentenced in two or more counties. OBTS counts each commitment.
- The adult felony arrest disposition file for 1991 includes 109 persons whose age at disposition was under 18. These minors received a final disposition in adult court under provision of the Welfare and Institutions Code, Sections 707 and 707.1.

ADULT PROBATION

- The data include adults placed on supervised probation only. Court probation, diversion, and summary probation are not included.
- Persons are counted once for each jurisdiction. Thus, data include original grants of probation and do not include subsequent grants of probation to persons already under probation supervision ordered by the same level court in the same county. Also, the probationers under jurisdiction of both superior and lower courts and any who are jurisdictional cases of more than one county are counted more than one time in statewide totals.
- The sources of data are county probation departments' monthly reports of summary data.
