**BERKELEY
POLICE
ANNUAL
REPORT
1973**

THIS REPORT IS DEDICATED TO THE MEMORY OF
SERGEANT JIMMIE HUGH RUTLEDGE

Who lost his life in the line of duty

5:20 a.m., June 16, 1973

Berkeley Police Department

Berkeley, California

AS A LAW ENFORCEMENT OFFICER, MY FUNDAMENTAL DUTY IS TO SERVE MANKIND; TO SAFEGUARD LIVES AND PROPERTY; TO PROTECT THE INNOCENT AGAINST DECEPTION, THE WEAK AGAINST OPPRESSION OR INTIMIDATION, AND THE PEACEFUL AGAINST VIOLENCE OR DISORDER; AND TO RESPECT THE CONSTITUTIONAL RIGHTS OF ALL MEN TO LIBERTY, EQUALITY AND JUSTICE.

I WILL KEEP MY PRIVATE LIFE UNSULLIED AS AN EXAMPLE TO ALL; MAINTAIN COURAGEOUS CALM IN THE FACE OF DANGER, SCORN, OR RIDICULE; DEVELOP SELF-RESTRAINT; AND BE CONSTANTLY MINDFUL OF THE WELFARE OF OTHERS. HONEST IN THOUGHT AND DEED IN BOTH MY PERSONAL AND OFFICIAL LIFE, I WILL BE EXEMPLARY IN OBEYING THE LAWS OF THE LAND AND THE REGULATIONS OF MY DEPARTMENT. WHATEVER I SEE OR HEAR OF A CONFIDENTIAL NATURE OR THAT IS CONFIDED TO ME IN MY OFFICIAL CAPACITY WILL BE KEPT EVER SECRET UNLESS REVELATION IS NECESSARY IN THE PERFORMANCE OF MY DUTY.

I WILL NEVER ACT OFFICIALLY OR PERMIT PERSONAL FEELINGS, PREJUDICES, ANIMOSITIES OR FRIENDSHIPS TO INFLUENCE MY DECISIONS. WITH NO COMPROMISE FOR CRIME AND WITH RELENTLESS PROSECUTION OF CRIMINALS, I WILL ENFORCE THE LAW COURTEOUSLY AND APPROPRIATELY WITHOUT FEAR OR FAVOR, MALICE OR ILL WILL, NEVER EMPLOYING UNNECESSARY FORCE OR VIOLENCE AND NEVER ACCEPTING GRATUITIES.

I RECOGNIZE THE BADGE OF MY OFFICE AS A SYMBOL OF PUBLIC FAITH, AND I ACCEPT IT AS A PUBLIC TRUST TO BE HELD SO LONG AS I AM TRUE TO THE ETHICS OF THE POLICE SERVICE. I WILL CONSTANTLY STRIVE TO ACHIEVE THESE OBJECTIVES AND IDEALS, DEDICATING MYSELF BEFORE GOD TO MY CHOSEN PROFESSION...
LAW ENFORCEMENT.

TO: JOHN L. TAYLOR, City Manager
FROM: C. C. PLUMMER, Acting Chief of Police
SUBJECT: ANNUAL REPORT FOR THE CALENDAR YEAR 1973.

Submitted herewith is the Police Department Annual Report for the calendar year 1973.

The department began 1973 with an authorized strength level of 192 sworn personnel but an actual strength level of only 180.5. At year's end, our authorized strength level of sworn personnel was 197 but our actual strength was only 178, reflecting a vacancy of 19 sworn positions.

Our actual strength figure represents a very serious problem regarding our ability to serve and protect this community. At year's end in 1970, our authorized strength was 215 sworn personnel and all of these positions were filled. In December 1973, our actual strength level of 178 sworn personnel represented a decrease of 17.2% compared to the level that existed three years earlier. One of the primary goals for the coming year must be to fill the vacant positions we presently have in our sworn ranks. However, even when those positions are filled, our authorized strength will still be 8.4% below the level authorized in 1970.

A major reorganization of the patrol function of the Patrol Division was completed during the year. A new reporting time and assignment system known as the "Five-Plan" was implemented. The "Five-Plan," so known because it features five staggered reporting times, provides for overlapping shifts and assignments to overlapping areas in such a manner as to meet most closely the needs for police service at the times and in the locations where the greatest needs exist. This is a computer assisted program. It is modified as necessary to meet the changing times of peak need and of lowest need, and additionally to meet changing locations of need. Flexibility is built into it. The concept is working well, but is suffering due to an overall shortage of personnel.

Our Service Division completed implementation of a new computer-controlled microfilm index system during the past year. The new system has eliminated problems attributable to misfiled index cards and has drastically reduced the amount of time previously spent in filing. Equally important is an enhanced ability to correct errors in the file and to expunge records ordered sealed by the Court.

In 1973, we opened the position of patrol officer to women. Subsequently, we hired a total of four women for patrol work. They are given precisely the same training and must assume the same responsibilities and duties as their male counterparts. So far, this program is working well. A complete evaluation will be made at the end of a 24-month trial period.

Again this year, the quality of police service we have provided is a reflection of the assistance and cooperation provided by the City Manager's Office, City Attorney's Office, the City Council, the District Attorney's staff, the Courts, neighboring law enforcement agencies, and the citizens of this community. Our sincere thanks and appreciation is extended to all.

C. C. PLUMMER
Acting Chief of Police

SCHOOLS AND COLLEGES: Twelve grammar schools, four primary schools, two junior high schools, and one high school with two campus facilities.

One of the world's largest universities, the University of California with an enrollment of 30,061 in the Fall of 1973, is located in the east central portion of the City. Situated adjacent to the University grounds is the State School for the Deaf and the Blind with an enrollment of 485. Armstrong College, Schools of Business and Professional Law with an enrollment of 650, is located in Central Berkeley.

MUNICIPAL GOVERNMENT: Council-Manager form of government since 1923.

ASSESSED VALUATION: Total of all net secured common property, less public utilities, \$338,996,977. This does not include approximately 30% of the incorporated area which is publicly owned by Federal, State and local agencies.

INDUSTRY: About 310 industrial plants producing a wide variety of products.

POPULATION: Official figures released by the Bureau of Census indicate a Berkeley population of 116,500.

AREA: 10.16 square miles, or 6,503 acres of developed land; 7.94 square miles of undeveloped waterfront remain within the incorporated boundaries.

TRANSPORTATION: Two transcontinental railroads (Southern Pacific and Santa Fe), metropolitan bus system connecting directly and by transfer with several hundred miles of bus lines in adjoining communities, interurban bus system providing 20 minute service to San Francisco and helicopter service to Oakland and San Francisco International Airports.

Berkeley is an integral part of the Bay Area Rapid Transit System, which began operation in 1972. Berkeley is the only City in which this system operates totally underground.

RECREATION: Twenty-eight public parks; remodeled and enlarged marina; and a modern, concrete surfaced fishing pier extending 3,000 feet into San Francisco Bay. Tilden Regional Park, comprising 2,100 acres of recreational area and available to a metropolitan population of more than 1,000,000 persons, is located at the eastern Berkeley City limit.

B. R. BAKER
CHIEF OF POLICE

J. R. CROOKE
CAPTAIN
ASSISTANT TO THE CHIEF

OFFICE OF THE CHIEF

The Office of the Chief is administered by a Captain, acting as Assistant to the Chief. The Assistant to the Chief provides command-level administrative aid; is responsible for budget control, time keeping and payroll; and provides top-level direction to the Planning and Research Bureau and the Internal Affairs Bureau.

The Planning and Research Bureau functions as a staff advisory unit to all other divisions. This unit provides information on new techniques and programs of value to the department, prepares Federal and State grant requests, maintains current information on applicable court decisions and legislation, assists in budget preparation, and prepares studies as requested by the Chief of Police.

A major activity of the Office involved monitoring and evaluating a large-scale reorganization of the Patrol Division. The project, known as the "Five Plan," was initiated in late 1972 in response to significant reductions in departmental manpower in the face of increasing numbers of reported crimes and called-for services. Using computer-generated data to measure fluctuating manpower needs throughout the day and in various parts of the City, five overlapping shifts were established to match resource allocations with changing needs. Planning and Research officers assisted in preparing adjustments to the system.

During the past year, this Office also maintained fiscal control of the Crime Specific Bureau, a grant-funded program which combined the Burglary Detail and the Special Investigations Bureau. These units were combined in an experimental program because of the high correlation between adult burglaries and narcotic activity. The Crime Specific Bureau became operational on April 1, 1973, and is presently scheduled to end grant-funded operations on June 30, 1974.

D. T. HICKMAN
CAPTAIN

ADMINISTRATIVE DIVISION

The Administrative Division is commanded by a Captain, who is aided by a Lieutenant. This Division consists of a Personnel and Training Section, Aide-Trainee Unit, Community Relations Section, and the Police Reserves. The Division assists the City Personnel Department in recruiting and is responsible for pre-employment personnel investigations, personnel records, training, administrative studies, employee health and safety, community relations programs and programming for the Police Aide-Trainee and Police Reserve Programs.

The department was authorized 192 sworn personnel at the beginning of 1973 but actual strength was only 180.5. The authorized strength level was increased during the year to 197 but actual strength dropped to 178 for a net decrease of two and one-half positions.

A total of 43 full-time sworn officers and one half-time sworn officer resigned from the department. Basic reasons for these separations can be found in Table number 11. Thirty-eight new appointments were made to the position of patrol officer. Additionally, one officer returned from a military leave and two officers returned from other leaves of absence, filling 41 of the 43-1/2 vacated positions. Two thirds of the 38 new appointments made were of minority candidates. Fifteen were Black, five were Asian, four were Spanish surname and one was American Indian. Included in this group were two Black females and two White females who were hired to perform regular patrol duties.

The Police Trainee Program continues to be a valuable recruiting source. During 1973, three police trainees were promoted to the rank of Patrol Officer. Public Service Careers, a Federally funded manpower program, in cooperation with the City, Merritt College and the Police Department, brought ten minority candidates into a Police Department training program. Seven of these young men were subsequently elevated to regular Patrol Officer status.

The Division coordinated 29,738 hours of training for the department in 1973. This figure includes time spent by newly appointed officers in basic recruit academies. Officers were sent to recruit academies at the Modesto Regional Criminal Justice Training Center, the Santa Rosa Junior College Regional

Training Center, and the Sacramento Law Enforcement Training Center. All officers in the department were exposed to various training courses and workshops conducted throughout the year.

Our Community Relations Bureau continued successful programs from the previous year and drew great support from all members of the department. The Citizen Ride-Along Program and Operation Identification were among the most active and beneficial activities. The Ride-Along Program allows members of the community to accompany a beat officer on the street during his regular tour of duty. Designed to promote better understanding and appreciation of a policeman's responsibilities and problems, the program has met with much favor and enthusiasm from citizens and officers alike.

Operation Identification enables householders to engrave their driver's license numbers on frequently stolen valuables such as televisions, stereos, cameras and radios. Decals are then provided to them for placement on doors and windows which advise potential burglars that the household valuables are marked for ready identification. We have noted fewer burglaries at residences displaying the notice. In the past, the department made the service available by loaning engraving tools and providing decals and home security literature to citizens at the Hall of Justice. The program was expanded during the year through a Federally funded burglary prevention project which employed local college students to canvass the City door-to-door providing this service. Under the supervision of our Community Service Assistants, the students marked items in 2,989 living units. Marking tools and decals remain available in the department for loan to those citizens who wish to mark their own property.

The Berkeley Police Reserve continues to provide an invaluable service to the Police Department and the community. During 1973, Police Reservists, men and women, contributed over 17,660 hours of their time to the City. In order to prepare reservists for work with the Police Department, each of them is given a 122 hour course in proper police procedure and responsibility before they engage in any actual police assistance activity.

M. J. HEALY
CAPTAIN

SERVICE DIVISION

The Service Division, consisting of four bureaus, is commanded by a Captain who is assisted by a Lieutenant. The Division is authorized 26 sworn and 29 civilian positions, a change in the allocation of authorized strength from the previous year. During 1973, the Division operated with less than the number of personnel authorized because of department-wide personnel shortages. This work force shortage hampered the Division in its efforts to provide other divisions with the support services necessary to their operations.

Among the support functions and services provided by the Service Division are the processing and maintenance of all police activities records; identification and crime scene technical services; operation of the city jail, ambulance and patrol wagon service; custody and control of property, evidence and supplies; telecommunications network terminal operation; misdemeanor and traffic warrant processing and service; maintenance of statistical data on activities of the department; and informational service to the public.

The Record Bureau processed 78,942 police reports in 1973. Report processing includes transcription, review, indexing, abstraction of statistical data, and microfilm storage of the finished product.

The Identification Bureau made 47,887 comparisons of latent fingerprints recovered in 3,554 latent examinations of crime scenes and items of evidence. These comparisons resulted in the identification of 394 persons responsible for criminal offenses. With few exceptions, all of the comparisons involved manual file searches and inspections, a time-consuming process. In 1972, the Division acquired, through grant funds, a Kodak MIRACODE System to be used for machine searching and preliminary comparison of latent and file fingerprints. Testing of the system began in December of that year. The effective usefulness of the system in making machine searches has been severely lessened by restrictions which prevent full usage of fingerprints on file in the system's data base, and to date no identifications have been made.

The Warrant Bureau processed 27,548 criminal and traffic warrants during the year. Of that number, 16,043 were closed through service by this department

or another agency and involved a total bail amount of \$1,991,817. An additional 382 warrants without bail were served during the year.

The Telecommunications Center processed 58,283 teletype messages during the year. The Center also handled an estimated 200,000 messages from and inquiries into the Police Information Network (PIN), Stolen Vehicle Systems (SVS), and National Crime Information Center (NCIC) communications systems.

Continuing a program of offering training and employment to young people, the Service Division actively participated in the City's Workrecreation Program during 1973.

R. F. SCHILLINGER
CAPTAIN

PATROL DIVISION

The Patrol Division, comprised of three Patrol Platoons, two Investigative Teams, the Foot Patrol Detail, the Traffic Bureau, and Animal Control Detail, is commanded by a Captain, with the assistance of three Lieutenants.

The Patrol Platoons and Investigative Teams are the primary police department representatives to people in this community. They provide immediately available police service to the City on an around-the-clock basis. Their specific functions include continuous patrol of residential and commercial areas to prevent criminal activities; the arrest of criminal violators; the investigation of all reports alleging violation of the law; investigation of traffic collisions; participation in traffic enforcement programs; and response to calls for emergency assistance of all types.

A major reorganization of the patrol function of the Patrol Division was completed during the past year. A new reporting time and assignment system known as the "Five-Plan" was implemented. The new system provides for three patrolling platoons and two Investigative Teams. Members of Investigative Teams are assigned to most reported felony crimes and petty thefts. Patrol Platoon officers handle other reported offenses and routine duties such as traffic enforcement and collision investigations. Staggered reporting times provide for overlapping shifts during those times of the day when the need for police service is greatest and conversely, for a reduced patrol strength when the need is lowest. Assignments are made to overlapping areas in such a manner as to meet most closely the greater and lesser needs for police service in different sections of the community.

The Foot Patrol Detail, established several years ago, previously consisted of three officers assigned to the Telegraph Avenue, Adeline/Alcatraz and Sacramento Street business districts. On August 25, 1973, the City Council increased the department's sworn personnel strength by five additional officers, stipulating they be assigned to the Foot Patrol Detail. The additional officers were to provide foot patrol in the University/San Pablo area, the downtown Shattuck business district area, additional patrol in the Adeline/Alcatraz and

Sacramento Street business districts and intensified patrol activity in the neighborhoods and business districts frequented by senior citizens. Because of personnel shortages, the expansion of the Foot Patrol Detail was not initiated until December. Therefore, the effectiveness of the detail cannot be assessed at this time.

As a result of departmental personnel shortages, the Patrol Division was required to operate with fewer assigned personnel while faced with a rising need for police service. This compounded an already difficult job.

T. W. JOHNSON
CAPTAIN

DETECTIVE DIVISION

The Detective Division, commanded by a Captain with the assistance of a Lieutenant of Inspectors and a Director (Lieutenant) of the Juvenile Bureau, is comprised of the Inspectors Bureau and the Juvenile Bureau. The general overall function of the Division is to assist, advise and coordinate the efforts of the Patrol Division within the specialized perimeters delineated below.

Inspectors Bureau

The Inspectors Bureau presently consists of seven details, each with responsibility for investigative supervision, coordination, and outside liaison in matters involving specified felony offenses. Included are the Homicide Detail, responsible for homicide, felony assault, missing persons, rape and other sex offenses; the Robbery Detail, responsible for robbery, purse snatch, bribery, extortion, kidnapping, and illegal weapons; the Auto Detail, responsible for vehicle theft, auto-burglary, theft from vehicles, and felony offenses involving drunk driving and hit-run driving; the Forgery Detail, responsible for investigation and case preparation in matters of forgery, bad checks and counterfeiting; the Theft Detail, responsible for grand theft, credit card offenses, bunco and fraud, and the inspection of second hand establishments; the General Works Detail, responsible for arson, organized crime and investigation involving explosive devices; and the Fugitive Detail, responsible for the service of felony warrants, escape and jail breaking, parole violators, and extradition.

The basic function of the Inspectors Bureau is to coordinate and extend the investigation of all felony complaints to insure optimum results in identifying, apprehending and convicting criminals and recovering stolen property.

The Press Officer, also a member of the Inspectors Bureau, is responsible for maintaining liaison with and providing information to the news media relating to police investigations and other functions and programs of the Police Department.

It is encouraging to note that some major offense categories showed a decrease or remained stable during 1973. Auto theft continued its downward trend,

showing a 21% decrease over the previous year. Reports of rape and theft dropped 11% and 12% respectively, while robbery and aggravated assault remained approximately the same. There was a 20% increase in the offense of homicide. Residential and commercial burglaries increased significantly.

Juvenile Bureau

The responsibilities of the Juvenile Bureau include the review, evaluation and disposition of all cases involving juvenile offenders; planning and implementation of juvenile delinquency prevention programs; liaison and coordination with other agencies engaged in the juvenile justice system; counseling and supervision of youthful offenders; and assistance to and cooperation with other organizations concerned with the welfare of juveniles.

The number of offenses for which juveniles were taken into custody during 1973 continued to decline slightly. The largest reductions occurred in the "runaway" and "theft" categories. The many counseling services and alternative agencies designed to deal with the problems of runaway youth may have had some effect. It should be noted, however, that the more serious offenses of robbery, assault and burglary all showed marked increases in the number of juveniles taken into custody as compared with 1972.

All of the programs mentioned in the 1972 annual report have been continued. These include the continuous in-service training of Juvenile Bureau personnel in all aspects of their field, the Police-Teacher Delinquency Prevention Program, the Discussion Group Program for youthful offenders, the Juvenile Bureau Big Brother Program, the use of Berkeley Youth Alternatives as an alternative to taking some youngsters to the Juvenile Hall, and the destruction of first-time offenders records at the end of one year if no future offenses occur.

Additional programs and activities were inaugurated during 1973 and some existing programs were expanded. The successful Police-Teacher Delinquency Prevention Program was extended to function on a year-round basis and was expanded to include a "learn to read" program utilizing special reading instructional materials that were obtained with the cooperation of the School District.

A police coloring book was developed during the year and received national publicity after the Superintendent of Schools denied having approved its distribution in school classrooms. The Juvenile Bureau was inundated with telephone and mail requests for copies of the book. Most were from educators in other school districts, but many were received from teachers in the Berkeley school system. The books are being given out to children visiting the Hall of Justice, and by officers invited to make presentations to school classes.

September 1973 saw the implementation and the demise of the School Resource Officer Program. It was initiated with the complete approval of the Superintendent of Schools and individual secondary school principals and, during the first two weeks of the fall term, School Resource Officers maintained offices in the schools. They counselled youngsters, provided information to students, and participated in classroom presentations on students' rights, career opportunities in law enforcement, drug abuse, driver safety, and other related subjects. The program was abruptly halted on September 18, 1973 by the School Board after that body was advised of the program's existence by the Superintendent of Schools.

During the summer months, the Juvenile Bureau continued its active participation in delinquency prevention activities such as a summer excursion program, weekend camping trips, visits to San Francisco Giants baseball games, and providing for Berkeley youngsters to attend without charge the summer vacation matinee program at a local theater.

One member of the Bureau is serving as leader of the Berkeley Police Explorer Scout Post, while another is scoutmaster of the California School for the Blind Troop.

The entire thrust of the Juvenile Bureau's activities during 1973 was to reduce juvenile delinquency through working intensively with young offenders, utilizing community and Juvenile Bureau resources to the fullest extent possible. We believe that if there is a solution to the delinquency problem, it will more likely be found in the community where the youngsters live rather than in county or state systems or institutions.

C. C. PLUMMER
CAPTAIN

CRIME-SPECIFIC BUREAU

The Crime-Specific Bureau is commanded by a Captain, who is assisted by Burglary and Vice Inspectors and part time by a Lieutenant. The Unit was established on April 1, 1973 as the product of a Law Enforcement Assistance Administration grant titled "A Systems Approach To Control Burglary." The Special Investigations Bureau (responsible for investigating violations of the narcotics, prostitution, gambling and liquor laws), the Burglary Detail (responsible for coordination of commercial and residential burglary investigations) and that portion of our Theft Detail which coordinates receiving and/or possession of stolen property investigations were combined in order to provide a coordinated effort toward the control of these closely associated crime problems.

Grant resources permitted us to develop a multi-divisional burglary control program, improve the quality of burglary investigations, and enhance the quality of our initial crime scene search. An integral part of the total program involves public awareness activities such as neighborhood workshops, security checks and seminars, distribution of burglary prevention literature, and Operation Identification.

The Crime-Specific Bureau employs a "systems approach" to burglary and considers the total environment of the crime, the suspect, the target, and activities involved in the offense. It then draws upon all police activities which may impact that environment. The unit integrates resources in prevention, detection, and apprehension efforts, blending traditional police methods with some of the innovative approaches developed by earlier Crime Specific Programs in other cities. The focus is on coordinating distinct, yet related operational units, thereby enhancing their ability to identify and remove the narcotic addict burglar and the non-addicted burglar from the system. We have determined through a statistical survey that 65% of all adult burglars arrested in Berkeley have either a present or past involvement with narcotics.

The number of burglaries reported during 1973 was higher than was reported in 1972 despite the fact that the number of burglary arrests increased significantly. Since the inception of the program, an average of 62 burglars have been arrested each month compared to 48 per month in 1972. Considering the delay

between apprehension and adjudication, the full effect of our burglary control activities may not be fully realized until calendar year 1974.

As the program developed, public awareness and home security activities became points of major emphasis. Initial efforts focused on providing project publicity through the news media and on conducting community workshops. During the year, Crime-Specific Bureau officers attended forty such meetings throughout the City to discuss specific burglary problems as well as general security measures with residents. Officers displayed various security devices obtained from lock distributors, distributed crime prevention literature, and showed an excellent burglary prevention film titled "Invitations to Burglary."

Using grant resources, the department's Operation Identification program was expanded significantly during the summer months. Ten college students were employed to canvass high burglary areas door-to-door, engraving valuables, distributing security literature and providing window decals. During the three-month period, 2,989 homes received this service. One student was retained to continue the program through June 1974. Significantly, several local insurance groups announced premium reductions to home-owners enrolled in the Operation Identification program.

A public information display, purchased through grant funds, was installed opposite the public counter of the Hall of Justice. Located in an area frequented daily by the public, the exhibit is stocked with displays of home and small business security devices, public awareness hand-outs and Operation Identification information. The display emphasizes the relative ease with which the above crime prevention measures can be employed.

The "Good Neighborhood Program," a citizen awareness project initiated and operated by a local community group, was introduced in Berkeley during the summer of 1973. The program seeks to bring neighbors together in an effort to protect their communities from crime. While not sponsoring the Good Neighborhood Program directly, the department strongly endorses its efforts. Through the Crime-Specific grant funds, extensive promotional literature and home security materials have been provided to the program and officers have, upon request, made numerous appearances at Good Neighborhood block meetings.

The goal of the Special Investigations Bureau, within the Crime-Specific Bureau, is to identify, arrest and prosecute the major suppliers of narcotics as a means of diminishing both the narcotic traffic in this community and the frequency of drug related burglaries. Evidence of their success in arresting major suppliers and seizing large amounts of hard narcotics is shown in the comparative charts on page 25.

COMPARATIVE REPORT
VOLUME SEIZED
NARCOTICS

Year	Heroin grams	Cocaine grams	Marijuana pounds	Hashish grams	L.S.D. units	Dang. Drugs units
1971	1,293.00	956.70	613.00	8,866.50	335,822.00	9,175.00
1972	3,867.50	1,293.00	981.33	8,302.50	238,195.00	11,610.00
1973	5,265.10	3,509.20	98.30	125.76	65,563.00	6,810.00

COMPARATIVE REPORT
STREET VALUE
NARCOTICS

	1971	1972	1973
Heroin	\$ 51,712.00	\$154,700.00	\$210,604.00
Cocaine	47,835.00	109,565.00	175,460.00
Methadrine	-0-	-0-	3,967.50
L.S.D.	503,733.00	357,292.50	98,344.50
Dangerous Drugs	2,293.00	2,902.50	2,476.25
Marijuana	191,520.00	314,025.60	31,452.00
Hashish	44,332.50	41,512.50	628.80
Peyote	11,320.80	203.20	78.40

It is hoped that through vigorous investigation of burglary involvement by arrested narcotics users and equally vigorous investigations of narcotics involvement by arrested burglars and persons possessing stolen property, a reduction can be made in the incident rate of these distinct but interrelated types of offenses.

When the Federal funding for this program expires on June 30, 1974, this unit will not be disbanded back into its separate parts. Rather, because of its success, it will become a Bureau within the Detective Division. Next year's annual report will reflect the Detective Division as being comprised of three Bureaus which will be the Inspectors Bureau, the Juvenile Bureau and the Crime-Specific Bureau.
