COUNTY DETENTION FACILITIES
INMATE PROFILE SUMMARY
NOVEMBER - 1993

ABSTRACT

The County Detention Facilities Summary provides a monthly profile of Florida's detention facilities inmate population. Average daily population figures for November 1993, are collapsed into male and female categories for both adult and juvenile inmates. These population figures are also categorized into felony, misdemeanor and "other" subcategories in order to facilitate interpretation. Within both felony and misdemeanor subcategories the number of inmates held for trial or sentencing and those detained or sentenced for violation of probation are presented for November 1993. The "other" subcategory documents the number of parole violations, state inmates, and undocumented aliens, holdings for other jurisdictions and individuals detained under the Baker (mental health) and Myers (alcoholism) Acts. In addition, the average daily population figures, the incarceration rates for each county, and the number of overcrowded county detention facilities and pretrial inmate levels for each facility are included in this report. County detention facilities with amended capacities since October 1993, are denoted in Table 3.

**COUNTY DETENTION FACILITIES
PROFILE DATA SUMMARY
NOVEMBER - 1993**

Average Daily Population

On the average, there were 35,283 inmates in Florida's county detention facilities during the month of November 1993. This figure represents a 1.0 decrease in the inmate population from that reported for October 1993. The statewide average daily (ADP) totals for November 1993 include 30,713 adult males (87.0%), 3,599 adult females (10.2%), and 971 juvenile offenders (2.8%). The overall distribution of male and female inmates has remained constant in county detention facilities for the past five years. The following provides an analysis of the inmate population for November 1993:

- * 72.8% of the total inmate population were incarcerated for felony offenses, while 20.6 were detained for misdemeanor crimes. All others confined included 6.6% .
- * Offenders held for trial represented 56.8% of the inmate population and 28.2 percent were sentenced on either felony or misdemeanor crimes.
- * Inmates detained for violation of probation represented 6.7% of the inmate population.
- * The remaining 8.4% were various groups as listed in Table 1.

Incarceration Rates

In November 1993, the statewide county detention incarceration rate was 2.6 per 1,000 county residents based on the population estimate for 1993. Incarceration rates range from a low of 0.7 in

Flagler County to a high of 7.2 in Wakulla County. Wakulla County's high incarceration rate is the direct result of holding a large portion of their inmate population for the U. S. Marshal's Service. Other counties may also be experiencing high incarceration rates due to the contracting of bed space.

Overcrowding: Capacity vs. Population

In November 1993, 15.15 percent (10) of the counties in the State of Florida had average daily inmate populations which exceeded their Department of Corrections (DC) rated capacity. These ten counties exceeded their capacities between 1 - 25%, and the remaining 56 counties were at or below capacity.

Pretrial Population Levels

During the month of November 1993, 20,037 of the inmates housed in county detention facilities were classified as awaiting trial. Of these 20,037 offenders, 84.6% were awaiting trial for felony offenses while 15.4% were detained for misdemeanor violations.
