## INTRODUCTION

This annual report presents data on crime and arrests reported by law enforcement agencies through the Nebraska Uniform Crime Reporting (UCR) Program. During 1992, 165 law enforcement agencies were required to submit monthly UCR's to the Nebraska Commission on Law Enforcement and Criminal Justice, hereafter referred to as the Commission, which administers the Nebraska UCR Program. The Nebraska UCR Program submits the data to the National UCR Program which is administered by the Federal Bureau of Investigation.

### The National UCR Program - Historical Background*

Recognizing a need for national crime statistics, the International Association of Chiefs of Police (IACP) formed the Committee on Uniform Crime Records in the 1920's to develop a system of uniform police statistics. Establishing offenses known to law enforcement as the appropriate measure, the Committee evaluated various crimes on the basis of their seriousness, frequency of occurrence, pervasiveness in all geographic areas of the country, and likelihood of being reported to law enforcement. After studying state criminal codes and making an evaluation of the recordkeeping practices in use, the Committee in 1929 completed a plan for crime reporting which became the foundation of the UCR Program.

Seven offenses were chosen to serve as an index for gauging fluctuations in the overall volume and rate of crime. Known collectively as the Crime Index, these offenses included the violent crimes of murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault and the property crimes of burglary, larceny-theft, and motor vehicle theft. By congressional mandate, arson was added as the eighth Index offense in 1979.

During the early planning of the program, it was recognized that the differences among criminal codes precluded a mere aggregation of state statistics to arrive at a national total. Further, because of the variances in punishment for the same offenses in different state codes, no distinction between felony and misdemeanor crimes was possible. To avoid these problems and provide nationwide uniformity in crime reporting, standardized offense definitions by which law enforcement agencies were to submit data, without regard for local statutes, were formulated.

## National Incident-Based Reporting System (NIBRS) - Redesigned UCR Program*

Throughout the years, the UCR Program has remained virtually unchanged in terms of data collected and disseminated. Recognizing the need for improved statistics, law enforcement called for a thorough evaluative study that would modernize the UCR Program. The FBI fully concurred with the need for an updated program and lent its complete support, formulating a comprehensive three-phase redesign effort. The first phase involved an examination of the historical evolution of the Program (1982). The second phase involved the examination of potential futures for UCR and concluded with a set of recommended changes set forth in the draft "Blueprint for the Future of the Uniform Crime Reporting Program" (1985). At the eighth National UCR Conference held in 1985, the phase two recommendations were presented and the overall concept for the revised Program was unanimously approved. One of the first steps taken by the FBI to implement the redesigned UCR was the development of new offense definitions and data elements. A pilot project was conducted during 1987 in South Carolina. In 1988, the FBI presented a draft of reporting guidelines to law enforcement executives at a national conference. At the conference, there was an endorsement that a new, incident-based reporting system be established. The National Incident-Based Reporting System (NIBRS) will collect data on each single incident and arrest within 22 crime categories. For each offense known to police within these categories, incident, victim, property, offender, and arrestee information will be gathered when available. The goal of the redesign is to modernize crime information by collecting data presently maintained in law enforcement records; the enhanced UCR Program is, therefore, a byproduct of current records systems. The FBI was able to accept NIBRS data as of January, 1989, and three states have now been accepted for submission of NIBRS data.

### The Nebraska UCR Program

During the 1970's, the FBI actively assisted individual states in the development of state UCR Programs which would be compatible with the national program. The Nebraska UCR Program became operational on January 1, 1971. Commencing on that date, law enforcement agencies in Nebraska began submitting UCR's to one central agency in Nebraska, the Commission, and the reports are in turn forwarded to the National Program after review and correction. The State Patrol, all sheriffs' departments, and police departments of municipalities of 1,500 population and over are required to submit UCR's by the seventh day after the end of the month. In 1982, the Nebraska Program became an "incident-based" reporting system. That is, crimes were reported by individual incident. This change in reporting has laid the groundwork for conversion to the new Nebraska Incident-Based Reporting System (NIBRS), which will be compatible with the National Incident-Based Reporting System. Law enforcement agencies will convert to NIBRS as they acquire the computer resources to submit NIBRS data.

## DEFINITIONS OF OFFENSES

Uniformity of reporting depends upon the proper classification of offenses by the law enforcement agencies. It must be emphasized that the following definitions are not meant to be legal definitions as they are written in the Nebraska Penal Code. The purpose of these classifications is to establish a uniform national system for classifying similar offenses even though their legal definitions may vary considerably from state to state.

## PART I OFFENSES

**Criminal Homicide** - Murder and Nonnegligent Manslaughter - the willful (nonnegligent) killing of one human being by another. Death by Negligence - the killing of another person through gross negligence.

**Forcible Rape** - the carnal knowledge of a female forcibly and against her will. Does not include statutory rape or sex attacks on males.

**Robbery** - the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

**Felony (Aggravated) Assault** - an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

**Burglary** - the unlawful entry of a structure to commit a felony or a theft.

**Larceny-Theft** - the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession on another.

**Motor Vehicle Theft** - the theft or attempted theft of a motor vehicle.

**Arson** - any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

## PART II OFFENSES

**Misdemeanor (Simple) Assault** - any assault which does not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which there was no serious or aggravated injury to the victim.

**Forgery and Counterfeiting** - all offenses dealing with the making, altering, uttering or possessing with intent to defraud anything false in the semblance of that which is true.

**Weapons** - includes violations of weapons laws such as manufacture, sale or possession of deadly weapons; carrying deadly weapons; furnishing deadly weapons to minors; aliens possessing deadly weapons, and all attempts to commit any of the above offenses.

**Prostitution and Commercialized Vice** - includes the sex offenses of a commercialized nature such as prostitution; keeping bawdy house, disorderly house or house of ill repute; pandering, procuring, transporting or detaining women for immoral purposes, etc. and all attempts to commit any of the above.

This encompasses offenses against chastity, common decency, morals and the like such as adultery and fornication, buggery, incest, indecent exposure, sodomy, carnal abuse (no force) and all attempts to commit any of the above.

**Drug Abuse Violations** - statistics for these arrests are requested on the basis of the narcotics used. This includes all arrests for the violation of state and local ordinances, specifically those relating to the unlawful possession, sale, use, growing, manufacturing and making of narcotic drugs. Four divisions of narcotic drugs are recognized.

These are:

(a)   Opium and cocaine and their derivatives (morphine, heroin, codeine),
(b)   Marijuana,
(c)   Synthetic narcotics which can cause true addiction (demerol, methadones) and
(d)   Other dangerous non-narcotic drugs, (barbituates, benzedrine).

**All Other Offenses** - includes all violations of state and local laws not otherwise classified.

**Suspicion** - limited to suspicion arrests when the persons arrested are released by the police.

**Curfew and Loitering Law Violations** - (Juveniles) all arrests made for violations of local curfew or loitering ordinances.

**Runaways** - (Juveniles) limited to juveniles taken into custody who have run away from the reporting jurisdiction.

## CRIME INDEX

The extent, fluctuation and distribution of crime in the state is measured by the crime index. The crime index is composed of the following offenses: murder, manslaughter, forcible rape, robbery, felony assault, burglary, larceny-theft, motor vehicle theft and arson. Many categories of crime are not of sufficient importance to be included in the index; some serious crimes, such as kidnapping, do not occur with enough regularity to be meaningful in the index. With these considerations in mind, the above offenses were selected as a group to serve as a measure of crime.

## CLEARANCES

For UCR purposes, an offense can be cleared by arrest or by exceptional means. An offense can be cleared by arrest when the offender is identified, there is enough evidence to charge him and he is actually taken into custody. The arrest of one person can clear several offenses and several persons may clear one offense. When some element beyond police control precludes formal charges against the offender, such as the victim's refusal to prosecute or death of the offender, an offense can be cleared by exceptional means. There is no distinction made between cleared by arrest and cleared by exceptional means in this publication. A distinction is made between total clearances and those involving only persons under 18 years of age (juveniles). A juvenile clearance is counted only when juveniles are exclusively involved in the clearance of an offense.

## CRIME RATES

Crime rates relate the incidence of crime to population. Estimates of current permanent population are used in computing crime rates. Crime rates allow for comparisons between several areas with different populations over a period of time without the information being biased by population differences. To compute a crime rate, first divide the population of the area by 100,000 and then divide the crime index by that answer. Throughout this report a crime rate per 1,000 population is used to be more meaningful for the state.

## CRIME FACTORS

Statistics gathered under the UCR Program are law enforcement statistics. The agencies report the offense and arrest data according to the standard offense classifications and not according to state statutes or local ordinances. Offenses are related to municipality and county in which they occur, rather than to the agency which may investigate, arrest or otherwise dispose of the case. The clearance is attributed to the municipality or county in which the offense occurred, even though the arresting agency may not be the department originally reporting the offense.

The factors which influence crime rates are dependent upon many characteristics of the community, and therefore, when attempting to interpret the crime statistics presented herein, one should be aware of the social structure and the factors that lead to or cause criminal behavior.

Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community. Below are some of the conditions which will by type and volume affect the crime that occurs from place to place:

Density and size of the community population and the metropolitan area of which it is a part.
Composition of the population with reference particularly to age, sex and race.
Economic status of the population.
Relative stability of populations, include commuters, seasonal and other transient types.
Climate, including seasonal weather changes.
Educational, recreational and religious characteristics.
Standards governing appointments to the police force.
Policies of the prosecuting officials and the courts.
Attitude of the public toward law enforcement problems.
The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

Caution should always be used when using the crime statistics presented herein, however, it should also be kept in mind that the data presented is the most accurate currently available. The law enforcement personnel who provide the data are to be commended for their efforts to provide accurate data. Without their sincere cooperation, this publication would not be possible. Crime is a social problem and therefore, should be a concern of the entire community.

# CRIME INDEX OFFENSES - 1992

During 1992, the Omaha Police Department was only able to provide data on the crime index offenses for January thru August. That data is not included in this section and the other sections on the index crimes. However, estimated totals are presented for the Omaha Police Department in the "Offense Data by County" section which begins on page 51.

Volume

A total of 45,340 index offenses were reported or known to law enforcement agencies in 1992. The violent crimes of murder, manslaughter, forcible rape, robbery and felony assault accounted for 5.2 percent of the total index offenses. The property crimes of burglary, larceny-theft, motor vehicle theft, and arson accounted for 94.8 percent of the total offenses.

Larceny-theft was the most frequently reported crime, accounting for 74.7 percent of the total crimes reported.

Crime Rates

Based on an estimated population figure of 1,264,247 the crime rate per 1,000 population was 35.7 in 1992. The crime rate for violent crimes was 1.9 per 1,000 population. There were 34.0 property crimes per 1,000 population.

Clearances

A total of 11.396 index offenses were reported cleared during 1992, a clearance rate of 25.1 percent. Murder, manslaughter had the highest clearance rate, 88.6 percent. Violent crimes had a clearance rate of 66.6 percent and crimes against property had a clearance rate of 22.9 percent.

# MURDER, MANSLAUGHTER

Murder and nonnegligent manslaughter are defined as the willful (nonnegligent) killing of one human by another. Not included in this definition are deaths caused by negligence, suicide, or accidental deaths. Attempts to commit murder are classified as felony assault.

Volume and Rate

During 1992, a total of 35* murder, manslaughters were reported by law enforcement agencies in Nebraska. Murder, manslaughter accounted for 1.5 percent of all violent crimes and one-tenth of one percent of all index offenses. In 1992, there were .03 murders per 1,000 population. 31 murder, manslaughters were cleared in 1992, a clearance rate of 88.6.

Murder, Manslaughter Analysis

In all cases of murder, manslaughter reported under the UCR Program, a supplementary report is submitted by the reporting agency. The supplementary report provides the age, sex and race of the victim, weapon used to commit the offense, relationship of the victim to the offender, and circumstances or motive leading to the crime.

In 1992, male victims accounted for 47 percent of the total murder victims, with 41 percent of those being in the age group of 30-39. Female victims accounted for 51 percent of the total murder victims. Victim analysis by race disclosed that 80 percent were White, 11 percent were Black, and 9 percent were Asian.

Of the known perpetrators, males accounted for 93 percent and 33 percent of those were in the age group of 18-24. Female perpetrators accounted for 7 percent. White perpetrators accounted for 80 percent and Blacks accounted for 15 percent.

Most murders, 82 percent, were committed by a relative or acquaintance of the victim. A further breakdown indicated that 29 percent were committed by a relative; 53 percent were committed by an acquaintance; 9 percent were committed by strangers and in 9 percent of the cases the relationship between the perpetrator(s) and victim(s) was unknown.

Handguns were used in 31.4 percent of the murders and knives were used in 17.1 percent of the incidents.

Law enforcement agencies reported no property stolen in connection with murder, manslaughter in 1992.

# FORCIBLE RAPE

Forcible rape is defined as the carnal knowledge of a female forcibly and against her will. All rapes and attempts to rape are counted. Carnal abuse, without force (statutory rape) and other sex offenses are not included.

## Volume and Rate

During 1992, law enforcement agencies in Nebraska reported a total of 295* forcible rapes. Forcible rape accounted for 12.6 percent of all violent crimes and 0.7 percent of all index offenses. In 1992, there were 0.2 rapes per 1,000 population. A total of 143 forcible rapes, 48.5 percent, were cleared during 1992.

## Analysis of Forcible Rape

Rape by force accounted for 82.7 percent of all forcible rapes and 17.3 percent were attempts to rape.

The age group of 25-29 accounted for the highest percentage of persons arrested for forcible rape, 18.2 percent. Juvenile arrests accounted for 15.7 percent of all persons arrested for forcible rape.

## Rape Circumstances

Law enforcement agencies are asked to submit a supplementary report on the circumstances surrounding any rape by force and attempt to rape. Supplementary reports were received on 290 cases. Victims under the age of 25 accounted for 71 percent of the total victims. Of those victims under 25, 37 percent were in the age group of 18 thru 24 and 32 percent were in the age group of 11 thru 15. In 28.3 percent of the incidents, the victim was attacked in her own residence.

Law enforcement agencies reported a total value of $650 stolen in rape offenses.

# ARREST DATA

Under the Uniform Crime Reporting Program, an arrest is counted each time a person is taken into custody, summoned, notified or cited. When a person under 18 years of age commits an offense and the circumstances are such that if the offender were an adult an arrest would be made, the offender is counted as an arrest by the reporting agency.

For reporting purposes, one arrest is counted each time a person is taken into custody, regardless of the number of charges placed against him. If an individual is arrested more than once during the year, an arrest is counted each time. When several persons are arrested in connection with the same offense, each is counted as an arrest.

Arrest data for the Omaha Police Department are included in this section.

# OFFICERS KILLED / ASSAULTED

The killing or assaulting of a law enforcement officer is a serious problem faced by the law enforcement administrator and should be of the gravest concern to the public at large. Such acts directly affect the functioning of proper law enforcement operations and thus reduce the ability of our law enforcement agencies to combat crime and maintain law and order. The ambitious young person who today considers a career in law enforcement must also consider the risk of being killed or assaulted by a member of the society he is sworn to protect.

The Omaha Police Department did not provide any information regarding assaults on law enforcement officers.

Officers Assaulted

During 1992, there were 211 assaults on law enforcement officers. This represents a 10 percent increase from 1991. While every assault does not result in personal injury to the officer involved, many of them do result in physical harm to the officer and loss of duty time. During 1992, personal injury was involved in 25 percent of the assaults.

Most of the assaults occurred while responding to disturbance calls and most of these were inflicted with personal weapons such as hands, fists, or feet.

There were no law enforcement officers killed in the line of duty in 1992.

# LAW ENFORCEMENT EMPLOYEE DATA

The Nebraska Uniform Crime Reporting Program surveys law enforcement agencies each year concerning employee data. As of October 31, 1992, there were 3,793 persons employed full-time in 160 law enforcement agencies.

Of the 3,793 employees, there were 2,763 sworn officers and 1,030 civilian employees. Based upon an estimated population of 1,606,000 there were 1.7 sworn officers per 1,000 persons in the State. The rate of law enforcement officers per 1,000 population for any given agency is influenced by many factors. The determination of law enforcement strength for a certain area is based on such factors as population density, size and character of the community, geographic location and other conditions which exist in the area.

Females accounted for 6.8 percent of the sworn personnel and 74.8 percent of the civilian personnel.
