INTRODUCTION

The North Dakota Uniform Crime Reporting (UCR) program was established in response to the need for timely, accurate, and reliable reporting of the number and nature of crimes. The data obtained through the UCR program serve as a set of uniformly defined criminal statistics for inter-agency, interstate, or national comparisons.

Crime in North Dakota, 1993 is the result of a comprehensive analysis of the Uniform Crime Reports. It is intended to serve as a summary of statistics on crime in the cities, counties, and the state of North Dakota, and to provide legislators, government administrators (state, county, and city), law enforcement officials, the judiciary, and the general public with the most complete, reliable information available on reported criminal activity in North Dakota.

North Dakota law enforcement agencies may report UCR data in two ways.

Summary reporting is a tally system of reporting the number of crime index offenses and arrests for each month. The summary system has been in place for many years.

Incident-based reporting uses a standard incident form to collect data on each incident reported to the agency. This system collects more detailed information than is collected using summary reporting. Some examples of data collected are: type of incident; where and when the incident took place; victim characteristics; suspect/arrestee characteristics; and property involved in the incident.

In order to continue the statistical time series begun with summary reporting, computer programs were written to extract summary data from the incident data reported. Crime in North Dakota, 1993 is a report on summary data. In the future, reports utilizing the more detailed incident data will be published.

North Dakota Crime Summary, 1993

In 1993, 17,874 crime index offenses were reported by local law enforcement agencies. This is a decrease of 3 percent from the total of 18,431 reported in 1992.

Crime index offenses include: murder/non-negligent manslaughter; forcible rape; robbery; aggravated assault; burglary; larceny/theft; and motor vehicle theft.

The Census Bureau estimate of North Dakota's population for 1993 was 635,000. The index crime rate per 100,000 population for 1993 was 2814.8. The index crime rate for 1992 was 2898.0.

The total number of reported violent index crimes (murder, rape, robbery and aggravated assault) was 557. This represents a decrease of 3.6 percent from the total of 578 reported in 1992.

Violent crime accounted for 3 percent of total index crimes reported in 1993.

Collectively, property crimes (burglary, larceny/theft and motor vehicle theft) decreased by 3 percent from 17,853 reported in 1992 to 17,317 reported in 1993.

Ninety-seven percent of index crimes reported in North Dakota were property crimes.

The 14,031 larceny/thefts reported in 1993 accounted for 79 percent of total index crimes.

Over 9.4 million dollars worth of property was reported lost to crime in 1993, with 34 percent of that amount reported as recovered by law enforcement officials.

(This page intentionally left blank.)

NORTH DAKOTA UCR PROGRAM

The North Dakota Uniform Crime Reporting (UCR) program involves the collection, compilation, and analysis of crime and arrest statistics reported by the various local law enforcement agencies throughout the state. Fifty sheriff's offices and 42 police departments reported to the UCR program in 1993.

Law enforcement agencies may report UCR data in two ways:

INCIDENT-BASED REPORTING: Law enforcement agencies use a standard incident form to collect data on each incident reported to their respective agencies. This form collects much more detailed information than is collected using summary reporting. Data collected includes: type of incident; where and when the incident took place; victim characteristics; suspect/arrestee characteristics; property involved in the incident; etc. Eighty-one agencies reported incident data for all or part of 1993.

In order to continue the statistical time-series begun with summary reporting, computer programs were written to extract summary data from the incident data reported. Crime in North Dakota, 1993 is a report on summary data. In the future, reports utilizing the more detailed incident data will be published.

SUMMARY REPORTING: Law enforcement agencies use a tally system to report the number of crime index offenses and arrests for each month. Eleven law enforcement agencies reported summary data for the full year of 1993.

The federal counterpart of the North Dakota UCR program is the National UCR program under the direction of the FBI. The UCR program has been used nationally and in North Dakota for many years to measure the extent, distribution and fluctuation of crime through the crime index. The crime index is not an absolute measure, but rather an indication of the amount and type of crime occurring in any given jurisdiction. The index is composed of seven crimes recognized as the most serious crimes in our society and the most frequently reported to law enforcement. The seven crimes are subclassified as follows:

VIOLENT CRIME: Murder/Non-Negligent Manslaughter
 Forcible Rape
 Robbery
 Aggravated Assault

PROPERTY CRIME: Burglary
 Larceny/Theft
 Motor Vehicle Theft

Federally, a Modified Crime Index is also calculated. This includes arson as the fourth property crime and the eighth index offense. Data on arson is not included in this report.

Prior to an offense becoming recorded in the UCR program, it must first be brought to the attention of local law enforcement officials and then must be reported by the local agency to the UCR program. Therefore, the UCR program can only reflect crime indirectly in its reports as the statistics gathered in the program are based on reported offenses only. No one can state precisely how much crime goes unreported each year. Reporting of crimes depends on several factors, including actual perception of an act as a crime, the probability of loss of status for reporting (as in cases of rape), and the perceived probability of action on the part of the law enforcement agency contacted.

Several types of data are gathered, including:

Offense Data

- The number of known crime index offenses
- Type and value of stolen property
- Additional information on homicides and arsons
- Law enforcement officers killed or assaulted

Arrest and Clearance Data

- Number and type of offenses cleared
- Number and type of index offenses cleared involving juveniles
- Number of persons arrested by offense
- Characteristics of persons arrested (age, sex, race)

To allow for comparison among several geographic and/or jurisdictional areas with differing populations, or to allow comparison across time of an area undergoing population fluctuations, the UCR program provides for the calculations of crime rates to remove any potential biases created by population differences. Because a rate relates the incidence of activity to population, it is possible to measure annual fluctuations in criminal activity by comparing rates of crime reported in any given year with those reported in other years. Federally, UCR crime index rates are calculated based on the number of reported offenses per 100,000 population.

Crime Index Offenses

INDEX OFFENSE TOTAL	18,431	17,874	-3.0

* The numbers for 1992 differ from those reported in Crime in North Dakota, 1992. An error was corrected in the computer program for converting incident-based data to the summary format.

VIOLENT CRIME

- Violent crime includes the offenses of murder/non-negligent manslaughter, forcible rape, robbery and aggravated assault. See Appendix A for UCR definitions of these and other offenses.
- In 1993, 557 violent crimes were reported in North Dakota. This is a 3.6 percent decrease from the 1992 total of 578 offenses.
- Violent crime totaled 3 percent of reported index crimes in North Dakota.
- Figure 2 below illustrates the yearly totals of violent crimes reported in North Dakota for the period 1974-1993. See Appendix E for yearly totals and rates of violent crime.

FIGURE 2
Violent Crime Totals
1974-1993

MURDER/NON-NEGLIGENT MANSLAUGHTER

The UCR program defines Murder/Non-Negligent Manslaughter as the "willful killing of one human being by another." Attempts to murder, assaults to murder, suicides, accidental deaths, justifiable homicides, and deaths caused by gross negligence are not included in this category.

- Twenty-one murder/non-negligent manslaughters were known to the North Dakota UCR program in 1993.
- Fifteen of the twenty-one victims were adults and 6 were female.
- Ten victims were slain with firearms. Five victims died as the result of knife wounds. Two died from blows with blunt objects. Two asphyxiation incidents and two beating deaths were reported.
- Nineteen of the 21 victims knew their assailant(s).
- The 1993 state murder/non-negligent manslaughter rate was 3.3 per 100,000 population.
- In 1992, fifteen deaths due to this offense were reported. The resulting murder/non-negligent manslaughter rate was 2.4 per 100,000 population.
- Figure 3 below presents the yearly murder/non-negligent manslaughter totals for the period 1974-1993. Data prior to 1978 does not include deaths occurring on the state's reservations. While law enforcement officials on the reservations do not report crime data to the UCR program, any known homicides are included in North Dakota's state total.

FIGURE 3
Murder/Non-Negligent Manslaughter Totals
1974-1993

TABLE 3
Murder/Non-Negligent Manslaughter Summary
North Dakota, 1993

Date and Location of Incident	Victim		Assailant		Weapon Used	Relationship of Victim to Offender	Circumstances
	Age	Sex	Age	Sex

06/30/93 Rural Buxton Traill Co.	37	M	31	M	.22 cal. Handgun	Friend	Assailant had been charged with terrorizing another man with a butcher knife earlier that day.
07/07/93 Mohall Renville Co.	17	M	19	M	.22 cal. Handgun	Friend	Victim was shot in an argument after a party at his residence.
07/14/93 Burleigh Co.	30	F	34	M	.357 cal. Handgun	Acquaintance	Victim was found in an apartment at United Tribes Technical College.
08/08/93 Grafton	21	M	19	M	.22 cal. Handgun	Stranger	Victim was killed and four others were wounded at party at victim's home.
08/15/93 Hazen	44	M	15	M	Kitchen Knife	Father	Argument
08/25/93 Leeds Benson Co.	26	M	57	M	.22 cal. Handgun	Acquaintance	Victim was law enforcement officer. Assailant committed suicide.
10/08/93 Belcourt Turtle Mt. Res.	21 49 79	F F M	31	M	12 gauge Shotgun	Sister-in-law Mother-in-law Family Friend	Sister-in-law had filed rape charge against assailant. Assailant was out on bond. Assailant committed suicide.
10/17/93 Rural Pingree Stutsman Co.	29	M	39	M	Handgun	Family Friend	Victim tried to talk assailant out of killing himself. Assailant shot victim and committed suicide.
11/24/93 Devils Lake	8 months	F	11	F	Asphyxiation	Neighbor	Victim was smothered while in the care of the assailant's mother.
11/25/93 Belcourt Turtle Mt. Res.	55	M	40	M	Knife	Uncle	Unknown
12/16/93 Tower City Cass Co.	74	M	25 35	M M	Knife	Stranger Stranger	Robbery, Motor Vehicle Theft
12/22/93 Belcourt Turtle Mt. Res.	17 months	M	22	M	Beating	Son	Child died from beating.

FORCIBLE RAPE

The UCR program defines Forcible Rape as "carnal knowledge of a female forcibly and against her will." Assaults to rape, attempts to commit rape by force or threat of force are included. Carnal abuse, statutory offenses (no force -- victim under age of consent), and other sex offenses are not included.

- In 1993, 150 forcible rapes were reported to local law enforcement in North Dakota. This is a decrease of approximately 7 percent from the 1992 total of 162 offenses.
- Of the forcible rape offenses, 140 were rapes by force and 10 were reported as assaults or attempts to rape.
- Figure 4 is a graph of yearly totals for reported rapes during the period 1974 through 1993. See Appendix E for yearly totals and rates of forcible rape.
- Since the UCR definition states that victims of rape must be female, the rate of occurrence for reported rapes is calculated based only on the female population. The Census Bureau's 1993 population estimate for North Dakota is 635,000. The number of females is approximately half of that figure. The resulting rate is 47.2 reported rapes per 100,000 females in 1993, compared with 50.9 per 100,000 females in 1992.
- In North Dakota, forcible rape accounted for about 27 percent of violent index crimes and less than 1 percent of total index crimes reported. Murder/non-negligent manslaughter and robbery are the only offenses which have smaller percentages, accounting for 0.1 percent and 0.3 percent of total index offenses, respectively.

FIGURE 4
Forcible Rape Totals
1974-1993

ROBBERY

Robbery is defined by the UCR program as "the taking or attempting to take anything of value from the care, custody or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear."

- Fifty-four robberies were reported in North Dakota in 1993, an increase of two incidents from the 52 reported in 1992.
- Figure 5 presents reported robbery totals each year for the twenty-year period 1974-1993.
- The 1993 robbery rate was approximately 8.5 per 100,000 population as compared with 8.2 per 100,000 population in 1992.
- The value of property reported stolen in robberies in North Dakota was \$37,608, compared with \$31,341 in 1992.
- The average robbery in 1993 involved \$696 worth of property.

FIGURE 5
Robbery Totals
1974-1993

- The UCR program categorizes robberies both by type of weapon used and place of occurrence. Table 4 is a distribution of robberies by type of weapon used. About 44 percent of the reported robberies involved the use of personal weapons (hands, fists, feet, etc.). Firearms were used in 13 percent of the incidents.
- Table 5 is a distribution of robberies by place of occurrence for North Dakota in 1993.

Table 4

Total Robbery	54	37,608	696.44

AGGRAVATED ASSAULT

The UCR program defines Aggravated Assault as "an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed."

- In 1993, 332 aggravated assaults were reported in North Dakota. In 1992, 349 aggravated assaults were reported.
- The aggravated assault rate for North Dakota in 1993 was 52.3 per 100,000 population compared with 54.9 per 100,000 population in 1992.
- Figure 6 illustrates the yearly totals of aggravated assaults for the period 1974-1993. See Appendix E for yearly totals and rates for aggravated assaults.
- Table 7 on the following page is a percentage distribution of the types of weapons used in aggravated assaults.

FIGURE 6
Aggravated Assault Totals
1974-1993

- Approximately 52 percent of reported aggravated assaults in North Dakota in 1993 involved the use of personal weapons (hands, fists, feet, etc.). Firearms were used in approximately 5 percent of the total aggravated assaults.

TABLE 7
Aggravated Assault by Type of Weapon Used
North Dakota, 1993

Type of Weapon Used	Number Reported	% of Total Aggravated Assault Offenses Reported
Hands, Fists, Feet, Etc.	171	51.5 %
Other Dangerous Weapon	109	32.8
Knife or Cutting Instrument	34	10.3
Firearm	18	5.4
Total Aggravated Assault	332	100.0

PROPERTY CRIME

- Property crime includes the offenses of burglary, larceny/theft and motor vehicle theft.
- In 1993, the total number of property crimes reported was 17,317. This is a decrease of 3 percent from the 1992 total of 17,353 offenses.
- Property crime accounted for approximately 97 percent of the index offenses reported in North Dakota.
- Figure 7 presents property crime totals in North Dakota for the period from 1974 through 1993. See Appendix E for yearly totals and rates for property crimes.

FIGURE 7
Property Crime Totals
1974-1993

BURGLARY

The UCR program defines Burglary as the "unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify an offense as burglary." Burglaries are classified into three categories: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

- In 1993, 2,346 burglaries were reported to the UCR program. This is a 4 percent decrease from the total of 2,440 reported in 1992.
- Figure 8 illustrates burglary totals for each year for the period 1974 through 1993. See Appendix B for more information on the number of reported burglaries and rate of occurrence for each reporting jurisdiction.
- The rate of burglaries based on population was 369.4 per 100,000 inhabitants for 1993, as compared with 383.6 per 100,000 in 1992.

FIGURE 8
Burglary Totals
1974-1993

- The UCR program classifies burglaries by time and location of the incident. Table 8 below presents this breakdown.
- Approximately 56 percent were burglaries of non-residences. Fifty-six percent of burglaries were known to have occurred at night.
- Table 9 is a percentage distribution of total burglaries reported by type of entry.
- About 61 percent of burglaries involved forcible entry.
- The average burglary involved \$670 worth of property.

TABLE 8
Burglary by Location and Time of Occurrence
North Dakota, 1993

LARCENY/THEFT

The UCR program defines Larceny/Theft as the "unlawful taking, carrying, leading or riding away of property from the possession or constructive possession of another. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicles parts and accessories, bicycle thefts, etc., in which no use of force, violence or fraud occurs. In the Uniform Crime Reporting program, this crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft is also excluded from this category inasmuch as it is a separate crime index offense."

- A total of 14,031 larceny/thefts were reported in North Dakota in 1993. This is a 2.5 percent decrease from the 1992 total of 14,390.
- The larceny/theft rate per 100,000 population was 2209.6 compared with 2262.6 in 1992.
- The average dollar value per offense decreased from \$437 in 1992 to \$344 in 1993.
- Larceny/thefts accounted for 78.5 percent of the total index offenses reported and amounted to approximately 51 percent of the total value of stolen property.
- The total reported larceny/thefts in North Dakota each year from 1974 to 1993 is illustrated in Figure 9.

FIGURE 9
Larceny/Theft Totals
1974-1993

- A percentage distribution of reported larceny/thefts is presented in Table 11. The largest single category of reported larceny/thefts was thefts from motor vehicles, with 22 percent of the total. Approximately 28 percent of all larceny/thefts reported in North Dakota fall into the "All Other" category.
- The UCR program classifies larceny/theft offenses by the dollar values involved. See Table 12.

MOTOR VEHICLE THEFT

Motor Vehicle Theft is defined by the UCR program as "the theft or attempted theft of a motor vehicle; this offense category includes the stealing of automobiles, trucks, buses, motorcycles, motorscooters, snowmobiles, etc. The definition excludes the taking of a motor vehicle for temporary use by those persons having lawful access.

- A total of 940 motor vehicle thefts were reported in 1993. This is a decrease of 8 percent from the 1992 total of 1023.
- The resulting motor vehicle theft rate for North Dakota is 148 per 100,000 population.
- Figure 10 illustrates the total motor vehicle thefts each year from 1974 through 1993.

FIGURE 10
Motor Vehicle Theft Totals
1974-1993

- The UCR program classifies motor vehicle thefts by type of vehicle. Table 14 is a percentage distribution by vehicle type. The "Other Vehicles" category includes all other motor vehicles as limited by the UCR program definition. Examples include motorcycles, snowmobiles, trail bikes, etc. Thefts of farm equipment, airplanes, and construction equipment are not included in the motor vehicle theft category, but are reported as larceny/thefts.

TABLE 14
Type of Vehicle Stolen
North Dakota, 1993

Type of Vehicle	Number Reported	Percent of Total Motor Vehicle Thefts Reported
Autos	742	78.9 %
Trucks and Buses	118	12.6
Other Vehicles	80	8.5
Total Motor Vehicle Thefts	940	100.0

TABLE 15
Value of Stolen Motor Vehicles
North Dakota, 1993

	Number	Total Value	Average Value
Total Motor Vehicle Thefts	940	\$3,010,954	\$3,203.14

CLEARANCES

The UCR program defines an offense as "cleared" by law enforcement when "at least one person is arrested, charged with the commission of the offense, and turned over to the court for prosecution. Several crimes may be cleared by the arrest of one person, while the arrest of many persons may clear only one offense. Law enforcement agencies may clear a crime by exceptional means when some element beyond law enforcement control precludes the placing of formal charges against the offender. Examples of circumstances which allow such clearances are the death of the offender (suicide, justifiably killed by police or private citizen, etc.); the victim's refusal to cooperate with prosecution after the offender has been identified; or the denial of extradition."

- Approximately 27 percent of the reported index offenses were reported cleared in North Dakota in 1993.
- In North Dakota, approximately 64 percent of total violent index crimes reported to the UCR program were reported cleared in 1993. Clearance rates for violent crimes ranged from 33 percent for robbery to 100 percent for murder/non-negligent manslaughter. See Table 16 for further information.
- Approximately 25 percent of the total property index crimes were reported cleared in 1993. Clearance rates for the individual property crimes range from 20 percent for burglary to 38 percent for motor vehicle theft.

TABLE 16
Clearance Rates
by Index Offense
1992-1993

Index Offense	1992	1993
Murder/Non-Negligent Manslaughter	100.0 %	100.0 %
Forcible Rape	44.4	56.0
Robbery	53.8	33.3
Aggravated Assault	64.8	70.2
Burglary	17.6	19.8
Larceny/Theft	25.0	25.6
Motor Vehicle Theft	39.4	38.3

ARRESTS

- Although primarily an indication of law enforcement activity, the number of arrests reported does provide a limited profile of the perpetrators of crime, especially for those crimes which have high clearance rates. Differing arrest practices, policies and enforcement emphases among agencies influence the volume of arrests for various offenses, particularly those against public order such as vagrancy, disorderly conduct, and related violations. However, arrests for serious crimes, e.g., robbery or burglary, are more likely to be consistent and uniform throughout all jurisdictions across the state.
- The UCR program requires that an arrest be counted on each separate occasion an individual is taken into custody. Although several charges may be lodged against a person at the time of arrest, only one arrest is counted for each separate time the person is taken into custody.
- North Dakota law enforcement agencies reported 26,670 arrests in 1993. A total of 26,563 arrests were reported in 1992.
- In 1993, approximately 29 percent of total arrests were arrests of juveniles.
- Seventy-five percent of total arrests were males.
- About one percent of total arrests were reported without age information.
- Juveniles were arrested most often for larceny/theft offenses.
- The offense committed most often by adult males was Driving Under the Influence. Adult females were arrested most often for Fraud. See Appendix F for arrest information by age, sex and offense.
- Seventeen percent of the reported arrests were arrests for crime index offenses. Fifty-three percent of the arrests for crime index offenses were arrests of juveniles. In 1992, 55 percent of arrests for crime index offenses were arrests of juveniles.
- The 8,606 reported arrests for DUI and liquor law violations represent approximately 32 percent of the total arrests reported in the state of North Dakota in 1993. Arrests for DUI decreased 7.6 percent from 4,781 in 1992 to 4,418 in 1993. Liquor law violation arrests decreased 6.4 percent from 4,475 reported in 1992 to 4,188 reported in 1993.
- Table 21 reviews arrests reported in 1993 in terms of racial category. Approximately 87 percent of total arrests were white; about 11 percent were Native American.
- These statistics are provided by local law enforcement agencies which contribute to the North Dakota UCR program. No arrest figures for reservations in the state are included in these totals. Tribal law enforcement agencies do not participate in the UCR program.

INDEX OFFENSES BY REPORTING JURISDICTION

- Table 24 ranks the cities by crime rate per 100,000 population for 1993.
- In 1993, 50 of the 53 county sheriffs' departments reported to the UCR program. Forty-two city police departments submitted data.
- Table 25 lists county population, the number of index offenses reported by the county sheriff's office and county index crime rate per 100,000 population for 1993. Total offenses reported varied from 0 reported by Slope County Sheriff's Office to 290 index offenses reported by Cass County Sheriff's Office.

INDEX OFFENSES BY JUDICIAL DISTRICT

- This section presents index crime rates calculated for each judicial district to provide for ready comparison with data on court caseloads published annually by the state court administrator. Figure 11 is a map of the judicial district boundaries. The crime rate for each district for 1993 is shown in Table 26, and a ranking is given by crime rate.
- Geographic size and population seem to impact reported crime rate most significantly when a relatively large population is grouped into a relatively small geographical area, as in the cases of the East Central and Northeast Central Judicial Districts.

FIGURE 11
Judicial District Boundaries

TABLE 26
Index Offenses by Judicial District
North Dakota, 1993

District	Population	Index Total	Rate/100,000	Rank
Northeast Central	78,278	3,298	4213.2	1
East Central	117,624	4,775	4059.5	2
South Central	136,966	3,814	2784.6	3
Northwest	96,634	2,461	2546.7	4
Northeast	85,265	1,675	1964.5	5
Southeast	79,936	1,290	1613.8	6
Southwest	40,297	553	1372.3	7

RURAL-URBAN CRIME DISTRIBUTION

- The "urban" areas of the state, for purposes of this analysis, are defined as those cities which have populations of 2,500 or greater and report directly to the UCR program. If the population of a city which has been considered "urban" in the past drops below 2,500, it is no longer included as "urban" and becomes part of the "rural" analysis. Conversely, if a city's population increases to 2,500 or greater, it is no longer considered "rural" and is included as part of the "urban" analysis.
- The cities included as "urban" for 1993 include: Beulah; Bismarck; Devils Lake; Dickinson; Fargo; Grand Forks; Grafton; Hazen; Jamestown; Mandan; Minot; Rugby; Valley City; Wahpeton; West Fargo and Williston. Total urban population for 1993 is 322,202. Since the police department in Wahpeton did not report UCR data in 1993, estimates were made for that agency.

TABLE 27
Rural-Urban Crime Distribution
1982-1993

Year	RURAL					URBAN				
	Population	% of Total Population	Index Offenses	Rate per 100,000	% of Total Crime	Population	% of Total Population	Index Offenses	Rate per 100,000	% of Total Crime

APPENDICES

(This page intentionally left blank.)

OFFENSES IN UNIFORM CRIME REPORTING

Offenses in Uniform Crime Reporting are divided into two groups designated as Part I and Part II crimes. Information on the number of Part I offenses known to law enforcement, the number cleared by arrest or exceptional means, and the number of persons arrested is reported monthly. Arrest data are reported for Part I and Part II offenses. The Crime Index is composed of offenses 1-7 with the exception as noted in item 1 below.

NOTE: The classifications of these offenses for UCR reporting purposes are based on law enforcement investigation as opposed to determination by a court, medical examiner, jury, or other judicial hearing.

PART I OFFENSES:

1. CRIMINAL HOMICIDE

a. Murder and Non-Negligent Manslaughter

The willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) the killing of a felon by a law enforcement officer in the line of duty; and (2) the killing of a felon by a private citizen.

b. Manslaughter by Negligence

The killing of another person through gross negligence. Excludes traffic fatalities. While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.

2. FORCIBLE RAPE

The carnal knowledge of a female forcibly and against her will. Included are rapes by force and attempts or assaults to rape. Statutory offenses (no force used -- victim under age of consent) are excluded.

3. ROBBERY

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence, or putting the victim in fear.

4. AGGRAVATED ASSAULT

An unlawful act by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by a means likely to produce death or great bodily harm. Simple assaults are excluded.

5. BURGLARY

Breaking or entering. The unlawful entry of a structure to commit a felony or theft. Attempted forcible entry is included.

6. LARCENY/THEFT

The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles or automobile accessories, shoplifting, pocket-picking, or the stealing of any property or article which is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, "con" games, forgery, worthless checks, etc., are excluded.

7. MOTOR VEHICLE THEFT

The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on the surface and not on rails. Specifically excluded from this category are motorboats, construction equipment, airplanes, and farming equipment.

8. ARSON

Any willful or malicious burning or attempting to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle, personal property of another, etc.

PART II OFFENSES:

9. OTHER ASSAULTS (SIMPLE)

Assaults or attempted assaults where no weapon was used or which did not result in serious or aggravated injury to the victim.

10. FORGERY AND COUNTERFEITING

Making, altering, uttering, or possessing, with intent to defraud, anything false which is made to appear true. Attempts are included.

11. FRAUD

Fraudulent conversion and obtaining money or property by false pretenses. Included are larceny by bailee and bad checks except forgeries and counterfeiting.

12. EMBEZZLEMENT

Misappropriation or misapplication of money or property entrusted to one's care, custody or control.

13. STOLEN PROPERTY -- BUYING, RECEIVING, POSSESSING

Buying, receiving, or possessing stolen property, including attempts.

14. VANDALISM

Willful or malicious destruction, injury, disfigurement, or defacement of any public or private property, real or personal, without consent of the owner or person having custody or control.

15. WEAPON OFFENSES -- CARRYING, POSSESSING, ETC.

All violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers. Attempts are included.

16. PROSTITUTION AND COMMERCIALIZED VICE

Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring, or transporting women for immoral purposes. Attempts are included.

17. SEX OFFENSES (except forcible rape, prostitution, and commercialized vice)

Statutory rape and offenses against chastity, common decency, morals and the like. Attempts are included.

18. DRUG ABUSE VIOLATIONS

State and local offenses relating to narcotic and non-narcotic drugs, such as unlawful possession, sale, use, growing and manufacturing of narcotic and non-narcotic drugs.

19. GAMBLING

Promoting, permitting, or engaging in illegal gambling.

20. OFFENSES AGAINST FAMILY AND CHILDREN

Non-support, neglect, desertion, or abuse of family and children.

21. DRIVING UNDER THE INFLUENCE

Driving or operating any vehicle or common carrier while drunk or under the influence of liquor or drugs.

22. LIQUOR LAWS

State or local liquor law violations, except "drunkenness" (offense 23) and "driving under the influence" (offense 21).

23. DRUNKENNESS

Drunkenness or intoxication. Excluded is "driving under the influence" (offense 21). This is not a crime in North Dakota but is included in the national program.

24. DISORDERLY CONDUCT

Breach of peace.

25. VAGRANCY

Vagabondage, begging, loitering, etc.

26. ALL OTHER OFFENSES

All violations of state or local laws, except offenses 1-25 and traffic offenses.

27. SUSPICION

No specific offense; suspect released without formal charges being placed.

28. CURFEW AND LOITERING LAWS

Offenses relating to violation of local curfew or loitering ordinances where such laws exist.

29. RUNAWAYS

Limited to juveniles taken into protective custody under provisions of local statutes.

**NUMBER AND RATE OF INDEX OFFENSES
BY REPORTING JURISDICTION
NORTH DAKOTA, 1993**

The rate per 100,000 population is shown in parentheses immediately below the actual number of incidents reported for each offense type. A county total is also shown for each of those counties which have more than one reporting jurisdiction within its geographic boundaries.

County	Reporting Jurisdiction	Murder/Non-Neg. Mans.	Forcible Rape	Robbery	Aggravated Assault	Burglary	Larceny/Theft	Motor Vehicle Theft	Total Index Offenses
