Crime Activity by Jurisdiction

Background Information on the Calculation of Clearance Rates as Reported in Crime in Delaware 1996.

Complaint and clearance data appear by agency in Crime in Delaware 1995 in the section entitled **Crime Activity by Jurisdiction**. A crime *clearance* by arrest or exceptional means is related to an original crime complaint. As defined in the glossary of the report, "A complaint report to the police is considered cleared or solved once the police have identified the offender. One arrest may clear several crimes; therefore, the clearance rate is often higher than the arrest rate."

The method of reporting clearances is by the date of the action. For example, a robbery occurs in December of 1996 and the offender is apprehended in August of 1997. This would be recorded in the State Bureau of Identification's (SBI) crime database as a 1996 reported crime or complaint, and it would be counted as case cleared after the 1996 end-of-year report.

Annual complaint statistics in crime in Delaware are for crimes reported in each respective year. clearance statistics for a given year show how many of that year's reported crimes have been cleared during that year. While it is recognized that more crimes will ultimately be cleared after the reporting year, clearance statistics are not updated in Crime in Delaware. This practice is consistent with that of the FBI's *Crime in the United States* reports; however, unlike the FBI reports, compilation of Crime in Delaware is delayed until the reporting year statistics are complete. Crime in Delaware data, therefore, should not be viewed as a year-end snapshot of each reporting year's law enforcement activity.

It is important to note that the snapshot is intended to provide a full account of a year's law enforcement activity, but there can be significant delays in conclusions and therefore the reporting of that activity. The SBI makes significant efforts to give all agencies the opportunity to have their year's activity entered into the state's information system. No agency is penalized for early, updated, or late reporting—in fact, SBI and the Center do not prepare the year-end summary and the annual analysis until the last jurisdiction reports.

Glossary

Note: This glossary contains the UCR federal definitions for crime categories. It also lists state statutes which should be viewed as examples of what statutes may fall into those crime categories. A good example is the federal crime category *Motor Vehicle Theft*. The statute listed below the federal definition is "Unauthorized use of a vehicle". There are also some motor vehicle thefts, however, that fall under Robbery, Aggravated Assault, or Burglary. Robberies, aggravated assaults, or burglaries, therefore, can fall under the UCR crime categories of *Robbery*, *Aggravated Assault*, *Burglary*, or *Motor Vehicle Theft*. The State Bureau of Identification determines which crime events fall into which UCR crime categories based on details not found in summary reportings.

Adult	A person 18 years of age or older.
Arrest Rate	The number of arrests per 1,000 population.
Clearance	A complaint reported to the police is considered cleared or solved once the police have identified the offender. One arrest may clear several crimes, therefore the clearance rate is often higher than the arrest rate.
Complaint	A criminal offense reported to the police.
Crime Rate	The number of crimes per 1,000 population.
Exceptional Clearances	An exceptional clearance refers to a clearance that does not result in an arrest. An offense can be cleared exceptionally only in cases where the identity of the offender has been established, enough information is available to support an arrest, and the exact location of the offender is known. For example, murder-suicides are cleared exceptionally, since the offender's death precludes their arrest.
Juvenile	A person under 18 years of age.
Part I Crime	Homicide, robbery, rape, aggravated assault, burglary, larceny, motor vehicle theft and arson.
Part II Crime	All crimes not included in the Part I Crime definition.
Population Data	Delaware population projection estimates are from the Delaware Population Consortium.
Property Crime	A subsection of Part I Crime including burglary, larceny, motor vehicle theft, and arson.
Reported Offenses	Crimes reported to or otherwise not known to police.
Violent Crime	A subsection of Part I Crime including homicide, rape, robbery, and aggravated assault.
