Reader's Notes

Generally speaking, the text in each section of this publication describes the findings that are shown visually on the tables that follow within that section. It will be noted where this is not the case.

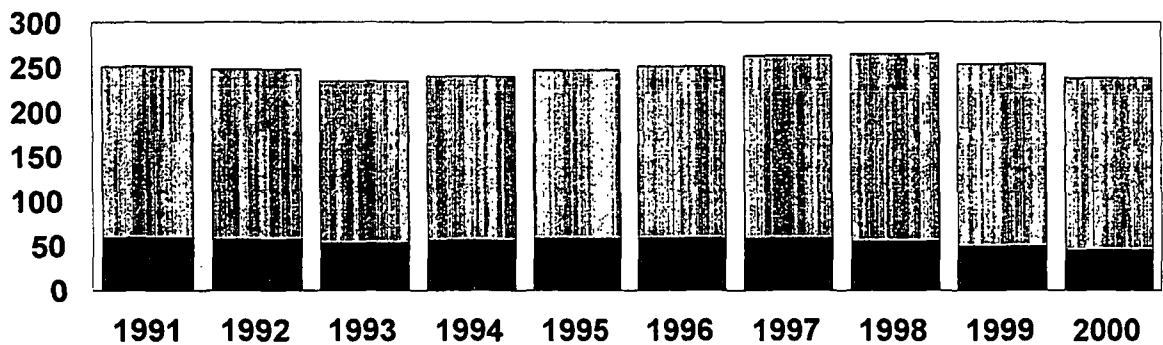

Crime rates are sometimes calculated from multiple tables throughout the report and put into the text portion of the publication. Therefore, the reader will not necessarily see a table that reflects that calculation. Crime rates are calculated using the most current *Delaware Population Consortium: Annual Population Projections*.

In cases where there is a reference to last year's rates, the reader will need to refer to *Crime In Delaware 1999* for any further clarifications.

Crime in Delaware 2000 Highlights

- The Part I Reported Crime rate decreased for the third consecutive year, with a drop from 49.4 per 1,000 population in 1999 to 45.5 per 1,000 population in 2000. The Part II Crime rate for 2000 was 193.2 per 1,000 population, down from 204.8 per 1,000 population in 1999. This is the second decrease from the historical high of 210.3 per 1,000 in 1998. Combining Part I and Part II Reported Crimes, there were 238.7 crimes per 1,000 population in 2000. The Part I and II Crime rates for 2000 decreased by 3.9 percent and 1.6 percent, respectively.
- Following a rise in violent crime complaints from 1986 to 1996, violent crime complaints have decreased for the fourth year in a row. Contributing to this decrease was a reduction in reported forcible/attempted rape and reported robbery. Forcible/attempted rape decreased 12.1 percent from 1999 to 2000. Robbery was down by 5.4 percent. The 3.8 percent increase in total reported homicide and the 1.2 percent increase in total assaults slightly offset the decreases in other categories. Thus resulting in an overall decrease of 3.94 percent in Part I Violent Crime from 1999 to 2000.
- Property Crime complaints decreased by 4.3 percent from 1999 to 2000, in the most part because of the decrease in arson complaints. The Part I property crimes of burglary, larceny, and arson, all decreased from 1999 to 2000 - by .50, 6.1, and 10.2 percent respectively. Motor vehicle theft complaints increased by 3.9 percent in 2000.
- Total juvenile arrests increased by 8.1 percent between 1999 and 2000. Juvenile arrests for Part I crimes increased by 3.0 percent, with the majority of arrests for property crimes. The majority of violent crime arrests for juveniles, 67.6 percent, were for aggravated assault.
- The number of illicit drug complaints increased by 12.4 percent in 2000 (pg. 41). Reported incidents of illicit drugs increased by 13.2 percent in New Castle County, and by 23.1 percent in Kent County. However, illicit drug reports decreased by a half percent, for Sussex County. The number of illicit drug complaints were the highest Delaware has experienced in the last ten years. Law enforcement agencies believe initiatives targeting criminal "hot spots" are identifying and documenting drug offenses that would have otherwise gone undetected.

Crime Activity by Jurisdiction

Background Information on Reported Crimes and Clearances as Reported in Crime in Delaware 2000.

Complaint and clearance data appear by agency in Crime in Delaware 2000 in the section entitled **Crime Activity by Jurisdiction**. A crime *clearance* by arrest or exceptional means is related to an original crime complaint. As defined in the glossary of the report, "A complaint report to the police is considered cleared or solved once the police have identified the offender..." One reason the clearance rate may exceed the arrest rate is because the arrest of one offender could clear several crimes.

The method of reporting clearances is by the date of the action. For example, a robbery occurs in December of 1999 and the offender is apprehended in August of 2000. This would be recorded in the State Bureau of Identification's (SBI) crime database as a 1999 reported crime or complaint, and it would be counted as case cleared after the 1999 end-of-year report.

Annual complaint statistics in Crime in Delaware are for crimes reported in each respective year. Clearance statistics for a given year show how many of that year's reported crimes have been cleared during that year. While it is recognized that more crimes

will ultimately be cleared after the reporting year, clearance statistics are not updated in Crime in Delaware. This practice is consistent with that of the FBI's *Crime in the United States* reports; however, unlike the FBI reports, compilation of Crime in Delaware is delayed until the reporting year statistics are complete.

It is important to note that the snapshot is intended to provide a full account of a year's law enforcement activity, but there can be significant delays in conclusions and therefore the reporting of that activity. The SBI makes significant efforts to give all agencies the opportunity to have their year's activity entered into the state's information system. No agency is penalized for early, updated, or late reporting—in fact, SBI and the Center do not prepare the year-end summary and the annual analysis until the last jurisdiction reports.

There has been a change in the reporting for Camden-Wyoming as of 1999's Crime Activity by Jurisdiction section. Previously combined, in 1999 the two became separate jurisdictions and are now reported individually as Camden and Wyoming.

Glossary

Note: This glossary contains the UCR federal definition for crime categories. It also lists state statutes that should be viewed as examples of what statutes may fall into those crime categories. A good example is the federal crime category Motor Vehicle Theft. The statute listed below the federal definition is "Unauthorized use of a vehicle." There are also some motor vehicle thefts, however, that fall under robbery or aggravated assault. The State bureau of Identification determines which crime events fall into which UCR crime categories based on details not found in summary reporting.

Adult	A person 18 years of age or older.
Arrest Rate	The number of arrests per 1,000 population.
Clearance	A complaint reported to the police is considered cleared or solved once the police have identified the offender. One arrest may clear several crimes, therefore the clearance rate is often higher than the arrest rate.
Complaint	A criminal offense reported to the police or by the police.
Crime Rate	The number of crimes per 1,000 population.
Exceptional Clearance	An exceptional clearance refers to a clearance that does not result in an arrest. An offense can be cleared exceptionally only in cases where the identity of the offender has been established, enough information is available to support an arrest, and the exact location of the offender is known. For example, murder-suicides are cleared exceptionally, since the offender's death precludes their arrest.
Juvenile	A person under 18 years of age.
Part I Crime	Homicide, robbery, rape, aggravated assault, burglary, larceny, motor vehicle theft and arson.
Part II Crime	All crime not included in the Part I Crime definition.
Population Data	Delaware population projection estimates are from the Delaware Population Consortium.
Part I Property Crime	A subsection of Part I Crime including burglary, larceny, motor vehicle theft, and arson.
Reported Offenses	Crimes reported to or otherwise known to police. To be counted in Crime in Delaware, information on reported offenses must also be provided to SBI for proper classification and coding in the state's Criminal Justice Information System. If the provision of information to SBI is not complete and timely, Crime in Delaware will represent an undercounting of reported offenses.
Part I Violent Crime	A subsection of Part I Crime including homicide, rape, robbery, and aggravated assault.

Technical Notes

The UCR Part I and Part I Violent crime maps in this year's report provide a more detailed view of how crimes are distributed across New Castle County than in previous years. This year's maps use New Castle County Police Department's sector boundaries instead of the larger Delaware State Police Troop boundaries used in years past. Using the NCCPD sector boundaries required that UCR complaints reported to the Delaware State Police be distributed proportionately across the NCCPD sector boundaries that corresponded geographically with the DSP Troop boundaries.
