CK_PS14(a)

An error in the CATI program caused 181 cases to skip questions ps14(a) through ps20(a). These cases are flagged with a value of CK_PS14(a)=–9 although they met the conditions defined in CK_PS14(a)=1.

CK_PS14(a)   R ADMINISTERED 'PM' QUESTIONS (NOT 'PZ')

Value	Label	Incorrect Skip	Intended / Correct Skip

fn9

The skip instructions for fn9 = 5, 8, and 7 are incorrect. Five cases in FA1 were affected by this error.

Value	Label	Incorrect Skip	Correct / intended skip
1	YES		BOX fn10(a)

7	REFUSED	ff12	fn12

rr50

The CATI program contains an error in the skip instructions for question rr50. The responses "mildly concerned" (1), "somewhat concerned" (2),"DON'T KNOW" (8), and "REFUSED" (7) should have proceeded to question rr52 instead of CK_RR57. As a result of this error respondents were not asked about the attempts to locate the missing (runaway or thrownaway) child. This error affected 36 cases in RA#1.

rr50   At the point you were most concerned, which of the following best describes how concerned you [or the other person in your household] were about where [CHILD'S NAME / CHILDREN'S NAMES] [was / were]?

Value	Label	Incorrect Skip	Correct / intended skip

rc 50

The CATI program contains an error in the skip instructions for question rc50. The responses "mildly concerned" (1), "somewhat concerned" (2),"DON'T KNOW" (8), and "REFUSED" (7) should have proceeded to question rc52 instead of CK_RC57. As a result of this error respondents were not asked about the attempts to locate the missing (runaway or thrownaway) child. Two cases in RA#2 were affected by this error.

rr50   At the point you were most concerned, which of the following best describes how concerned you [or the other person in your household] were about where [CHILD'S NAME / CHILDREN'S NAMES] [was / were]?

nz2(a)

The CATI program contains an error for nz2(a)=1 and nz2(a)=5. The incorrect instructions are shown below. Two NFA2 cases were affected by this error.

nz2(a)   Has [CHILD'S NAME] been found or returned from this episode?

Value	Label	Incorrect Skip	Correct / intended skip

nn10(a)

The skip instructions for nn10(a) = 8, 96, 97, and 98 are incorrect. Fifty-five NF1 cases were affected by this error.

nn10(a)   Now I'm going to read a list of relationships. Which of the following best describes how the person (most) responsible [is / was] related to the [child / children] involved in this episode:

97	REFUSED	CK_NN14	nn12

gg(a)25

The skip instructions for the values 8, 97, and 98 in question gg(a)25 are incorrect. These values were intended to proceed to CK_GG(a)34 instead of gh(a)24, a question from the GM2 Follow-Up Interview. Since questions gg(a)25 and gh(a)24 are rostered by child (i.e., applied to all children listed in the household roster) the effects of the error were to skip the remainder of the GM1 follow-up questions for the current case and to overwrite data for questions gh1a through gh(a)24 in the GM2 Follow-Up Interview if a GM2 Follow-Up was administered. One GM1 case was affected; no GM2 cases were affected.

gg(a)25   Now I'm going to read a list of relationships. Which of the following best describes how the person (most) responsible for the assault was related to the child involved in this episode:

Value	Label	Incorrect Skip	Correct / intended skip

CK_GG(a)65

The CATI program contains a skip instruction error for CK_GGgg(a)65 = 5. The effects of the error were to skip the remainder of the GM1 follow-up questions for the current case and to overwrite data for questions gh1a through gh(a)24 in the GM2 Follow-Up Interview if a GM2 Follow-Up was administered. One GM1 case was affected; no GM2 cases were affected.

gg(a)68

The CATI program contains a skip instruction error for question gg(a)68=1. No GM1 cases were affected by this error.

5	NO		CK_GG(a)69
8	DON'T KNOW		CK_GG(a)69

CKGG(a)732

There are three errors in CKGG(a)732. The first is the reference to gg(a)67 in the logical conditions for CKGG(a)732=1. This is incorrect because gg(a)67 refers to the first accomplice, not the second accomplice as intended. The second and third errors occur in the skip instructions. Question gg(a)69 is incorrect because it applies to the first accomplice, not the second accomplice as intended. The reference to CK_GG(a)44 is incorrect because it applies to the second accomplice instead of the third accomplice as intended. No GM1 cases were affected by these errors.

gg(a)60

The skip instruction for the value gg(a)60=5 is incorrect. No GM1 cases were affected by this error.

Value	Label	Incorrect skip	Correct / intended skip

5	NO	gg(a)61	gg(a)78_1

gg(a)62

The skip instructions for all responses to question gg(a)62 are incorrect. All responses should have proceeded to gg(a)77_2. No GM1 cases were affected by this error.

Youth Data

yp52, yp53

Due to an error in the CATI program question yp53 in the Youth FA Follow-Up has no lead-in questions. Therefore yp53 contains no data. All 29 Youth respondents who answered question yp52 should have proceeded to question yp53. The intended skip instructions are shown below.

yp52   Did your [parent / parents] (or [caretaker / caretakers]) (at the household where you were supposed to be) have any contact with [the [person / persons] responsible for this episode] at any time before you were returned?

Unlike the parallel items in the other Follow-Ups (e.g., CK_RR57), CK_FF93 and CK_FF93(a) refer only to the return of the child, not whether the child has been found. However, since the duration questions following these FA check items are the same as in the other Adult Follow-Ups the inconsistency has no bearing on the data.
