December, 1974

To the Honorable Chief Justice and  
Associate Justices of the Supreme Court of Michigan

Here is the annual report for the courts for the fiscal year, July 1, 1973—  
June 30, 1974. Previous annual reports of Michigan courts were prepared for  
calendar years. This report is the first to be submitted for the fiscal year to  
bring the annual report of the Court Administrator's Office into conformity  
with the majority of other state offices. The 1973-74 report is in brief form,  
providing primarily statistical reports so that fiscal reporting will be estab-  
lished for the future.

ANNUAL REPORT

PROBATE COURT

The following report was prepared from data produced by the Child Care and Placement Information System (CCPIS), the computerized system which provides information about the nearly 30,000 children under the care of the Juvenile Division of the Probate Court, the Department of Social Services and privately operated child care agencies in Michigan. Approximately 51% of the children reported to CCPIS are under the direct supervision of the Juvenile Division of the Probate Court with another 22% continuing as wards of the Juvenile Court while under the care of DSS or private agencies. Information supplied to CCPIS throughout the year by each county Juvenile Court concerning children under their care is the principle source of data in this report.

It should be noted that this annual report is for fiscal year 1974, in contrast to the calendar year reports produced previously. Therefore, tables which are included with year-to-year comparisons reflect a six month overlap. Because the data base remained the same as in 1973, a decline in some of the 1974 totals suggested that incomplete reporting may have occurred. Consequently, as in 1973, each of the 83 county courts were contacted and asked either to validate CCPIS data (which was presented) or to supply local figures more accurately reflecting the court's yearly activity. The tables which follow take into account the adjustments authorized by individual courts.

#### Juvenile Court Caseload Activity

New Cases — petitions which were authorized by the court are shown in Table I. These figures represent the delinquent, neglect and adoption petitions authorized on a statewide basis.

Table I Petitions Authorized by Type — 1970-1974.

	Delinquency	Neglect	Adoption	Petitions Total
1970	14,594	5,633	8,371	28,598
1971	14,442	5,436	8,065	27,943
1972	13,902	5,293	5,382	24,577
1973	21,786	3,943	7,386	33,097
Fiscal 1974*	21,333	4,584	7,015	32,932

\*Workers reported on CCPIS only 15,313 Delinquency, 3,706 Neglect and 4,792 Adoption Petitions; consequently all probate courts were contacted to obtain the above figures.

It is well to note that the figures in Table I represent only those cases accepted for formal action by the court. A considerable portion of staff time and effort is devoted to investigations on cases being considered for formal court action. In addition, the court may provide supervision and service to

cases on an informal basis, by consent of the family. During fiscal 1974, Michigan Juvenile Courts reported more than 5,000 cases serviced on an informal basis.

#### Juvenile Court Caseload Profile for Fiscal 1974

Table II represents the number of children reported as newly active cases, the number of children whose cases were closed, and the number of children continuing active on the court caseload, on a monthly basis. The statistics represent the number of children active on the court caseload, not necessarily the number of cases. (Neglect cases are handled on a family basis, and one neglect case may involve several children.) These statistics do not include court wards under the supervision of private and public agencies.

\*Openings minus closings added to continuing active may not balance exactly because it is possible for a child to have been opened more than once during a month, or opened temporarily while active in another agency.

#### Legal Status and Living Arrangement of Children Active at the End of Fiscal 1974

To summarize Table III, there were 15,319 cases involving children active on the Juvenile Court caseload at the end of June, 1974. Of this population, 2,450 or 16%, were in preadjudication status; 6,551, or 43%, were active as delinquency cases; 3,066, or 20%, were involved in neglect cases; 1,562, or 10%, were active as adoption cases; and 1,690, or 11%, were in voluntary, other, or unspecified status.

These statistics do not include court wards under the supervision of private and public agencies.

#### Secondary Caseload Responsibility

In addition to those children for whom the Juvenile Court provides direct supervision, the court has a continuing responsibility for those court wards placed with other agencies throughout the state.

This secondary responsibility continues until the court ends its jurisdiction.

#### Court Child Care Fund

The Juvenile Court is responsible for the financial support of its wards in placement outside their own homes when the cost of such care is beyond the family's ability to pay. During fiscal 1974, the Court Child Care fund was utilized for the partial or total financial support of an average of 5,500 children per month.

Total reimbursement from the state to the Court Child Care fund for care of court wards during fiscal 1974 was approximately \$10,500,000 which resulted in an average cost of \$160 per ward per month.

### Dispositions

Dispositions in Juvenile Court are very often not final in the sense that the court ceases to have any responsibility for a child. For example, the court retains jurisdiction to supervise when children are placed in their own home, on probation, in foster care, or in an institution. Michigan Juvenile Courts reported dispositions of this type as shown in Table V during fiscal 1974.

### Adoptions

The Probate Court has responsibility for the legal authorization of petitions for adoption, and for confirmation of adoptions. The court is responsible for investigation of in-family adoptions, and final confirmation of all non-relative adoptions where placement and supervision is handled by other agencies. Table VII shows demographic information on children for whom adoption petitions were confirmed during fiscal 1974. Table VIII gives types of confirmed adoptions by birth status, and the number of adoption petitions confirmed, denied and withdrawn are shown in Table IX.

### COMMON PLEAS COURT

From July 1, 1973 through June 30, 1974, 128,557 cases were instituted — an increase of 2,688 over the previous year.

In the past year, judgments totalling \$23,956,945.72 were entered in 64,891 cases. This was an increase of \$324,154.39 in dollar volume and the number of judgment cases increased by 1,738 cases over the previous year.

On July 1, 1973, 4,433 cases were at issue and awaiting trial. On July 1, 1974, 4,587 cases were at issue, an increase of 154 cases.

The nine judges in the Common Pleas Court-East, plus the four judges sitting in the Common Pleas Court-West (Landlord-Tenant Division) averaged 229 session days worked during the fiscal year July 1, 1973 - June 30, 1974.

#### PARTIAL PAYMENT DIVISION

The Court's Partial Payment Division, a service that permits persons owing judgments to pay them in installments to avoid wage garnishments, entered orders in 8,160 cases in 1973-74, a decrease of 968 below the previous year. During the year 759 cases were paid in full, a decrease of 358 cases.

Because of failure to maintain correct partial payments this privilege was cancelled for 5,257 defendants.

#### SMALL CLAIMS CONCILIATION DIVISION

The Court's Small Claims Conciliation Division completed its seventh year of operation on June 30, 1974. Plaintiffs, acting without attorneys, started 2,905 cases during this period, an increase of 210 over the 2,695 cases the previous year. This division was formed to provide for the adjusting, in an informal manner, of controversies involving \$300 or less.
