SUMMARY OF A YOUTH ASSISTANCE SERVICE SYSTEM

In August, 1971, the Office of Youth Opportunity Services submitted to Mayor-Commissioner, Walter E. Washington, a "Comprehensive Plan" for the Prevention, Control and Treatment of Juvenile Delinquents. This plan, entitled "Youth Assistance Service System", was developed under a planning grant from the Department of Health, Education, and Welfare and guidelines were established by the Juvenile Delinquency Act of 1968. This effort also embraces the significant and relevant principles embodied in Public Law 91-358, "Reorganization of District of Columbia Courts" as they relate to and impact upon youthful residents of the District of Columbia.

The purpose of this Comprehensive Plan is to provide a guide and a format through which services for children and youth can be readily identified and utilized, and further enable youth to function successfully in society and prevent them from engaging in anti-social behavior and delinquent acts.

The "Youth Assistance Service System", which has as its operational nucleus the 9 Youth Assistance Centers, is essential as we move to reduce delinquency in the District of Columbia in that these centers may be instrumental in diverting youth from the Juvenile Justice System. Our Pilot Youth Assistance Center has been funded by a L.E.A.A. FY-72 block grant and is scheduled to be operational by the fall of 1972. Grant applications are being reviewed by the Model Cities Commission for two Youth Assistance Centers in the Model Cities Area. Private foundation grants are being prepared for a Youth Assistance Center in the Georgetown Area. The FY-73 District of Columbia Budget request includes funding for continued operation of five Youth Assistance Centers, that would be initiated under grant funding, and projections to expand over the next four years, until all nine Youth Assistance Centers are fully operational.

The establishment of the Youth Assistance Service System in the District of Columbia would most assuredly have national significance as an operational model for Delinquency Prevention that could be readily inspected by planners from neighboring states in our region: Maryland, Virginia, Delaware, Pennsylvania, and West Virginia. Implications of this model in the District as to accessibility for the seat of our Federal Government further amplify the impact on a National Scale.

One essential factor in the establishment of a Youth Assistance Service System is the development of community ties that would enhance and attract funding from varied sources. The Office of Youth Opportunity Services is fortunate in this regard in that we have a history of community based multiple funded projects over the past four (4) years. Our prime linkage with the citizenry is through the Neighborhood Planning Council structure. However, as the centers are firmly established, a closer linkage will be provided through our twenty two (22) Youth Courtesy Patrols. These patrols will be an integral component of the centers' out-reach team. Members of these patrols, who are community youth themselves, will be able to readily identify other youth who are most in need of the services provided by our Youth Assistance Centers.

YAC PROCEDURES

1. The Receptionist- opens the mail and matches up any #2 copies of the Initial Referral Form with existing cases on file. Thus the match will be completed and returned to the referral source. Others will be held until copy #1 is received. All Referral and Enrollment Forms or Status and Termination Forms will be sent directly to the Filing Office(s).

2. The youth will enter in one of three (3) ways:

- a. As a walk-in If the youth enters this way, the Receptionist - fills out the Initial Referral, retains copies #2 and #3 in a file at her desk, and has youth obtain parent's signature on copy #1
- b. Accompanied by referral person - Referral person fills out Initial Referral and obtains parent's signature. Receptionist - returns copies #2 and #3 to referral person.
- c. With copy #1 of Initial Referral - Receptionist- examines copy #1, filling in codes where necessary, and checks for parent's signature. She then searches files for copy #2. If available, she completes and mails to referral source. If not yet available, notation is made to mail it upon receipt.

3. The Receptionist - embosses a master plate, imprints, a photo source card and has youth to sign. The source card is placed in the photographers in-box (behind her desk) at the bottom of the stack and the youth is asked to be seated in the Waiting Room.
4. The Receptionist - imprints an Intake Diagnostic Form and inserts copy #1 of the Initial Referral, the embossed Master Plate and the Intake Diagnostic Form in a file folder
5. The Photographer takes a Photo Source Card from the top of the stack, calls the person's name imprinted there and takes the picture. He then hands the youth his ID Card and asks him to return to the Receptionist.
6. The Receptionist turns over the folder to a Screening Counselor as one becomes available.
7. The Screening Counselor designates the necessary services and schedules the youth to see the examiners in turn, escorting the youth and hand-carrying the folder.
8. After examinations are completed, the Screening Counselor either arranges for enrollment in the prescribed program or turns the youth over to the Outreach Section.
9. After all action is completed or before the youth is released for the day, the Counselor or Outreach Workers perform an Exit

Interview, giving the youth some idea of what he is to expect.

10. Each youth is then scheduled by the Outreach Section, for further contact.

(To be completed for outside referrals only.)

This card (example attached) is to be initiated at the Youth Assistance Center after the young person has completed the diagnostic services prescribed by the referring person or agency and the counselor at the Youth Assistance Center.

A card is prepared for each outside referral program prescribed for the youth. Ten cards are possible for the ten services on the Intake Diagnostic Form.

The counselor, using the embossed identification/address card, which was prepared from the Initial Referral Form when the youth entered the Center, will imprint the required number of Service Referral Cards with the youth's name and identification information in the proper space on the front of the card.

The addresses of the service agencies will be taken from the Diagnostic Services Form and written on the top third of the back of the Service Referral Card. Then, also using the Diagnostic Services Form for reference, the counselor will write in the type of service, the problem code and the referral program code on the front of the card. The counselor will then enter his name and phone number.

The cards are either mailed to the Referred Service or given to the young person to hand carry to the agency.

At the agency, the requested information will be entered (see example attached. Instructions are on the card). The top third of the card will be torn off (perforated), the card folded and stapled, and mailed back to the 24 hour Youth Assistance Center.

A copy of the card will be made for data processing and sent to the Youth Opportunity Services.

Instructions for the portion to be filled out by the person enrolling the youth in the program are as follows:

DATE YOUTH REPORTED - Enter the date that the youth reported for his scheduled appointment. All single digit numbers should be preceded by zero.
