INTRODUCTION

This report presents key workload and performance statistics for each United States court of appeals and each district court for the years ending June 30, 1972 through 1977. The data are presented in a "statistical profile" format and all information pertaining to a particular court is contained on a single page.

For the district courts workload figures are in "per judgeship" terms obtained simply by dividing the court's total caseload figures by its authorized judgeships. The courts of appeals figures are shown in "per panel" terms obtained by dividing the total caseload figures by the number of authorized three-judge panels. These computations allow individual judges to match their experience against judge performance averages in their own and other courts. Also, given this common denominator, caseloads in different size courts can be compared with court size becoming almost irrelevant in the comparison.

On the last page are judiciary-wide caseload and performance averages for district courts. A similar national profile for courts of appeals is located on the last page of the circuit court section. The figures on these two pages can be regarded generally as helpful "norms" of federal judicial work at this time. However, in fairness, these averages should not be used to evaluate courts in which there are abnormal local circumstances such as long-term judgeship vacancies, an unusual number of long or difficult cases in process, or a relatively high number of senior judges augmenting regular judgeship strength.

The two following pages provide detailed explanations of the "statistical profiles." Page 13 and the last page of this report present additional discussions of the changes which have been made this year, and a more complete explanation of specific workload statistics. Please refer to these pages before using the statistics in this report.

* ACTIONS PER JUDGESHIP

| | | | |
|------------------|---|--|---|
| FILINGS | Total | ALL FIGURES IN THIS SECTION ARE OBTAINED BY DIVIDING THE TOTAL STATISTICS FOR THE COURT BY THE NUMBER OF AUTHORIZED JUDGESHIPS. Excludes all minor and petty offense criminal cases for 1976 and 1977. | Total civil and criminal cases filed |
| | Civil | | Includes all civil cases filed |
| | Criminal | | Includes all criminal cases filed whether by indictment, information, or transfer. |
| Pending Cases | Total pending cases at the end of the year. | | |
| Weighted Filings | This figure is a mathematical adjustment of filings which gives heavier count to cases known to be of a more difficult and time consuming nature. | | |
| Terminations | Included all terminated cases, civil & criminal, tried and not tried, disposed of during the year. | | |
| Trials Completed | | | Total trials completed, including evidentiary trials, hearings on temporary restraining orders and preliminary injunctions. |

MEDIAN TIMES (MONTHS)

| | | |
|---|----------|--|
| From Filing to Disposition | Criminal | For all criminal defendants and all civil cases except land condemnation, habeas corpus, deportation reviews and motion to vacate, terminated during the year whether by trial or other disposition, this figure shows the time interval in months for the middle (median) case. When the District had less than 25 terminations the median case was not computed. |
| | Civil | |
| From Issue to Trial (Civil Only) | | For civil cases, except land condemnation, going to a trial during profile years, this figure shows the time interval in months for the middle (median) case. |

OTHER

| | |
|--|---|
| Number (and %) of Civil Cases Over 3 Years Old | Total number of civil cases, except land condemnation, pending three years or more as of the end of the year and the percentage these same cases represent of total civil pending caseload. |
| Triable Defendants* in Pending Criminal Cases Number (and %) | This figure excludes defendants which are not triable for reasons such as being fugitive or mentally incompetent. It also excludes defendants already tried but not yet sentenced. Data for 1972-1975 reflect only defendants pending in cases over one year old. |
| Vacant Judgeship Mos. | Number of months during profile year that an authorized judgeship was not filled. |
| Juror Usage Index | The number of jurors available per jury trial day. |
| % of Jurors Not Serving | Percentage of juror attendance days in which juror did not serve on any actual trials. |

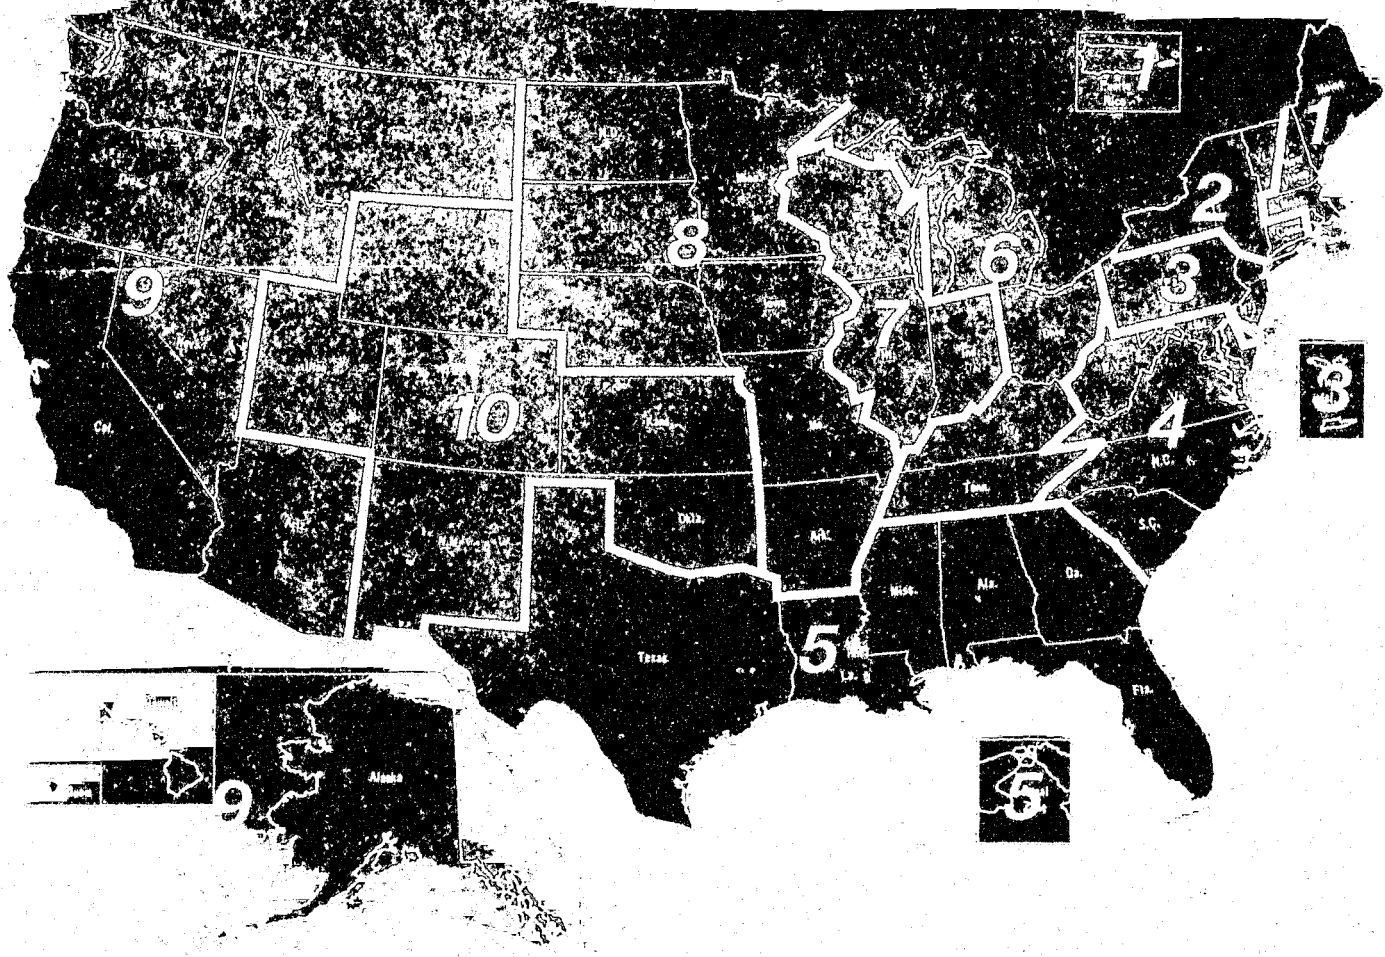

*See note on foldout at back cover.

WHAT THE DISTRICT'S NUMERICAL STANDINGS MEAN

These show where a court's workload condition stands both in relation to other districts in the circuit and to all other districts in the country. All ninety-four districts have been mathematically arranged in a ranked order with respect to each of the indices of workload or performance found on the profile. For example, a given district -- on a per judgeship basis -- may have the nation's tenth highest number of filings but the 20th highest number of terminations and the 5th highest number of pending cases. If there is a tie at a particular standing, then each of the tied courts receives the same standing designation. All "workload" statistics are ranked in descending order (highest value receives rank of 1) and all other statistics are ranked in ascending order (lowest value is ranked first). In some cases fewer than 94 courts were ranked because some of the "profile" indices are not available for all courts.

ACTIONS PER PANEL

In prior years the workload statistics for the courts of appeals were presented as "action per judgeship". This year the statistical profile has been changed to reflect "action per panel". The new profile provides a more accurate indication of the workload of an individual judge since appeals cases are generally handled by a panel of three judges rather than one.

TERMINATIONS AFTER HEARING OR SUBMISSION

In order to provide a greater measure of uniformity in the presentation of judicial workload, the selection criteria was revised in 1974 in respect to those cases considered terminated after oral hearing or submission. These criteria were the following:

1. filing of the complete record,
2. filing of briefs pursuant to Rule 28, Federal Rules of Appellate Procedure,
3. a reported date of either an oral hearing or submission, and
4. reported date of termination.

If a case reported terminated included the above data, it would be included in the "after hearing or submission" category. Any record deficient in any of the above would be included in the "without hearing or submission" group.

CASE PARTICIPATIONS

The data shown in this report under the "Case Participations" caption for 1975-1977 include participations in both orally argued appeals and appeals submitted on briefs. Prior to 1975 the data reflect only participations in orally argued cases.

For the purposes of the statistics in this report, a case participation by an individual judge is defined as an appeal in which the judge hears oral argument or where the appeal is submitted on briefs. Thus, where a single appeal is heard before a panel of three judges, the number of participations would be three.

UNITED STATES DISTRICT COURTS - NATIONAL STATISTICAL PROFILE

CRIMINAL WORKLOAD STATISTICS

For the last two years, the district courts have included in the reporting of criminal cases the number of minor offense cases filed in the federal courts in addition to the number of felony and misdemeanors above the minor offense level. This additional reporting resulted from the Speedy Trial Act of 1974 (P.L. 93-619) required the courts to maintain records on all offenses above the petty offense level. Since the majority of minor offense cases are handled by magistrates in the federal court and because this report is primarily a statistical statement reflecting the workload per authorized judgeship, the minor offense cases have been excluded from the 1976 and the 1977 data. The 1976 "Management Statistics" report included all levels of offense; however, these figures have been adjusted for the 1977 report to exclude minor offenses. The exclusion of cases from the workload statistics has been done in an effort to make the 1976 and 1977 data more comparable to previous years' data which did not include most minor offense cases.

WEIGHTED FILINGS

The statistics shown under the "Weighted Filings" caption should be used with caution. There have been numerous changes in the statistical systems which will have an effect on the weighted filings index. In addition, the weights which are used to compute the index are becoming increasingly out-of-date. The weights were developed on the basis of a 1969 time study and many changes have occurred in the court system since that time. The Federal Judicial Center is now exploring the possibility of revising the weights; however, until this is accomplished the weighted filings should only be used with a full knowledge of their limitations.

TRIAL DEFENDANTS IN PENDING CRIMINAL CASES

In 1976 the Administrative Office began maintaining data on the status of every criminal defendant whose case was pending at the end of the year. The data since 1976 shows the number of defendants considered triable; i.e., available for final plea or trial by judge or jury as of June 30 and the percentage of the total pending caseload accounted for by these defendants. The figures exclude defendants awaiting sentence, those committed for observation and study, and fugitive defendants. Also excluded are defendants who cannot be tried under applicable provisions of 18 U.S.C. 3161(h) of the Speedy Trial Act of 1974. These provisions result in a non-triable status often brief in nature.

Data for years prior to 1975 represent only defendants pending in criminal cases which were more than one year old at the end of the year, and, therefore, are, not comparable to the data of 1976 and later.
