MADISON POLICE

P.O. BOX 1188 WISCONSIN, 53701 (608) 266-4275

The Honorable Paul R. Soglin, Mayor, and
Members of the Common Council
City-County Building
Madison, Wisconsin 53709

During the past year, the Department continued to respond to the many and varied requests of our community. In 1977; we received approximately 100,000 calls for police services. As usual, the nature of these calls for service included a mix of problems--some unpredictable, some anticipated.

We noted strong expressions of interest coming from the community requesting continuing attention to neighborhood oriented problems, such as vandalism and traffic enforcement. Requests were received for foot patrol in neighborhoods throughout the City and in our parks, where we attempted to prevent vandalism to city recreational facilities.

Unpredictable problems continue to challenge the Department's ability to respond with flexibility, creativity and tolerance. Examples of these situations last year included sexual assaults in the central Madison area; the State employees strike; the strike against Madison Newspapers, Inc.; the motorcycle helmet rally which brought thousands of motorcyclists to the State's Capital in protest of protective headgear legislation; the increasing concern about the growth of commercial sexual services; interstate gambling and auto theft activities which were investigated by special multi-jurisdictional task forces.

The Department trained officers in the important functions of cardiopulmonary resuscitation (CPR) as part of our annual in-service training program. This training directly benefits our community by increasing the emergency medical skills of officers. We apprehended over 1,100 persons who were operating vehicles on our city streets while under the influence of intoxicants. We were awarded a victimization grant to examine the actual amount and extent of crime within our city, which will help us make decisions regarding the allocation and distribution of our resources. Officers continued attending community meetings, and responded with other city officials to identified community problems.

Other highlights include the recruitment and hiring of a new group of probationary police officers; the relationships which have developed between detectives assigned to our Youth Aid Section and high school administrators throughout the city in an attempt to identify and respond to specific school-related problems; the participation of top management of the Department in a specific training and development program designed to facilitate more effective team work, and to increase abilities to identify and respond effectively to departmental concerns; and the close and cooperative relationships which continue to develop between officers and social service and health care professionals in our community as a result of mutually responding to a variety of situations involving individuals who are unable to cope or care for themselves because of addiction to chemicals, crisis situations, or mental illness.

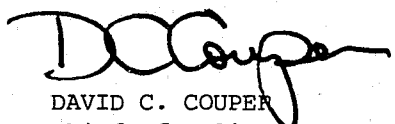

The Objectives of the Department are to: Protect constitutional guarantees for all persons • Create and maintain a feeling of security in

The Honorable Paul R. Soglin, Mayor, and
Members of the Common Council
Page 2

I believe that the city can be very proud of the recent hiring process for police officers, not only because of the quality of the persons subsequently employed, but also because we were again able to meet and exceed our affirmative action goals. Nearly 2,000 persons requested applications for employment. From this group, we processed over 700 persons in order to select 20 persons for probationary appointment. They included five women and six minority officers.

In short, this year has provided some unique challenges and opportunities to demonstrate and improve our abilities to respond to the many and varied requests for police services in our community. The men and women of the Department should be commended for their continuing efforts in pursuit of performance excellence while responding to those requests.

I believe it is also important to mention the very real contribution that our citizens make toward creating an atmosphere within the community that is conducive to good policing. That atmosphere is based on the expectation of quality police services, the reporting of suspicious persons and situations, the desire for neighborhood cohesiveness and a general feeling of concern for one's neighbor. We are grateful for this not only because of its contribution to the overall quality of life in the community, but also because it improves our ability to effectively police our community.

DAVID C. COUPER
Chief of Police

DCC:lcp

COMMENDATIONS

The following list of citizens received letters of commendation from the Chief of Police for assisting officers in a variety of ways in the performance of their duties during 1977.

PATROL SERVICES DIVISION

* - Lieutenant works 3-days First Detail, 3-days Second Detail

** - Lieutenant works 3-days Fourth Detail, 3--days 7:00 PM - 3:00 AM.

The above represents the personnel assigned to Patrol Services as of December 31, 1977

PATROL SERVICES DIVISION

The Patrol Services Division is responsible for providing the City with twenty-four hour service with uniformed officers. The City is divided into sectors and districts which permits flexibility of deployment of available personnel resources to gain maximum effectiveness. Officers of the Patrol Services Division provide the initial response to all types of calls for service.

The Patrol Services Division participates in general and specific policing activities. Some of these activities are: routine patrol and response to requests for police service; traffic enforcement, and traffic accident investigations; initial investigations of crimes committed; crisis intervention and conflict resolution and officer/community involvement.

This Division is becoming increasingly involved in community/neighborhood meetings, events and problems. The approach is aimed at a positive and proactive style, and officers are encouraged to institute many positive informal contacts. Through this vehicle, the Department will take a more emphatic and responsive role in the needs of the community and, hopefully, better understanding will be fostered by both the officers and citizens.

In order to respond to identified community needs, a formalized system of handling traffic related complaints was continued, as well as the three-officer radar team. Patrol Officers have maintained a very high level of enforcement of the laws pertaining to operation of motor

vehicles while under the influence of an intoxicant.

District officers are responsible for most traffic enforcement, including the areas of vehicle safety, bicycle and pedestrian safety.

All officers are trained in the use of radar speed detectors, and they were used by district officers as needed in addition to the radar team deployment. Foot patrols were also utilized, and Patrol Services provided officers for traffic direction at football games, and other special events.

During the summer, off-duty officers were employed to patrol the City parks during hours of heavy park use, and those hours when vandalism is most likely to occur.

PATROL SERVICES DIVISION ACTIVITY REPORT

SUPPORT SERVICES/TRAFFIC BUREAU

The above represents the personnel assigned to Support Services/Traffic Bureau as of December 31, 1977.

SUPPORT SERVICES/TRAFFIC BUREAU

Traffic Information and Investigation Section

This section has the primary responsibility to observe and study, working closely with Traffic Engineering, traffic conditions in order to locate problems to be solved or conditions which may be improved. Supervisory personnel work in a liaison role with other government and private agencies in the resolution of traffic problems.

It is responsible for enforcement of parking regulations, the enforcement of all City Ordinances and State Statutes, follow up investigations on all unsolved hit and run accidents, late reported accidents, and fatal accidents.

It is responsible for the supervision of adult school crossing guards and parking monitors.

The Clerk Steno also assists with phone answering and secretarial duties for the Social Services Coordinator, Special Operations Section, Police Community Relations Specialist, Crossing Guard Supervisors, and Public Safety Unit.

FATAL TRAFFIC ACCIDENTS

6 FATAL ACCIDENTS

6 PERSONS KILLED

1. LOCATION 1800 block E. Washington Avenue
 DATE January 29, 1977
 TIME 12:57 A.M.
 INVOLVING 2 cars and a fixed object

The fatal vehicle was westbound on E. Washington Avenue when it was sideswiped by a hit and run car. It then hit a light pole. A hitchhiking passenger, a male, age 22, died shortly after arrival at the hospital from injuries received in the accident. The driver was drinking but not under the influence.

2. LOCATION 4600 block Verona Road & Frontage Road
 DATE April 27, 1977
 TIME 3:27 P.M.
 INVOLVING One truck and a bicycle

The male bicyclist, age 47, on the frontage road started to cross Verona Road against a red light and was struck by the truck. The cyclist was dead on arrival at the hospital due to injuries received.

3. LOCATION 3700 block E. Washington Avenue
 DATE May 4, 1977
 TIME 11:28 P.M.
 INVOLVING One car and a pedestrian

A male pedestrian, age 62, crossing mid-block in the rain was struck and fatally injured. The pedestrian was under the influence with a test of .21 percent blood alcohol content.

4. LOCATION 5100 block W. Beltline Hwy.
 DATE May 6, 1977
 TIME 1:57 P.M.
 INVOLVING One car and a pedestrian

The male pedestrian, age 78, crossed the highway into the front of the auto. The pedestrian was under the influence and despondent over the recent death of his wife.

5. LOCATION 6400 block Bridge Road
 DATE August 21, 1977
 TIME 1:17 A.M.
 INVOLVING A motor cycle and 2 trees

A 19 year old motorcyclist riding at night in violation of his learners permit at extreme high speed passing cars on the right struck the curb and two trees. The cyclist died a short time later at the hospital. He was under the influence with a blood alcohol content level of .175.

6. LOCATION 1700 block Northport Drive
 DATE September 18, 1977
 TIME 7:58 P.M.
 INVOLVING A van and a pedestrian

The van was driving southeast on Northport when the pedestrian crossing mid-block stepped in front of the vehicle. The driver was unable to avoid the pedestrian. Neither party was drinking.

COMMUNITY RELATIONS SECTION

Progress, it is noted, is best achieved through total commitment of one's positive thoughts and deeds. With this philosophy as its guiding light, the Community Relations Section has attempted through a supportive manner to seek department involvement in matters pertaining to community police relations.

The Community Relations Section consists of a Community Relations Specialist, part-time study students from the University of Wisconsin-Platteville, and is assisted periodically by officers from the Special Operations Section.

The majority of programs for 1977 were not new in nature, but continued to be very popular among community residents.

The ride-along program which provides community residents age 15 and over an opportunity to ride with police officers during their tours of duty, once again proved to be very popular. In 1977, there was a total of 300 ride-alongs, 10 less than in 1976, representing a 3.3% decrease. The ages of the participants ranged from 15 to 53, with 70% of the total ride-alongs being represented by the 20 to 22 year age group.

Thirty-five tours of the Madison Police Department were conducted in 1977 as opposed to 80 in 1976, representing a 56.2% decrease.

In 1977, department personnel were credited with having given 715 speeches which covered a wide variety of subject matter. This represents a 74.4% increase over the 410 personal appearances made by department personnel in 1976.

The 1977 Internship Program consisted of four student interns from the University of Wisconsin-Platteville and one graduate student from Arizona State University. This program once again proved to be very successful, with reciprocal benefits gained by both the department and interns alike. The interns were placed in the various bureaus and sections throughout the department. Their internship ranged from six to eight weeks in duration, with periodic and terminal evaluation. All indications are that the program will be continued in 1978.

The program developed and implemented in 1976 to educate senior citizens in ways to protect themselves against falling victim to any criminal activity continued to be very well received in 1977, as is exemplified by the fact there were over 1,000 requests for personal appearances by department personnel at a variety of senior citizens functions.

In 1977, The Community Police Relations Committee, an advisory group to the Chief of Police, continued to function in its role as impartial observers during potential conflict situations and to mediate to prevent escalation of a crisis whenever possible. Committee members reviewed new and existing Madison Police Department policies. They also took part in community meetings to give and receive valuable insight into potential or existing community problems.

The major goal of the Community Relations Section in 1978 will continue to be the development of better understanding and cooperation between the Madison Police Department and the community.

SOCIAL SERVICES COORDINATOR

The Madison Police Department's continued effort in dealing openly and cooperatively with community social services agencies, and the success with which these efforts have met, is probably without precedent throughout the state. This cooperative effort results in a more coordinated delivery of services to the community, and increases the probability that those troubled individuals in need of community services will receive them.

The reason for this success is really three-fold. Initially it requires the recognition by police administration that an effective police agency can not function independent of all other community resources, and a willingness of the administration to commit the resources necessary to develop these relationships. It then requires a network of community resources that understands the needs of the police and sees the benefits in working with the police agency. These benefits include but are in no way limited to: the police officer as an outreach or primary case finder, the officer's 24 hour a day availability, and the practical experience and theoretical training of the police officer as an effective crisis intervener. The third essential component needed in this system is the patrol officer. He or she needs to be sensitive to the needs of others, able to make sound evaluations and referrals, and perhaps most importantly, be able to recognize that dealing with social problems is a proper and necessary role for a police officer to assume. Madison is fortunate to have all three components existing concurrently and functioning well.

Two practical examples of this coordinated effort deal with the Rebos Reception Center and the Dane County Mental Health Center's Crisis Intervention Service. During 1977 the Madison Police Department made over 850 referrals to Rebos, this county's alcohol detoxification center. These referrals amounted to approximately 90% of all law enforcement referrals to Rebos and 35% of Rebos' total referrals. The department, and in particular the patrol officers, deserve a great deal of praise in their meeting the intent of the Uniform Alcohol Treatment law, often doing so under very trying conditions. The staff at Rebos also deserve a lot of credit, as they were genuinely committed throughout the year to working cooperatively with the department.

The Madison Police Department and the Crisis Intervention Service of the Dane County Mental Health Center enjoy a working relationship that is perhaps unique throughout the United States. During 1977 the Social Services Coordinator has monitored over 500 referrals to Crisis Intervention. Many of these referrals were made by the uniformed officer in the field while still in contact with the subject in need. These referrals are frequently necessitated by the subjects mental instability, threats or attempts at suicide, depression or other crisis. In these cases, the ability of the officer to be sensitive to the individuals needs and to recognize the necessity of contact or follow up by a mental health professional is essential. Feedback from the Crisis staff indicates that Madison Police Officers are sensitive and possess a high degree of skill in this area. The Department's success with the Crisis Intervention Service is also a result of the competence of the Crisis staff and the respect the officers have for them, Crisis' 24 hour a day availability, and the Crisis staff's ability to relate to the concerns

of the police officer.

Other areas of responsibility of the Social Services Coordinator involve training of law enforcement, social service, and community persons in such areas as chemical abuse, crisis intervention, and the handling of emotionally disturbed and developmentally disabled individuals. The coordinator has made presentations to such diverse groups as Boy Scout Troups, grade and high school students, law school students, public library personnel, and parent groups. One area where progress has not been satisfactory is in the development of an Employee's Assistance Program, designed to offer assistance to employees and their families in times of personal upheaval. However, it appears that the program should be functional by spring if all proceeds as planned.

1978 will see a continuation of this department's commitment to meeting the needs of the community through the departments coordinated efforts with other community agencies. New community programs are anticipated, one specifically designed to deal with the chronic alcoholic, an immense problem to the entire system. The Department is looking forward to the realization of these programs. The Department is also looking at methods of sharing its present successes with other law enforcement and community agencies throughout the state so that others might realize some of the possibilities this department has experienced in helping develop a delivery system that puts real meaning back into the words "cooperation and coordination".

SPECIAL OPERATIONS SECTION

The Special Operations Section functions in a supportive role to other bureaus and sections of the department. The section provides a trained manpower response to special situations and problems. It identifies and intervenes in conflicts and crisis situations. The section also identifies, researches, and responds to distinguishable criminal activity patterns.

The section's approach to problem solving is traditional and experimental.

The Special Operations Section was authorized one (1) Lieutenant, two (2) Sergeants, and eleven (11) police officers. The authorized strength for police officers was maintained throughout the year.

The Special Operations Section's primary functions were broken down into four (4) major categories:

1. Specific Crimes
2. Conflict Identification
3. Experimentation
4. Community Relations Section

SPECIFIC CRIMES

In the area of specific crimes, the Special Operations Section operated in gathering statistics to establish crime patterns, surveillances, and covert patrol tactics.

1. Meter thefts
2. Rape surveillances
3. Liquor law violations
4. Armed robbery surveillances

5. John Doe investigations

6. Burglary surveillances

CONFLICT IDENTIFICATION

The area of conflict identification involves the monitoring of demonstrations, labor disputes, neighborhood problems, and crowd control. The Special Operations Section is responsible for Dignitary Protection, and requires the Special Operations Section to provide protection for political candidates as well as foreign dignitaries.

1. Demonstrations

2. Block parties

3. Labor Disputes

4. State Street foot patrol

EXPERIMENTATION

The unit tests and evaluates various techniques, theories, and equipment in the delivery of police service to the community. Some of these programs were:

1. Citizen band and burglary surveillances were accomplished by employing experimental methods of surveillance in an effort to reduce the number of violations, and make it easier to apprehend violators.

2. Experimentation in the use of a portable alarm system was accomplished by the unit.

3. Experimentation with the use of foot patrolmen in some residential areas of the city.

COMMUNITY RELATIONS OFFICER

A member of the Special Operations Section at various times performed

the duties of this position which mainly involved conducting tours of the station and delivering speeches to various organizations and schools.

SUPPORT SERVICES

Coordination of activities with Investigative Services Bureau

1. Drug investigations
2. Armed robberies
3. Thefts
4. Burglaries
5. Vice

Coordination of activities with Youth Aid Section

1. Vandalism
2. Exposure
3. Criminal damage
4. Rape

Coordination of activities with Administrative Services Bureau

1. Warrant Service

Coordination of activities with Patrol Services Division

1. State Street foot patrol
2. Basketball tournament
3. Wrestling tournament
4. Football games

Coordination of activities with Personnel and Budget Bureau

1. Instruction at in-service
2. Explorer group

CRIMINAL INTELLIGENCE SECTION

The Criminal Intelligence Section is responsible for the collection, retention, and dissemination of criminal intelligence for all units of the Department. The unit's efforts are specifically directed to the following areas:

I. Part I Crimes

- A. Homicide
- B. Rape
- C. Robbery
- D. Aggravated Battery
- E. Burglary
- F. Larceny over \$100.
- G. Auto Theft

II. Part II Crimes

- A. Other Assaults
- B. Arson
- C. Fraud
- D. Stolen Property
- E. Weapons Violations
- F. Prostitution
- G. Sex Offenses
- H. Narcotic Drug Law
- I. Gambling

III. Crimes of an Organized Nature

IV. The section also does the background research on persons or corporations that require a city license or permit to operate and upon

which the Police Department is required to make recommendation.

The section is staffed by a Sergeant and two Police Officers.

This section is assigned to provide liaison between the Madison Police Department and other law enforcement agencies or criminal justice departments. The exchange of intelligence and cooperation is mutually beneficial.

The objective of the section is to identify those persons responsible for problems in its area of assignment. Its goal is to develop sufficient supportive capability of providing finished intelligence to assist the Department in preventing these situations from occurring.

POLYGRAPH EXAMINATIONS CONDUCTED AND RESULTS

In 1977, 44 persons were brought to the Polygraph Room for examination or criminal investigations. The following is a breakdown of the number of persons submitted for examination by respective bureaus or agencies:

Investigative Services Bureau	23
Youth Aid Section	16
Dane County District Attorney's Office	<u>5</u>
Total	44

The following is a breakdown of the types of cases on which persons were submitted to the Polygraph Room for examination:

Theft	13
Burglary	11
Rape	7
Indecent Behavior With a Child	3
Arson	3
Battery	2
Auto Theft	2
Shoplifting	1
Hit and Run	1
Threats	<u>1</u>
Total	44

The following are the results of the examinations and opinions given by the examiner:

Inconclusive Opinion	0
Subjects Determined Deceptive	37
Subjects Determined Not Deceptive	6
Admissions without test	<u>1</u>
Total	44

INTRA-COUNTY CRIME PREVENTION SECTION

The Intra-County Crime Prevention Unit is a joint project of the Dane County Sheriff's Department and the Madison Police Department.

GOALS

The Goals of the Intra-County Crime Prevention Section will be to plan, disseminate, and coordinate programs designed to educate the community and the Departments in ways of reducing the opportunities for the commission of crimes.

OBJECTIVES

1. To provide professional education and training for members of all Dane County law enforcement agencies in crime prevention. To strengthen the police role in direct prevention in addition to the role of detection and apprehension.
2. To support all operational units of Dane County police departments and draw from their resources to educate the communities in crime prevention methods.
3. To develop a community-oriented crime prevention program.
 - a. Improve community awareness to reduce crime.
 - b. Educate and motivate citizens to take a more active part to reduce crime by reporting criminal and suspicious activity to the police.
 - c. Educate the community that it is the citizens' responsibility to take an active crime prevention role, to be more cautious more defensive and more aware of the potential of each individual situation which aids in the commission of a crime.

4. To initiate positive action to remove or reduce crime-risk situations.

The Intra-County Crime Prevention Section's activities consisted of the following during 1977:

1. Conducted 122 security surveys (29 residential, 82 commercial and 11 apartments).
2. Presented 259 speeches (121 in schools, 138 other locations)
3. Made 159 other contacts regarding crime prevention related matter.
4. Radio interviews (4)
5. T.V. interviews (1)
6. Newspaper releases (20)
7. Pre-Service and In-Service Training Instruction (8 hours)
8. M.A.T.C. Associate Degree Program instruction (6 hours)
9. Tours of Police Station (3)
10. Maintained display booths at the following locations:
East Towne Mall 13 days
West Towne Mall 6 days
11. The Crime Prevention exhibit trailer was on display for 32 days.
12. The Crime Prevention Section participated in the following seminars:
 - a. Four programs for area businessmen, in cooperation with the Madison Chamber of Commerce, regarding shoplifting and bad checks.
 - b. One day program, in cooperation with the University of Wisconsin - Extension, on general crime fraud and crimes of violence, for the elderly.
 - c. One day program in cooperation with the American Bankers

Association, regarding armed robbery.

- d. Two half-day programs, in cooperation with the Oscar Mayer Credit Union regarding armed robbery.
 - e. Four work shops in cooperation with the Wisconsin Retired Teachers' Association at their convention in Wausau, Wisconsin, regarding shoplifting and bad checks.
- 13. Distributed Halloween safety letters to all students, Kindergarten through Fifth grade, in area grade schools.
 - 14. Participated in the WHISSTLE STOP program in cooperation with the Dane County Project on Rape.
 - 15. Conducted a Christmas holiday crime prevention program in cooperation with University of Wisconsin students.
 - 16. Participated in a feasibility study on means of deterring rape. This study was made with the cooperation of students from the University of Wisconsin School of Electrical Engineering.
 - 17. Participated in State of Wisconsin sponsored Crime Prevention school for police officers at the Fox Valley Technical College.
 - 18. Lectured at the University of Wisconsin, Platteville, Wisconsin, School of Criminal Justice.
 - 19. Assisted the Oregon, Wisconsin P.F.S.O. establish a Helping Hand program in their community.
 - 20. Special Project:
Conducted an extensive educational program in a rural Dane County township that had experienced a higher than normal reported crime rate. This program provided information on all emergency and general services available as well as crime prevention information to all interested township residents. Final evaluation on this report has not as yet been completed.

PUBLIC SAFETY EDUCATION

RESPONSIBILITIES OF THIS UNIT

1. Organize, develop, coordinate, and conduct safety programs with schools, municipal employees, community groups and Department personnel.
2. Actively participate in public education and reeducation regarding all types of vehicle and traffic safety.
3. Coordinate actions with other city officials and/or citizens to prevent or solve all types of vehicle and traffic problems and hazardous conditions.
4. Conduct Safety Court for juvenile pedestrians and bicycle law violators.

To achieve our commitment of objectives, our Public Safety Education program is comprehensive with two outstanding characteristics: Overall planning - so the program will deal with every aspect of general street safety within the framework of the community's total safety picture, and overall support - so the program will function as a cooperative effort between "officials" (local government, schools, etc.) and "non-officials" (parent groups, civic organizations, and other organized, interested groups) with the general approval and support of the entire community.

OBJECTIVES OF THIS UNIT

1. To ensure that the first contact school-age children have with the police is positive.

2. Provide sound and proven, basic safety training.
3. Improve vehicle-operator behavior through defensive driving.
4. Maintain rapport with people involved in safety programs, particularly school-age children.
5. Encourage citizen participation in community safety-related activities.

The overall objective is one of community safety with the most energy expended in the area of general street safety. Involving youth activity enables a progressive, modern law enforcement agency to create, develop, and institute innovative programs in various fields of activity. This will prove beneficial in reducing the desire of individuals to commit violations: prevention vs. detection and apprehension. The primary goal is achieved through education which is a step beyond the general enforcement objectives.

The Public Safety Education Unit's activities consisted of the following during 1977:

1. School appearances and school-related activities: 1028
2. Conducted 46 sessions of Juvenile Safety Court
3. Conducted following classes:
 - a. 14 Defensive Driving Courses
 - b. 13 DNR Boating Safety Courses
 - c. 6 First Aid Courses
 - d. 42 Water Safety Courses
 - e. 12 Radiation Safety Courses
 - f. 5 DNR Hunter Safety Courses
 - g. 3 DNR Snowmobile Safety Courses

4. Presented 48 speeches to service, industrial and church groups
5. Maintained display booths at following locations:
 - a. Safety Booth - Eastside Businessmen's Festival - 7 days
 - b. Safety Booth - Dane County Junior Fair - Dane County Coliseum - 5 days
 - c. Safety Booth - Madison Home & Sport Show - Dane County Coliseum - 5 days
 - d. Safety Booth - East Towne Mall Bike Clinic - 2 days
 - e. Safety Booth - West Towne Mall Bike Clinic - 3 days
 - f. Safety Booth - West Towne Mall Snowmobile Show - 5 days
6. Assisted in Crime Prevention Projects - 7
7. Other appearances and activities - 1642
8. Radio spots - 1667
9. TV spots on Cable TV - 372
10. Road Advisory Reports - 85
11. TV appearances - 9
12. Radio Interviews - 15
13. TV spots - Channel 3, 15, 27, - 36
14. Meetings (Madison Area Safety Council) - 10
15. Meetings (Metro Bus Company) - 30
16. Other Safety Meetings - 36
17. Tours of Station - 18
18. Bicycle Citations issued - 91
19. Bicycle Inspections - 22
20. Pedestrian Citation issued - 11
21. Moving Vehicle Citations issued - 6

ANNUAL BICYCLE SUMMARY - 1977

During 1977, there was a total of 293 bicycle citations issued in the City of Madison, and a total of 415 violations cited. Of this total, 155 citations and 277 infractions were issued to juveniles under 16 years of age. Also, during this period, a total of 1,890 bicycles were stolen, with an estimated value of \$205,418. During this period, the frequency of violations was:

No license - 102	Other Violations - 40
Arterial - 65	Stop & Go - 28
Two on Bicycle - 56	Right of Way - 21
Against Traffic - 53	Trick Riding - 7
No light - 43	

Of these violations, 232 were hazardous, while 185 were non-hazardous.

The most tickets were issued on Thursday - 51, followed by:

Wednesday - 49	Tuesday - 46	Monday - 35
Friday - 48	Saturday - 42	Sunday - 22

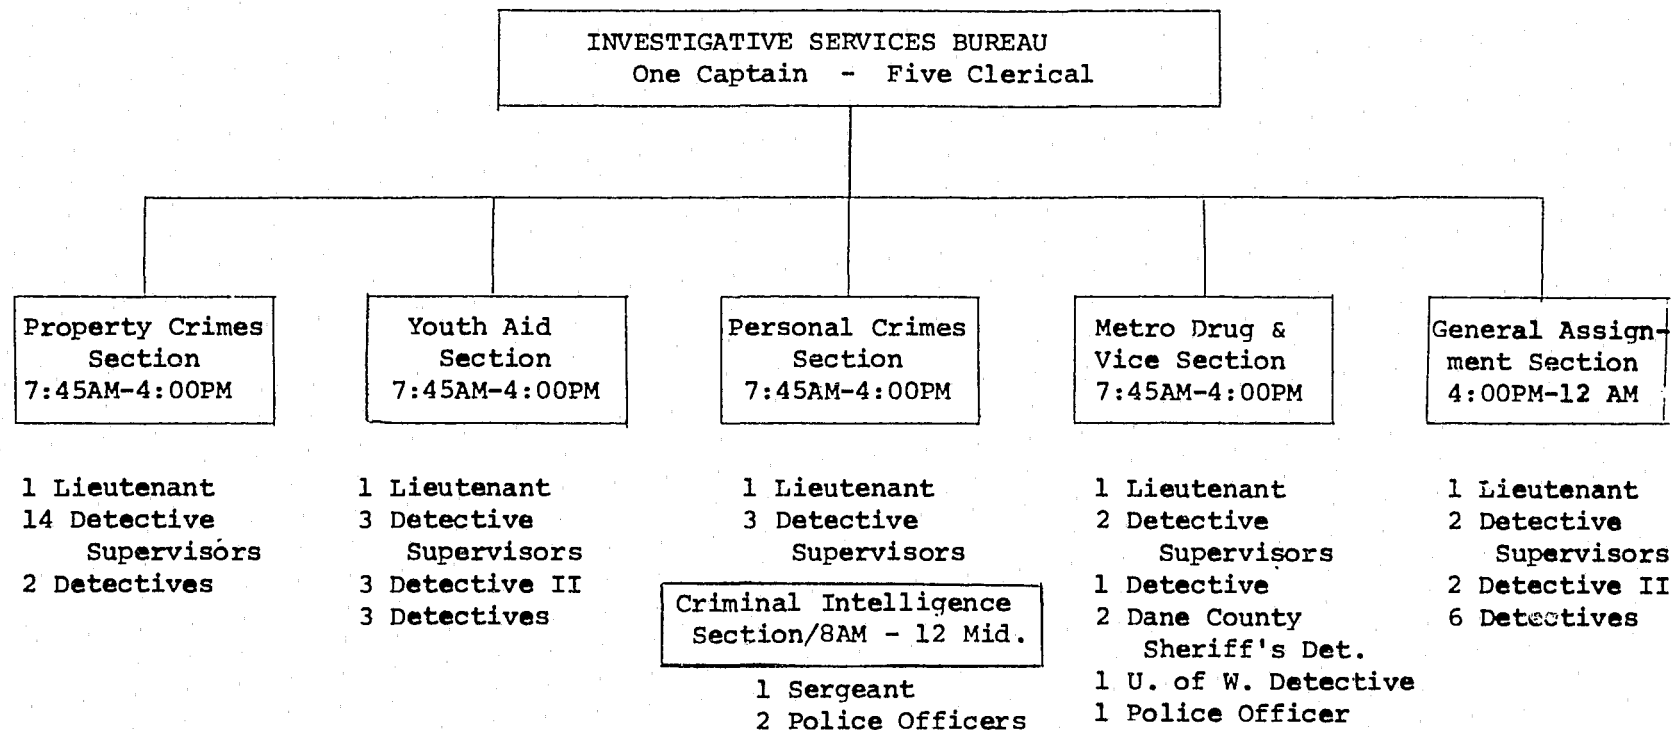

The hours during which the most tickets were issued were

4 to 5 p.m. - 34 followed by 7 to 8 a.m. - 32, then:

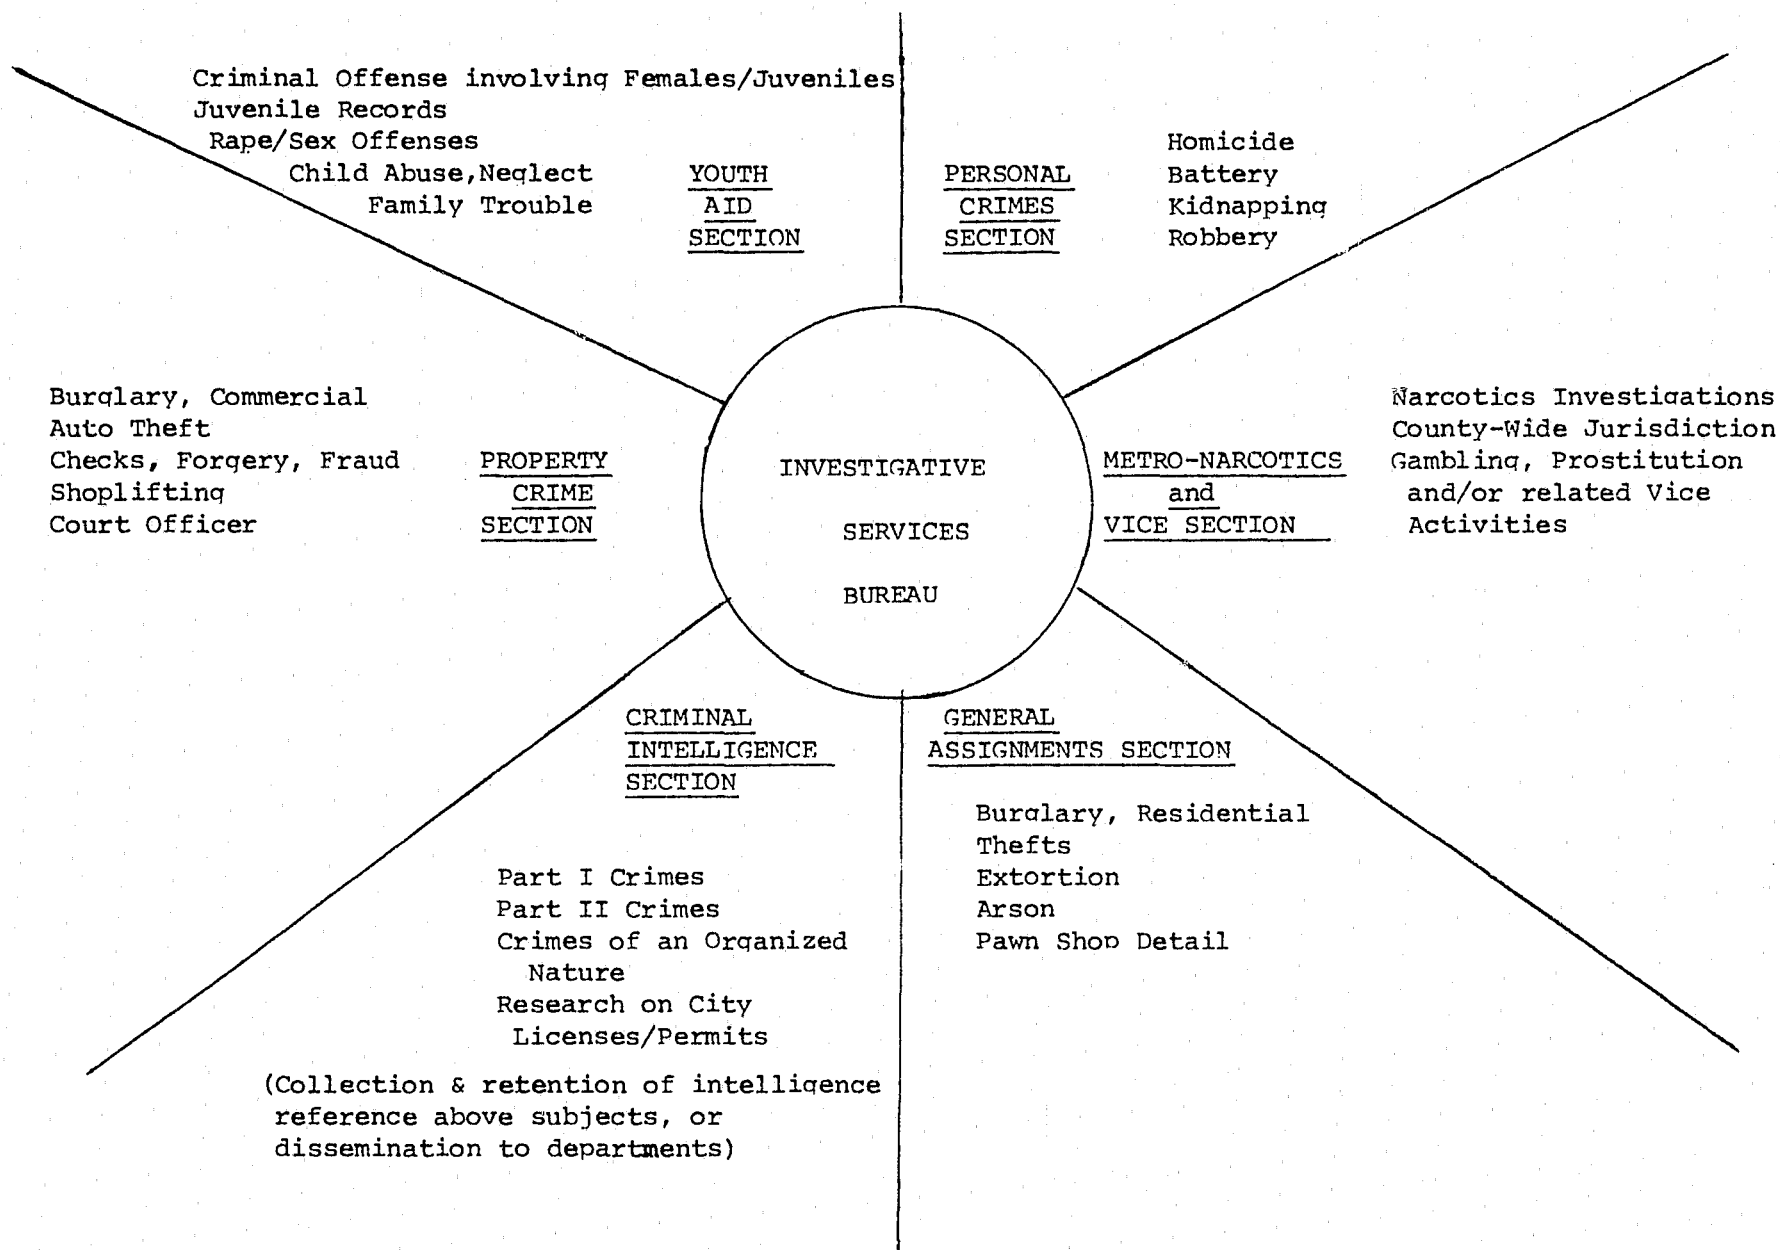

3 to 4 p.m. - 31	5 to 6 p.m. - 28
7 to 8 p.m. - 24	6 to 7 p.m. - 22
8 to 9 p.m. - 21	12 to 1 p.m. - 20

In addition, the age group that received the most citations was the 12 year olds - 34, followed by:

13 yrs - 33	20 yrs - 25	11 yrs - 19
19 yrs - 30	14 yrs - 22	22 yrs - 16
15 yrs - 27	21 yrs - 20	18 yrs - 14

The Investigative Services Bureau, consisting of six sections, provides investigative staff from 6:45AM until 12:00AM daily. Each section is under the command of a lieutenant, providing bureau supervision six days per week. Liaison is maintained with the City Attorney and District Attorney through the Court Officer in the assistance of case preparation for their review and disposition. Assignment of personnel to a particular section is flexible and detectives can be transferred from one section to another on a need basis as the case load demands.

In 1977, the Investigative Services Bureau continued to operate within the five section concept, each supervised by a lieutenant providing us with necessary specialization and case assignment accountability. Each section includes teams of investigative specialists who concentrate on related cases under the direction and coordination of the section lieutenants. During 1977, the Investigative Services Bureau continued a concerted cross training effort in order to more thoroughly familiarize the detectives and lieutenants with the specialized techniques of other sections. This program should allow us a more efficient and effective flexibility of assignment when the need arises.

The Investigative Services Bureau has continued to explore areas where cooperative efforts with other Dane County law enforcement agencies have proven beneficial to both agencies. Example: Major Case Investigative Unit, Parole and Probation registration file, combined Lab and Crime Scene Unit, etc.

Our Metro Drug and Vice Section have concentrated more effort toward commercial vice and prostitution, resulting in numerous arrests, many still pending court action.

Although the Investigative Services Bureau is predominantly a reactive unit, we continue to coordinate our resources with the City-County Crime Prevention Unit, and related agencies.

Some of our personnel are presently serving on a committee with members of the District Attorney's staff and Sheriff's Department, attempting to implement a comprehensive witness/victim assistance program to serve our community.

YOUTH AID SECTION

The Youth Aid Section of the Madison Police Department is involved in all investigations when a juvenile is the perpetrator or the victim of a criminal act. If at the completion of an investigation a juvenile is charged, the following dispositions can be made. In most cases, the juvenile will be released to the parents and the parents will handle the situation. In many cases, the juvenile will be referred to another agency for informal counseling. (These referrals could be to Dane County Department of Social Services, Briarpatch, Dane County Mental Health, or other agencies.) If a more formal action is needed, the case is taken to the assistant district attorney in charge of juvenile prosecutions where a petition is drawn up and the matter is heard in the Juvenile Court.

The diversity of cases handled by the Youth Aid Section extends beyond juveniles and includes family problems, boyfriend-girlfriend trouble, injury to property, criminal damage to property, annoying telephone calls and missing persons. The Youth Aid Section is responsible for all sex-related investigations.

All stolen bicycles and/or recovered bicycles are handled in Y.A.S. with the assistance of civilian employees.

In 1977 over thirty-three hundred cases were handled by Y.A.S. personnel.

ADMINISTRATIVE SERVICES BUREAU

The Administrative Services Bureau has primary responsibility for receiving, processing, summarizing and maintaining all criminal and traffic records and reports; performing criminal identification services and maintaining the records and photos in connection therewith; operating and manning the central complaint desk; supervising the communications system, including calls for service information, and radio communications; maintaining custody of all property recovered, found or brought in as evidence; and for developing all police photographs taken in connection with investigations and maintaining appropriate photographic files. Some positions in the Bureau are manned 24 hours a day, each day of the year. It has the primary responsibility for the maintenance of vehicular equipment; maintenance of supplies and other equipment; providing the supervising personnel and operations of the court liaison officer, warrant officers, Animal Control Officers, Lakes Patrol operations and the chemical testing program.

COURT & SERVICES SECTION

LAKES PATROL ACTIVITIES - 1977

Deaths	5
Rescues	28
Arrests for Boat Violations	23
Verbal Warnings	233
Assists with Boats, Passengers and Swimmers	30
Special Events	2
Man Hours of Patrol (May 28-September 5, 1977)	791

The Lakes Patrol was reactivated in 1977 on a limited basis. We had two full time persons assigned to the Lakes Patrol, (1) Sergeant and (1) Police Officer, for the purpose of maintaining equipment and operating a rescue service and limited patrol. They had opposite days off and a limited patrol was provided co-operatively with deputies from the Dane County Sheriff's Department. On weekends, holidays and special events, patrols on Lake Mendota and Lake Monona were operated for a minimum of 8 hours a day.

There were three (3) accidental drownings in the Madison lakes during 1977, as follows:

June 26, 1977 - Male, age 29, Lake Monona, accidental drowning, Coroner's ruling.

July 4, 1977 - Female, age 8, Warner Park Lagoon, accidental drowning, Coroner's ruling.

September 17, 1977 - Male, age 34, Lake Mendota, boating accident, accidental drowning - Coroner's ruling.

There were two (2) deaths caused by suicide by drowning in the Madison lakes during 1977, as follows:

March 16, 1977 - Female, age 19, Lake Mendota, suicide by drowning, Coroner's ruling.

April 15, 1977 - Female, age 56, Lake Mendota, suicide by drowning, Coroner's ruling.

In August of 1976, the parking system renovation was completed. This involved automated ordinance, taxi driver, and Police Officer files. The system ran parallel with the old system until January 1, 1977. The old parking system that had been developed in 1969 was abandoned at that time.

Previously, citizens were summoned directly to court for non-payment. Now, if a parking violator does not respond to the payment of a parking citation, a final warning letter is sent to the violator, 7 to 10 days after date of issue. When the final warning letter is not responded to, a complaint and summons is produced by request from the Police Department to Data Processing, for the period of time requested, usually 4 to 6 weeks after issue date. When the court date on the summons is passed without payment, a warrant is automatically produced within two weeks of the scheduled court date. Twenty-four hours after the warrant is provided, the warrant information is added to the M.A.P.S. wanted person file.

Along with the automatic productions of this system, we are now able to serve the public by checking the status of parking and moving and ordinance tickets quickly by a single inquiry. The result of this on-line system is a noticeable increase in the number of parking violations that are disposed of and a much more efficient way of processing and collecting parking and moving tickets with fewer persons than last year. The final warning notice has been a good public relations experience as well as an increase in voluntary payment of tickets while reducing complaints.

The year 1977 also saw the development and testing of the entire moving traffic system, so that on January 3, 1978, it also replaced the partial system that had been in operation since January, 1973. Prior to this change, all summons and warrants were hand-typed. They are now produced by Data Processing and cross referenced to the wanted persons and parking ticket file. This allows us to check all outstanding items by making one check.

During 1977 we implemented the use of Uniform Municipal Citations for numerous ordinance offenses. We furnished the training and processing of these citations for all other city departments including the initial arraignment in the County Court system by our court officers.

COURT & SERVICES SECTION

ANIMAL CONTROL UNIT

Animals Apprehended	2,094
Animals Taken to Pound.	1,921
Animals Returned to Owner	58
Animals (dead) Disposed Of.	115
Other Complaints.	3,435
Total Complaints Responded to	5,529
Warrants Issued for Animal Violations	54
Animal Violation Cases Disposed of in Court	
Excluding Warrants Issued Above	604
Animal Bites Reported	381
Dog.	305
Cat.	47
Other.	29

Seven Animal Control Officers are assigned to the Court & Services Section Animal Control Unit. Two officers are assigned to the 6:00 AM to 2:00 PM detail, two officers are assigned to the 7:00 AM to 3:00 PM detail, and three officers are assigned to the 2:00 PM to 10:00 PM detail. Their duties are to pick up all stray dogs and cats found running at large; to check dogs and cats for licenses and tags; to investigate all animal bite cases and have the animal impounded for the 10-day observation period for rabies. They are responsible for answering all calls for assistance and investigating all other complaints relating to animals. Since the addition of three Animal Control Officers in 1974, it has been possible to have Animal Control Officers on duty between the hours of 6:00 AM to 10:00 PM daily.

LABORATORY AND IDENTIFICATION FUNCTIONS

The department maintains a laboratory which performs support functions necessary in the daily operations of field and investigative services. Personnel assigned to this section are selected on the basis of their expertise in photography, fingerprint comparisons and classifications, casting of impressions, crime scene drawings and scaled diagrams, film and print processing of all types, crime scene search, as well as collection and preservation of evidence.

Laboratory personnel provide training at pre-service and in-service academies, and specialized training for any personnel desirous of same. Color photo processing and printing services are provided for other departments and agencies, including Dane County Traffic, University Protection and Security, Building Inspection, Fire, State Crime Laboratory, and other governmental agencies in the criminal justice system. Laboratory personnel assist at autopsies to gather evidence when deaths occur under suspicious circumstances.

On May 15, 1977, the identification staff merged with a similar unit of the Dane County Sheriff's Department to form the Intra-County Laboratory. The cooperative response is intended to provide cost savings by avoiding duplication of effort, equipment and personnel. The unit also maintains fully equipped crime scene vehicles with trained personnel to process serious crime scenes. Services are available to all requesting jurisdictions within Dane County.

PERSONNEL AND BUDGET BUREAU

1 Captain
1 Lieutenant
1 Sergeant
2 Police Officers

The Personnel and Budget Bureau has primary responsibility for program development and delivery of Pre-Service, In-Service and specialized training needs. Firearms training is provided for all commissioned personnel at least once each month throughout the year. The personnel of the bureau are responsible for care and maintenance of all weapons owned by the Department and commissioned personnel. They have responsibility for care and maintenance of visual aids equipment including production of video tape training films. The bureau has further responsibility for distribution of printed material (i.e. ordinance revisions, etc.) and care of the Department Library.

The Madison Police Department Library is a much used section of the Personnel and Budget Bureau. It presently houses over 800 volumes representing approximately 375 titles and subjects in the Criminal Justice and Law Enforcement fields. In addition, 36 periodicals and 20 legal and training type bulletins are received on a regular basis.

This Department resource is used extensively for In-Service and Pre-Service Training Academies; study area for promotional exams; for research by personnel attending technical schools and universities and as a day to day update and reference for Department personnel.

The Personnel and Budget Bureau provides staff support for the Police and Fire Commission in matters related to recruitment, screening and selection of commissioned personnel.

PERSONNEL RECRUITMENT

In 1977, the Personnel and Budget Bureau coordinated a recruiting effort to fill 20 vacancies on the Department. The process brought 739 applications into the Department with 435 persons taking the written, physical agility and oral board exams. Through the process, the Board of Police and Fire Commissioners established a panel of 155 eligible candidates from which 20 were selected and accepted positions with the Department. The probationary Police Officers include 5 women, 4 blacks, 2 hispanics, and 9 all others.

RECRUIT TRAINING

In December, 1977, 20 Probationary Police Officers began their Pre-Service Training with a three week orientation to be followed by the basic 320 hour certification program conducted by Madison Area Technical College. The remaining weeks of recruit training will be conducted at the Madison Police Academy scheduled for conclusion in mid-June, 1978.

IN-SERVICE TRAINING

The In-Service curriculum included 12 hours of CPR training resulting in certification by the American Heart Association of all those who passed the practical exam. There were 12 hours of Standard First Aid instruction to update the cards held by the participating

officers from the American Red Cross.

The remainder of the In-Service Program dealt with a refresher in arrest, search and seizure and various timely subjects.

SPECIALIZED TRAINING

In 1977, there were no seminars conducted by the Personnel and Budget Bureau. Several members of the Department were sent to seminars in various parts of the State and Nation concerning such subjects as: Arson Investigation, Homicide Investigation and several others.

There were 6 members of the Department sent to Fort McCoy, Wisconsin Patrol Academy for a week's training program on OMVWI Detecting and Prosecution.

DEPARTMENTAL FISCAL OPERATIONS

A major concern of the Personnel and Budget Bureau is in the control of its fiscal operations. Included is orderly preparation of the Department's budget. Along with changes in the methods of budget development we are faced with an economy that placed a halt to any thought of expenditure without accountability. Our approach is based more on an objective level, which requires unit commanders to justify specific requests for equipment and/or personnel by giving us an indication as to the results or accomplishments we can expect.

After the budget is adopted, the orderly process of purchasing those authorized items and services continues to be a concern to the

bureau. Purchase requests are scrutinized with the emphasis on cost cutting where feasible. Efforts to place purchasing functions into one section of the Department are resulting in far less duplication and tighter controls on the process itself. During the year, inspectional checks on the Department's fiscal operation, accompanied by review of current expenditures in the various accounts is an ongoing process. Fiscal responsibility, particularly in an organization funded by tax monies, should be the concern of every member of the Department and the Budget Section of the Personnel and Budget Bureau is working towards that goal.
