INTRODUCTION

The annual Criminal Justice Profile series summarizes and combines data describing the many facets of California's criminal justice system. Separate publications are available for each county and the state. Much of the data presented in the Statewide Profile supplements the Bureau of Criminal Statistics (BCS) annual Crime and Delinquency publication, which is also available upon request. Criminal justice data not provided in either the Profile series or the Crime and Delinquency report may be available from the Bureau on a special request basis.

Each Profile consists of two sections. The first section displays annual criminal justice data for 1968 through 1977 in tabular form. The second section contains additional reference tables displaying selected data for 1977.

Criminal Justice Data

Trend data in the Profile are reported to BCS by state and local agencies and have been summarized for each year. This section provides the individual county or statewide totals for selected criminal justice activities in tabular form. Tables are provided on crimes, arrests, processes, personnel, expenditures, and correctional actions. The 1977 disposition data for adults arrested on felony charges, collected through the Offender-Based Transaction Statistics (OBTS) system, exclude Santa Clara County. This prohibits a total statewide data count. It is anticipated that 1978 disposition data will be available for all counties.

Where used, population data are shown in hundreds and can be converted to original numbers by moving the decimal point two places to the right. For example, the state population for 1977 is shown as 218,960, which converts to a population total of 21,896,000.

Reference Tables

The individual reference tables in this section cover data for 1977 on crimes reported, adult and juvenile arrests, prosecution, and probation. The adult and juvenile arrest data reported on the Monthly Arrest and Citation Register are displayed in each county Profile but are not included in the Statewide Profile. Approximately 96 percent of the total statewide arrests were reported on the Arrest Register in 1977.

Each county publication contains jurisdictional data. The statewide publication relates to California counties.

Notes: Percents may not total 100.0 due to rounding.

The data in this table are not comparable with those previously presented in the Bureau of Criminal Statistics publication *Crime and Delinquency in California, 1977 - Part II* because of adjustments made to Alameda County's data.

The median is the middle of a set of numbers arranged in order of magnitude and is used instead of the mean (average) because it is not as affected by extremes.

CLEARANCE: an offense is cleared or "solved" for crime reporting purposes when at least one person is arrested, charged with the commission of the offense, and turned over to the court for prosecution or cited to juvenile authorities. CLEARANCE RATE: method used to determine the percentage of crimes cleared. The rate is based on the number of total crimes reported.
