March 8, 1979

Utah's participation in the Uniform Crime Reporting program provides the most current and complete information concerning reported crime in our state for 1978.

The publication of Crime in Utah is part of the continuing effort to provide reliable data about criminal offenses to law enforcement agencies, legislators, planners, educators, and the media. It also allows citizens to realistically assess for themselves our state's crime situation. Such information is vital if we are to project and respond to the problems of crime in our society.

We are indebted to the Sheriffs and Chiefs of Police in Utah for the complex and extensive data provided. Their diligence and interest have made this report possible.

It is my pleasure to present the following report to the people of Utah.

LARRY E. LUNNEN
Commissioner

This publication represents the first annual report produced by Utah's Uniform Crime Reporting program.

The purpose of this report is to expose the nature, extent and location of crime in our state. Hopefully, it will be a working tool for law enforcement officials in developing rational and effective methods for the prevention and control of crime. Because crime is everyone's problem, the information provided is also designed to increase public awareness of the volume, type and complexity of crime in Utah.

The participation and cooperation of Utah's law enforcement agencies, which makes this publication possible, is genuinely appreciated.

Larry E. Lunn

Larry E. Lunn
Commissioner

DEDICATION

This book is dedicated to all law enforcement officers and in particular to those law enforcement officers who were feloniously killed while endeavoring to uphold the laws and serving the citizens of Utah in the interest of all mankind. The following officer gave his life to this cause in 1978.

TROOPER RAY LYNN PIERSON

Hired: January 1, 1974
Feloniously killed: November 7, 1978

IN THE SENATE OF THE UNITED STATES

REPORT

OF THE

COMMISSIONERS OF THE GENERAL LAND OFFICE

ACKNOWLEDGMENTS

The Departmental Staff extends its appreciation to all law enforcement agencies of Utah who contribute to the Uniform Crime Reporting program. Their consistent, accurate reports are the basis of this document.

Special appreciation is extended to the Federal Bureau of Investigation Uniform Crime Reporting Section for the assistance provided to the Utah UCR program.

PREPARED BY

Delmore E. John,	UCR Manager
Dan Taylor,	UCR Field Representative
Chris Vermillion,	UCR Statistical Secretary

INTRODUCTION

On January 1, 1978 Utah joined a growing number of states that have established a state Uniform Crime Reporting program which is compatible with the National UCR program. The Department of Public Safety has accepted the responsibility to collect, validate and tabulate Uniform Crime Reports from all reporting jurisdictions in Utah. A Uniform Crime Reporting section was established within the Bureau of Criminal Identification to coordinate the collection, processing and dissemination of data regarding the extent of major crime in Utah.

OBJECTIVES

The fundamental objective of the Uniform Crime Reporting program is to produce a reliable set of criminal statistics for use in law enforcement administration, operation and management. In addition, the UCR program will inform the Governor, Legislature, other governmental officials and the public as to the nature of the crime problem in Utah, its magnitude and its trends.

REPORTING PROCEDURES

Each agency is responsible for compiling its own crime reports and submitting them to the Uniform Crime Reporting program. The program, in an effort to maintain quality and uniformity in the data received, furnishes full-time field representatives who provide training in Uniform Crime Reporting procedures. All contributors also are furnished with the Uniform Crime Reporting Handbook which outlines in detail procedures for scoring and classifying offenses. Utah UCR forms and tally sheets are made available to facilitate the periodic tabulation of desired data.

LIMITATIONS OF A UNIFORM CRIME REPORTING PROGRAM

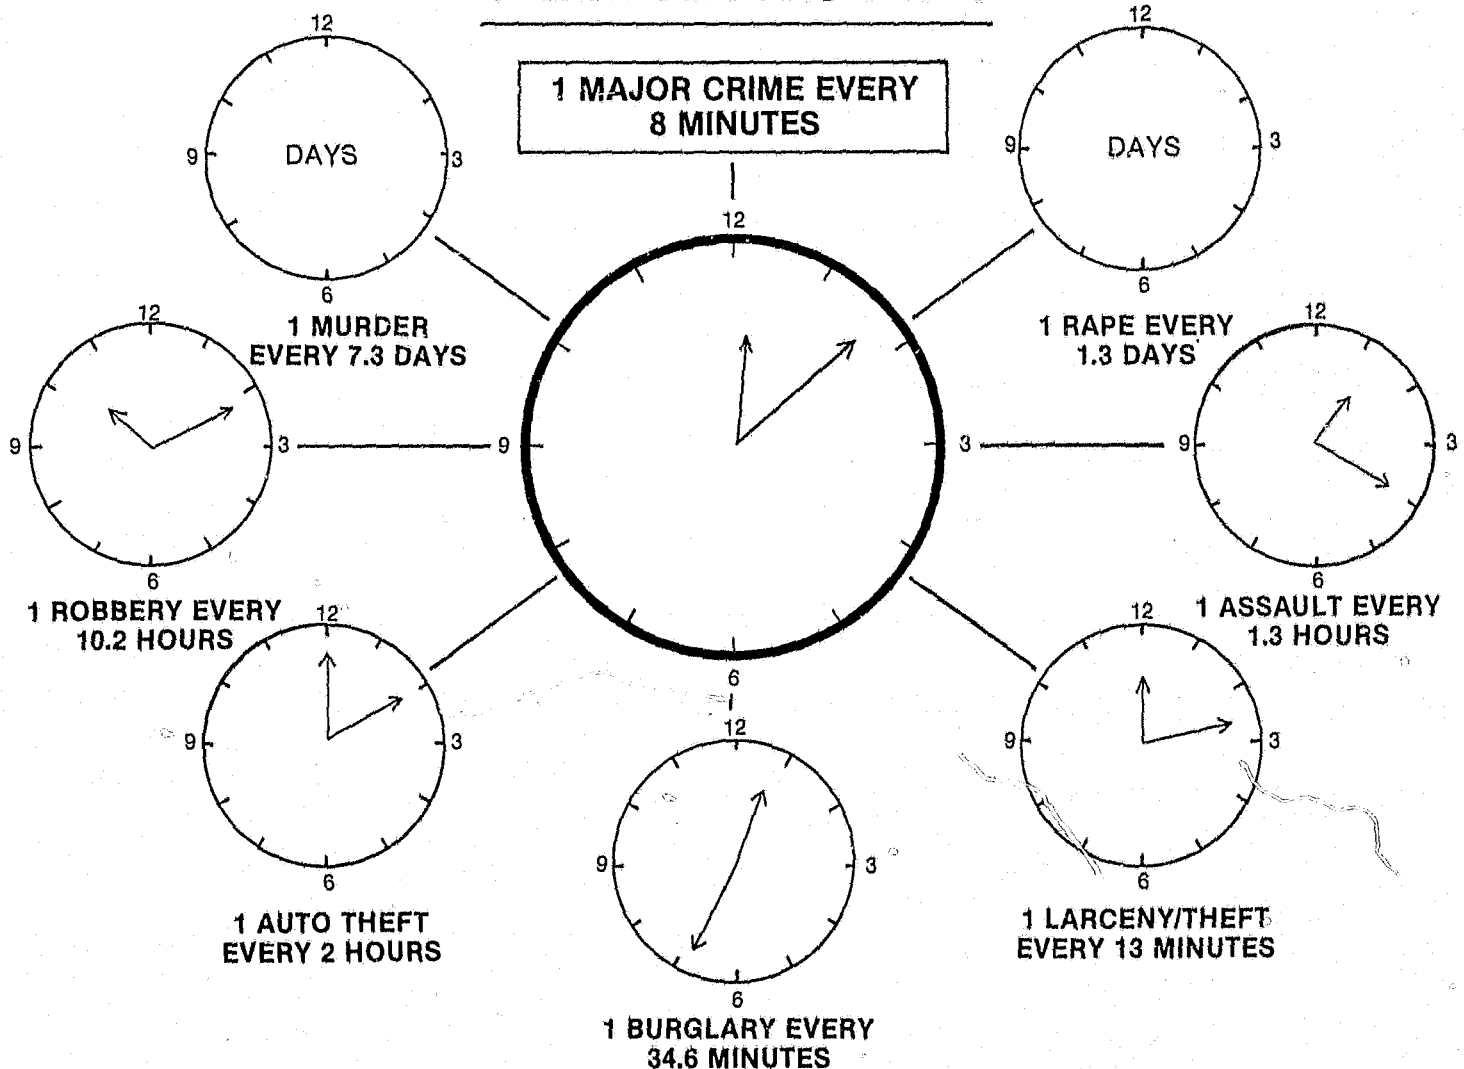

The Uniform Crime Reporting program has been subject to much criticism during its history and, while many of these commentaries have been valid, at least some of the shortcomings are understandable when it is remembered that the program has been developed to furnish management information primarily for law enforcement agencies. The Uniform Crime Reports are not a court or corrections statistical program. They are not designed to furnish an overview of the workings of our entire criminal justice system, nor are they able to give a complete picture of law enforcement activity.

The main goal of the UCR program is to furnish police administrators with a measure of their activities and operational problems as indicated by the number of reported offenses, arrests, clearances, and the like. Therefore, much of the criticism of the UCR program itself is weakened when its stated primary purpose is kept in mind. Uniform Crime Report data is the best crime information currently available since it reflects the key events (criminal offenses) that set in motion the various phases of our criminal justice process.

CRIME & LAW ENFORCEMENT OFFICERS

Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role to its suppression and detection. This problem is stated in the report "The Challenge of Crime in a Free Society.

"But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the government; and the government is only one part of society. Insofar as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time".

OFFICERS & THE COMMUNITY

Caution should be exercised in using rates for comparative purposes since a wide variety of factors dictate the number of officers necessary to various law enforcement agencies. The same conditions and factors that affect the amount and type of crime in a given community also must be considered in the employment of personnel. Officer numbers are best determined by citizens and public officials of a community based upon the level of service they need and are willing to pay for.

CRIME RATES FOR INDEX OFFENSES

The Uniform Crime Reporting program provides data for police executives to measure local problems. To facilitate this function, the local data must be converted into terms of rates and percentages.

Crime Rates

One of the most meaningful crime statistics is the crime rate. This rate is the number of Part I offenses per 1,000 inhabitants. This rate can be calculated regardless of the number of inhabitants in any city, town or county.

In computing crime rates by county, population estimates for individual counties were prepared using special census reports.

During 1978, some law enforcement agencies did submit fewer than the solicited 12 months of offense reports. Therefore, offense counts were estimated for agencies, within the county, which failed to submit complete reports for the year. University and college crime-of-fense counts were added to the respective county totals.

No attempt has been made to incorporate either transient population or other factors which contribute to the ratio and type of crime in a given area. Any effort to make comparisons of crime rates between one area and another should recognize these population changes and varying environmental factors.

CRIME RATES PER COUNTY

COUNTY	ESTIMATED POPULATION	PART I CRIME OFFENSES	CRIME RATE PER 1000 POPULATION
BEAVER	4,800	46	9.58
BOX ELDER	35,000	905	25.86
CACHE	51,600	1,212	23.49
