## INTRODUCTION

The purpose of this technical report is to supplement Crime in Louisiana, 1978 by providing the reader with a more in-depth view of attempted versus actual crime in the state as reported in the Louisiana Uniform Crime Reporting (UCR) System. The Uniform Crime Reporting System includes attempts in all Index Offense Categories except Criminal Homicide. The attempts for Criminal Homicide are classified as Aggravated Assaults. The only two offenses for which attempts are broken out on the reporting form are Forcible Rape and Burglary.

This report provides an analysis of the volume and location of actual Rapes and Burglaries by parish Standard Metropolitan Statistical Area (SMSA)<sup>1</sup> and the State. It also includes tables enumerating both actual and attempt statistics for the two offenses.

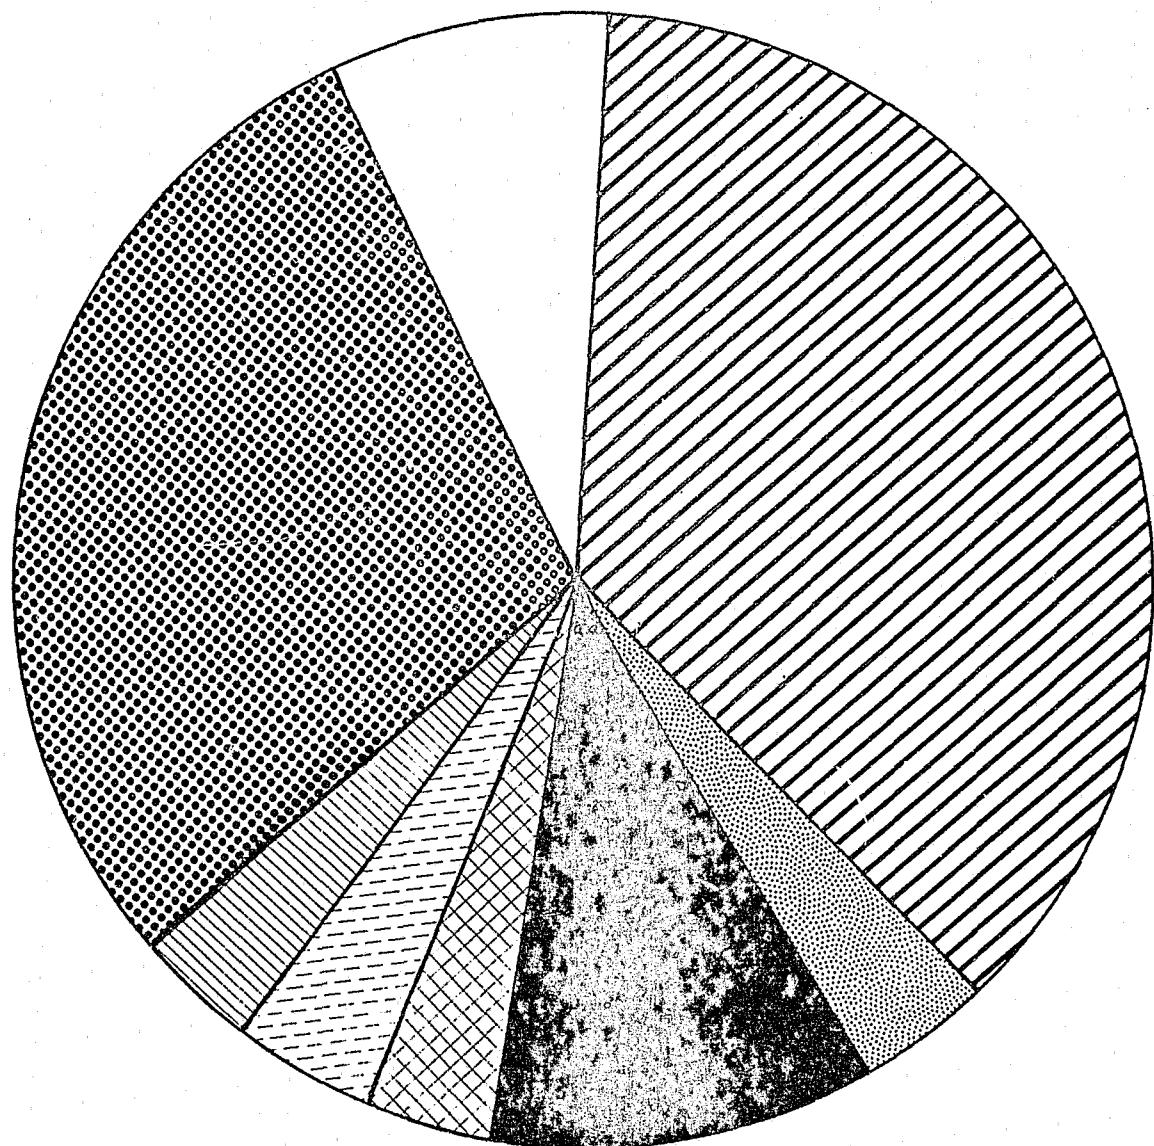

A cursory look at the figures reveal that 30.6 percent of Rapes and 5.6 percent of Burglaries reported in the UCR System are classified as Attempts. Therefore the actual offense figures in this report should not be compared with offense figures from any other local, state and federal agency using the traditional UCR totals, since attempts have been included in these totals.

<sup>1</sup>The seven SMSAs and the parishes comprising these areas are as follows: (1) Alexandria SMSA - Rapides Parish, (2) Baton Rouge SMSA - Ascension, East Baton Rouge, Livingston, and West Baton Rouge, (3) Lafayette SMSA - Lafayette Parish, (4) Lake Charles SMSA - Calcasieu Parish, (5) Monroe SMSA - Ouachita Parish, (6) New Orleans SMSA - Jefferson, Orleans, St. Bernard, and St. Tammany Parish, and (7) Shreveport SMSA - Bossier, Caddo, and Webster Parish.
