INTRODUCTION

The annual Criminal Justice Profile series summarizes and combines data describing the many facets of California's criminal justice system. Separate publications are available for each county and the state. Much of the data presented in the Statewide Profile supplements the Bureau of Criminal Statistics (BCS) annual Crime and Delinquency publication. This is available upon request. Criminal justice data not provided in either the Profile series or the Crime and Delinquency report may be available from the Bureau on a special request basis.

Each Profile consists of two sections. The first section displays annual criminal justice data for 1969 through 1978 in tabular form. The second section contains reference tables displaying selected data for 1978.

CRIMINAL JUSTICE DATA

Trend data in the Profile are reported to BCS by state and local agencies and have been summarized for each year. This section provides the individual county or statewide totals for selected criminal justice activities in tabular form. Tables are provided on crimes, arrests, processes, personnel, expenditures, and correctional actions.

Where used, population data are shown in hundreds and can be converted to original numbers by adding two zeros. For example, the state population for 1978 is shown as 222,970, which converts to a population total of 22,297,000.

REFERENCE TABLES

The individual reference tables in this section cover data for 1978 on crimes reported, adult and juvenile arrests, prosecution, and probation.

Each county publication contains jurisdictional data. The statewide publication relates to California counties.

KNOWN DATA LIMITATIONS, 1978

Arrest Data

Alameda County

- San Leandro Police Department did not report five months of drunk arrests.

Los Angeles County

- Los Angeles Police Department did not report any misdemeanor citations for adults.

San Diego County

- Misdemeanor and bookable traffic citations were not reported by San Diego Police Department.

Adult Probation Data

- Persons on probation in more than one county or under the jurisdiction of both superior and lower courts are counted more than one time.
- Data are not collected for subsequent grants of probation to persons already under probation supervision in a given county.
- Data are not collected on changes of terms or conditions of grants due to violations of probation.
- Even though the system provides data on the number of probationers who abscond during a given year, it does not give a count of multiple absconds by a single probationer.
- The system includes data on only those adults placed on supervised probation.
- One month of data for Santa Cruz County is not included.
- Los Angeles County provided summary data (counts only). All other counties provided individual reports on each probationer.

Juvenile Probation Data

- Due to a variance in reporting by the Los Angeles County Probation Department, some underreporting occurred in the latter part of the year. By agreement with that agency, estimates were developed that more fully represent the number of initial referrals, initial petitions, and case removals handled by the department. Statewide data for these three types of transactions reflect Los Angeles County adjustments.

The number of Los Angeles County juvenile arrests referred to probation was used as a base to determine the approximate number of initial referrals, initial petitions, and removals during the year. For the first seven months, Los Angeles County initial referrals were in consistent proportion to juvenile arrests referred to the probation department. The last five months of initial referrals were estimated to retain that level of consistency.

The same process was used to estimate four months of initial petition data and three months of probation removal data. These annual estimates for Los Angeles County were added to data for the other 57 counties to produce statewide figures.

OBTS Data

- There is an important difference between arrests compiled through the Bureau of Criminal Statistics (BCS) arrest reporting system and OBTS data on the dispositions of adult felony arrests. Arrest data, as reported on the Monthly Arrest and Citation Register, are based on the year the arrest occurred. OBTS data pertain to the year of final disposition regardless of when the felony arrest occurred, and may be reported a year or more after the actual arrest was made.
- OBTS data do not reflect the total number of adult felony arrests or the total number of dispositions at any particular level of the criminal justice system during a given disposition year. It is estimated that OBTS reports were received by BCS for about two-thirds of the total adult felony arrests which received a final disposition during the calendar year. In spite of the underreporting, those arrest dispositions which were received generally describe the annual statewide processing of adult felony arrestees through California's criminal justice system. However, county and local data should be used with caution since the extent of underreporting may vary between jurisdictions and from year to year.
- In cases where an individual is arrested and charged with multiple offenses, the OBTS system records only the most serious offense at both the time of arrest and the point of final court conviction. The seriousness of the offense is based on the severity of possible punishment.
- It is not advisable to make statistical comparisons between OBTS data (1975–1978) and felony filing and court disposition data published by BCS prior to 1975 because these data were collected through different reporting systems.
- All 58 counties reported OBTS data in 1978.
- OBTS data on commitments to state institutions from lower and superior courts may vary from data compiled and reported by other state agencies because of differences in the data collection systems. For example, the state Department of Corrections counts the number of defendants actually received by institutions (e.g., prison), even though a defendant may have been committed from one or more counties. The OBTS system, on the other hand, counts each commitment.
