- (a) Conspirators, aiders, abettors and accessories are shown under the offence they allegedly conspired to commit, aid, etc. Except for murder, offences include attempts.
- (b) Generally the figures in this column are significantly lower than those for 'Committed to Higher Courts' appearing on pages 4 and 5 because they relate to complaints (which often embrace several offences) whereas lower court cases relate to number of offences. It should also be noted that higher court cases frequently proceed under different offences titles from those under which the lower court committals were made.

PRISON STATISTICS

The main Tasmanian prison is at Risdon in the south of the State but there is a subsidiary gaol farm at Hayes further up the Derwent River. The only other prison is at Launceston but this is a temporary holding centre where prisoners are held prior to transfer to Risdon.

For the purpose of prison statistics, Launceston is entirely excluded and the series that follows deals with prisoners both at Risdon and at Hayes. See tables 11 to 19 for details.

Scope: This section contains statistics of individual convicted prisoners received during the year ended 30 June 1977 (comparable data for 1974-75 and 1975-76 are included in Table 11, below).

Classification forms for individual convicted prisoners are received from the Controller of Prisons each week. The form is chiefly for prison administration but has been modified by the Bureau for statistical purposes. Characteristics of the prisoners are coded and tables are produced after sorting individual forms at the end of the year.

Explanatory Notes:

- (i) Statistics exclude prisoners on remand and those awaiting sentence.
- (ii) Convicted prisoners awaiting appeal hearings are not included in the statistics. If the appeal hearing results in a conviction the prisoner is included once the result is known.
- (iii) Age refers to the age of the prisoner at the date the sentence commenced.
- (iv) Multiple offences : where a prisoner is convicted of more than one offence, the most serious offence is shown. The most serious offence is determined as being the offence which results in the longest sentence.
- (v) Cumulative sentences are shown as equal to their united length and concurrent sentences are shown as equal to one sentence or to the longest where they are of unequal length.
