SUMMARY OF RELEASES FROM INSTITUTIONS

This report summarizes data on parole performance of persons released under supervision from Minnesota Correctional Institutions. Activity during the period July 1, 1973 through June 30, 1975 (fiscal years 1974 and 1975) is displayed on the following tables. Only information for those released on parole, rather than for all releases, is contained herein.

Tables 1 through 3 present data for adult institutions, and tables 4 and 5 present data for juvenile institutions. Data for adults and juvenile institutions cover the following:

1. Time in months from parole to parole revocation and reinstitutionalization or to new commitment.

For each institution and each year the number released and the cumulative number and percent returned is presented. For example, in fiscal year 1973-74, 320 inmates were released from SRM. Of these, 20 (6.3%) were returned during the first three months of the fiscal year, 34 (10.6%) were returned during the first six months, etc. For fiscal year 73-74 follow-up data is complete for a period 24 months after release; for the second year the data is complete only for twelve months following release.

2. Cumulative percent returned by race, sex, and year of release.

In addition, information on the rate of return by commitment offense is available for adult offenders.

TABLE 1: Adult Institutions - Cumulative Time Interval (in months) during which Violation Occurred, by Year of Release

	Number Released	0-3 Months		0-6 Months		0-9 Months		0-12 Months		0-24 Months
