Nebraska Uniform Crime Reporting Program

Introduction

The Nebraska Uniform Crime Reporting (UCR) Program involves the compilation, classification and analysis of crime statistics reported by law enforcement agencies in the State in accordance with guides and regulations prescribed by law.

The Statute creating the Nebraska UCR Program is incorporated into the same statute which created the Nebraska Commission on Law Enforcement and Criminal Justice, hereafter referred to as the Commission. The portion of the statute relating to UCR is reproduced below:

Nebraska Revised Statutes

Chapter 81-1425

"(6) collect, develop and maintain statistical information, records, and reports as the Commission may determine relevant to its functions."

Chapter 81-1426

"Public officers and agencies, information, records, reports; furnish to the Commission:

"(1) The Commission may obtain from all public officers or agencies whose functions include the control, apprehension, trial, or correction of criminal offenders in this state, such information, records, and reports as the Commission may determine relevant to its functions." "(2) It shall be the duty of all public officers and agencies whose functions include the control, apprehension, trial, or correction of criminal offenders to provide such information, records, and reports as the Commission shall reasonably require."

Historical Background

The counterpart of the Nebraska UCR Program is the National UCR Program under the direction of the Federal Bureau of Investigation (FBI). The National Program was the result of a need for nation-wide and uniform compilation of law enforcement statistics. Uniform Crime Reports were first collected in 1930 after being developed by a committee of the International Association of Chiefs of Police (IACP). Today the IACP continues to serve in an advisory capacity to the FBI in its operation of the Program. In 1966 the National Sheriffs' Association (NSA) established a Committee on Uniform Crime Records to serve in an advisory capacity to the National UCR Program while actively encouraging sheriffs throughout the nation to participate in the UCR Program.

In recent years, the FBI has actively assisted individual states in the development of state UCR Programs which are compatible with the national Program. Nebraska was one of the first states to develop a state UCR Program. After a three-month evaluation, the Nebraska UCR Program became operational on January 1, 1971. Commencing on that date all crime statistics flow through one central agency, this Commission, before submission to the National UCR Program. The

State Patrol, all sheriffs' departments and all police departments of municipalities of 1,000 population and over are required to submit Uniform Crime Reports by the seventh day after the end of the month. During 1978 a total of 207 law enforcement agencies were required to submit UCR's. All UCR's are verified and all mathematical computations are checked. Any errors or questionable data are corrected by telephone contact with the agency in question. After verification and processing of data, a magnetic tape is built and submitted to the National UCR Program.

This Commission publishes quarterly and annual reports based upon data submitted. The quality of these reports is hampered by agencies who have refused to participate in the UCR Program and by those who have not reported for all months. In a state Program such as this, data from all agencies is needed in order to portray crime in the State.

Uniform Crime Classifications

Uniformity of reporting depends upon the proper classification of offenses by the law enforcement agencies. The basic guidelines for classifying offenses are formulated by the Uniform Crime Reporting Section of the Federal Bureau of Investigation. It must be emphasized that the following classifications are not meant to be legal definitions of offenses, in fact, the classifications may differ considerably, in some cases, from the legal definitions as they are written in the Nebraska Penal Code. The purpose of these classifications is to establish a uniform national system for classifying similar offenses even though their legal definitions may vary considerably from state to state.

Part I Offenses

(1) Homicide—

- (a) **Murder**—any unlawful killing of a human being in which the element of malice aforethought was present in the murder. **Manslaughter**—any unlawful killing of a human being without the element of malice aforethought.
- (b) **Death by Negligence**—any death that occurs because of the negligence of some person other than the victim and that is not in the commission of an unlawful act.

(2) Rape—

- (a) **Rape by Force**—the carnal knowledge of a female forcibly and against her will, but excluding statutory rape and other sex offenses.
- (b) **Assault to Rape**—all assaults and attempts to rape.

(3) **Robbery**—the felonious and forcible taking of the property of another against his will by violence or by putting him in fear. Robbery differs from larceny in that it is aggravated by the element of force.

- (a) **Armed Robbery-Any Weapon**—when any object is so employed as to constitute force or the threat of force, it will be considered a weapon. This would include firearms, knives, clubs, brass knuckles, blackjacks, broken bottles, acid, explosives, etc. Cases involving possible pretended weapons or cases involving weapons not seen by the victim but which the robber claims to have with him are counted in this category.
 - (b) **Strong Arm-No weapon**—includes muggings and similar offenses when no weapon is used but strong-arm tactics are employed to deprive the victim of his property. This is limited to hands, arms, fists, feet, etc. As in armed robbery, all attempts are included.
- (4) **Assault**—an attempt or offer, with unlawful force or violence, to do physical injury to another. General Rule—all assaults will be classified in the following categories, excluding assaults with intent to rob or rape.
- (a) **Gun**—all assaults and attempted assaults involving the use of any type of firearm. This includes revolvers, automatic pistols, shotguns, zip guns, rifles, pellet guns, etc.
 - (b) **Knife or Cutting Instrument**—all assaults and attempted assaults involving the use of cutting or stabbing objects such as knives, razors, hatchets, axes, cleavers, scissors, glass, broken bottles, daggers, ice picks, etc.
 - (c) **Other Dangerous Weapons**—assaults or attempted assaults when any object other than a gun, knife or cutting instrument is used. This includes clubs, bricks, jack handles, bottles, explosives, acid, lye, poison, scalding water and cases of attempted drownings, burnings, etc.
 - (d) **Hands, Fists, Feet, Etc. (Felony)**—any assaults with hands, fists, feet, etc. which could result in a felony conviction. In order to be classified as a felony, the victim must suffer great bodily harm.
- (5) **Burglary**—any unlawful entry or attempted forcible entry of any structure to commit a felony or larceny. For Uniform Crime Reporting purposes, burglary with larceny is classified and scored only as burglary; the larceny is excluded. Breaking and entering of a motor vehicle is classified as larceny.
- (a) **Forcible Entry**—All offenses where force of any kind is used to unlawfully enter a locked structure to commit a felony or with intent to steal something. This includes entry by use of a master key, celluloid or other device that leaves no outward mark but is used to open a lock. Concealment inside a building followed by breaking out of the structure is scored here.
 - (b) **Unlawful Entry-No Force**—any unlawful entry when you fail to discover any evidence of forcible entry.
 - (c) **attempted Forcible Entry**—when determined that forcible entry has been attempted.
- (6) **Larceny-Theft (Except Auto Theft)**—the unlawful taking of the property of another with intent to deprive him of ownership. This involves all larcenies and thefts resulting from pocket picking, purse snatching, shoplifting, larceny from auto, larceny of auto parts and accessories, bicycle theft, larceny from buildings and larceny from any coin-operated machines. Any theft that is not a robbery

or any theft that does not result from a breaking and entering is scored here. Embezzlements, unlawful conversions, larceny by bailee, frauds or bad check cases are excluded.

- (7) **Motor Vehicle Theft**—larceny of attempted larceny of automobiles. All thefts and attempted thefts of motor vehicles are included. This includes all vehicles which can be registered as a motor vehicle in this state. Those incidents in which the alleged offender had unlawful access to the vehicle as in a family situation or the unauthorized use by others having lawful access to the vehicle such as chauffeur, employee, etc. are excluded.

Part II Offenses

- (8) **Other Assaults (Misdemeanor)**—consists of all assaults and attempted assaults which are simple or minor in nature.
- (9) **Arson**—includes all arrests for violations of state law and municipal ordinances relating to arson and attempted arson.
- (10) **Forgery and Counterfeiting**—all offenses dealing with the making, altering, uttering or possessing with intent to defraud anything false in the semblance of that which is true.
- (11) **Fraud**—Fraudulent conversion and obtaining money or property by false pretense. Includes bad checks, confidence games, etc.
- (12) **Embezzlement**—the misappropriation or misapplication of money or property entrusted to one's care, custody or control.
- (13) **Stolen Property**—all offenses of buying, receiving, possessing or concealing stolen property as well as all attempts to commit any of these offenses.
- (14) **Vandalism-Destruction of Property**—all willful or malicious destruction, injury, disfigurement or defacement of any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth or any other such means as may be specified by law or ordinance.
- (15) **Weapons**—includes violations of weapons laws such as manufacture, sale or possession of deadly weapons; carrying deadly weapons; furnishing deadly weapons to minors; aliens possessing deadly weapons, and all attempts to commit any of the above offenses.
- (16) **Prostitution and Commercialized Vice**—includes the sex offenses of a commercialized nature such as prostitution; keeping bawdy house, disorderly house or house of ill repute; pandering, procuring, transporting or detaining women for immoral purposes, etc. and all attempts to commit any of the above.
- (17) **Sex Offenses**—includes all sex offenses other than forcible rape, prostitution and commercialized vice. This encompasses offenses against chastity, common decency, morals and the like such as adultery and fornication, buggery, incest, indecent exposure, sodomy, carnal abuse (no force) and all attempts to commit any of the above.

- (18) **Drug Abuse Violations**—statistics for these arrests are requested on the basis of the narcotics used. This includes all arrests for the violation of state and local ordinances, specifically those relating to the unlawful possession, sale, use, growing, manufacturing and making of narcotic drugs. Four divisions of narcotic drugs are recognized. These are:
- (a) opium and cocaine and their derivatives (morphine, heroin, codeine),
 - (b) marijuana,
 - (c) synthetic narcotics which can cause true addiction (demerol, methadones) and
 - (d) other dangerous non-narcotic drugs, (barbituates, benzedrine).
- (19) **Gambling**—includes all charges relating to promoting, permitting or engaging in gambling. This classification is broken into three divisions:
- (a) bookmaking (horse and sport book),
 - (b) numbers and lottery and
 - (c) all other gambling.
- (20) **Offenses Against Family and Children**—includes all charges of nonsupport, neglect or abuse of family and children such as desertion, abandonment or nonsupport, neglect or abuse of child, or nonpayment of alimony.
- (21) **Driving Under the Influence**—limited to driving or operating any vehicle while drunk or under the influence of liquor or narcotic drugs.
- (22) **Liquor Laws**—with the exception of drunkenness and driving under the influence, all state or local liquor law violations are placed in this class. Federal violations are not included. Include manufacturing, selling, transporting, furnishing as in maintaining unlawful drinking places, bootlegging, operating a still, furnishing liquor to a minor and using vehicle for illegal transportation of liquor.
- (23) **Drunkenness-Intoxication**—includes all offenses of drunkenness or intoxication with the exception of driving under the influence. This generally encompasses drunk and disorderly behavior and public intoxication.
- (24) **Disorderly Conduct-Disturbing the Peace**—includes all disorderly persons who can not be classified under offenses 1 through 23 or under offense 25.
- (25) **Vagrancy**—includes arrests for failure of an individual to give a good account of himself, begging, loitering, etc.
- (26) **All Other Offenses**—includes all violations of state and local laws not otherwise classified.
- (27) **Suspicion**—limited to suspicion arrests when the persons arrested are released by the police.
- (28) **Curfew and Loitering Law Violations**—(Juveniles) all arrests made for violations of local curfew or loitering ordinances.
- (29) **Runaways**—(Juveniles) limited to juveniles taken into custody who have run away from the reporting jurisdiction.

Crime Index

The extent, fluctuation and distribution of crime in the State is measured by the crime index. The crime index is composed of the following offenses: murder, manslaughter, forcible rape,

robbery, felony assault, burglary, larceny-theft and motor vehicle theft. Many categories of crime are not of sufficient importance to be included in the Index; some serious crimes, such as kidnapping, do not occur with enough regularity to be meaningful in the index. With these considerations in mind, the above offenses were selected as a group to serve as a measure of crime.

Clearances

For UCR purposes, an offense can be cleared by arrest or by exceptional means. An offense can be cleared by arrest when the offender is identified, there is enough evidence to charge him and he is actually taken into custody. The arrest of one person can clear several offenses and several persons may clear one offense. When some element beyond police control precludes formal charges against the offender, such as the victim's refusal to prosecute or death of the offender, an offense can be cleared by exceptional means. There is no distinction made between cleared by arrest and cleared by exceptional means in this publication. A distinction is made between total clearances and those involving only persons under 18 years of age (juveniles). A juvenile clearance is counted only when juveniles are exclusively involved in the clearance of an offense.

Crime Rates

Crime rates relate the incidence of crime to population. Estimates of current permanent population are used in computing crime rates. Crime rates allow for comparisons between several areas with different populations over a period of time without the information being biased by population differences. To compute a crime rate, first divide the population of the area by 100,000 and then divide the crime index by that answer. Throughout this report a crime rate per 1,000 population is used to be more meaningful for the State.

Crime Factors

Statistics gathered under the UCR Program are law enforcement statistics. The agencies report the offense and arrest data according to the standard offense classifications and not according to state statutes or local ordinances. Offenses are related to municipality and county in which they occur, rather than to the agency which may investigate, arrest or otherwise dispose of the case. The clearance is attributed to the municipality or county in which the offense occurred, even though the arresting agency may not be the department originally reporting the offense.

The factors which influence crime rates are dependent upon many characteristics of the community, and therefore, when attempting to interpret the crime statistics presented herein, one should be aware of the social structure and the factors that lead to or cause criminal behavior.

Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community. Below are some of the conditions which will by type and volume affect the crime that occurs from place to place:

Density and size of the community population and the metropolitan area of which it is a part.

Composition of the population with reference particularly to age, sex and race.

Economic status of the population.

Relative stability of population, include commuters, seasonal and other transient types.

Climate, including seasonal weather changes.

Educational, recreational and religious characteristics.

Standards governing appointments to the police force.

Policies of the prosecuting officials and the courts.

Attitude of the public toward law enforcement problems.

The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

Caution should always be used when using the crime statistics presented herein, however, it should also be kept in mind that the data presented is the most accurate currently available. The law enforcement personnel who provide the data are to be commended for their efforts to provide accurate data. Without their sincere cooperation, this publication would not be possible. Crime is a social problem and therefore, should be a concern of the entire community. We appreciate the law enforcement agencies participation in the UCR Program thereby permitting us to identify the extent of crime for the citizens of the State.

Nebraska Crime Trends, 1974-1978

Crime and Population, 1974-1978

Crime reported during 1978 reflected an increase of four percent over 1974. Nebraska's population has increased 1.4 percent over 1974. The crime rate per 1,000 population has increased 2.4 percent. Crime reported during 1978 decreased two percent over 1977.

An analysis of crime trends by population groups revealed that cities over 250,000 population (the City of Omaha) had an 11.1 percent decrease over 1974. Cities of 100,000 to 250,000 population (the City of Lincoln) had a 4.5 percent increase over 1974. Crime reported in 1978 by the City of Lincoln reflected a seven percent decrease over 1977.

Cities of 5,000 to 100,000 population had a 30.8 percent increase over 1974. Cities under 5,000 population had a 25.7 percent increase over 1974.

Counties, which include the rural area and cities under 1,000 population reflected a 7.3 percent increase over 1974. The State agencies which report offenses occurring on State property (the State Patrol and the University of Nebraska-Lincoln), had a 34.7 percent increase over 1974.

Crime Index Offenses, 1974-1978

The crime index offenses reported during 1978 reflected an increase of 3.8 percent over 1974. Robbery has shown the greatest decrease, 28 percent, over 1974. Murder, manslaughter has decreased 16 percent, forcible rape has decreased three percent, felony assault has decreased 17 percent, burglary has decreased three percent, larceny-theft has increased 13 percent, and motor vehicle theft has decreased 21 percent.

Murder, manslaughter has decreased in all areas of the State except in the counties (rural), where it has increased 50 percent over 1974. Rape has increased in cities of 5,000 to 250,000 and in the counties. Robbery has decreased in all areas of the State over 1974. Felony assaults increased 23 percent over 1974 in cities of 5,000 to 100,000 population. Burglary reflected decreases in cities over 250,000 population and in the counties. Larceny-theft showed increases in all areas of the State over 1974. Motor vehicle theft decreased in cities over 250,000 population and the areas covered by the State agencies (State Patrol and University of Nebraska-Lincoln).

Table 1

Crime Trends by Population Groups*, 1974-1978

Population Group	Year	Offense

Crime Index Offenses—1978

Volume

A total of 52,899 index offenses were reported or known to law enforcement agencies in 1978. The violent crimes of murder, manslaughter, forcible rape, robbery, and felony assault accounted for 5.6 percent of the total offenses. The property crimes of burglary, larceny-theft and motor vehicle theft accounted for 94.4 percent of the total offenses.

Felony assault accounted for 54.5 percent of the violent crimes and larceny-theft accounted for 70.2 percent of the crimes against property. Larceny-theft was the most frequently reported of all crimes, accounting for 66.3 percent of the total index.

Crime Rates

Based on an estimated population of 1,565,000 the crime rate was 33.8 in 1978. The crime rate for violent crimes was 1.9 per 1,000 population. The crime rate for crimes against property was 31.9 per 1,000 population. There were 22.4 larceny-thefts per 1,000 population in 1978.

Clearances

A total of 13,185 index offenses were reported cleared during 1978, a clearance rate of 23.9 percent. Murder, manslaughter had the greatest percentage of offenses cleared, 93.5 percent. Violent crimes had a clearance rate of 62.8 percent. Crimes against property had a clearance rate of 22.7 percent.

The difference between the clearance rate for crimes of violence and crimes against property can be attributed to the fact that there are more property crimes to be solved and investigations of violent crimes are usually more intense. The element of confrontation between the victim and the perpetrator, as well as witness identification of the perpetrator, contributes to the higher rate of clearance.

Murder, Manslaughter

Murder is defined as the unlawful killing of a human being in which the element of malice aforethought was present. Manslaughter is defined as any unlawful killing of a human being without the element of malice aforethought. Suicides, accidental deaths and justifiable or excusable homicides are excluded.

Volume and Rate

During 1978, a total of 46 murder, manslaughters were reported by law enforcement agencies in Nebraska. Murder, manslaughter accounted for 1.6 percent of all violent crimes (murder, manslaughter, forcible rape, robbery and felony assault) and eight-hundredths of one percent of all index offenses. In 1978 there were .03 murders per 1,000 population.

Murder, Manslaughter Analysis

In all cases of murder, manslaughter reported under the UCR Program, a supplementary report is submitted by the reporting agency. The supplementary report provides the age, sex and race of the victim(s) and offender(s), weapon used to commit the offense, relationship of the victim to the offender, and circumstances or motive leading to the crime.

The frequency of murder during 1978 was highest in the month of July when eleven murders occurred. There were no murders reported in March.

In 1978, male victims accounted for 85 percent of the total murder victims, with 43.6 percent of those being in the age group of 18-29. Female victims accounted for 15 percent of the total murder victims. Victim analysis by race disclosed that 73.9 percent were White, 19.6 percent were Negro, and 6.5 percent were Indian.

Of the 41 known perpetrators, males accounted for 80.5 percent and 43.9 percent of those were in the age group of 18-29. Female perpetrators accounted for 19.5 percent and 50 percent of those were in the age group of 18-29. White perpetrators accounted for 63.4 percent of the perpetrators, Negroes accounted for 26.8 percent, Indians accounted for 7.3 percent and all other races accounted for 2.4 percent.

Most murders, 74 percent, were committed by a relative or acquaintance of the victim. A further breakdown indicated that 37 percent were committed by a relative; 37 percent were committed by an acquaintance; 19.6 percent were committed by strangers and in 6.5 percent of the cases the perpetrator(s) was unknown.

43 murder, manslaughters were cleared in 1978. Juvenile clearances accounted for 4.7 percent of the total clearances.

Handguns were used in 26.1 percent of the murders and a knife or other cutting instrument was used in 21.7 percent of the incidents.

Forcible Rape

Forcible rape is defined as the carnal knowledge of a female forcibly, and against her will. All assaults and attempts to rape are counted. Carnal abuse, without force (statutory rape) and other sex offenses are not included.

Volume and Rate

During 1978, law enforcement agencies in Nebraska reported a total of 284 forcible rapes. Forcible rape accounted for 9.6 percent of all violent crimes (murder, manslaughter, forcible rape, robbery, felony assault) and 0.5 percent of all index offenses. In 1978, there were 0.2 rapes per 1,000 population.

Analysis of Forcible Rape

Rape by force accounted for 75.7 percent of all forcible rapes and 24.3 percent were attempts to rape.

The age group accounting for the highest percentage of persons arrested for forcible rape, 19.9 percent, occurred within the 25-29 age group. Juvenile arrests accounted for 9.2 percent of all persons arrested for forcible rape.

Of all persons arrested for forcible rape, 54.6 percent were White, 39.7 percent were Negro, 4.3 percent were Indian and 1.4 percent were of other races. A total of 192 forcible rapes, 66.9 percent, were cleared during 1978.

Rape Circumstances

Law enforcement agencies are asked to submit a supplementary report on the circumstances surrounding any rape by force and attempt to rape. Supplementary reports were received on 128 cases; the Omaha P.D. did not submit any supplementary reports. Victims under the age of 25 accounted for 78.9 percent of the total victims. Of those victims under 25, 54.5 percent were between 18 and 24 and 26.7 percent were between 11 and 15. The victim was most likely to be attacked in her own home. In 46.1 percent of the incidents the perpetrator was a stranger. In 17.2 percent of the incidents a weapon was used and it was most likely to be a knife or other cutting instrument. The victim was attacked by more than one offender in 10 incidents. Interracial rapes accounted for 13.9 percent of the incidents.

Robbery

Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear. Robbery takes place in the presence of the victim. The victim, who usually is the owner or person having custody of the property is directly confronted by the perpetrator and is threatened with force or fear that force will be used. Robberies are reported in the following categories: firearm, knife or cutting instrument, other dangerous weapon, and strong arm—no weapon.

Volume and Rate

During 1978, a total of 1,016 robberies were reported by law enforcement agencies in Nebraska. Robbery accounted for 34.3 percent of all violent crimes and 1.9 percent of all index offenses. In 1978, there were 0.7 robberies per 1,000 population.

Analysis of Robbery

A firearm was used in 46.5 percent of all robberies, a knife or other cutting instrument was used in 10.6 percent, other dangerous weapons were used in 5.6 percent and strong arm tactics were used in 37.3 percent of all robberies.

Robberies occurring on streets, highways, alleys, etc., accounted for 44.2 percent of all robberies. Robbery of a commercial house accounted for 17.4 percent and the robbery of a convenience store accounted for 12.5 percent. In 129 robberies, the victim was robbed in his residence.

The age group of 25-29 accounted for the highest percentage, 13.0 percent, of all persons arrested for robbery. The arrest of males accounted for 93.4 percent of all arrests for robbery.

Of all persons arrested for robbery, 40.2 percent were White, 55.5 percent were Negro, 4.1 percent were Indian and 0.3 percent were of other races.

A total of 355 robberies, 34.9 percent, were cleared by law enforcement agencies in 1978.

Figure 14

Robbery by Month

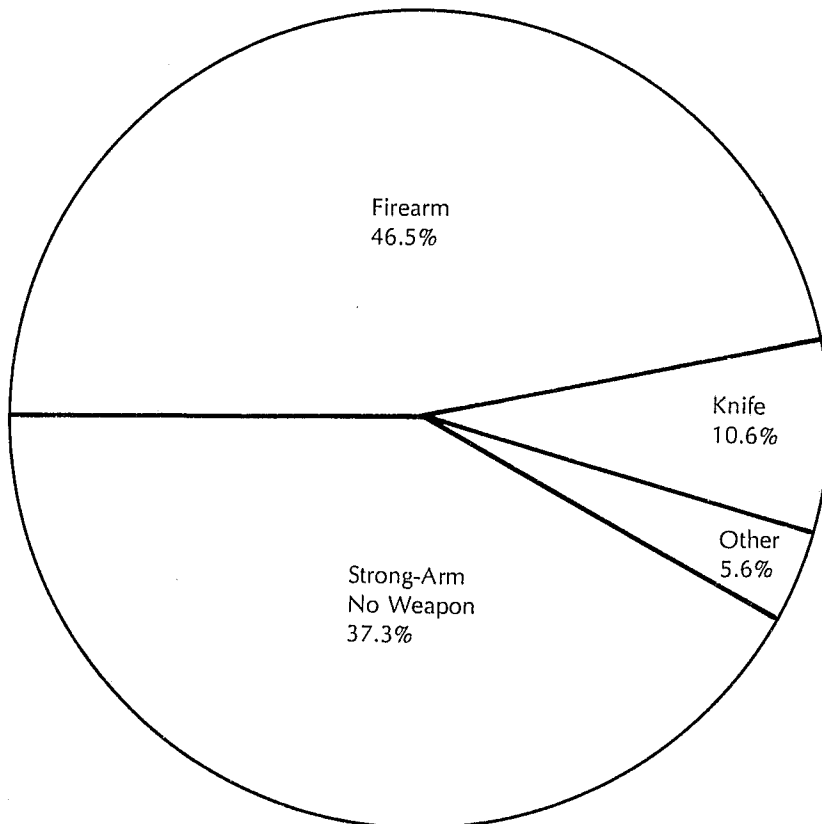

Figure 15

Analysis of Robbery by Type of Weapon

Felony Assault

Felony assault is an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. Felony assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily injury.

Volume and Rate

During 1978, there were 1,614 felony assaults reported by law enforcement agencies in Nebraska. Felony assaults accounted for 54.5 percent of all violent crimes and 3.1 percent of all index offenses. In 1978, there were 1.0 felony assaults per 1,000 population. A total of 1,270 felony assaults, 78.7 percent, was cleared.

Analysis of Felony Assault

A firearm was used in 32.2 percent of all felony assaults and hands, fists, and feet were used in 27.1 percent. The use of a knife accounted for 21.6 percent and the use of other dangerous weapons accounted for 19.1 percent of all felony assaults.

The age group of 25-29 accounted for the highest percentage of persons arrested for felony assaults, 20.5 percent. Arrests of males accounted for 89.4 percent of all arrests for felony assault.

Of all arrests for felony assault, 67.0 percent were White, 25.9 percent were Negro, 5.3 percent were Indian and 1.8 percent were of other races.

During 1978, agencies provided victim/offender relationships on each assault reported, including misdemeanor assaults. The assault is categorized as either relationship established or stranger-to-stranger. Victim/offender relationships were received on 2,353 assaults. The victim of an assault knew the perpetrator in 70.4 percent of the incidents and did not know the perpetrator in 29.6 percent of the incidents.

Figure 16

Felony Assault by Month

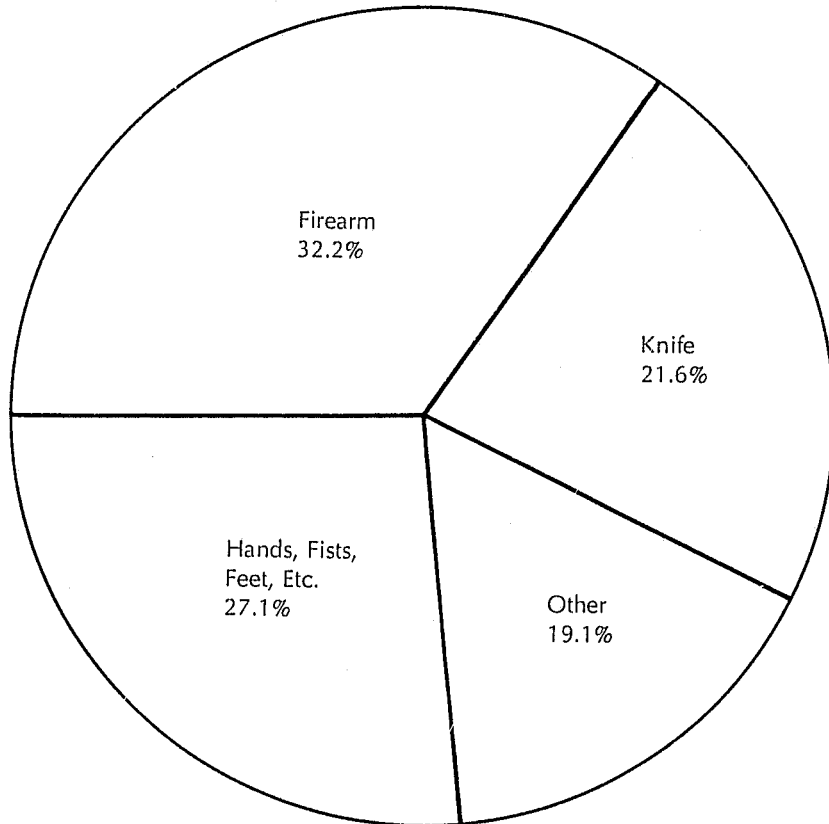

Figure 17

Felony Assault by Type of Weapon

Burglary

Burglary is defined as any unlawful entry or attempted forcible entry of any structure to commit a felony or theft. Burglary is divided into three categories: forcible entry, unlawful entry—no force, and attempted forcible entry.

Volume and Rate

During 1978, a total of 11,514 burglaries were reported by law enforcement agencies in Nebraska. Burglary accounted for 23.1 percent of all property crimes (burglary, larceny-theft and motor vehicle theft) and 21.8 percent of all index offenses. In 1978, there were 7.4 burglaries per 1,000 population. A total of 2,574 burglaries, 22.4 percent, were cleared.

Analysis of Burglary

Of all burglaries, 59.3 percent involved residences and 40.7 percent involved non-residences. Of the residential burglaries, 32.0 percent, occurred during the hours of 6:00 a.m. and 6:00 p.m., 29.5 percent occurred during the hours of 6:00 p.m. and 6:00 a.m., and in 38.5 percent the time of entry was unknown. Non-residential burglaries occurred most frequently during the night, 64 percent. Burglaries during the day accounted for 5.4 percent and in 30.6 percent the time of entry was unknown.

The age group of 16 accounted for the highest percentage of persons arrested for burglary, 11.6 percent. Male arrests accounted for 95.2 percent of all arrests for burglary and juveniles accounted for 50.2 percent.

Of all persons arrested for burglary, 78.7 percent were White, 17.2 percent were Negro, 3.5 percent were Indian and 0.6 percent were of other races.

Figure 18
Burglary by Month

Larceny-Theft

Larceny-theft is the unlawful taking of the property of another with the intent of depriving him of ownership. Larceny-theft as an index offense includes larcenies under \$50 in value.

Volume and Rate

During 1978, a total of 35,073 larceny-thefts were reported by law enforcement agencies in Nebraska. Larceny-theft accounted for 70.2 percent of all crimes against property and 66.3 percent of all index offenses. In 1978, there were 22.4 larceny-thefts per 1,000 population. A total of 7,808 larceny-thefts, 22.3 percent, was cleared in 1978.

Analysis of Larceny-Theft

Of the total larcenies reported, 41.8 percent were under \$50 in value, 39.4 percent were \$50-\$200 in value and 18.8 percent were over \$200 in value. The theft of items from motor vehicles accounted for 17.9 percent of the total number of thefts. Thefts from buildings accounted for 17.9 percent and the theft of motor vehicle parts and accessories accounted for 17.7 percent of all thefts.

The age group of 13-14 accounted for the highest percentage of persons arrested for larceny-theft, 13.5 percent. Male arrests accounted for 63.6 percent of all arrests for larceny-theft and juveniles accounted for 47.9 percent.

Of all persons arrested for larceny-theft, 78.2 percent were White, 18.5 percent were Negro, 2.7 percent were Indian and 0.7 percent were of other races.

Motor Vehicle Theft

Motor vehicle theft is defined as the theft or attempted theft of a motor vehicle. Thefts of farm equipment, bulldozers, airplanes and construction equipment are not included in the definition of a motor vehicle. Motor vehicle theft is divided into the following categories: autos, trucks and buses, and other vehicles.

Volume and Rate

During 1978, 3,352 motor vehicle thefts were reported by law enforcement agencies in Nebraska. Motor vehicle theft accounted for 6.7 percent of all crimes against property and 6.3 percent of all index offenses. In 1978, there were 2.1 motor vehicle thefts, per 1,000 population. A total of 943, 28.1 percent, motor vehicle thefts was cleared in 1978.

Analysis of Motor Vehicle Theft

During 1978, law enforcement agencies provided additional information regarding types of vehicles stolen. The agencies reported 2,110 autos, 606 trucks and buses and 636 other vehicles were stolen.

During 1978, 2,813 motor vehicles were recovered; 78.8 percent were recovered within the same jurisdiction where they were stolen and 21.2 percent were recovered in another jurisdiction.

The age group accounting for the highest percentage of persons arrested for motor vehicle theft, 15.2 percent, occurred in the age group 15. Male arrests accounted for 93.1 percent of all motor vehicle theft arrests. Juveniles accounted for 57.7 percent of all arrests for motor vehicle theft.

Of all persons arrested for motor vehicle theft, 79.8 percent were White, 14.7 percent were Negro, 4.9 percent were Indian and 0.5 percent were of other races.

Arrest Data

Under the Uniform Crime Reporting Program, an arrest is counted each time a person is taken into custody, summoned, notified or cited. When a person under 18 years of age commits an offense and the circumstances are such that if the offender were an adult an arrest would be made, the offender is counted as an arrest by the reporting agency.

For reporting purposes, one arrest is counted each time a person is taken into custody, regardless of the number of charges placed against him. If an individual is arrested more than once during the year, an arrest is counted each time. When several persons are arrested in connection with the same offense, each is counted as an arrest. It should be kept in mind that arrest practices and emphasis on certain crimes vary from place to place. Each reporting agency is responsible for reporting arrests made by the State Patrol in its jurisdiction.

Volume and Rate

Law enforcement agencies in Nebraska reported 54,603 arrests in 1978 for Part I and Part II offenses. This represents a decrease of four percent over 1977. There were 34.9 arrests per 1,000 persons in Nebraska in 1978 as compared with 36.5 arrests per 1,000 persons in 1977.

Arrests for Part I offenses accounted for 20.3 percent of the total arrests. Of the arrests for Part I offenses, larceny-theft accounted for the greatest portion of the arrests, 63.1 percent. The greatest percentage of arrests for Part II offenses were for drunkenness, intoxication.

During 1978, arrests for crimes of violence (murder, manslaughter, forcible rape, robbery and felony assault) accounted for 10.7 percent of all arrests for Part I offenses and 2.2 percent of the total arrests.

Arrests for crimes against property (burglary, larceny-theft and motor vehicle theft) accounted for 89.1 percent of all arrests for Part I offenses and 18.1 percent of the total arrests.

Arrests for Part I offenses decreased four percent over the number reported during 1977. Arrests for death by negligence, robbery and motor vehicle theft all showed increases over 1977.

Arrests for Part II offenses decreased four percent over 1977. Arrests for gambling increased 39 percent over 1977.

Arrests by Age

The number of persons under the age of 18 (juveniles) arrested during 1978 decreased eleven percent over 1977. Arrests of juveniles for Part I offenses also decreased seven percent over 1977. The arrests of persons age 18 and over (adults) decreased two percent over 1977. Adult arrests for Part I offenses decreased 0.2 percent over 1977.

Of the arrests for the Index Offenses (murder, manslaughter, forcible rape, robbery, felony assault, burglary, larceny-theft

and motor vehicle theft) persons under the age of 25 accounted for 79.0 percent and persons under the age of 18 accounted for 72.6 percent of those under 25. The age group of 13-14 accounted for the greatest number of arrests in any age group for the index offenses.

The arrests of persons under the age of 25 accounted for the following percentages of the total arrests for each index offense: murder, manslaughter (33.3); forcible rape (53.9); robbery (76.2); felony assault (53.5); burglary (88.1); larceny-theft (78.3); and motor vehicle theft (88.8).

Of those persons under the age of 25 arrested for index offenses, persons under the age of 18 accounted for 23.5 percent for murder, manslaughter; 17.1 percent for forcible rape; 34.2 percent for robbery; 27.8 percent for felony assault; 57 percent for burglary; 61.1 percent for larceny-theft and 65 percent for motor vehicle theft.

Arrests by Sex

In 1978, males accounted for 83.2 percent of all arrests. Males accounted for 74.7 percent of the arrests for Part I offenses and 85.4 percent of all arrests for Part II offenses. Total male arrests decreased four percent over 1977 and female arrests decreased four percent over 1977. Male arrests for Part I offenses decreased 0.6 percent and female arrests decreased 0.6 percent. Male arrests for Part II offenses decreased four percent and female arrests decreased five percent. Females were arrested for larceny-theft more times than for any other offense. The greatest number of male arrests were recorded for drunkenness-intoxication.

Arrests by Race

A distribution analysis of total arrests by race for 1978 indicated 81.1 percent of all arrests were White, 10.9 percent were Negro, 7.2 percent were Indian and 0.8 percent were of other races. The arrest involvement by race for the index offenses revealed that 76 percent were White, 20.1 percent were Negro, 3.2 percent were Indian and 0.7 percent were of other races.

An analysis of arrests by race for crimes of violence (murder, manslaughter, forcible rape, robbery and felony assault) revealed that 56.2 percent were White, 37.8 percent were Negro, 4.8 percent were Indian and 1.3 percent were of other races.

An analysis of arrests by race for crimes against property (burglary, larceny-theft and motor vehicle theft) revealed that 78.4 percent were White, 17.9 percent were Negro, 3.0 percent were Indian and 0.6 percent were of other races.

An analysis of arrests by race for Part II offenses revealed that 82.4 percent were White, 8.5 percent were Negro, 8.3 percent were Indian and 0.8 percent were of other races.

Officers Killed And Assaulted

The killing or assault of a law enforcement officer is an increasingly serious problem faced by the law enforcement administrator and should be of the gravest concern to the public at large. Such acts directly affect the functioning of proper law enforcement operations and thus reduce the ability of our law enforcement agencies to combat crime and maintain law and order. The ambitious young man who today considers a career in law enforcement must also consider the risk of being killed or assaulted by a member of the society he is sworn to protect.

Assaults on Law Enforcement Officers

During 1978, there were a total of 208 assaults on state, county and municipal law enforcement officers. This represents a 32 percent decrease over 1977. While every assault does not result in personal injury to the officer involved, many of them do result in physical harm to the officer and loss of duty time. During 1978, personal injury was involved in 42 percent of the assaults compared with 48 percent in 1977. A total of 1,056 duty hours were lost due to the assaults.

Most of the assaults occurred while responding to disturbance calls and most of these assaults were inflicted with personal weapons such as hands, fists or feet. There were no law enforcement officers killed during 1978.

Law Enforcement Employee Data

The Nebraska Uniform Crime Reporting Program surveys law enforcement agencies each year concerning employee data. At the end of October, 1978, there were 3,312 persons employed full-time in 197 law enforcement agencies.

Of the 3,312 employees 2,482 were sworn personnel and 830 were civilian employees. Based upon an estimated population of 1,565,000, there were 1.6 sworn officers per 1,000 persons in the State. The rate of law enforcement officers per 1,000 population for any given agency in the State is influenced by several factors. The determination of law enforcement strength for a certain area is based on such factors as population density, size and character of the community, geographic location and other conditions which exist in the area.

Females accounted for three percent of the sworn personnel and 69 percent of the civilian personnel.
