**INTRODUCTION**

The 1979-80 Fiscal Year Statistical Summary is issued by the Los Angeles County Sheriff's Department as a means of evaluating the effectiveness of current procedures and as a reference for future development of the Department.

The following is a clarification of the terms utilized in the Summary:

**Crime Rates**

Crime Rates in this Summary are based on a population of 10,000 rather than 100,000 as in the State of California and Federal Bureau of Investigation reports. This makes the rates more significant in view of the population distribution in the various Station and Contract City areas. The Crime Rate is calculated as follows:

$$\frac{\text{Number of Crimes in Area "Y"}}{\text{Population in Area "Y"}} \times 10,000 = \text{Crime Rate}$$

**Population**

Population figures were obtained from the Los Angeles County Department of Regional Planning Quarterly Bulletin, Number 143, January 1, 1979.

**Area**

The Area figures are based on figures provided by the Los Angeles County Engineering Department for January 1, 1980.

**Comparisons**

Factors contributing to crime are numerous and vary from place to place. Readers are cautioned against drawing conclusions from direct comparisons of crime figures between individual communities of similar population and size. In Los Angeles County, a jurisdiction in excess of seven million population, several factors affect the rate of crime. These factors include:

- Crime reporting practices of citizens
- Multiple levels of economic status
- Population, both resident and transient
- Composition of the population in regard to age and sex
- Population density and community characteristics: commercial, educational, recreational, religious and economic
- Public attitude toward crime and law enforcement
- Number of police employees per unit of population
- Policies of the prosecuting officials and courts

In evaluating percent changes, consideration must be given to the dates during which the changes took place as well as to the actual number of crimes upon which the percentage is based.

**Part I Offenses**

The Part I Offenses are used by law enforcement agencies in the United States to reveal the extent and trend of criminal activity. Any significant change from the anticipated pattern of the figures alerts Law Enforcement Administrators to possible problem areas. The Part I Offenses are Criminal Homicide, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny Theft, and Grand Theft Auto. Arson was designated as a Part I crime in October, 1978, but the FBI reporting guidelines were not available until March, 1979. It is treated as a Part II Offense in this summary. The Sheriff's Department tabulates Part I Offenses by Uniform Crime Report standards and maintains statistical files with regard to violations, locations of occurrences, arrests by age and sex of the offenders, and by disposition of cases. Only the most serious classification is tabulated from reports with multiple classifications. If a suspect is charged with Burglary and Malicious Mischief, only the Burglary (the more serious crime) is included in the statistics. However, if several persons together commit one crime, each person is counted in "Adults Arrested"; only one crime is counted in "Cases Handled." Thus, statistics maintained by each of the Stations or Bureaus may differ from those recorded in this Summary. Similarly, a single case handled may have multiple assignments with the result that cases assigned will total more than cases handled.

**Percentage Comparisons**

Whenever the availability of data permits, percentage changes are indicated. These percentages reflect increases or decreases in the total number of cases. It must be noted that these changes do not adequately reflect changes in manpower expended. It is in fact possible for a decrease in cases to represent an increase in man-hours expended due to a greater number of hours required for each case.

YOUTH SERVICES BUREAU

ACTIVITY SUMMARY

The Youth Services Bureau is composed of four separate Details with widely diverse and varying responsibilities.

JUVENILE LIAISON DETAIL

This Unit works directly with the various components of the Juvenile Justice System. The monitoring and processing of court documents, and management of the witness on-call process at two juvenile courts are also responsibilities of the Detail. The Juvenile Justice Center, a unique program that unites every element of the system in making dispositional decisions by panel discussion, also has a representative from this Unit.

DETECTIVE SERVICES BUREAU

ROBBERY DETAIL

Due to the Detective Division reorganization in April, 1979, Robbery Detail is directly responsible for robberies of banks, savings and loans, finance companies, post offices, credit unions, hijackings and miscellaneous related cases (suspicious circumstances, etc.). The detail continues to gather teletype information and provide that information to station detectives and other police agencies. Additional information is gathered from local, state and national resources and liaison with many robbery investigators associations.

Identi-Kit was transferred to Robbery Detail, April, 1979.

Robbery Detail also continues to physically conduct lineups for LASD, Federal and State Agencies, out of County Agencies and under special circumstances, court ordered lineups continue to increase though at a substantially reduced rate.

At the culmination of investigation of Federal Bank Law violators, it is normal procedure for Robbery Detail to have criminal filings against suspects initiated by the FBI through the United States Attorney General and the Federal Courts.

Though cases assigned appear to indicate a downward trend from the previous year, it should be noted that robberies of banks, other financial institutions and hijackings have increased by 62 cases or 57%. Comparison should no longer be made with pattern and series cases as they are station assignments and not Robbery Detail.

The trend in the increased amount of bank and financial institution robberies is expected to continue its upward climb with no sign of a letup and will most probably accelerate due to current economic conditions.

It should be noted that prior to the Detective Division reorganization, 16 investigators were assigned to Robbery Detail and though the workload has increased greatly and in all probability will continue to increase, only 8 investigators have been assigned to Robbery Detail since July 1, 1980. This shortage will ultimately result in a reduction in the quality of investigation, apprehension of suspects and clearing of cases.

DETECTIVE SERVICES BUREAU

SPECIAL UNITS DETAIL

The Detail consists of five specialized units providing investigative and information services to Sheriff's Station Detectives and to other policing jurisdictions. Jail Investigations Unit investigates crimes occurring in the Civic Center jail facilities. Motorcycle Gang Unit develops information on outlaw gang activities and also investigates gang-related crimes. The Sex Crimes Unit assists in the investigation of sex offenses, particularly those involving a series and pattern or multiple jurisdictions and maintains files of sex offenses, offenders and methods of operation. Livestock Unit investigates all thefts of cattle, horses, etc., and tack. They inspect sales locations throughout Southern California. Industrial Metals inspects all resale metal locations in Los Angeles County. They are responsible for cases involving large thefts of metal.

DETECTIVE DIVISION

HOMICIDE BUREAU

The Homicide Bureau is a specialized bureau employing unique investigative and evidence-handling expertise in such cases as homicides, accidental, narcotic overdose, suicide, and other sudden and unexplained deaths; kidnapping where ransom, extortion or victim injuries exist; missing and unidentified adults, including missing juveniles where there is suspicion of foul play, and gunshot injuries involving department personnel.

The Homicide Bureau also provides investigative expertise to independent cities, when requested, in homicides, other death investigations, and in officer involved shooting incidents.

MAJOR INVESTIGATIONS

The cases included in this category involve an immediate response by two or more homicide investigators, intensive investigation over a period of days or weeks, and the preparation of extensive written reports. The majority of the Homicide Bureau's investigative effort is expended in this area.

NON-CRIMINAL INVESTIGATIONS

These cases require a response by one or more investigators, a thorough investigation lasting one to several days to insure that no criminal circumstances were involved, and preparation of a follow-up report(s).

MISSING PERSONS

These investigations vary considerably depending upon the circumstances. An adult missing with no evidence of foul play normally involves several hours of investigation, follow-up reports, and oft-times a personal contact with relatives. A missing juvenile with foul play suspected can require a massive response of available personnel and days of investigation.

OTHER ASSIGNMENTS

These cases do not require a response by Homicide investigators. A brief investigation is conducted by phone to insure no suspicious circumstances are involved and a liaison maintained with the Coroner's Office pending the results of the post-mortem examination.
