Age at Incarceration	44
Age at 1st Arrest	45
Age at 1st Drunk Arrest	47
Age at 1st Drug Arrest	48

-i-

INTRODUCTION

This report is a statistical description of characteristics of court commitments to the Massachusetts Department of Correction during 1976. The tables which follow contain information on personal background characteristics, present offense, and criminal history of admissions from the courts to MCI-Walpole, Concord and Framingham. These tables were derived from the computerized data base developed by the Correction and Parole Managements. Information System (CAPMIS) and produced by the Research Unit of the Department of Correction on the Massachusetts State College Computer Network (MSCCN).

NOTE: This report differs from that of last year in format. Last year, the number of unknown data for each table was listed at the bottom of that table. This year, each table has an unknown category included in that table.

EXPLANATION OF TABLES

Each column represents a correctional institution. There are 3 of these committing institutions. Each row represents a category of the specified variable. For example: the variable race has 4 categories (4 rows) which are white, black, other and unknown.

At the bottom of each table there are 2 numbers under each column. The top number is the actual number of inmates for the corresponding institution. The bottom number represents the percent of the total population at that institution. When a table has more categories than can be listed on one page, the column totals are listed on each page, and they represent the totals of each institution for the complete table.

At the right of each table, there are 2 numbers for each row. Similarly the top number is the actual number of inmates who fall into the corresponding category and the bottom number is the percent of the total population in that category.

The rest of the table consists of boxes (cells) each with 2 numbers. The top number represents the number of inmates at the corresponding institution (column) who fall into the corresponding category (row). The bottom number is the column percent. The column percent is the percent of the inmates at the particular institution (column) who fit into the corresponding category. For example:

	BOSTON STATE		
	I	-----	I
	I	23	I
BLACK	I	39.7	I
	I	-----	I

23 people are black in Boston State  
39.7% of all people in Boston State are black.

GLOSSARY OF TERMS

Institutions:

All women are committed to Framingham; men who receive an indefinite sentence are committed to Concord, others who receive a definite sentence (i.e., a minimum and a maximum sentence) are committed to Walpole.

Page 1

Court from which committed

A. Municipal courts: lower courts of Suffolk County

B. District courts: lower courts of all other counties.

Page 10

Occupation field

These categories were derived from a code scheme developed by Martin Hamburger, Teachers College, Columbia University. The following are examples of occupations in each category:

Professional: lawyers, doctors, clergy, engineers

Semi-professional: teachers, social workers, researchers

Business: owners or managers of any business sales

Clerical: insurance salesmen, secretaries, dime store clerks

Skilled manual: tradesmen such as carpenters & plumbers of a skill level above apprentice

Semi-skilled manual: factory workers, construction laborers

Unskilled manual: general laborers, dish washers

Services: police, firemen, bartender, taxi drivers

Agriculture: farmers and farm workers

Armed services: those in armed services without special training

Unemployed: little or no work experience

- Page 14  
Drug Use  
This data is based upon information obtained from the probation department report prepared on each commitment. A person is described as a drug user if he (1) describes himself as such or (2) has had arrests for narcotic offenses.
- Page 15  
Minimum Sentence  
Indeterminate: sentences without a minimum term, parole eligibility determined by Parole Board regulations.
- Page 20-25  
Present Offense  
If the present commitment is for more than one charge, present offense refers to the most serious charge.
- Pages 26-32  
Arrests  
An arrest is defined as an arrest followed by a court appearance and a final disposition. In many cases, several charges are tried at the same time. For the purposes of the table of total arrests, such a situation is considered to be one court appearance and thus one arrest.
- Page 34  
Number of prior county incarcerations  
A county incarceration is defined as a sentence of not more than 2-1/2 years to be served in an institution such as a house of correction.
- Pages 47-48  
Age at 1st arrest for drunkenness, drugs not applicable: never arrested for such offenses.

While portions of this document are illegible, it was micro-filmed from the best copy available. It is being distributed because of the valuable information it contains.
