From Chief Jefferson

In today's complex society, it is no longer adequate for police departments to work alone in pursuit of their enforcement responsibilities. They must relate to and identify with the public they serve. Recognizing this, our department has accepted the challenge to develop more progressive techniques in our quest to preserve the peace and prevent crime. Most important of these techniques is our ability to mobilize community support for our programs. We are making great strides in this area. The understanding and support of the citizens in all parts of the city has had a tremendous impact on our ability to further crime reduction and to develop innovative approaches to dealing with the specific problems that confront our community.

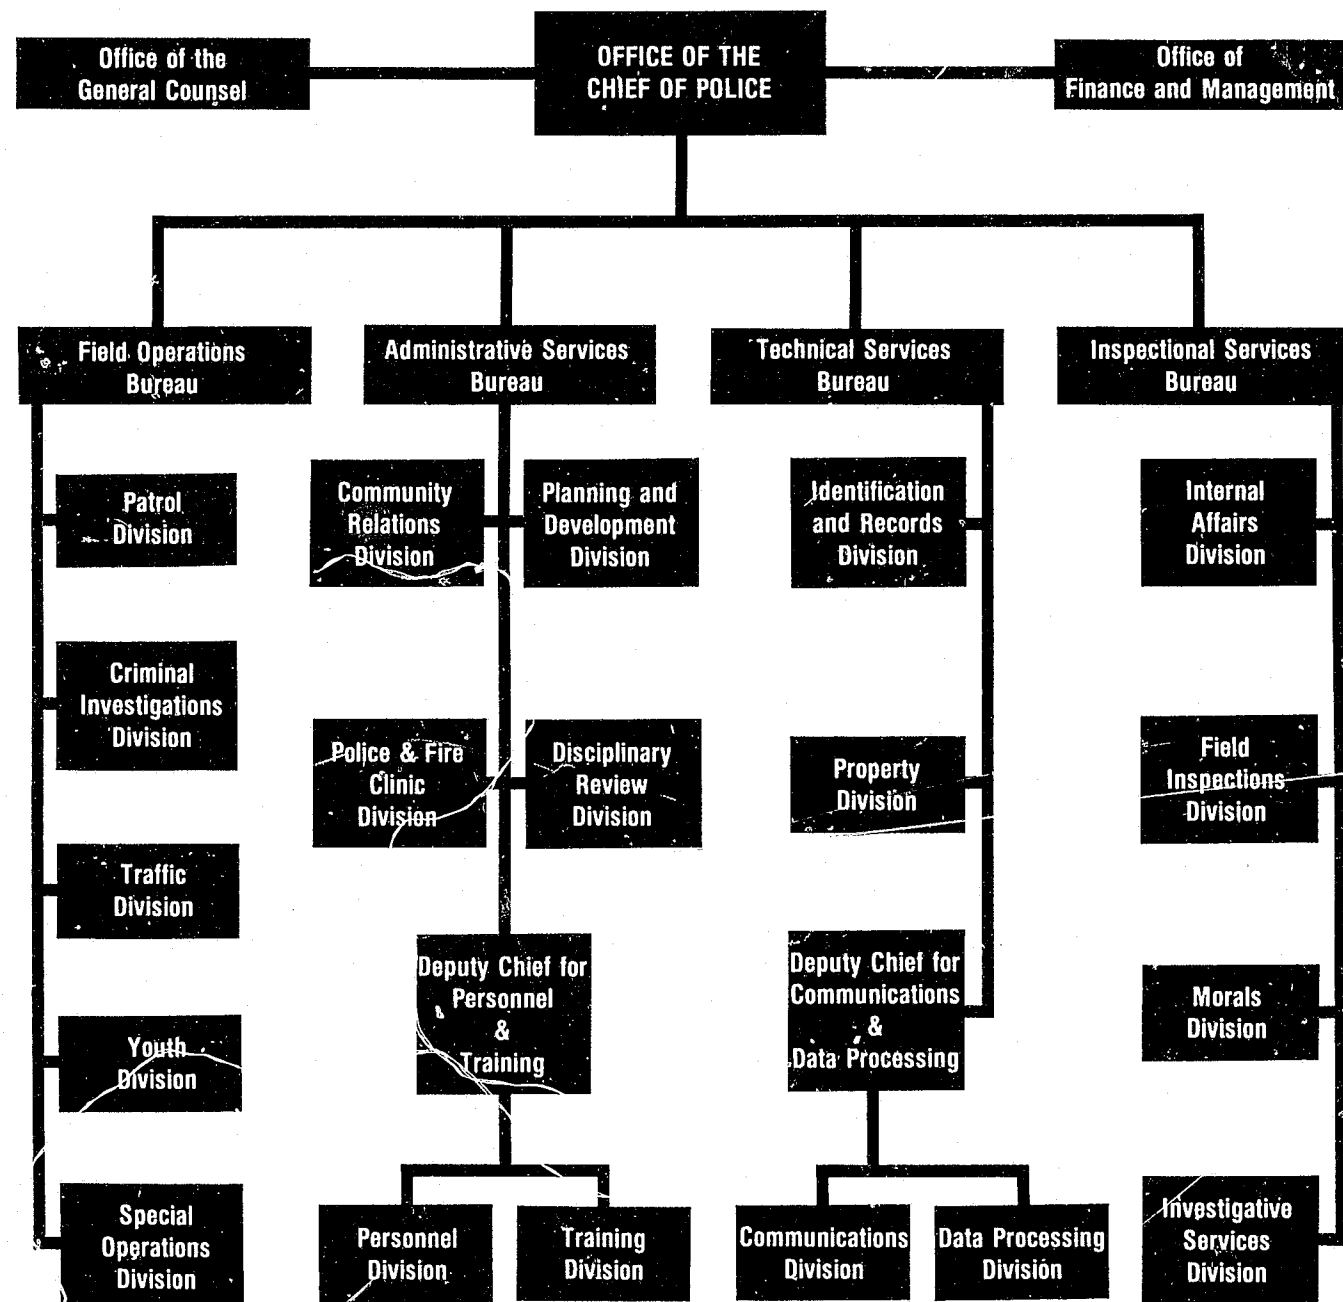

Over the past ten years our department, like our city, has undergone significant changes. Advancement in modern police technology and a reorganization of the department has enabled us to provide quicker response and better service to the people of Washington. In return, the cooperation and interest of our citizens has furthered our potential for improving city life.

We must now build on that solid foundation of cooperation which has developed in order to create a greater awareness of the problem of crime and to obtain a commitment to further self-help measures which can be used to prevent it.

This past year has seen the improvement of some already established programs and the development of new ones. As you will see in looking through this annual report, police-community projects are found in all areas of our department. With the "hand-in-hand" efforts of the 4100 *dedicated* men and women of the Metropolitan Police Department and the many *dedicated* and concerned citizens of our city, we will continue to make great strides in the improvement of the quality of life in our Nation's Capital.

Burtell M. Jefferson
Burtell M. Jefferson
Chief of Police

Organization

Field Operations Bureau

Assistant Chief Bernard D. Crooke, Jr.
Field Operations Officer

The Field Operations Officer provides the direction, coordination and control necessary to insure the successful accomplishment of the mission and functions of that bureau. The Field Operations Bureau provides services in the following areas:

- Patrol. . . Members protect life and property by preventing crime, enforcing the law, preserving the peace and apprehending criminals.
- Criminal Investigations. . . Members conduct city-wide criminal investigations of specific felonies and crime requiring extensive follow-up investigations or the use of specialized skills.
- Traffic. . . Members control traffic, enforce vehicle regulations, investigate accidents and utilize selective traffic enforcement and educational materials to further the prevention of vehicle and pedestrian accidents.
- Special Operations. . . Members provide extra tactical personnel to combat specific crime problems and specially trained personnel to respond to unusual law enforcement situations and events.
- Youth. . . Members provide expertise needed for the proper handling of police cases involving juveniles, investigate missing person cases and carry out programs specifically designed to prevent juvenile delinquency.

Patrol

Parking lots in the First District were given special attention in order to monitor Larceny from Auto offenses. Strict enforcement of Police Regulations concerning parking lots and their attendants, and the distribution of flyers concerning larcenies resulted in a 50% reduction in this crime for the First District.

Five special footbeats were established in the Second District to handle traffic and minor complaints thus releasing scout cars for more serious calls.

Third District's team was this year's baseball champions—walking away with all the top trophies.

Radars operations were instituted in the Fourth District to reduce speed violations.

A Civilian Observer Program designed to assist the police through the observation and prompt reporting of criminal activity by trained citizens has been implemented by the Fifth District.

Combined efforts of the First District Patrol Section and the Community Services Section reduced truancy and shoplifting when officers patrolled the downtown business district where they apprehended truants and returned them to school.

Twenty youngsters enjoyed a one-day, sightseeing excursion to New York City thanks to the Fifth District.

In an effort to offset youth inactivity during the summer months, the Third District implemented various sports programs. Funds for equipment and trophies were supplied by concerned citizens and local business representatives.

In utilizing personnel to the best advantage in reducing crime and apprehending criminals, section commanders in the Sixth District assign uniform officers to casual clothes when patterns of particular offenses are pinpointed.

A program involving the use of casual clothes personnel was implemented by the Seventh District in order to reduce mailbox larcenies.

In order to reduce robbery holdups of business establishments in the Seventh District, TAC II (an alarm device that allows one vehicle to monitor as many as twenty businesses at one time) was used and monitored by both uniform and casual clothes personnel.

Members of the Sixth District gave so that needy children would get to enjoy Christmas.

Fourth District has established a permanent midnight section. Some benefits have been more officers on duty at peak times, reduced sick leave and higher morale.

The Patrol Officer's Handbook, designed and used by members of the Fourth District, is an easy reference guide that assists patrol officers in the reporting and handling of various police tasks.

Members of the Metropolitan Police Reserve Corps donate their time and talents to the department. This reserve officer, assigned to the Second District, assists the station crew by operating the switchboard.

First District's Crime Scene Search Unit established an all time city-wide high of 30 identifications during the month of June 1977.

The Special Projects Unit of the Second District pulled off the third successful "STING" operation known as "TRI-CON." This undercover fencing operation, which was concluded on September 8, 1977, resulted in arrest warrants for 156 subjects, recovery of more than \$1 million in stolen property, and seizure of \$100,000 in cocaine, heroin and other illicit drugs.

Criminal Investigations

The Arson Squad, comprised of four police investigators and four firemen, has significantly increased the closure rate of arsons due to the mutual cooperation of both departments.

A total of 297 lineup were conducted by the Lineup Unit involving 1,931 defendants and 4,128 witnesses.

The Fugitive Unit handled a total of 1,958 fugitive assignments of which 1,948 were closed.

Our Homicide Branch achieved a closure rate of over 80%. Additionally, we experienced the lowest number of criminal homicides in the past seven years.

A major insurance fraud was stopped by the Auto Theft Unit resulting in the recovery of 16 automobiles that had been reported "stolen" by their owners.

Members of the Check and Fraud Section attended a 32 hour course on "white collar crime" in an effort to put a stop to the latest and most sophisticated methods of fraud such as computer crime.

The Bank Squad has the responsibility for investigating all robberies of financial institutions. In an effort to prevent robberies, lectures and training programs are conducted by this squad for bank employees.

Investigators of the Sex Offense Branch met each month with other Metropolitan Area Sex Squad Investigators to exchange information and develop suspects.

Traffic--Special Operations

The lowest traffic fatality rate since 1961 was achieved due to the increased efforts in the area of traffic enforcement and safety programs.

"Rush Hour" streets are cleared of all vehicles during peak hours to expedite the flow of traffic in and out of the city.

The Special Projects Section was involved in 11 barricaded criminal type situations. Due to the highly disciplined, motivated and restrained team effort, all 11 situations were handled successfully with a minimum amount of injuries and no loss of life after arrival of the unit on the scene.

The Special Events Section handled 957 escort and security details for such dignitaries as the President of the United States, the Vice-President, the Mayor, Foreign Heads of State and Diplomats.

In addition to their regularly assigned duties, members of the Special Projects and Special Events Sections can also be found standing ready should their services be needed at any demonstration, parade or other major event.

The Helicopter Branch, which currently has 4 operational helicopters, flew a total of 2,956.1 hours.

The Explosive Ordnance Section destroyed over 2,300 explosive, chemical and incendiary devices.

The Harbor Unit patrolled 19,234 miles, rescuing 806 persons and assisting 207 disabled boats.

Youth

The passage of the "Prevention of Child Abuse and Neglect Act of 1977," which requires the reporting of suspected abuse and neglect cases under penalty of law, should significantly increase the number of cases reported to police.

A 5 year campaign to raise \$5 million for the Police Boys' and Girls' Club (official name as of October 1977) was started. Monies will be used to replace 8 of the 10 clubhouses, purchase equipment and restore Camp Brown in Scotland, Md.

Administrative Services Bureau

Assistant Chief Maurice T. Turner
Administrative Services Officer

The Administrative Services Officer provides the direction, coordination and control necessary to insure the successful accomplishment of the mission and functions of that bureau. The Administrative Services Bureau provides services in the following areas:

- Community Relations. . . *Members develop and promote programs to improve police relations with the community and the news media, and administer a public information program for disseminating timely and factual information concerning department operations.*
- Planning. . . *Members develop and disseminate departmental policies, procedures and programs; make long-range planning and organizational analysis; and review department operations to improve procedures and insure optimum utilization of resources.*
- Clinic. . . *Members minister to the health needs of the force.*
- Disciplinary Review. . . *Members administer disciplinary review activities.*
- Personnel. . . *Members recruit new employees and subsequently provide effective personnel and employment-related services.*
- Training. . . *Members develop, administer, supervise, coordinate and evaluate training programs for sworn and civilian employees of the department.*
- Labor Relations. . . *Members provide the department's viewpoint to the unions which represent officers and sergeants and the non-supervisory wage grade employees in such matters as pay negotiations and working conditions.*

Training

An eight-hour First Aid/Cardio-pulmonary Resuscitation (CPR) Training Program has been inaugurated. Approximately 45 sworn personnel are trained per week by members of the Training Division who have been certified as CPR instructors.

The Canine Training Section trained 20 new man-dog teams and brought back 82 teams for refresher training.

The indoor pistol range was opened for In-Service Firearms Training. All sworn personnel must qualify semi-annually and are now trained in "night firing" and "reactionary firing."

METROPOLITAN POLICE DEPARTMENT

Metro-Intercom

Washington, D. C. July, 1977 Vol. 9 No. 7

The Metro-Intercom is an inter-department newsletter that is also distributed to other police departments throughout the United States for an exchange of ideas and information.

One hundred members of the School Safety Patrol, along with police coordinators, enjoyed their vacation by training and recreation at Camp Brown, Bedford, Md.

"Taking a break" at Camp Brown.

Planning

Members of the Special Projects Unit concentrated their efforts on obtaining grant funding to finance several innovative programs. These included the "Sting" fencing operations, Alcohol Enforcement Program and Computer Assisted Dispatching.

A new classification and filing system has been implemented in the Administrative Support Unit to include a Synopsis and Retrieval Index Guide for the newly created Research Studies File.

The Management Programs Unit coordinates efforts with the contractor and the building site inspector to resolve problems that arise during the remodeling of a district station.

Personnel

Personnel Division updated the Automated Personnel System by processing 5,000 survey forms.

Dedicated crossing guards make walking to school safe for our children.

Labor Relations

The Office of Labor Relations provided coordination, advice and guidance to various officials in reference to contract interpretation and labor problems.

Disciplinary Review

The Disciplinary Review Division reviews all reports for disciplinary action above unit level.

Clinic

A crash cart was purchased for the Police and Fire Clinic and stocked with necessary equipment and medications to be used in emergency situations.

Technical Services Bureau

*Assistant Chief John S. Hughes
Technical Services Officer*

The Technical Services Officer provides the direction, coordination and control necessary to insure the successful accomplishment of the mission and functions of that bureau. The Technical Services Bureau provides services in the following areas:

Identification . . .

Members provide criminal record, photographic, mail, messenger, weapon registration and printing services; technical expertise for firearm, ballistic, fingerprint, questioned document and crime scene examinations; and maintain the central prisoner processing and holding facility.

Property . . .

Members provide uniforms, vehicles, office supplies and equipment; maintain a carpenter shop; store and control evidence, contraband, lost and found property and impounded vehicles; and repair office machines, vehicles and service weapons.

Data Processing . . .

Members maintain the Washington Area Law Enforcement System (WALES), design statistical reporting systems, analyze the rate and types of crimes and traffic accidents, and determine the most effective means of handling data requirements.

Communications . . .

Members record and classify requests for police assistance received by telephone or radio; assign these calls to the appropriate unit for action; operate the teletype system; act as the focal point for entries and inquiries into the National Crime Information Center (NCIC) and WALES; and maintain communication equipment.

Identification

Members of the Firearm's Examination Section tested various types of ammunition for possible use by the department. After a six months exhaustive study, a 158 grain, lead-hollow point bullet was selected.

The Crime Scene Examination Section processes all major crime scenes. This section has enhanced its ability to conduct searches for physical evidence through expertise gained from additional training provided by the FBI.

A new stepvan, fully equipped with all the modern safety features, was placed into operation for transporting prisoners.

Property

The Clothing and Equipment section issued new style hats and ties for female officers.

Over-the-counter transactions, such as uniform fittings, were handled on an average of 69 members per operating day.

Two hundred and sixty new 1977 Plymouth Sedans were purchased and placed into service by Fleet Management.

Communications

The Civilian Radio Alert System enables taxi drivers to aid citizens, report crimes and suspicious circumstances, and to advise of emergency situations by radioing their dispatchers who in turn notify the police.

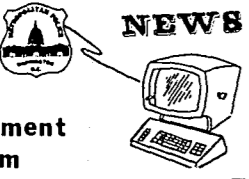

The Telephone Reporting Unit has expanded its services to include Grand Larceny from Auto, Petit Larceny and Hit and Run reports. Out of the 28,841 calls for police that TRU handled, 15,785 reports were taken relieving the patrol officer for other duties.

The Operations Branch received over 1,000,000 "911" emergency calls this year. Due to the increased efficiency of the dispatchers, 95% of these calls were answered instantaneously while the average waiting time of the remaining 5% was only 3.6 seconds.

Data Processing

Washington
Area
Law
Enforcement
System

NEWS

The District of Columbia Bail Agency has become a new user of WALEs, adding yet another portion of the criminal justice community.

The Traffic Analysis Section compiles statistics on all traffic accidents, monitors high accident areas and provides information as to causing factors on a monthly basis.

Computer equipment to support the Computer Assisted Dispatching System has been installed, and the basic software programming has been developed and is in the testing stage.

Inspectional Services Bureau

Assistant Chief Robert L. Rabe
Inspectional Services Officer

The Inspectional Services Officer provides the direction, coordination and control necessary to insure the successful accomplishment of the mission and functions of that bureau. The Inspectional Services Bureau provides services in the following areas:

Morals. . .

Members investigate and suppress vice activities involving illegal gambling, liquor, narcotics and indecent or obscene movies and printed material; and provide liaison in vice enforcement matters requiring communication or cooperative efforts between this department and other governmental or private agencies.

Investigative Services. . .

Members gather and analyze information on the criminal activities of persons, groups and organizations that conspire to obstruct justice or violate criminal statutes; coordinate with local, state and federal investigative agencies on criminal matters of mutual concern; and administer the department's responsibilities in connection with commercial security and detective agencies.

Internal Affairs. . .

Members provide advice and investigative assistance in alleged incidents of criminal activity or serious infractions of disciplinary rules by members; identify and monitor situations that may be conducive to facilitating corrupt practices; and conduct investigations of all areas of police activity where conditions may threaten the integrity of the department.

Field Inspections. . .

Members provide inspectional services of personnel, materiel resources and procedures to locate and identify operational or administrative deficiencies for correction and administer the occupational health and safety management program.

Morals

The Liquor Unit cited 42 establishments to the Alcoholic Beverage Control Board for violations and made 125 arrests.

Investigations in two high schools and one college were made by the School Section of the Narcotic Branch resulting in 26 arrests.

Twenty arrests were made by the Obscenity Unit for violations of Obscenity Laws and eight films were seized from various area theaters.

Major gambling figures were arrested during coordinated raids by the Gambling Unit, one of which was the "kingpin" of a 3.5 million dollar gambling operation in Chinatown.

Investigative Services

The Major Crimes Branch of the Investigative Services Division completed a long-term undercover project, operated in conjunction with the FBI, known as "HIGHROLLER." By becoming the fences' fence, property valued at \$2 million was recovered and 25 people were charged, all of whom pled guilty.

Field Inspections

Time and Attendance records were one of the many types of inspections conducted by the Field Inspections Division.

Internal Affairs

A function of Internal Affairs Division is to investigate attempts to bribe police officers. Here are two IAD investigators advising a member as to the best way to proceed with his case.

Finance

Members establish and maintain an effective financial system to insure proper justification, control and accountability of departmental funds; administer a program to insure effective and efficient payroll accounting procedures; prepare and justify the annual budget; project future financial requirements; and maintain the program planning budgeting system.

The Office of Finance and Management computerized accounting operations. Management will now be able to monitor the expenditure of funds more accurately, and make timely adjustments in order to meet budgetary constraints.

General Counsel

Members organize and plan comprehensive legal programs, advise the Chief of Police and top administrators on the legal aspects of operating policies and training programs, and monitor criminal cases which are lost or affected by incomplete investigation or improper police procedures.

Court Liaison officers confer with a Superior Court judge in chambers.

Attorneys from the Office of the General Counsel provided on-the-scene legal advice at many demonstrations and events during the year.

Fiscal Year 1977 Statistics

By Act of Congress, the fiscal year which previously covered a period from July 1st through June 30th was changed. The fiscal year period is now October 1st through September 30th. That period from July 1 through September 30, 1976 has been designated the transition-quarter. Since the statistical data in previous Annual Reports has been reported on a fiscal year basis, the three month transition quarter will not be addressed in the statistical portion of this report. Rather, the statistical information is for the newly designated fiscal year period, October 1, 1976 through September 30, 1977.

Crime and Clearance Index Crime

TOTAL CRIME INDEX OFFENSES

Reported offenses totaled 49,789 in FY 1977 -- down 3.0% from 51,493 in the corresponding months of 1975-1976. This is the lowest total for the comparable twelve-month period since 1967. (The city peak was 86,208 in 1970.) Decreases in Crime Against Persons outpaced decreases in Crime Against Property. Seasonal variation in crime patterns was not as pronounced as in former years, blurring the distinction between traditional summer peaks after winter lows. Solved cases totaled 12,940 for a clearance rate of 26.0%.

Rape

Reported rape was reduced 20.0% from last year, 423 compared to 530, continuing the overall downward trend and making this year's incidence the lowest in eight years. Better than three out of five cases were cleared this year.

Homicide

Homicide's total of 193 cases was the first under 200 reported for any twelve-month period since the late 1960's. Clearance rates generally run about 80% yearly but may exceed 100% in months when investigation is successfully concluded on cases pending from previous months.

Robbery

Robbery at 6,731 was down 11.8% -- 921 fewer than last year. The bulk of the decrease came from the continuing erosion of the 800-a-month nonseasonal plateau in parts of the previous two years. The current incidence, averaging 561 robberies a month, is the lowest in ten years and 35.0% of all robberies were solved.

Aggravated Assault

Aggravated assault has decreased each year since 1972. This year's total, 2,619 compared to 2,700 last year, is the lowest since 1965. Three out of four cases were cleared.

Burglary

There were 11,649 burglaries this year compared to 12,128 last year. The current incidence is the lowest since 1966 and less than half that of the crime peak in 1970. The clearance rate has steadily improved in the 1970's from one in seven to one in four.

Larceny

Larceny is the only Index category to increase in FY 1977 over the corresponding months in 1975-1976 -- up 1.3% from 25,181 to 25,446. This offense has ranged between 22,000 and 27,000 in the last six years. Like burglary, larceny usually peaks in the summer time. This year's peak in August was 2,473, well below several 3,000 months in 1969 and 1970. Only 17.8% of all larcenies were cleared this year, the lowest rate of any Index category.

Auto Theft

Auto theft has been decreasing each year for seven years and continues to record new lows. At 2,728, this year's incidence is the lowest since 1962. During three months of this year, less than 200 thefts occurred. The last time fewer than 200 autos were stolen in a single month was in 1962. The clearance rate is also improving, from less than one in ten for the early 1970's to better than one in five this year.
