ACQUISITIONS

The Honorable Bruce King Governor of New Mexico State Capitol Santa Fe, New Mexico

Dear Governor King:

The following summary presents the highlights of the Uniform Crime Reporting Program in New Mexico during 1978:

During 1978, there were 6,619 violent crimes (132 murders, 530 rapes, 1,362 robberies, 4,595 aggravated assaults) and 56,114 property crimes (16,073 burglaries, 36,126 larcenies, 3,915 motor vehicle thefts) for a total of 62,733 serious crimes in the state. This is a decrease of 1.9 percent from 63,983 serious crimes reported in 1977.

The serious crime rate per 1,000 population was 51.4, down from the 53.7 rate for 1977.

Firearms were used in 65.5 percent of the 132 murders reported; 118 of the reported murders were cleared by an arrest.

Five hundred thirty (530) rapes were reported, an increase of 3.9 percent over the 510 reported in 1977; 45.9 percent of the cases reported were cleared by an arrest.

There were 1,362 robberies reported in 1978, an increase of 3 percent over the 1,322 reported in 1977; there was a total of \$578,289 taken in New Mexico robberies.

There were 16,073 reported cases of breaking and entering in 1978, a decrease of 4 percent in this crime category from 16,760 cases reported in 1977. Larceny accounted for 36,126 cases; and, within this category, approximately 47.2 million was stolen in New Mexico. There were 7,543 thefts of motor vehicle parts and accessories in this category.

In 1978, New Mexico law enforcement agencies reported 3,915 cases of motor vehicle thefts amounting to approximately \$9.5 million; law enforcement was able to recover 3,240 of these stolen vehicles.

Police recovered \$9.4 million of the \$25.4 million in property stolen in 1978.

The Honorable Bruce King Governor of New Mexico Re: Uniform Crime Report July 5, 1979 Page 2

There were 669 law enforcement officers assaulted and one killed during 1978. The number of officers assaulted increased by 17.1 percent over 1977. The largest number, 176 assaults, were on officers responding to family disturbance calls.

The cooperation extended by the law enforcement agencies throughout New Mexico has made possible the success of the Uniform Crime Reporting Program during 1978. It is with appreciation to these dedicated officers, and in the interest of better law enforcement for all the citizens of New Mexico, that this fifth annual New Mexico Crime Report is submitted.

Respectfully submitted

NEW MEXICO UNIFORM CRIME REPORTING PROGRAM

ANNUAL REPORT 1978

INTRODUCTION

HISTORY OF UNIFORM CRIME REPORTING

The need to gather and analyze crime statistics in this country dates back to 1870. During this time Congress sought to provide a national system of crime reporting, but their efforts failed. In 1871 the National Police Association attempted to collect crime data, but with equal lack of success.

It was not until 1927 that a Uniform Records Committee was established by the International Association of Chiefs of Police. This committee developed a uniform classification for most parts of the country. This classification was based directly upon the system employed by the Bureau of Census in compiling statistics of prisoners.

During the later part of 1930, the program was turned over to the Federal Bureau of Investigation. The Bureau began receiving on a voluntary basis crime statistics from police agencies throughout the United States. Since those early times, the Bureau has published many distinguished reports using those statistics. In recent years, the Bureau has actively assisted individual states in developing their own statewide programs.

INTENT OF THE SYSTEM

The intent of the New Mexico Uniform Crime Reporting (NMUCR) Program shall be to supply local community agencies, institutions and organizations with a source of crime statistics which they can use to assist in management decisions and implementing planning strategies to deter, reduce and prevent crime.

ASSUMPTIONS AND LIMITATIONS OF THE PUBLICATION

Unfortunately, we cannot state that all police agencies within New Mexico accurately record and submit crime data to NMUCR; however, the statistics listed in this publication are based on the most accurate data currently available. Accompanying this current data are many assumptions and limitations which directly affect the accuracy and precision of the statistics within this publication. These assumptions and limitations also directly affect the summarizing and the comparing of local community crime statistics. These are being noted for the reader who endeavors to draw conclusions concerning the statistical data.

The following factors are the major aspects which have an influence on the statistics presented in this publication:

ASSUMPTION

- 1. Crime is a social problem in New Mexico.
- 2. Crime figures presented in this publication are police statistics as distinguished from judicial or penal statistics.
- 3. Actual crimes represent violations of New Mexico statutes and local ordinances.
- 4. Citizen apathy and indifference contribute to the spread of crime.
- 5. Community institutions and organizations, coupled with police agencies are influenced by the decline and/or rise in crime rates.
- 6. A high level of integrity is needed in order to state NMUCR index crime rates.
- 7. Some police agencies have a profound distrust of the practical value of a statistical collection of data.
- 8. It is significant to consider the fact that policy revelant to reporting will differ in accordance with the philosophy of the various agency heads.

LIMITATIONS

- 1. All police departments are not equipped to render complete and accurate accounting of offenses committed and persons charged because of limited manpower, funding, etc.
- 2. Differnece in the collecting and interpreting crime date.
- 3. Some police jurisdictions overlap.
- 4. Some juveniles are informally handled which affects the accuracy of the juvenile report input.
- 5. Crimes against persons and their property are not always reported to police.
- 6. Crime clearances lag months and sometimes years behind the actual reported offenses.
- 7. Property illustrations reflect the property stolen and/or recovered. Property damage is not included.
- 8. Stolen property figures represent property stolen during the reporting year. Recovered property figures may reflect reported property stolen in a previous calendar year but recovered in the reporting year.

CONCLUSION

The release of crime statistics frequently results in a controversy as to the accuracy of the statistics and how these statistics should be interpreted. Listed within this publication are many of the major assumptions and limitations which make it very apparent that great caution should be used when referring to the statistical data in this publication. The recognition of the assumptions and limitations should help the reader of this statistical resource to focus attention on valid objects, thus minimizing the dangers of over-generalization.

CRIMINAL HOMICIDE

Definition and Classification

Murder is defined as the unlawful killing of a human being. Any death due to a fight, argument, quarrel, assault or commission of a crime is included.

Analysis

In 1978, New Mexico reported 132 criminal homicides. The months of August and November had the highest frequency of murders with 19. There were 62,733 index offenses reported and the crime of murder made up .2 percent of these offenses.

There were .1 murders for 1,000 New Mexico residents. The weapon most often used was the firearm, which was used to commit 65.5 percent of the murders. Information was also gathered on the type of firearm, and it was found that 45.2 percent of the firearms were hand guns. Cutting and stabbing instruments were used to commit 22.7 percent of the murders. Other weapons (blunt objects, etc.) were used in the commission of 5.6 percent of the homicides. All other murders were committed through the use of personal weapons such as hands, fists, feet, etc. These amounted to 5.6 percent.

AGGRAVATED ASSAULT

Definition and Classification

Assault is defined by NMUCR as an unlawful attack by one person upon another for the purpose of inflicting severe bodily injury. Not included in this section are assaults with intent to rob or rape.

Analysis

There were 4,595 aggravated assaults in the state in 1978. The largest number of assaults were committed during the month of July with 473. Personal weapons such as hands, fists, feet, etc., are most frequently used to commit an aggravated assault. These types of personal weapons were used to carry out 28 percent of the aggravated assaults.

Firearms were used in 26.0 percent of the assaults, knife or cutting instruments in 22.3 percent and the remaining 23.4 percent with the use of other dangerous weapons. Aggravated assaults amounted to 7.3 percent of the index crimes.

MOTOR VEHICLE THEFT

Definition and Classification

NMUCR defines motor vehicle theft as the unlawful taking or stealing of a motor vehicle, including attempts. Examples of motor vehicles are automobiles, trucks, buses, motorcycles, motor scooters, snowmobiles, etc.

Analysis

In 1978, New Mexico agencies reported 3,915 offenses of motor vehicle thefts. Motor vehicle thefts accounted for 6.2 percent of the 62,773 index crimes reported.

During 1978, 19.4 percent of the 3,915 offenses reported were cleared by an arrest.

State Totals

This section deals with state totals. These figures demonstrate the potential for a deeper study of crime analysis that can be made in addition to the information contained hereafter.

VALUE OF PROPERTY STOLEN AND RECOVERED FOR INDEX OFFENSES

The next two charts will deal with value of property stolen and recovered by article and month, as well as property stolen by crime and month.

The article or type of property stolen is of great importance to the police administrator when he attempts to develop programs to prevent the theft of any particular article.

This is an attempt to list articles stolen by month and, also, to reveal the value of property involved in the seven Part I crimes.

ALL ARRESTS FOR PART I AND PART II OFFENSES

Arrest statistics reflecting characteristics of persons arrested by age, sex and race are collected monthly from contributing law enforcement agencies. In examining these arrest figures, it is important to remember that the same person may be arrested several times during the year for the same type or different offenses.

A juvenile is counted as a person arrested when he commits an offense and the circumstances are such that if the offender were an adult an arrest would be made.

IN MEMORIAM

The New Mexico State Police joins the criminal justice community of New Mexico in extending it's sincere sympathy to the family of the following law enforcement officer who gave his life in the performance of protecting and serving the citizens of his community during 1978.

JUAN B. L. ORTIZ Deputy Sheriff, San Miguel County

Killed by unknown assailant while off duty. Motive is believed to be revenge for a shooting that victim was involved in a month earlier.

POLICE ASSAULT FIGURES

Police assault figures are crucial to the police administrator. They say much to anyone attempting to evaluate the causation of this type of criminal activity. The information to follow will portray the frequency of these events and allow each agency head to evaluate the cause after considering his unique variables and factors.

NEW MEXICO UNIFORM CRIME REPORTING

Statistics presented here were gathered under the Uniform Crime Reporting Program of New Mexico and were submitted by the law enforcement agencies of the state. Attempts at comparisons of the resulting crime figures should not be made without first considering the individual crime factors which exist in each city and county.

Crime figures for the calendar year 1978, as measured by the Crime Index, disclosed a statewide decrease of 1.9 percent as compared to 1977. Violent crimes, which include murder, rape, robbery and aggravated assault, decreased 1.5 percent while the property crime grouping of burglary, larceny and motor vehicle theft decreased 1.9 percent.
