**OHIO  
JUVENILE COURT  
STATISTICS 1980**

PREPARED BY  
**DEPARTMENT OF  
YOUTH SERVICES**

NCJRS  
MAY 21 1982  
ACQUISITIONS

Dear Ohioan:

For the second consecutive year the Department of Youth Services is providing more reports and more comprehensive information than in previous years.

The number of youth committing delinquent and unruly offenses again has been compared to the number of delinquent and unruly cases actually heard by the juvenile court judges. The number of youth appearing in juvenile court totaled 47,508 compared to 75,271 cases heard. Therefore each youth accounts for 1.58 cases.

I wish to extend my personal thanks to the juvenile courts who, through their participation, made this report possible.

If more information or clarification is needed, please contact the Office of Communication.

Yours truly,

*William K. Willis*  
William K. Willis

## PROLOGUE

The format and scope of the juvenile court statistical reporting system was altered in 1979. The new information system greatly enhances the capability and accuracy of data, thereby presenting a more meaningful picture of juvenile justice in Ohio.

Report 1 provides a summary of the total number of cases as well as the total number of youth processed during the year. (A case represents an individual charge that has been disposed.) In the past, data had been collected on a case basis exclusively. With the exception of Report 2, the data collected are for official, unruly, and delinquency appearances before the county courts.

Report 2 presents summary data of both an official and unofficial nature. Traffic, Dependency, Child Abuse, and other Non-Delinquency and Unruly categories are included in the report. Report 2 is derived from an aggregate form submitted each month by the county courts. The other thirty-three reports are submitted for each individual youth court appearance through the use of the Statistical Reporting and Face Sheet Form OYC 16-2A 1979. The juvenile courts are to be applauded for their cooperative spirit in providing the data to the Department of Youth Services.

When youth appear before the court for multiple charges, the task of summarizing the data becomes very difficult. For this reason the reports by youth (Number 3-10) are separated by 1) delinquency, 2) unruly, and 3) both delinquency and unruly. The latter category distinguishes the youth that have been disposed of with an offense in both offense categories during 1980. For reports 3-10, it is impossible to report specific offense and disposition data since multiple offenses are included for the individual youth.

Reporting by cases allows additional flexibility and includes both offense and disposition summaries. Reports 11-28 present information by cases.

Reports 29-34 present information concerning the use of detention. Detention for both "before" and "after" the disposition are not differentiated. The length of the detention is also not considered. Detentions do not correspond to specific disposition dates. For this reason, a youth having several different disposition dates will have duplicated data for each unique disposition date. This may slightly inflate the reporting of detention statistics and caution should be used when dealing with Reports 29-34.

Offense and disposition information are presented in both a detailed and summarized fashion. A table showing the individual offenses and dispositions that are found in each category is shown after Report 34.

Caution concerning the absence of complete data from Cuyahoga County should be made. The totals shown for Cuyahoga reflect only the commitments made to the agency during the year.

As questions concerning the information or suggestions for improving future reports occur, do not hesitate to contact the Department of Youth Services, Office of Communication, (614) 466-4314.
