A MESSAGE FROM THE DIRECTOR:

  The Alabama Criminal Justice Information Center (ACJIC) is pleased to present the sixth annual Crime in Alabama Report. This report covers the seven major index crimes, with a separate section on Arson. These data were reported by the State's law enforcement agencies during 1981. The crime statistics are compiled for the entire State, the State's eight Standard Metropolitan Statistical Areas (SMSA's), Sheriff's Offices, municipal police departments, and campus police.

  Requests for additional information may be directed to this office, 858 South Court Street, Montgomery, Alabama 36130; telephone (205) 832-4930.

  It is our hope that this report will provide a comprehensive picture of crime in our State during 1981. We are proud to be a part of the Alabama criminal justice community.

Sincerely,

R. W. Blaylock

TABLE OF CONTENTS

PREFACE

The 1981 Crime in Alabama report is intended to inform law enforcement officials and private citizens of criminal and law enforcement activity in Alabama; these data are then used for analyzing crime problems inherent in the criminal justice system and as a foundation for planning and budgeting.

Geographic areas covered in this report include the State of Alabama, Standard Metropolitan Statistical Areas (SMSA's), county and city strata. A 1981 Crime by County report is contained in Appendix A.

We would like to extend our appreciation to law enforcement agencies -- sheriff's departments, municipal police departments, and campus police -- for their cooperation in the UCR program.

INTRODUCTION

In October of 1975, Act 872 passed both houses of the Alabama Legislature creating and establishing the Alabama Criminal Justice Information Center (ACJIC) which is commissioned to collect, store, retrieve, analyze, and disseminate criminal justice data. Inherent in ACJIC is a "uniform crime reporting system for the periodic collection and analysis of crimes reported to any and all criminal justice agencies within the state." (Act 872, § 9, 1975)

As a result of Act 872, 1976 was the first year that mandatory reporting was required of law enforcement agencies in Alabama; prior to 1976, law enforcement agencies participated in the FBI's Uniform Crime Reporting System (UCR) on a voluntary basis. Mandatory submission has resulted in a 185% increase in reporting over 1975.

Alabama's UCR program functions in accordance with FBI standards of operation, i.e., a uniform data collection device and quality control procedures which provide viable crime statistics and an accurate indication of crime and crime trends.

ACJIC has implemented an incident-based reporting system as an alternative to UCR. The Incident-Based Reporting System (IBR) provides a self-contained internal recordkeeping system for the agency as well as data for ACJIC to generate UCR.

IBR is a voluntary system with 65% of Alabama's agencies participating. Law enforcement agencies have the option of utilizing IBR instead of UCR summary since comparable data elements can be obtained from IBR forms. All the information obtained by the investigating officer is recorded on the IBR forms and a copy is sent to ACJIC. This information is more detailed in nature than requisites for UCR. This wealth of information provides great potential for better services, analyses, and resource studies by both individual agency's crime analysis units and ACJIC.

Alabama's law enforcement agencies are supplied with monthly reporting forms, either UCR summaries or IBR forms. ACJIC's Technical Assistance field staff is made available to the reporting agencies to help answer any questions which may arise regarding forms, crime classifications, and clearance data. The Technical Assistants are also responsible for training law enforcement personnel and maintaining the quality of information for output to the criminal justice system.

When the UCR summaries or incident reports are returned to ACJIC, they are reviewed for accuracy by the quality control section of UCR. Then, the Alabama UCR program furnishes the contributing agencies and the FBI with monthly data for their verification and review process.

CRIME AND ARREST DATA

Studying criminal activity is one of the best ways to combat crime. Valid crime data can provide a solid foundation for statistical analyses, management-oriented analyses and crime breakdowns. These projects can then aid local police departments in laying out patrol districts, assigning patrol units, and designating community education programs.

Data used in this report are provided by the Uniform Crime Reporting section of the Alabama Criminal Justice Information Center. Both UCR Summaries and Incident Report forms are submitted to ACJIC's UCR section which is the depository for reported offenses and has the responsibility of collecting and disseminating crime data.

In 1981, approximately 320 agencies reported known offenses to Alabama's UCR; 65% of Alabama's law enforcement agencies submitted Incident Reports and 35% returned UCR Summaries.

Through a mandate of Congress, Arson is counted as a Part I Offense. So as not to distort crime trends in Total and Property Crime indices, Arson totals will not be included in these sections but will be included in a separate section which follows property crimes.

Crime data are obtained from the Part I Index of Offenses submitted by law enforcement agencies to Alabama's UCR program. These Part I Offenses are divided into Violent Crimes and Property Crimes.

Violent Crimes include Homicide, Rape, Robbery, and Assault. These crimes are considered violent inasmuch as they are offenses perpetrated against a person(s) with a high risk of injury or death to the victim(s).

Property Crimes are comprised of Burglary, Larceny, Motor Vehicle Theft, and Arson*. Property or Non-Violent Crimes lack the aspect of force and/or bodily harm to the victim(s).

Clearance and arrest data are also reported to Alabama's UCR. A crime is considered cleared, either by arrest or by exceptional means, when enough evidence is found to charge a suspect and take him into custody. It is conceivable that one arrest could clear several offenses or that several arrests could clear one offense. The clearance rate is achieved by taking the number of clearances over the number of crimes reported.

This report is a composite picture of criminal and law enforcement activity in Alabama for 1981. It provides a breakdown for the State, the State's eight Standard Metropolitan Statistical Areas (SMSA's) and localities participating in the UCR program. The report concentrates on the Index Crime

*A separate section on Arson will be included in this report.

of the FBI's Part I Offenses and offers tabular and narrative formats for comparisons, trends, rates, and percentage changes.

DEFINITION OF TERMS

Adult - the UCR system defines adults as 18 years of age
and over.

Arrest - a measure of law enforcement activity by which an
individual is detained in legal custody.

Arson - willful or malicious burning with or without intent
to defraud, includes attempts. (Through a Congressional
mandate, 1979 was the first year arson was counted as a
Part I Offense.) Arson is divided into the following
categories:

<u>Structural</u>

Single occupancy residential - houses, townhouses,
duplexes, etc.

Other residential - apartments, tenements, hotels,
motels, dormitories, boarding houses, etc.

that a crime has been solved for crime reporting purposes
either by the arrest of a suspect or by exceptional means.
Exceptional means provides a solution to a crime when there
is enough evidence to place a formal charge against an
offender, but some element beyond law enforcement control
precludes an actual arrest. It is possible for one arrest
to clear more than one offense.

Clearance rate - the clearance rate is achieved by taking the
number of clearances over the number of crimes reported.

Crime rate - a measure of criminal activity which shows the
number of crimes reported per 100,000 residents.

Criminal activity - measured by reported crimes, trends, rates.

Forcible entry - offenses in which force of any kind is used to
unlawfully enter a structure for the purpose of committing
a theft or felony.

Hierarchy of offenses - whenever more than one offense is com-
mitted simultaneously, the most severe offense is reported
to UCR.

Homicide - the willful killing of another as based on police
investigation.

Incident-Based Reporting System - a voluntary crime reporting
system developed by ACJIC as an alternative to the UCR
Summary.

Juveniles - the UCR system defines juveniles as males and
females 17 years of age and younger.

Larceny - unlawful taking or stealing of property or articles
without the use of force, violence or fraud, i.e., pocket

. All other offenses - all violations of state or local

laws, excepting categories mentioned above, Part I

Offenses, and traffic violations.

Property crimes - (non-violent crimes) index crimes which lack

the aspect of force and/or bodily harm to the victim(s).

Included in this category are burglary, larceny, motor

vehicle theft, and arson.

10

Recovery - finding stolen property. It should be noted that
a recovered article does not clear a crime, although the
owner is reunited with his property a crime was committed
and a suspect must be taken into custody to clear the
offense.

Reported crimes - crimes reported to law enforcement officials.

NOTE: In this report, only those offenses which prove to
be actual offenses are used. Those cases which have been

crimes.)

within their jurisdiction.

Uniform Crime Reporting System - is the depository of the

an unlocked door or window. The element of trespass is
essential.

Urbanized areas - incorporated or unincorporated places of
2500 or more inhabitants.

TOTAL INDEX CRIME

Total Index Crime is comprised of the Part I Offenses:
Homicide, Rape, Robbery, Assault, Burglary, Larceny, Motor
Vehicle Theft, and Arson*. Both crime and arrest data are
collected for Part I Crime.

* * * * *

Offense Data

In 1981 the Total Index Crime reported was 186,475.
This is a 1% decrease over 1980 figures. The crime rate for
Alabama was 4793.6 crimes per 100,000 people in 1981 which
is a 2% decrease over 1980's crime rate of 4867.4.

Of the Total Index Crimes reported to law enforcement
agencies in 1981, 10% of those reported were considered Violent
Crimes with 90% being Property Crimes. Violent Crime experi-
enced a 4% increase while Property Crime showed a 1%
decrease.

All Violent Crimes reported experienced a decrease
except assault which increased 12% over 1980. Rape experienced
a 13% decrease, homicide decreased by 12% and robbery by 5%.

*In order to keep crime statistics meaningful, Arson data will
not be included in Part I totals or Property Crime totals. A
separate section on Arson is included in this report.

13

Larceny effected the greatest increase of the Property crimes, 2%. Burglary showed a 6% decrease and motor vehicle theft had a 9% decrease.

The following pages contain offense data and rates for each agency submitting UCR returns. The rates used here are based on 1980 census data.

A rate is a measurement tool used to equalize population distribution by giving each jurisdiction a population base of 100,000 people. By using crime rates, we are able to compare crime in cities of disproportionate size, for example, we can compare criminal activity in Birmingham with that of a city of less than 500 residents by using crime rates.

Actual offenses reported to UCR do not constitute crime rates. They are merely reported offenses. Crime rates are computed as follows:

$$\frac{\text{Reported Offenses}}{\text{Actual population}} \times 100,000 = \text{Crime Rate}$$

ARSON

Arson - willful or malicious burning with or without intent to defraud, includes attempts. Arson By Type

Structural units, mobile property and "other" are the
classifications used in reporting arson. Sixty-eight percent
of the reported arson in Alabama involved structural units;
24% involved mobile property, and the remaining 8% fell into
the "other" category. Clearance data indicate that 21% of
the arsons involving structural units were cleared, with a 14%
clearance rate for mobile property and 15% clearance rate for
the "other" category.

120

In 23% of the reported arsons, the structures involved were uninhabited, abandoned, or not normally in use. The total estimated value of property damage in Alabama resulting from arson in 1981 was $12,895,775. This produces an average of $10,596 per incident.

Single occupancy residences made up 60% of the structural arsons and 41% of the total reported arson in Alabama in 1981. Of the 497 single occupancy arsons, 100 were cleared for a 20% clearance rate; juvenile arrests cleared 7%. The arson rate* for single occupancy residences was 33.9 per 100,000 housing units. The arson rate is considerably higher for unoccupied or uninhabited single occupancy structures, 139.7 per 100,000 unoccupied housing units. The estimated value of property damage for single occupancy residences was $4,363,705 for an average of $8,780 per incident.

Other residences, which include apartments, dormitories, boarding houses, etc., made up 10% of the structural arson incidences. Of these 83 residential arsons, 33 were cleared for a 40% clearance rate. Juveniles accounted for 8% of the clearances. The arson rate* for residential units other than single occupancy dwellings was 5.7 per 100,000 housing units. The arson rate for these uninhabited residential structures was 9.4 per 100,000 unoccupied structures. The estimated value of property damage due to arson for other residential units

was $1,959,615 averaging $23,609.8 per incident.

Forty-six of the reported arsons in Alabama in 1981 affected storage buildings such as barns, warehouses, garages, etc. This is 6% of the structural arsons and 4% of the total number of arsons reported to Alabama's law enforcement agencies. Seven percent of these arsons were cleared with 2% being juvenile clearances. Fifteen, or 33%, of these arsons occurred in buildings which were unoccupied or abandoned. The property damage estimate for storage buldings was $156,250 producing an average of $3,397 per incident.

Industrial/manufacturing buildings experienced 2% of the structural arsons in 1981, reporting seventeen incidents. Two offenses were cleared for a 12% clearance rate. Juvenile arrests accounted for 16% of the clearances. The estimated property damage for public buildings was $827,125 for an average per incident value of $18,798.

*Motor vehicle arson rate is based on the number of motor vehicles registrations for 1981 as reported by the Motor Vehicle and License Division, Alabama Department of Revenue.

in 1981. Fifteen of these offenses were cleared for a 15% clearance rate; juvenile arrests accounted for 10% of the clearances. The estimated value of property destroyed in the "other property" category was $35,440 for an average cost per incident of $347.

In summary, there were 1,217 arsons reported to Alabama's law enforcement agencies in 1981. Arson experienced a 19% clearance rate with juveniles accounting for 6% of the clearances. All totalled, property damage from arson was estimated at $12,895,775 for Alabama in 1981. An average cost per incident was estimated at $10,596.

Trends

Prior to 1979, Arson was classified as a Part II Offense with only arrest data being collected for UCR purposes. As a result of Congressional authorization* in 1979, Arson was designated a Part I Offense thereby requiring law enforcement agencies to submit reported offenses, unfounded complaints, actual offenses, clearances, juvenile clearances, arson of uninhabited or abandoned structures and estimated value of property damage.

---

*Title 28, Section 534, United States Code.

Arson increased by 60% over 1979. This increase is probably a result of better reporting procedures considering 1979 was the first year arson offenses were collected; there is only a 10% increase in arson from 1980 to 1981.

Arson Trends

Year	Total Offenses	Percent Change
1979	763	NA
1980	1106	45%
1981	1217	10%

In discussing arson classifications, approximately two-thirds of all arsons involved structures. The other one-third involved mobile property and "other" property.

year period an average of $12,467,359 worth of property
in Alabama was destroyed due to arson. The following

CITY DATA

For the purpose of this report, Alabama's cities will
be classified on the basis of population and include both
incorporated and unincorporated areas. The city strata used
in this report are depicted in the following table which also
shows the percentage of Alabama's population and Alabama's
total offenses in each stratum.

Alabama City Strata

Strata	Number in Strata	% of* State's Pop.	% of* State's Offenses
250,000 or more	1	7%	18%
50,000-250,000	6	18%	32%
25,000-50,000	8	7%	12%
10,000-25,000	25	9%	11%
5,000-10,000	41	7%	7%
1,000-5,000	117	8%	4%
Less than 1,000	32	1%	<1%

The tables on the following pages group cities according
to population and list city names alphabetically. The percent
change is the increase or decrease in reported crime over 1980.
The numbers in parentheses indicate the number of months the
agency reported if less than twelve months.

*Percentages do not add up to 100% because the Sheriff's
jurisdictions are not included here.

A clearance is a measure of law enforcement activity whereby enough evidence is found to charge a suspect and take him into custody (an arrest) or when a crime is solved but no formal charges are brought against a suspect (clearance by exceptional means). The clearance rate is achieved by taking the number of offenses and dividing that number into the number of clearances.

It is important to note that clearance data is reported on a monthly basis to UCR and, therefore, it is possible for an arrest made in one month to clear a crime committed in previous months or years.

COUNTY DATA

Alabama is comprised of 67 counties each averaging 756.8 square miles. Population ranged from 671,197 in Jefferson County to 10,596 in Bullock County*. The following is a breakdown of Alabama's counties by population and shows the percentage of the State's index offenses in each county sheriff's jurisdiction.

County Strata	Number of Counties	% of State's Offenses **
Counties greater than 100,000	7	6%
Counties 50,000 - 100,000	14	5%
Counties 25,000 - 50,000	19	3%
Counties 10,000 - 25,000	27	2%
Total	67	16%

County data used here will include reported crime and clearance data submitted by Alabama's 67 county sheriffs. County data will not include crime data submitted by municipal police departments contained within the county boundaries. The numbers in parentheses, on the following pages, denote the number of months the agency reported to UCR if it was less than 12 months.

---

*Population figures are based on data from the 1980 Census.
**Percentages do not add up to 100% because only sheriff's jurisdictions are included and not municipalities with their own police departments.

A clearance is a measure of law enforcement activity whereby enough evidence is found to charge a suspect and take him into custody (an arrest) or when a crime is solved but no formal charges are brought against a suspect (clearance by exceptional means). The clearance rate is achieved by taking the number of offenses and dividing that number into the number of clearances.

It is important to note that clearance data is reported on a monthly basis to UCR and, therefore, it is possible for an arrest made in one month to clear a crime committed in previous months or years.

OFFICERS KILLED
OR ASSAULTED

In 1981, five law enforcement officers lost their lives in the line of duty. All of these deaths were cleared by arrest.

Accident or Negligence

One police officer died in a traffic accident while responding to a burglary call.

Felonious Act

Two officers were killed, in separate incidents, attempting to arrest a suspect. Another officer was killed while on a call to a domestic disturbance. And, at a road block, an officer was struck and killed by an automobile being driven by a fleeing suspect.

Assaulted

In 1981, a total of 428 law enforcement officers were assaulted in the line of duty. Eighty-four, or 20% of these officers received serious injury. The remainder received no injury or minimal injuries.

Attempting other arrests resulted in 26% of the assaults on law enforcement officers. Responding to disturbance calls resulted in 22%. In both of these activities, personal weapons such as hands, fists, feet, etc., were the most common weapon type. Ninety percent of the assaults on officers attempting other arrests and eighty-one percent of the assaults on officers responding to disturbance calls were perpetrated by personal weapons.

Other high risk activities include handling and transporting prisoners which resulted in 19% of the assaults. In 10% of the assaults the officers were involved in traffic pursuits or stops. Again, personal weapons were used in the majority of these assaults, 98% and 79%, respectively.

Eighty-three percent of the assaults on police officers involved hands, fists, feet, etc., with 81% receiving minimal

injuries. Cutting instruments were used in 2% of the assaults and other weapons in 5%. Records indicate that 86% of the assaults resulting from cutting instruments and 70% from other weapons involved minimal or no injury to the officer.
