SPOKANE POLICE DEPARTMENT

Robert D. Panther  
Chief of Police

May 1, 1983

The Honorable James Chase  
Mayor, City of Spokane  
Spokane, Washington

Dear Mayor Chase:

The 1982 annual report covering the activities of the Spokane Police Department is forwarded for your attention. 1982 was a most dynamic year in the history of the Spokane Police Department. The progress that was made and the plans that are under consideration for further accomplishments are all designed to provide Spokane's citizens with more effective law enforcement and to provide the employees of the department the best working conditions possible.

The crime statistics should be seen as a credit to the citizens of Spokane and the members of the police department. Because of programs like Block Watch, the citizens have shown that they can take an active part in preventing crime.

The support we have received from your office, the City Council, the City Manager's office and other City departments has made our objectives and goals more attainable. We are very appreciative of the consideration you have shown.

Yours very truly,

ROBERT D. PANTHER  
Chief of Police

## POLICE DIVISIONS

### ADMINISTRATION

ROBERT D. PANTHER, CHIEF OF POLICE

1982 was a year presenting many challenges to the Spokane Police Department. The crime index continued a decline that began in 1981. Final figures show a 17 percent decrease in Part I crimes. Of particular significance is the 24 percent decline in burglaries. We believe this is indicative of the effect of the concentration of effort by members of our department and, most important, the interest and action on the part of the citizens of our community working cooperatively. Certainly, many other factors affect crime rates, but of all the variables, these seem most noteworthy.

Reported traffic accidents also declined in 1982, as did the number of traffic fatalities. Nearly 100 more persons were arrested for DWI in 1982 than in 1981.

In the fall, our department was examined by a management consulting firm. This resulted in some changes in some areas and provided the impetus for some major projects already under way, such as the completion of the re-organization of the Uniform Division and the development of a management data system to aid in the allocation of manpower.

Other projects, changes and innovations in 1982 included:

- Organization of an internal Operations Review Committee to review major incidents in an effort to improve department morale and efficiency.
- Appointment of a task force to review the selection process; in particular, the interview and psychological testing procedures. At year's end, this project was near completion.
- In mid-year a monthly administrative newsletter was first issued.
- A regular liaison meeting with the County Prosecutor and his top staff was initiated.
- A new shooting investigation policy was put into place which clarifies the procedure to be followed when a police officer is involved in a shooting incident.
- A new portable radio system for the ADVIN unit was purchased.

We were proud to note the management consulting firm found the Spokane Police Department to have, "A number of notable strengths which distinguish it as one of the more successful law enforcement agencies we have had the privilege of assessing."

## SPOKANE POLICE ACADEMY

LT. D. C. PEPPER, COMMANDER

### BASIC LAW ENFORCEMENT TRAINING

Due to budget cut backs, only one basic law enforcement class was conducted from March 1 to May 14, 1982 when the 242nd session of the Washington State Training Commission basic academy and the 69th session of the Spokane Police Academy were held simultaneously. The session began with 24 students, including six from the Spokane Police Department, four from the Spokane County Sheriff's Department, one from the Spokane Fire Department, and the remaining from various other agencies within eastern Washington. Three officers were dropped for academic reasons, and one officer voluntarily withdrew. Graduation was held at Ft. Wright College on May 14, 1982.

A basic 142-hour reserve academy was held from March 29 to June 9, 1982. The session started with 22 students, and all graduated. The training was conducted three nights a week and on occasional Saturdays.

### RANGE ACTIVITIES

Following are the firearms training and other range activities conducted by the firearms training section of the academy during 1982:

Basic law enforcement firearms training - Two sessions of 45 hours of instruction with sidearm and shotgun, one for each basic training class.

In-service firearms qualification - This was conducted for regular and reserve members of the department. A total of approximately 45-hours instruction was given in three separate sessions. This represents 1,350 man-hours of instruction.

Night firearms training - The First Shift conducted night firearms while in service. Training included tactical maneuvers and marksmanship with sidearm and shotgun.

Spokane Community College Law Enforcement Pistol Team - Assistance was given to the team to prepare them for national community college competition.

Rifles for sergeant's vehicle - Rifles were selected and purchased for each of the sergeant's cars. Weapon familiarization and marksmanship training were given to all patrol sergeants and side handle baton students.

The academy staff loaded approximately 600,000 rounds of ammunition. The range staff also did normal weapons maintenance, and an additional 40 weapons were reconditioned for SWAT and reserve officers.

Spokane Police Pistol Team - The team conducted a number of pistol matches in which competitors were law enforcement officers from the northwestern U.S. and Canada.

Spokane Community College law enforcement students firearms training - 60-hours instruction with sidearm and shotgun for those students.

Loading room expansion - The City Building Maintenance Division remodeled 720 square feet, giving the loading room much needed additional space.

### Outside Agencies Using Firing Range - 1982

Airport Police  
Army National Guard  
Basic Law Enforcement Training  
Burlington Northern Railroad

Total Agencies - 23

### IN-SERVICE TRAINING

April 12-16 - A 40-hour law enforcement motorcycle school was conducted by instructors Officers Jay Jones and Guy Hawks. Four deputies from Spokane County and four Spokane City officers completed the course.

April 26-May 25 - Sgt. Roger Bragdon and Spec. John Henry conducted nine, 16-hour training sessions in the areas of criminal procedures and officer survival, which was designed to complement the new department manual that was given to all personnel who attended the training. There were approximately 230 department members involved in the training.

Sept. 27-Oct. 26 - The Academy conducted nine, 16-hour sessions dealing with high-risk management and stress recognition and management. Sgt. Roger Bragdon and Rev. Larry Faught instructed. Approximately 230 department members attended.

During the month of September, a 40-hour radar instructor course was given. This course was sponsored by the Washington State Training Commission and was attended by Ofcs. Bill Gasperino and Larry Herman along with 28 law enforcement officers from other agencies.

Oct. 13-15 - A three-day homicide school, "Advanced Forensic Techniques in Death Investigation", was held at the academy. Nine Spokane Police detectives attended as part of the 30-member class which was open to other law enforcement agencies throughout the state. Instructors were Dr. Larry Lewman, Oregon Medical Examiner's Office, and Sgt. Rod Englert, Multnomah County Sheriff's Office.

In October, a 40-hour side-handled baton instructor course was held. Bob Bragg from the Seattle Training Center instructed, and the training was attended by 12 Spokane officers.

During November, ten, 8-hour training sessions of the Radar Operator course were given. Instructors were Bill Gasperino and Larry Herman, and 150 officers from the Uniform Division attended the course.

December 1-16 - Four, 16-hour training sessions on the side-handled baton were held. The course was designed to qualify those officers on the department who desired to carry the side-handled baton. Instructors were Sgt. Steve Braun, Ofc. Gale Meenach and Ofc. Rick Hayes.

Sept. 13-17 - A 40-hour officer survival course open to all eastern Washington police agencies was held. Two Spokane officers attended the training, which was instructed by Rick Mathers of the FBI.

Audio-visual - During 1982, four videotape criminal depositions were taken at the academy through an agreement between the department and the Spokane County Prosecutor's Office.

FTO program - During the year of 1982, eight probationary officers started the Field Training Officer program. Four probationary officers successfully completed this phase of the probationary process. They will have completed their probationary year in March, 1983.

COMMUNITY RELATIONS

LT. J. E. OIEN, COMMANDER

The purpose of the Community Relations office is to foster and improve communication and mutual understanding between the police and the entire community. In doing this, work is done with prosecutors, the courts, corrections, community leaders, minority groups, and others to strengthen implementation of equal protection under the law for all persons.

The Community Relations office, staffed by one lieutenant and one police officer first class, continued an outreach policy into the community, working with various individuals and groups. Contact has continued with neighborhood centers, youth centers, ethnic groups and a number of community service organizations dealing with drug and alcohol rehabilitation, health and welfare, crime prevention, etc. In 1982, 1,583 contacts were logged with those groups and organizations. Community Relations officers also represent the department as active members of several advisory boards and committees involved in the administration of group homes, halfway houses, drug and alcohol rehabilitation, mental health, Block Watch and others. These boards and committees required the officers presence at 207 meetings in 1982.

The Crime Prevention unit's function under Community Relations has resulted in many contacts related to crime prevention activities. The Block Watch program underwent an organizational change placing it under the auspices of Crime Check, Incorporated with supervisory responsibilities assigned to the Community Relations and Crime Prevention offices. This closer association provided the opportunity to attend five Community Development Neighborhood meetings where the subject of police response and priorities were discussed in a two-way dialogue with a large number of citizens.

The Speakers Bureau provided officers as speakers for 69 engagements at schools, senior citizen groups, women's groups, church groups, service clubs, etc. Topics ranged from personal protection to crime prevention, law enforcement careers and drug abuse.

Other activities in 1982 have included coordinating the department's involvement at Reverend Hamp's annual youth camp, a Jim Hill Days fun run to benefit the Police Chaplain's fund, and Officer Mielke's service on the Governor's advisory board for mental health as a representative of eastern Washington. Departmental responsibilities include Officer Mielke's hostage negotiation team activities and maintenance of the department's AID alarm systems. The hostage negotiation team responded to three incidents in 1982. Lt. Oien also served as director of the Personnel Assistance Team, supervising its training and activities.

The unit continues to work with people and people problems, giving the department the opportunity to discover and help to resolve the community's problems, working directly together with those involved in those situations.

CRIME PREVENTION

The objective of the unit is reduction of crime through pro-active methods channeled through various public education outlets. In 1982, a non-commissioned Crime Prevention Practitioner position was added to the unit.

Personnel representing the Crime Prevention office participated in the following community events: Torchlight Armed Forces Lilac Parade, Crime Prevention Week displays, National Hospital Week, Fairchild AFB Open House, Law Day activities, the PRI Rural Crime Seminar, Spokane Interstate Fair, Ernst's Show Me How Fair, and Christmas holiday activities. Members of the unit talked to thousands of people on many crime prevention topics in 90 public speaking engagements.

The placement of Block Watch under Crime Check with police department involvement in supervision should result in an improved efficiency and cost savings for Block Watch and improved coordination of crime prevention efforts. The focus of the program on residential burglaries has been successful, with statistics indicating only one Block Watch member is burglarized for every three burglaries of non-members in the same neighborhood. Block Watch membership has enlarged to more than 16,000 members.

Other activities of the unit:

- Administration of the speakers bureau
- Liaison with retail security personnel
- Participation on the Associated General Contractors Crime Prevention Committee
- Conducting commercial security surveys
- Producing and directing crime prevention television spots

The unit works with other law enforcement agencies throughout the United States and has had close cooperation and an excellent working relationship with the Spokane County Sheriff's Crime Prevention office.

#### CHAPLAIN PROGRAM

REV. LARRY FAUGHT, CHAPLAIN

In 1982 Chaplain Larry Faught assisted the department in many ways. The topic of stress received a great deal of attention, and Chaplain Faught sponsored a police stress seminar for police chaplains from the Northwest. He also helped teach a class on that subject for officers of the department at the academy.

The chaplain was called to provide aid and comfort to family and friends in 27 situations involving deaths, and he responded to many incidents in which the possibility of death existed. Assistance was also given in other crisis situations involving family fights and runaway children.

Other activities for 1982 were: active involvement in the Billy Graham Crusade, a drive for food, toys and funds for needy families at Christmas time. The drive was sponsored by the Guild and coordinated by Chaplain Faught for distribution. Nineteen families received food and toys; 20 elderly people received food, and 10 refugee families were given food gift certificates.

On three occasions, Chaplain Faught performed marriages for law enforcement personnel, two officers and one jailer. Other personnel called upon him for counselling when family and marriage problems occurred.

The department's Personnel Assistance Team has been a part of his activity as well. This team responds to support an officer and his family following any shooting incident in which the officer has been involved. As part of that participation, the chaplain attended a meeting of the Washington Association of Police Training Officers on the subject of post-shooting trauma which was held in Yakima.

Many groups and service clubs heard Chaplain Faught speak as a representative of the department and of the Chaplain Program.

INSPECTIONS AND INTERNAL AFFAIRS

PLANNING AND RESEARCH

LT. BILL G. FERGUSON, COMMANDER

In fulfilling its responsibilities for long- and short-range planning assigned by the Chief of Police in 1982, the unit's activities included the following:

Grant funding for enhancement of the communications system - This project involved the successful development of an application for grant funds from the Law Enforcement Assistance Administration. These funds have been committed to the acquisition of new high-band mobile radios for patrol vehicles.

Report on annexation impact on the police department - This report was developed in conjunction with Gruen & Gruen Associates for future annexation plans for the City of Spokane.

As part of the department's participation in community organizations affiliated with law enforcement activities, the office was represented by the Planning and Research director on the Domestic Violence Task Force and the Crime Check board. The director also participated in the department's and city's activities by taking a role in the 9-1-1 Operations Committee, the Capital Improvement Committee, the Police Department Employee Selection Committee, and the Department Operations Review Committee. Some of the projects growing from the committee work were: developing a five-year forecast of future needs of the department for the Capital Improvements Committee, acting as liaison with the Domestic Violence Task Force, addressing the methods and procedures of the 9-1-1 system, upgrading the selection standards for new department employees, and reviewing the handling of crisis situations by the department.

In 1982, the unit increased its participation with Crime Check of Spokane and maintained responsibility for administration of the Concerned Citizen Award and Crime Check Citizen commendation programs for the police department. In 1982, one citizen received the Concerned Citizen Award, the highest award given locally for assistance to law enforcement in possible life threatening situations. Crime Check Citizen commendation letters were sent to 66 persons who assisted law enforcement officers. The Crime Check board also continued its support of the Secret Witness Program in conjunction with the local newspaper and the local law enforcement agencies.

Departmental assignments for 1982 have included research on possible consolidation of law enforcement services with the county, examination of departmental policies and procedures for updating to current practices, development of statistical data for the Uniform Division in conjunction with the computer center, intra-departmental correspondence with other agencies involved in planning and research activities, participation in the merging of the Planning and Research office with the Training section as a result of the management study submitted by McManis and Associates in late December.

LT. T. J. LA LIBERTE, COMMANDER

The Inspections and Internal Affairs office was officially created on January 2, 1982. It is currently staffed with one lieutenant under the direction of the Assistant Chief of Police.

The inspections function encompasses many duties, of which Property Room inspections constitute a great deal of time and work, including spot checks of inventory on a quarterly basis and witnessing the disposal and/or destruction of items not claimed or sold at auction. These checks have resulted in improved procedures for property handling and better record keeping. As problem areas in the system are identified, corrective procedures have been initiated.

Inspection functions have also involved other projects: assisting in production of a building evacuation plan with a test run, developing proposals for new equipment purchases, updating of policies and procedures, providing input on office relocation proposals, improvements to the auto impound record keeping, chairing a committee of seven lieutenants for the purpose of improving the applicant selection procedure, particularly as it applies to the oral interviews. The Inspections and Internal Affairs officer also serves as the liaison with the City's Safety Department.

The primary purpose of Internal Affairs is the objective investigation of complaints from all sources against police department employees. Initially it was necessary to do research into existing practices and laws governing these matters. Three days were spent at a seminar in San Francisco and two days were spent with the Seattle Police Department's Internal Investigations section. Policies and procedures were then drafted and approved for the operation of the function, and department personnel were made familiar with the system.

Complaints are received either first or second hand, recorded, and investigated. Completed reports are submitted to the Assistant Chief for appropriate action. In 1982, 72 complaints were investigated by the office. Approximately a third of these were of excessive force, and others were allegations concerning false arrests, thefts by officers, and a wide range of miscellaneous complaints. The dispositions were:

Unfounded - no basis in fact	31
Exonerated - officer actions justified	12
Not sustained - one on one situation	11
No finding - inactive, unidentified officer	8
Sustained - officer acted improperly	7
Still under investigation	<u>3</u>
Total	72

Some investigations were initiated by the filing of claims or civil suits against the City and officers, usually alleging injury or improper action by a police officer. The officer also acts as liaison with the claims adjuster for the City and contact person for private attorneys.

Some complaints were handled simply through explaining procedures to citizens who did not understand what they had encountered.

## UNIFORM DIVISION

CAPTAIN R. J. ALLEN, DIVISION COMMANDER

The year 1982 continued to be one of change. Pursuant to City Council mandate, the McManis and Associates management study of the department was begun and completed. It seemed to concur with the basic steps already underway, including the "sector" concept of policing the City; however, their report suggested a number of far-reaching steps to be taken to further attempt to provide better service to the public. One such major recommendation pertained to complete merger of traffic officers into patrol operations under the shift commanders. The result is a break in long-standing tradition of using speed motors as part of the motor pool. The remaining motorcycles are to be placed in storage. The division will continue to adapt to the process of change in an effort to provide more efficient and cost effective police service to the community.

### FIRST SHIFT PATROL

LT. L. R. FREEMAN, SHIFT COMMANDER

Personnel: Except for shift supervisory personnel and assigned specialists, the number of field officers assigned to the shift varied due to probationary officers' temporary assignments, loss of officers due to dismissals and resignations, etc. Therefore, man hours will be used to indicate numbers assigned.

Supervisory Personnel: Four were permanently assigned - one lieutenant and three sergeants. A relief lieutenant is assigned two days a week.

Specialists: Four specialists are assigned to the shift. Three of these perform various duties including field, desk and radio assignments. One specialist is assigned to supervise the radio room personnel.

Field Officers: 11,959 man-days were supplied to the shift by department assignment. This is an average of 32.76 man days per day or 32.76 officers assigned to the shift on a daily basis; however, 3,757 man-days were expended on sick leave, vacation, holidays, training, etc. Thus, 8,202 man-days were supplied for actual field work. On a yearly schedule, the first shift was able to put 22 officers in the field on a daily average.

Calls For Service: 27,767 compared to 37,730 in 1981.\* This figure represents the number of calls given to field units. It also represents the activity of the desk officer and/or 9-1-1 personnel in answering telephone or walk-up requests.

Self Initiated Events: 12,507 in 1982.\* This figure represents the activity generated by field units on such calls as traffic stops, field interviews, suspicious persons or autos, etc.

\* In prior years, calls for service and self initiated events were combined.

Tiepin Requests: 21,134 in 1982; no figures available for 1981. This figure represents the total number of people or auto licenses and other information checks in the computer system.

Arrests: Felony arrests in 1982 were 617 compared to 577 in 1981; misdemeanor arrests were 2,608 compared to 2,078 in 1981. Arrests increased by 17.8 percent. These include arrests by warrants.

Mileage: During 1982, 313,499 miles were driven during police activities; compared to 273,704 in 1981. This is a 12.3 percent increase, or 39,795 more miles driven.

Traffic: The total number of citations or infractions issued in 1982 was 7,799, which represents a 21.5 percent increase over the 6,118 issued in 1981. This includes parking tickets.

The above figures are based, in part, on shift statistics. The monthly printouts from Records and Traffic not being available at this time.

During the year, it was necessary to call out SWAT on four situations. Their actual engagement was only needed on two of those situations. These two incidents were a husband with a rifle threatening his wife and children and a "shots fired" from an apartment on N. Maple. Their valuable assistance in handling these problems allowed the shift to maintain a force of officers necessary to provide coverage to the city by handling our calls for service.

On May 27, 1982, shift officers, after arriving at the scene of a burglary in progress, lawfully shot and wounded a suspect fleeing from the subject establishment. Subsequent investigation determined the shooting was justified.

During the year, officers on the shift provided many hours of their time in giving speeches and providing their professional expertise to youth groups and other community organizations.

Shift officers also provided assistance to the Sheriff's Department on calls such as traffic stops, back up at burglary scenes and on the scene standby of a hostile, threatening homeowner.

The first shift received valuable assistance from the Sheriff's Department's canine unit on numerous occasions in searching burglary and other crime scenes.

### SECOND SHIFT PATROL

LT. F. M. WARRINGTON, SHIFT COMMANDER

Staffing through the year varied as the manpower varied due to temporary assignments of probationary officers, retirements and transfers between shifts. At the beginning of 1982, we had a complement of 50 commissioned officers and five civilians. By the end of 1982, our complement was 52 commissioned officers and seven civilians. The average number of persons assigned to second shift was 51 commissioned officers and seven civilians. Of the commissioned officers, five are supervisory personnel (one lieutenant and four sergeants), four specialists (one of which is assigned as radio supervisor and one assigned as desk officer), 25 patrol officers, 16 traffic officers (four assigned to marker motor assignments), and one litter control officer. The seven civilian persons include five radio operators, one clerk/messenger and one auto service person.

This was the second year for sector policing on the second shift; however, since this was the first year for the sector concept throughout the entire Uniform Division, we did experience some periods of transition and changes in our manpower needs. Some of the more notable changes were sector designations, the number of officers assigned to each sector, and the increased use of traffic officers to double as patrol officers. These periods of transition did not hinder our operation, and we were able to maintain the integrity of the sector policing concept.

As in the past, the period from April through September did require, by contractual agreement with the Park Department, an officer to be assigned to patrol duties in Riverfront Park. This year, instead of assigning an officer to foot patrol, we did assign one marker motor officer to the park. This assignment was rotated on a six-week basis between the four marker motor officers. We found this arrangement to be quite satisfactory and effective, as the officers did have the added mobility provided by the marker motor. We did receive many favorable comments from the park management and staff regarding the use of these officers.

Throughout the year, training was provided on sector, shift, division and department levels, including service schools, seminars and workshops. All commissioned officers assigned to second shift attended all in-service schools conducted by the Spokane Police Academy, as well as all scheduled firearms training and qualifications.

General statistical information includes the following:

Calls for service	14,593
Self-initiated events	8,923
Traffic arrests	10,627
Special event traffic control	44
Mileage on autos and motorcycles	300,000

The figure for calls for service represents the calls given to officers. Self-initiated events include traffic stops, field stops related to suspicious persons or autos, and any activity generated by the officers in the field. Traffic arrests includes both criminal and infractions. The special events figure represents those events requiring traffic control which is not handled on a division level, such as fun runs, mini-parades, demonstrations, etc. The mileage driven is an approximate figure based on approximately 40 miles driven by each unit on shift for 365 days of the year. On an average for the last three months of 1982, we had 20 officers in the field.

THIRD SHIFT PATROL

LT. R. L. WALKER, SHIFT COMMANDER

Third shift averages approximately 35 patrol officers for field duty to fill three sectors. Twelve officers of the Traffic unit were left intact. By using the Traffic unit to cope with the downtown problems during the summer, patrol officers were left free to handle calls for service. 1982 was a year of constant change:

- Patrol and Traffic were placed under a unified command
- Sector concept replaced district patrolling
- 9-1-1 replaced Crime Check
- Entire platoon having same days off changed to individual days off

The division established a building evacuation plan. A department call-out procedure was tested on April 15 and was successful. Significant other activities: Security was provided for the heads of the national organization of United Mine Workers during their meeting with Bunker Hill employees. Billy Graham conducted a week-long revival here which, for Third Shift, involved traffic control.

Third Shift Statistics

	<u>Patrol</u>	<u>Traffic</u>	<u>Total</u>
Miles Driven	275,276	99,644	374,920
<u>Arrests</u>			
Felony	383	29	412

\*59 percent of patrol's calls were out of district.

Unclassified Statistics

Man days worked by Police Reservists	549
Observers	16
Officer participation in Rev. Hamp's Youth Camp	5
Instructors in Basic Police Science courses	5
Man-days on the street (Patrol)	6,866
(Traffic)	2,067
Daily average man-days on the street (Patrol)	18.8
Daily average man-days on the street (Traffic)	5.7

## TRAFFIC

LT. C. E. SWEATT, COMMANDER

Since the Traffic office's function changed from a line to a staff function, its objective is to provide technical advice and assistance on all traffic related matters to the various shifts, the Patrol Division commander and the office of the Chief of Police. Among the unit's responsibilities are planning and supervision for the major traffic events that occur each year in Spokane, such as parades, runs and football games, working with the Traffic Engineering and Planning Departments on zone changes, and working with other City departments to make vehicular and pedestrian traffic as safe as possible.

Personnel presently assigned to Traffic are:

- 1 Lieutenant
- 1 Sergeant
- 6 Specialists
- 1 Non-Commissioned Clerk

Effective January 3, 1982, four Police Officers First Class who ride three-wheeled motorcycles were transferred to the Patrol unit. Five of the specialists are assigned to accident investigation, particularly hit and run, fatal and serious injury accidents. The other specialist is the Safety Education officer, assigned to the Traffic unit on January 3, 1982, retaining his responsibilities with the school patrols and complaints received from them, promoting school safety, coordination with Traffic Engineering and School District #81 on relocation of school crosswalks, the Safety Santa Claus program, and work with civic groups who provide safety equipment for the school patrols.

The unit utilizes three accident investigation cars, which are used on two shifts, one unit vehicle, and a Safety Education officer's car. All solo and three-wheeled motorcycles and radar sets were transferred to Patrol.

Traffic provided planning and traffic control for approximately 45 to 50 parades and other community events, including several runs. The largest of the runs was Bloomsday, reported by the sponsors to be one of the largest runs in the United States, with participants in 1982 exceeding 22,000 compared to 13,000 in 1981. The event grows every year. In August, Billy Graham presented a Crusade in Spokane for eight days at Joseph Albi Stadium. The unit was responsible for traffic control for crowds exceeding 40,000. Other events administered by Traffic were: the Junior Lilac Parade, the Lilac Torchlight Parade, several parades by fraternal organizations, WSU football games, and a band competition.

## SWAT TEAM

LT. D. C. PEFFER, COMMANDER

The Special Weapons and Tactical Team (SWAT) has continued to undergo specialized training to effectively respond to and handle high-risk police situations, with emphasis on total control of officers, suspect, scene and, most important, firepower.

The team uses the one-team concept of 18 officers that was initiated in 1980. This organization has proved to maximize flexibility and efficiency. In 1982, Detective Jim Peterson, Officer Ken Bennett and Officer Jim Hatch retired from the team. All of them had from six to ten years of experience with the unit. They were replaced by Officer Tom Chapman, Officer Alan Quist and Officer Mark Sterk.

In 1982, team training consisted of firearms skills with the revolver, shotgun, scoped rifle and semi-automatic rifle; also, evacuation techniques, rescue of wounded persons, building entry techniques, chemical agents, rappelling, and several tactical drills designed for specific high-risk situations. Special emphasis was put on command post organization, coordination with negotiation techniques and coordination and training of patrol officers. The SWAT unit participated in an area-wide training exercise conducted by the FBI in June. Several local agencies, including the Spokane County Sheriff's Department, participated in the three-day session.

Activation of the SWAT unit occurred three times in 1982 in which the unit acted operationally. All situations were resolved with no injuries to anyone and all suspects taken into custody.

SPOKANE POLICE RESERVES

LT. C. S. HARDING, COMMANDER

Established by city ordinance in January, 1974, the Spokane Police Reserve aids and supplements the Spokane Police Department as directed by the Chief of Police, providing support primarily for the Uniform Division. They may also supplement other sections where need exists or special skills of individual reservists will benefit the department.

Commanded by a police lieutenant designated as the Police Reserve Coordinator, the unit organization contains two reserve staff advisors and four platoon leaders. Lt. C. S. Harding was designated the coordinator in January, 1982. At that time the unit consisted of 28 members. After recruiting in February, 22 prospective members started the Reserve Academy and graduated on June 9 following 142 hours of training. On June 16 they were sworn in and started service, bringing the unit to full strength of 50. As of December, 1982, membership was 41; members left for various reasons, including transfers to other areas, and one took employment as a full time police officer in another city.

Volunteer Hours By Reserves

Hours in Patrol and Training Meetings	8,704
Hours in Academy (142 X 22 students)	<u>3,124</u>
Total	11,828

Volunteers who serve the community without compensation, reservists are not deemed to be employees of the City of Spokane. They are required to work a minimum of two, eight-hour shifts per month besides attending a monthly business/training meeting. Appointments are made upon completion of a screening and training process similar to that of regular police officers, after which the reservist has the same power and authority as a regular police officer while he is on duty. The monthly training meetings during the year covered subjects including identification and fingerprint techniques, stress management, handcuffing techniques, SWAT team orientation, drug identification, night shooting, bunco and fraud training, and patrol procedures. Each reservist must also qualify with his or her firearm each time a firearms qualification is held for the department.

Besides their regular patrol duties, reservists also participated in extra duties: Downtown transportation and back up car, the Lilac Torchlight Parade, National Drag Races, the Billy Graham Crusade, Halloween Haunted House for MS, Gonzaga Christian Native American Celebration, Bloomsday Run, Show-Me-How Fair, Spokane Interstate Fair Crime Prevention Booth, the Crime Prevention McGruff program, and the Vice squad.

INVESTIGATIVE DIVISION

CAPTAIN R. R. OLBERDING, DIVISION COMMANDER

LT. G. D. MC GOUGAN, GENERAL DETECTIVE BUREAU SHIFT COMMANDER  
 LT. G. O. HICKMAN, GENERAL DETECTIVE BUREAU SHIFT COMMANDER  
 LT. L. E. ELLIOTT, YOUNG PEOPLES BUREAU SHIFT COMMANDER

The Investigative Division is comprised of:

- 1 Captain
- 3 Lieutenants
- 5 Sergeants - Bureau Supervisors
- 38 Detectives - Field Investigators
- 5 Stenographers
- 1 Clerk

In 1982, the Investigative Division had one less detective than in 1981 due to the transfer of a detective to the ADVIN unit.

An extensive remodeling project in the General Detective office was completed in 1982. This has significantly reduced the noise level in the office, created a better working atmosphere, and greatly improved the telephone communication system.

The reorganization of the span of control in the various bureaus in January of 1982 has succeeded in bringing about a more even distribution of the work load for the sergeants and has also resulted in a greater control of the investigative cases for the respective bureaus.

Following are cases assigned by unit:

Unit	Felony	Misdemeanor	Total
Crimes Against Property	525	1,218	1,743
Crimes Against Persons	560	1,224	1,784
Burglary	1,053	--	1,053
Auto Theft	428	232	660
Checks	362	135	497
Young Peoples Bureau	<u>503</u>	<u>822</u>	<u>1,325</u>
Total	3,431	3,631	7,062

One detective is assigned to conduct polygraph examinations. In 1982, the polygraph examiner conducted 349 examinations.

YOUNG PEOPLE'S BUREAU

The Young People's Bureau handles cases involving persons under the age of 18 years, both victims of crimes and perpetrators of criminal activity. Beginning January 1, 1982, the Young People's Bureau handled all cases of sex crimes for both adults and juveniles.

The Bureau's office hours are 8:00 a.m. to 5:00 p.m., Monday through Friday, and from 8:00 a.m. to 4:00 p.m. on Saturday. The bureau is staffed with the following personnel:

- 1 - Lieutenant
- 1 - Sergeant
- 9 - Detectives
- 1 - Stenographer

Detective Poindexter attended a seven-week polygraph school at Spokane Community College from October 4 to November 19, 1982.

The Young People's Bureau works closely with the Juvenile Court Services, Adult and Juvenile Parole Services, Department of Social and Health Services (Child Protective Services, Foster Care and Family Reconciliation Services), Crisis Residential Center (CRC), Rape Crisis, and numerous other Social Service agencies.

Of the 1,325 cases investigated by the Young People's Bureau in 1982, 503 were felonies and 822 were misdemeanors. Most of the felony cases were sex crimes: rape - 150, indecent liberties - 61, and public indecency - 67. Child abuse cases numbered 109.

Child Protective Services referred 108 cases which required investigation or some police action on the part of the Young People's Bureau.

The average case load for the field investigators of the Young People's Bureau for 1982 was 165 cases per investigator.

#### HYPNOSIS REPORT

In 1982, 24 hypnosis sessions were conducted:

January - 4, February - 4, March - 2, April - 5, May - 0, June - 3, July - 1, August - 2, September - 1, October - 1, November - 1, December - 1

All 24 sessions were conducted in the hypnosis room at the Public Safety Building.

Of the hypnosis subjects, 20 were females and 4 were males. The youngest was 8 years old, and the oldest was 50 years old.

The Spokane Police Department used hypnosis 21 times in 1982; 4 for General Detectives, 15 for Young People's Bureau, and 2 for the Traffic Hit & Run unit. Two sessions were conducted for the Spokane County Sheriff's Department and one for Eastern Washington University.

Types of crimes hypnosis was used for:

Rape	14	Robbery	4	Assault	2
Traffic	2	Abduction	1	Theft	1

#### ADVIN DIVISION

LT. L. G. HOWERTON, COMMANDER

The Administrative Vice, Intelligence and Narcotics Division is responsible for the regulation, investigation and arrests for violations in the areas of narcotics, vice and gambling, as well as gathering and disseminating intelligence information and handling cases involving surveillance and undercover operations.

#### VICE

The three detectives assigned to this unit work with the assistance of male and female agents for vice violations. In 1982, they also investigated 41 cases involving theft, robbery, promotion of prostitution and delivery of controlled substances. This year there were many complaints from citizens and merchants regarding prostitutes loitering in the downtown and east Sprague areas. Following emphasis enforcement in those areas, 140 arrests were made, resulting in a significant improvement of the visible vice problem.

Prostitution arrests	
Female	160
Male	118
Non vice arrests	
Felony	46
Misdemeanor	<u>12</u>
Total	336

The vice investigator assigned to gambling enforcement works with the Washington State Gambling Commission and Washington State Lottery Commission. 1982 activities: 15 cases of professional gambling, pull tab forgery, bingo parlor fraud, and illegal lottery violations. Others were initiated, but not completed at this time.

#### INTELLIGENCE

The Intelligence office has progressed to the point of being the hub for dissemination of criminal information for the Spokane Police and Spokane County Sheriff's Departments. The office processes all intelligence information from reports and field contacts, keeps spot maps on specific crimes, processes pawn transactions, maintains an alias and nickname file, and publishes daily or weekly information flyers, which are distributed to police and sheriff's department personnel and 31 other agencies. Particular training has been received by one Intelligence unit detective and one field officer in the area of motorcycle gangs, and their information is also disseminated locally and to other agencies. Wanted subjects for the local "Crimestoppers" program are furnished by the Intelligence office.

#### BOMB SQUAD

Bomb squad members (two detectives) respond to explosive related incidents. They work closely with their counterparts from the Spokane County Sheriff's Department and other law enforcement agencies. In 1982, they responded to 25 percent more cases than in 1981. Statistics are as follows:

Reports of explosive related incidents	115
Incidents requiring bomb squad response	44
Found military ordinance	5
Hazardous chemical handling	3
Suspicious or unknown packages	12
Abandoned homemade explosive devices	5
Explosive incidents resulting in property damage	5

Assistance was also provided to the Ferry County Sheriff's Department with a booby-trapped marijuana field. We anticipate some increased activity with other agencies due to the marijuana eradication program in 1983.

Bomb Squad members worked closely with Fire Department personnel handling chemicals. They handle toxic chemicals, and we are responsible for explosive chemicals. A sample policy has been devised and distributed for businesses to use to establish their own policies on bomb threats and explosive-related situations. Classes have also been given to prepare security personnel, local schools, hospitals and major businesses to make their facilities more secure against explosive related threats.

#### NARCOTICS

In 1982, the Narcotics unit initiated 61 felony drug cases of which 33 resulted in arrests. Some of the active cases extended beyond local jurisdiction and produced arrests and drug seizures by other agencies. Patrol officers effected 61 felony arrests which were processed by the unit. These and the misdemeanor arrest increases were due in large part to the effort of patrol and narcotics detectives in Riverfront Park.

International activities included three long term surveillances in cooperation with the RCMP of Canada. Through the joint efforts of the Narcotics unit, the FBI and the RCMP, two arrests and drug seizures took place in Canada and one in Florida. Eventually, further cases will be developed from these in both Spokane and Canada.

Assistance to U.S. Customs agents on a stakeout resulted in the seizure of \$65,000 from narcotics traffickers. As a result of aid to U.S. Customs, testimony was presented to a grand jury on the east coast resulting in federal arrests and convictions. The defendants were responsible for trafficking in more than 100 pounds of cocaine in the State of Washington in 1980.

Considerable effort was expended in assisting other agencies in the marijuana eradication program in northeastern Washington. Assistance was also provided to the Idaho Bureau of Narcotics and the Alaska State Police.

#### SERVICES DIVISION

CAPTAIN D. N. ANDERSON, DIVISION COMMANDER

The Services Division is comprised of Records, Property and Print Shop. The division is a joint-use facility operated by the Spokane Police Department under a contract with the Spokane County Sheriff's Department. The 1982 contract specifies a split of 60% - 40% expense allocation be funded by the city and county respectively. One officer is assigned to the Identification section, which is a joint-use function administered by the Sheriff's Department.

#### RECORDS

Eighteen full time non-commissioned persons are assigned to this area which operates 24 hours a day. The bulk of the work is done on the day shift.

During 1982, the section upgraded its IBM copier from a Series III Model 10 to a Series III Model 60. This action was necessitated by the large volume of copying done. An old microfiche reader-printer was also replaced by an Alos reader-printer.

The following statistics show the volume of work for the past three years:

	<u>1980</u>	<u>1981</u>	<u>1982</u>
Reports Processed	73,899	73,789	68,630
Documents Filed	221,697	221,367	274,520
Documents Microfilmed	143,998	217,270	398,111
Copies Made	602,739	616,739	677,178

The department's licensing function is accomplished by the Records section, and state concealed weapons permits are issued for both the city and county.

Gun permits issued	4,929
Cab licenses - drivers and vehicles	428
Detective and security guards	258
Massage parlors	49
Special police	38

Licensing revenues were as follows:

Gun permits	
City	\$4,128
County	8,361
State	8,408
	<u>\$20,897</u>

Other Licenses	
Cabs	\$9,436
Detectives and guards	8,588
Massage parlors	1,125
Special police	611
	<u>\$19,760</u>

Total Revenue \$40,657

The Records section also processes warrants, entering them into WACIC and NCIC, and storing them. In 1982, 21,100 warrants were in the system.

#### PROPERTY

The Property section is staffed by a sergeant, a deputy sheriff and a non-commissioned clerk. During 1982, steps were taken to provide additional security to the area. New locks and automatic door closers were installed. Construction of individual locked storage bins was started. These bins are designed to retain property which is taken into custody after normal working hours and on the weekends.

In 1982 new property entries totalled 7,791, and the inventory of items as of December 31, 1982 was 21,008.

Property is also responsible for auctioning unclaimed property. Six auctions held during 1982 produced the following revenue:

City	\$13,112.75
County	<u>6,855.35</u>
Total	\$19,968.10

#### IDENTIFICATION

While this area is under the Sheriff's Department, it is closely tied to the Services Division. Following are statistics reflecting the activities of that unit:

Fingerprints w/arrest (sets)	6,427
Other fingerprints taken (sets)	7,425
Latent fingerprint developing and comparison attempts	392,560
Items processed for fingerprints	5,867
Comparison matches	88
Crime scene processing incidents	215
Hours service for outside agencies	194
Items processed and printed by photo lab	22,210

Officers of the section respond to all calls for identification, evidence gathering, fingerprinting and photographic evidence gathering. The unit also responds to calls for assistance from the FBI and other nearby cities and towns.
