JAIL AND DETENTION STATISTICS AND INFORMATION

ILLINOIS DEPARTMENT OF CORRECTIONS
BUREAU OF INSPECTIONS AND AUDITS
DETENTION STANDARDS AND SERVICES SECTION

MICHAEL P. LANE, Director
Illinois Department of Corrections

NCJRS

AUG 15 1983

FISCAL YEAR 1982 ANNUAL REPORT

ACQUISITIONS

The Detention Standards and Services Section, Department of Corrections, establishes minimum standards for the physical condition of county jails, municipal jails, and county juvenile detention and shelter care facilities for the treatment of inmates with respect to their health and safety and security of the community and makes recommendations to such institutions to ensure compliance with the requirements of the minimum standards. The Section provides consultation services for the design, construction, and administration of detention facilities, makes studies and surveys of programs and administration of such facilities, inspects each institution at least once annually, and gives notice to the county board and sheriff or to corporate authorities of the municipality of any non-compliance with minimum standards. In addition to the sheriff, a copy of the county detention facility inspection report is forwarded to the county clerk, county board chairman, chief circuit judge, county resident judge, state's attorney, and the regional director of the Illinois Law Enforcement Commission (ILEC). Municipal jail inspection reports are forwarded to the chief of police, mayor, city clerk, and ILEC regional director.

The legal authority which governs the Section's activities is contained in the Illinois Revised Statutes, Chapter 38 - Criminal Law and Procedure, Section 1003-15-2.

Appendix I reflects noncompliances with the Illinois County Jail Standards. Of 102 counties, four do not operate a jail. There were 985 noncompliances and 356 recommendations to improve jail operations. Ten county jails and two county work release centers had no noncompliances.

The 985 noncompliances identified during the inspections of county jails were grouped into two categories: administration, including operations and support services, (438); and building and equipment (547). The 356 recommendations cover the full spectrum of facility operations.

County jails continue to provide programs for detainees. Sixty-nine counties have a work release program; 98 have counseling services that assist in family, religious, and/or employment problems; 98 provide counseling treatment for drug abuse and alcohol addiction; 85 offer library services; 98 offer religious services; and 73 have recreational programs that provide out-of-cell activity, either indoor or outdoor. In two of the counties operating a work release program, housing accommodations are separate geographically from the jail complex.

Appendix II reflects population statistical data, including those in the sentenced category, and the bed capacity of county jails. It is noted that Cook County figures include the county jail complex and the Maywood Branch facility. Cook County had 123,394 inmates for FY1982, totaling 1,526,364 inmate days; an average daily population of 4,182; and an average of 12 jail days per inmate. The remainder of the county jails had 115,284 inmates for 973,240 jail days; an average daily population of 2,666; and an average of 8 jail days per inmate.

Appendix III depicts both the noncompliances with the Municipal Jail and Lockup Standards and the population statistical data. As in county inspections, the 178 noncompliances identified were grouped into two categories: administration (79) and building and equipment (99). Two hundred and one cities had no noncompliances. A total of 155 recommendations were offered with a view toward improving jail operations.

The number of active municipal jails and lockups fluctuated throughout the year. At the end of the reporting period, there were 279 active facilities. There were 434,539 persons (adults and juveniles) processed through Illinois municipal jails or lockups during this reporting period.

Appendix IV depicts the noncompliances noted during inspections of 13 independent county juvenile detention facilities. An independent facility is one which is not part of the county jail operation. The 59 non-compliances with the County Juvenile Detention Standards were grouped into four categories: administration (13); operations (5); building and equipment (37); and programs (4).

Appendix V reflects population statistical data for the county juvenile detention facilities. There were 15,002 juveniles held in the 13 county detention centers with an average daily detainee population of 488. Additionally, 58 county jails processed 1,522 juveniles and municipal jails processed 4,911 juveniles during the reporting period.

In FY1982, Section personnel conducted 401 inspections; 66 special investigations; 112 unusual occurrence investigations; 1,332 consultation and assistance visits, as well as 1,339 telephone consultations; and 30 on-site training workshop sessions for jail officers.

Six-month notices were sent to three county jails. The Attorney General was requested to file petitions in the appropriate court to require one county jail and one municipal jail to comply with the Standards established by the Department or for other appropriate relief.
