### About the National Institute of Justice

The National Institute of Justice is a research branch of the U.S. Department of Justice. The Institute's mission is to develop knowledge about crime, its causes and control. Priority is given to policy-relevant research that can yield approaches and information that State and local agencies can use in preventing and reducing crime. The decisions made by criminal justice practitioners and policymakers affect millions of citizens, and crime affects almost all our public institutions and the private sector as well. Targeting resources, assuring their effective allocation, and developing new means of cooperation between the public and private sector are some of the emerging issues in law enforcement and criminal justice that research can help illuminate.

Carrying out the mandate assigned by Congress in the Justice Assistance Act of 1984, the National Institute of Justice:

- Sponsors research and development to improve and strengthen the criminal justice system and related civil justice aspects, with a balanced program of basic and applied research.
- Evaluates the effectiveness of justice improvement programs and identifies programs that promise to be successful if continued or repeated.
- Tests and demonstrates new and improved approaches to strengthen the justice system, and recommends actions that can be taken by Federal, State, and local governments and private organizations and individuals to achieve this goal.
- Disseminates information from research, demonstrations, evaluations, and special programs to Federal, State, and local governments, and serves as an international clearinghouse of justice information.
- Trains criminal justice practitioners in research and evaluation findings, and assists practitioners and researchers through fellowships and special seminars.

Authority for administering the Institute and awarding grants, contracts, and cooperative agreements is vested in the NIJ Director. In establishing its research agenda, the Institute is guided by the priorities of the Attorney General and the needs of the criminal justice field. The Institute actively solicits the views of police, courts, and corrections practitioners as well as the private sector to identify the most critical problems and to plan research that can help resolve them. Current priorities are:

- Alleviating jail and prison crowding
- Assisting victims of crime
- Enhancing involvement of community resources and the private sector in controlling crime
- Reducing violent crime and apprehending the career criminal
- Reducing delay and improving the effectiveness of the adjudication process
- Providing better and more cost-effective methods for managing the criminal justice system
- Assessing the impact of probation and parole on subsequent criminal behavior
- Enhancing Federal, State, and local cooperation in crime control

## Introduction

The National Criminal Justice Thesaurus contains listings of descriptors or terms used to index literature in the National Institute of Justice/NCJRS document data base and to retrieve information about the literature for users of the service. Term selection is based on the vocabulary used in documents entering the National Criminal Justice Reference Service system, on the frequency of term usage in the literature, and on the language of the user community. The 5-digit number assigned to each term is used as a descriptor code in searching on that term.

### SUBSTANTIVE DESCRIPTORS AND RELATED ENTRIES

The order in which notations appear under a descriptor, when appropriate, is as follows:

SN SCOPE NOTE  
UF USED FOR  
BT BROADER TERM  
NT NARROWER TERM  
RT RELATED TERM

A SCOPE NOTE (SN) explains the specific use of a term in the NCJRS system. A typical SCOPE NOTE is included in the terms under "Miranda rights" in the example under Related Term, below. It may be a true definition, may place a positive or negative limitation on usage, or may combine definition and positive limitations.

Two types of terms are listed: descriptors and synonyms or near synonyms. Descriptors are authoritative terms that are acceptable for indexing and searching. A USE entry follows synonyms or near synonyms of descriptors. This entry directs the user to the preferred valid descriptor for communicating with the system. Synonym entries appear solely to provide as many points of entry to the Thesaurus as possible. The importance of the USE entry extends beyond synonymy. The entry can represent the relationship to a descriptor of a near synonym with general conceptual similarity. A USE entry provides a valid descriptor term synonymous with or approximating the concept of the term referenced. For example:

Remote terminals  
01027 USE Terminals (computer)

The USED FOR (UF) entry is the reverse of the USE entry. The entry shows the user that the descriptor includes the concept represented by the UF entry. For example:

01027 Terminals (computer)  
UF Remote terminals

A NARROWER TERM (NT) entry denotes a hierarchical relationship between the main descriptor and a descriptor that belongs in the same class but is on a lower level; that is, the narrower term is more specific. For example:

01777 Hallucinogens  
 00616 NT LSD (acid)  
 05131 NT PCP (phencyclidine hydrochloride)  
 01450 NT Peyote

A BROADER TERM (BT) entry is also a hierarchical notation and is the reciprocal of the NT notations. A BT entry indicates that the descriptor is in the same class but that it is on a higher level in the hierarchy. For example:

01450 Peyote  
 04632 BT Controlled drugs  
 01777 BT Hallucinogens

The RELATED TERM (RT) entries perform two functions, only one of which is concerned with the scope of the main entry. A term listed as RT may clarify scope, that is, provide further definition of the main descriptor entry. The alternate function is to alert the user to other terms and thus provide additional points of reference. For example, to illustrate the two-sided RT relationship:

04183 Arrest and apprehension  
 04985 RT Arrest warrants  
 02462 RT Citizens arrests  
 05069 RT Crimes in progress  
 04816 RT Lawful use of force  
 00624 RT Manhunt  
 05208 RT Miranda rights  
 05136 RT Police pursuit driving  
 03215 RT Postarrest procedures  
 08578 RT Probable cause

05208 Miranda rights  
 SN (Predetentior rights of the accused as required by the US Supreme Court ruling)

04183 RT Arrest and apprehension  
 04197 RT Constitutional rights and civil lib/  
 02879 RT Rights of the accused

Every hierarchical and collateral entry has a reciprocal entry elsewhere in the Thesaurus.

ARRAY TERMS are very broad terms (e.g., Equipment/, Facilities/, and Programs/) which are considered to be too general to be of much value in indexing or retrieval. Such terms have been appended with a slash (/); wherever possible, a more specific term should be used in lieu of this term. The following standard SCOPE NOTE is used in conjunction with all array terms: "Use of a more specific term is recommended; consult the terms listed below." The listing of RT references following each array term refers the reader to all terms at the next lower level of specificity (but not to the still lower levels of specificity).

## HOW TO USE THE THESAURUS

### Alphabetization

Terms are alphabetized on a letter-by-letter basis. All spaces, hyphens, and other signs which may appear within the term are ignored, except the left parenthesis "(", which precedes "a." The example below demonstrates this exception.

UF Hypnosis (questioning under)  
 Hypnosis of victim or witness  
 Hypnotism in investigation

### Selecting the Most Specific Descriptor

To avoid retrieving irrelevant documents and to assure full retrieval of target information, you always should select the most specific thesaurus descriptor of the concept you are searching on. Because documents are indexed to the narrowest applicable term within a hierarchy, a search on a broader term only will not retrieve the documents indexed to the narrower terms.

### Search Examples

Suppose you wish to find documents about "juvenile delinquents" in the NCJRS data base. The Thesaurus can help pinpoint the appropriate term or terms for your search. You might begin by checking the rather general term Delinquents, in which case you would find the following entry:

Delinquents (juvenile)  
 USE Juvenile delinquents

This citation indicates that the term Juvenile delinquents is the preferred descriptor for indexing and retrieval. Turning to the preferred term, you find the following list of cross-references.

01637 Juvenile delinquents  
 UF Delinquents (juvenile)  
 03990 BT Juveniles  
 02409 NT Emotionally disturbed delinquents  
 05119 Female juvenile delinquents  
 05425 Male juvenile delinquents  
 05261 RT Alternative schools  
 01308 Auto theft  
 03822 Confrontation tactics  
 05049 Crime in schools  
 05095 Juvenile court waiver  
 03669 Juvenile offenders  
 04103 Juvenile status offenders  
 05245 Parent education  
 05241 School delinquency programs  
 08311 Ungovernable juveniles  
 03001 Youthful offenders

Skipping over the term designated UF (i.e., the nonpreferred synonym of Juvenile delinquents) and the BT (indicating that Juvenile delinquents is part of the more comprehensive hierarchy of Juveniles), you will come to the NT references. Emotionally disturbed delinquents, Female juvenile delinquents, and Male juvenile delinquents are all valid search terms which you may prefer to use if they are more accurate expressions of the concept you are searching for. As mentioned above, a search on the term Juvenile delinquents alone will not retrieve the documents indexed under Emotionally disturbed delinquents or under the two other NT's. If any of the narrow terms are relevant to your search, they should definitely be included in your search strategy. You should also note the RT references, which provide new directions for your search by adding related terms.

Focusing Your Search

If the first term you locate is followed by a slash, it is an ARRAY TERM. Though ARRAY TERMS can be used for searching, they are often too broad to be useful for indexing or retrieval. The following entry is typical of ARRAY TERMS:

- 01391 Property crimes/  
(Use of a more specific term is recommended; consult the terms listed below)
- UF Crimes against property
- 04914 RT Antitrust offenses
- 02497 Arson
- 00110 Burglary
- 02443 Counterfeiting
- 04384 Crime costs
- 04941 Crimes against businesses
- 01405 Dealing in stolen goods
- 01726 Extortion
- 03629 Forgery
- 01768 Fraud
- 03627 Hijacking
- 00469 Hit and run
- 04651 Industrial espionage
- 03850 Loan sharking
- 04600 Offenses/
- 02586 Piracy
- 05362 Property crime statistics
- 04255 Property identification
- 03640 Theft offenses
- 04757 Vandalism
- 01355 White collar crimes

Scan the RT terms listed under the array term and select those related to your interest as new points from which to search. Do not make a final choice until you have determined whether there are still narrower terms that would be better choices. In this particular example, if you selected the RT Crime costs as a new starting point, you would find that Crime costs has two NT's, Business crime costs and Stolen vehicle costs, either of which may be a more specific expression of the concept you are trying to locate.

Searching on Cross-Cultural Terms

To facilitate access to the numerous international documents in the data base, the Thesaurus contains a number of cross-cultural terms. These include expressions peculiar to a foreign country which have no direct equivalent in the U.S. system or for which such an equivalent cannot be readily identified. For the most part, these idioms are entered as nonpreferred synonyms of their nearest American equivalent. For instance, the French concept "Sursis avec mise a l'epreuve" would have the following reference to the preferred American term:

Sursis avec mise a l'epreuve  
USE Probation

In addition, numerous international organizations are included in the organizational file of the Thesaurus.

Combining Several Descriptors

To attain an even greater level of specificity, the technique of combining or "coordinating" more than one descriptor in a search is useful. Though the Thesaurus contains no specific term to express the concept "police attitudes toward abuse of authority," the combination of the existing descriptors Abuse of authority and Police attitudes will yield only those documents which hold relevant information on both descriptors. In coordinating, descriptors from all three files of the Thesaurus (substantive, geographic, and organizational) may be combined. For instance, the geographic code or descriptor for France may be combined with Preventive detention to obtain information on preventive detention in France.

STATISTICS

This edition of the National Criminal Justice Thesaurus exhibits the following statistics:
